a Transfer books not closed. *d* On account of accumulated dividends and being remainder of such dividend unpaid.

Statement of New York City Clearing-House Banks.—The following statement shows the condition of the New York City Clearing-House banks for the week ending June 8. It should be distinctly understood that as to all items except capital and surplus the figures are the averages of the daily results, not the totals at the end of the week. In other words, in reporting loans and deposits and holdings of specie and legal tenders, the practice is to take the aggregate of the amounts for the several days of the week and divide this aggregate by the number of days.

We omit two ciphers (00) in all cases.

Banks 00s omitted.	Capital.	Surplus.	Loans.	Specie.	Legals.	Deposits. a	Reserve

a Including for Boston and Philadelphia the item "due to other banks" and also Government deposits. For Boston these Government deposits amounted on June 8 to $4,580,000; on June 1 to $4,573,000.

Imports and Exports for the Week.—The following are the imports at New York for the week ending June 8, also totals since the beginning of the first week in January:

FOREIGN IMPORTS AT NEW YORK.

For week.	1907.	1906.	1905.	1904.
Dry Goods	$2,872,801	$2,608,625	$2,050,326	$1,795,494
General Merchandise	11,497,122	13,242,292	8,008,673	9,436,212
Total	$14,369,923	$15,850,917	$10,058,999	$11,231,706
Since January 1.				
Dry Goods	$85,976,800	$73,790,959	$63,506,296	$53,786,320
General Merchandise	314,168,283	265,843,681	260,324,026	219,184,267
Total 23 weeks	$400,145,083	$339,634,640	$323,830,322	$272,970,587

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending June 8 and from Jan. 1 to date.

EXPORTS FROM NEW YORK FOR THE WEEK.

	1907.	1906.	1905.	1904.
For the week	$10,933,296	$11,999,728	$10,158,657	$8,761,345
Previously reported	265,238,912	271,271,381	232,467,019	208,759,154
Total 23 weeks	$276,172,208	$283,271,109	$242,625,676	$217,520,499

The following table shows the exports and imports of specie at the port of New York for the week ending June 8 and since Jan. 1 1907, and for the corresponding periods in 1906 and 1905:

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

Gold	Exports.		Imports.	
	Week.	Since Jan. 1	Week.	Since Jan. 1
Great Britain	$4,052,046	$4,845,085	------	$2,540,353
France	1,513,372	3,536,771	------	331,087

Wall Street, Friday Night, June 14 1907.

The Money Market and Financial Situation.—Influences which have had an increasing tendency of late to depress the markets or restrict operations in Wall Street are still dominant, and to these are now added two or three more or less important failures and a somewhat firmer money market. As a consequence business has continued small in volume and mostly of a routine or conventional character, and prices are generally lower. Thursday's stock market was the dullest in many months, and throughout the week transactions at the Exchange have been far below the average for the season.

Official and other opposition to the so-called "trusts" has found expression in the institution of legal proceedings against the anthracite coal companies. Gold to the amount of $2,000,000 has been engaged to-day for export, bringing the total to date up to $12,100,000. The weekly report of the Bank of France shows the result of this gold movement. The Bank of England's report is not essentially different from that of last week.

The Government crop report for May was somewhat more favorable than had been expected, and crop news from other sources are encouraging. On these reports wheat has declined rather sharply, but the effect, if any, in the security markets is hardly perceptible.

As noted above, the money market shows a hardening tendency, call loan rates having reached 3½% to-day. This is doubtless owing to gold exports, to the approaching half-yearly settlements, and to the expected withdrawal of Government deposits from the banks. The latter, however, will be largely offset by the redemption of maturing Government 4s if presented.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 1¾ to 3½%. To-day's rates on call were 2¼@3½%. Prime commercial paper quoted at 5@6% for endorsements and 5½@6% for best single names.

The Bank of England weekly statement on Thursday showed an increase in bullion of £229,364, and the percentage of reserve to liabilities was 46.96, against 46.90 last week.

The discount rate remains at 4% as fixed April 25. The Bank of France shows an increase of 38,350,000 francs in gold and 200,000 francs in silver.

NEW YORK CITY CLEARING-HOUSE BANKS.

	1907 *June 8.*	*Differences from previous week.*	1906. *June 9.*	1905. *June 10.*
	$	$	$	$
Capital	129,100,000	----------	117,472,700	115,972,700
Surplus	160,994,100	----------	149,236,400	138,953,600
Loans and discounts	1,141,445,400	Inc. 1,514,300	1,059,162,600	1,089,520,900
Circulation	50,565,900	Dec. 63,000	48,931,400	46,575,100

Specie	213,574,200	Dec. 8,353,800	187,129,600	205,492,700
Legal tenders	72,191,700	Dec. 711,400	81,816,300	85,293,000
Reserve held	285,765,900	Dec. 9,065,200	268,945,900	290,785,700
25% of deposits	279,785,375	Dec. 2,263,275	261,783,850	280,958,200
Surplus reserve	5,980,525	Dec. 6,801,925	7,162,050	9,827,500

a $31,661,700 United States deposits included, against $31,613,200 last week and $16,672,700 the corresponding week of 1906. With these United States deposits eliminated, the surplus reserve would be $13,895,950 on June 8 and $20,685,750 on June 1.

Note.—Returns of separate banks appear on the preceding page.

Foreign Exchange.—The market was quiet though generally firm this week and one feature was the absence of gold engagements for shipment until Friday, when arrangements were made for the export of $2,000,000 to Paris on Saturday. To-day's (Friday's) nominal rates for sterling exchange were 4 84½ for sixty day and 4 87½@4 88 for sight. To-day's (Friday's) actual rates for sterling exchange were 4 8370@4 8380 for long, 4 8710@4 8715 for short and 4 8755@4 8765 for cables. Commercial on banks 4 8345@4 8355 and documents for payment 4 82¾@4 8410. Cotton for payment 4 82¾@4 83; cotton for acceptance 4 8345@4 8355 and grain for payment 4 84@4 8410.

To-day's (Friday's) actual rates for Paris bankers' francs were 5 19⅜@5 18¾*a* for long and 5 16¼@5 15⅝*h* for short. Germany bankers' marks were 94 9-16@94⅝ for long and 95¼*d*@95¼ for short. Amsterdam bankers' guilders were 40 33@40 35 for short.

Exchange at Paris on London to-day 25 f. 14c.; week's range 25f. 14½c. high and 25f. 14c. low.

The week's range for exchange rates follows:

	Long		Short		Cables	
Sterling, Actual—						
High	4 8370	@4 8380	4 8710	@4 8715	4 8755	@4 8765
Low	4 8360	@4 8365	4 8695	@4 87	4 8740	@4 8745
Paris Bankers' Francs—						
High	5 19¾	@5 18¾*a*	5 16¼	@5 15⅝*h*		
Low	5 19¾*a*	@5 18¾*a*	5 16¼*d*	@5 16¼		
Germany Bankers' Marks—						
High	94 9-16	@ 94 11-16	95¼	@ 95 5-16		
Low	94 9-16	@ 94¾	95 3-16	@ 95¼		
Amsterdam Bankers' Guilders—						
High			40 33	@ 40 35		
Low			40¼	@ 40 5-16		

Less: *a* 1-16 of 1%. *d* 1-32 of 1%. *h* 3-32 of 1%.
Plus: *k* 1-16 of 1%. *x* 1-32 of 1%. *y* 3-32 of 1%.

The following were the rates for domestic exchange on New York at the undermentioned cities to-day: Savannah buying 50c. per $1,000 discount; selling 75c. per $1,000 premium. Charleston selling $1 per $1,000 premium. New Orleans bank 10c. per $1,000 premium; commercial 20c. per $1,000 discount. Chicago, par. St. Louis 20c. per $1,000 premium. San Francisco, par.

State and Railroad Bonds.—Sales of State Bonds at the Board are limited to $152,000 Virginia 6s deferred trust receipts at 26½ to 28.

No change worthy of note has taken place in the character or tone of the market for railway bonds. There has been a little more activity in the Japanese issues, but otherwise the market has continued to be exceptionally dull and featureless. The tendency of prices, where changes have occurred, has been towards a lower level.

United States Bonds.—Sales of Government bonds at the Board include $12,500 2s coup., 1930, at 105½; $8,000 4s coup., 1907, at 100⅞, and $500 4s reg., 1925, at 129¼. The following are the daily closing quotations; *for yearly range see third page following.*

* This is the price bid at the morning board; no *sale* was made.

Railroad and Miscellaneous Stocks.—In the stock market business continues dull and the tendency of prices has been steadily downward. Fluctuations have been much narrower than usual until to-day, however. In some cases net changes are limited to fractions, but there have been few exceptions to the general tendency mentioned. Of a list of 28 active issues, 26 are lower and only 2 higher than last week.

Reading and Union Pacific, besides having been the most active issues, are exceptional in having covered a range of over 8 points and 7 points respectively; both close within a fraction of the lowest. Interborough-Metropolitan has continued weak, closing over 2 points down. New York Central, North Western and Erie have been relatively strong features.

The copper stocks have lost a part of their recent advance, Amalgamated and "Smelters" showing a decline of about 5 points. Air Brake declined 6 points and recovered fractionally. Steel common is down a point and the preferred somewhat less.

For daily volume of business see page 1419.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

STOCKS. *Week ending June 14.*	*Sales for Week.*	*Range for week.* Lowest.		Highest.		*Range since Jan. 1.* Lowest.		Highest.

Outside Market.—The market for unlisted securities suffered a reaction from the improvement noted last week, all departments being affected by the weakness on the Stock Exchange. Business has been dull and the tone of the market heavy. Nevada gold mining stocks attracted considerable attention. Chicago Subway was a salient feature in the dealings among the specialties, various rumors being afloat concerning the company. The stock, after moving up from 20 to 21½, jumped to 25¼ and to-day to 25½. It broke to 23 but rallied and closed at 24⅝. Manhattan Transit was also conspicuous for an advance from 5⅞ to 7, but dropped back finally to 5¾. Havana Tobacco common advanced from 11⅞ to 13½ and the preferred from 18 to 19, and back to 17. N. Y. & Cuba Mail S.S. rose from 24⅞ to 28, but sank to 26. Standard Oil from 519½ fell to 517¼ then moved up to 520. It subsequently reacted to 511. Waterbury Company preferred declined from 40 to 39¼, advanced to 40½, and sold down to-day to 40. Western Ice moved up from 33¾ to 35 and closed to-day at 34½. Trading in copper shares was light. Boston Consolidated Copper from 25¾ sank to 23¾. Butte Coalition advanced a point to 25⅛ but subsequently receded to 23¾. Davis-Daly Estates moved up fractionally to 13, dropped to 11 and recovered to 12. Douglas Copper fell half a point to 9½ in the early dealings, but then sold up to 10¾, easing off to 10⅜. Greene Cananea advanced from 15⅛ to 16⅞, sank back to 15⅛ and ends the week at 15½. United Copper common, after advancing from 68¾ to 69 ran down to 64. Nipissing declined from 12¼ to 11⅝, closing to-day at 11½. Micmac was conspicuous for its activity and strength, advancing from 3¾ to 5½.

Outside quotations will be found on page 1419.

Investment and Railroad Intelligence.

RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from **July 1** to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. *The returns of the street railways are brought together separately on a subsequent page.*

ROADS.	Latest Gross Earnings.			July 1 to Latest Date	
	Week or Month.	Current Year.	Previous Year.	Current Year.	Previous Year.

Net Earnings Monthly to Latest Dates.—The table following shows the gross and net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the issue of May 25 1907. The next will appear in the issue of June 22.

Huntingdon & Broad Top Mountain Railroad & Coal Co.

(Report for Fiscal Year ending Dec. 31 1906.)

President Samuel Bancroft Jr. says in substance:

General Results.—The year shows a small earning on the common stock, but no dividend was declared thereon, as it was deemed wise to make contemplated improvements, which, when completed, should show brighter prospects for a continued dividend on this stock than have ever existed in the history of the company.

The coal shipments aggregated 1,938,257 tons, an increase of 134,520 tons over the previous year. Of the total shipments, 833,817 tons originated in the Broad Top region, an increase of 60,296 tons, and 1,104,439 tons in the Cumberland region, an increase of 74,223 tons. This shows a steady increase in the shipments from our own region in the last three years.

Equipment—New Car Trusts.—In April an order was placed for 500 steel hopper-bottom coal cars of 100,000 lbs. capacity. A car trust for this equipment was placed with Drexel & Co. and the Philadelphia Trust, Safe Deposit & Insurance Co. on a 15-year basis a at 4½ % rate, for $500,000.

In September last we purchased 100 100,000-lbs.-capacity steel hopper-bottom coal cars from the Henrietta Coal Co., paying for them out of the receipts of the sale of old cars, no car trust being necessary. When the remaining cars included in the aforesaid car trust are received, our coal car supply will be in condition to take care of all our traffic. We still have more than 100 old wooden cars for sale.

On Oct. 1 1906 the last payment of $68,000 on our consolidated car trust with the Merchants' Trust Co. was made, closing up this trust.

At the beginning of the year we still had 500 cars to equip with air brakes, which have now all been equipped out of earnings.

Improvements.—To fill up a trestle near Saxton it was found necessary to build a concrete arch, which is now completed, and the trestle will be filled up at once. This, with the change of line at Hummel Station, which is about 4 miles long—a change made to avoid two dangerous and expensive trestles as well as several grades—will remove the last trestle from the main line. The contract for the change of line at Hummel has been let and the contractors expect to complete the work in six months.

Furnaces. The Saxton Furnace, which has been idle since December 1903, was last September sold to Joseph E. Thropp of Everett, Pa., who is making an effort to have it placed in running order as soon as possible. This plant should yield quite a revenue to your company when put in operation. Your company was a stockholder as well as a creditor of the Saxton Furnace Co., whose estate has been closed out through the United States Bankruptcy Court, and a settlement in full was made in December last, and you received about 25 % of your total investment in the property

The Colonial Iron Co.'s furnace at Riddlesburg and Mr. Thropp's furnace at Everett, were in full blast during the year with the exception of two months lost by the latter while making repairs. As your company was a stockholder in the Colonial Iron Co. to the extent of 250 shares, it was considered wise to accept an offer for the sale of this stock to H. H. Adams Jr. at $120 per share, thus closing out as a stockholder in manufacturing plants along the line.

Water Contract.—An agreement was entered into with the Saxton Water Co. by which they are to furnish us with all the water used in and about Saxton, and your company will build a new reservoir and lease it with pipes, &c., to the Saxton Water Co.

Wages.—An advance of 5 % in wages was made to all employees, effective Dec. 1 1906.

Maintenance.—The property has been maintained in excellent condition. 1,051½ tons of new 85-lb. steel rails were laid, and 21,467 cross-ties were put in the track during the year.

See also the balance sheet of the Consolidated Railway Co. (merged with the N. Y. N. H. & H. RR. on May 31 1907) below.

The following balance sheets of April 30 1907, furnished to the New York Stock Exchange, show the condition of the parent company and its trolley subsidiary, the Consolidated Railway Co., shortly before their merger, which took place on June 1. The Consolidated Railway Co. recently purchased the property of the New England Navigation Co., the steamship company whose stock was all owned by the N. Y. N. H. & H. RR., and for that purpose increased its share capital from $10,000,000 to $30,000,000. This last amount was all held by the N. Y. N. H. & H. RR. and on June 1, when it was exchanged dollar for dollar for the shares of the parent company, the shares issued therefor became a treasury holding of the N. Y. N. H. & H. RR., and so available for the acquisition of the stock of the Boston & Maine under the pending plan (V. 84, p. 1367) or for other purposes.

Comparison of the latest statements furnished to the New York Stock Exchange with the official reports as of June 30 1906 show that since that date the end of the last fiscal year, the following additional securities (bonds and debentures) have been issued and are now outstanding.

New York New Haven & Hartford—Bonds and Debentures Issued since June 30 1906.

	Dated.	Due.	Issued.	Chronicle.
4% 15-year European loan	Apr. 1 1907	Apr. 1 1922	$27,985,000	V. 84, p. 931
5% 2-year deben.	1906	To Dec. '08	8,320,000	V. 83, p. 1591
5% 2-year deben.	Jan. 9 1907	Jan. 9 1909	1,500,000	
5% 3-year deben.	Jan. 9 1907	Jan. 9 1910	3,550,000	V. 84, p. 52,
5% 4-year deben.	Jan. 9 1907	Jan. 9 1911	5,000,000	103.
5% 5-year deben.	Jan. 9 1907	Jan. 9 1912	8,800,000	
Consolidated Railway.				
5% conv. debens.	Mch. 1 1907	Mch. 1 1917	$5,000,000	V. 84, p. 1114
New Mill. Par. 1st M.	Feb. 24 '02	Aug. 1 1932	1,000,000	V. 78, p. 823

Note.—The last named property was acquired in Dec. 1906 (V. 83, p. 1527). The remainder (about $1,200,000) of the increase in the bonded debt of the Consolidated Railway Co. since June 30 1906 is accounted for by the outstanding bonds of the following trolley roads recently acquired and shown in our "Street Railway" section of Feb. 1907 on page 63, viz.: West Shore Ry., New York & Stamford, Torrington & Winchester, Bennington & Hoosick Valley, Meriden Southington & Compounce Tramway, Providence & Burrill Street Ry. and Woonsocket Street Ry.

Statement of Operations July 1 1906 to April 30 1907.

	N.Y.N.H. & H. RR. Co.	Cons.Ry. System.

a Includes $6,369,243 note of New England Investment & Security Co. given in payment for securities of certain street railways in Massachusetts, and also includes notes for advances made to controlled companies.

As to outstanding debentures and the exchange of the same for stock of the New York New Haven & Hartford RR., see V. 84, p. 1113, 1111.—V. 84, p. 1242.

Philadelphia Electric Company.

(Report for Fiscal Year ending Dec. 31 1906.)

President Jos. B. McCall, under date of April 10, says:

Reduction in Rates—Increased Business—On Feb. 1 1905 we reduced our 15-cent overhead, alternating current districts to a unit basis of 10 cents per kilowatt hour; applied the existing scale of discounts to the new base rate, adopted special discounts for residences and a further discount of 10% in all districts for consumers using their full installation of light or power on an average of two hours per day. As is generally known, the price for city lighting was also reduced for the year 1906. The total reductions to the consumers and the city, based upon the average revenue for the year, amounted in the aggregate to $569,595. Notwithstanding this, the revenue from the sale of current increased $279,371 or about 7% greater than for the year 1905, the balance of increase in gross earnings being from merchandise sales and other sources.

The total numbers of lamps connected at the end of the year, Dec. 31 1906, is equivalent to 1,273,862 16 c. p. lamps, an increase over last year of 201,719 or 18.8%; and the increase in the number of consumers is 2,889.

The percentage of increase in connected load for 1906 over 1905 is much greater than in any of the preceding years.

The power load, which has become the most important part of our business, involving, as it does, a greater use of our investment, increased during the year 7,700 h. p.; and the receipts from this department were 30% greater than in the year 1905.

Construction.—During the year we have expended upon our construction account, $1,371,787. We have added:

Overhead pole lines	25.4 miles	Generators	2985.6 K.W.
Overhead wire	306.0 "	Boilers	602 H. P.
Underground duct	10.4 "	Engines	3382 H. P.
Underground cables	106.6 "	Additional buildings, Chester, Pa.	

General office building, 10th and Chestnut sts., Philadelphia.

Real estate, 3945 Market St. and Noble and Marshall streets, Philadelphia.

Our new office building at Tenth and Chestnut streets, Philadelphia, is nearing completion, and a portion of it is now occupied by the Treasurer's Department. We expect to enter into full occupancy of the building by May 1 1907; and expect it will be ready for inspection by the first of June.

We have contracted for two 5,000 K. W. turbo generators, boilers, piping &c., to be delivered and erected at the Christian Street Station by Oct. 1; which will increase the capacity of this station to 30,000 K. W.

We have also arranged for the construction of sub stations, with transforming capacity, as follows:

1113 Arch St ---------- 3,000 K. W.	Marshall and Noble sts - 3,000 K. W.
3945 Market St ---------- 3,000 K. W.	Kensington and Erie avs 2,000 K. W.

We also extend our underground system, not only to connect these stations, but to add to that already constructed in the heart of the city.

Connected Load 16 c. p. on Dec. 31.

Montreal Light, Heat & Power Company.

(Report for Fiscal Year ending April 30 1907.)

The report of President H. S. Holt, presented at the annual meeting on Jan. 5, says in substance:

General Results.—The earnings for the year show an increase over the previous year of $267,388 gross, and $162,096 net, which is considered satisfactory in view of the continued increase in cost of material and labor. There have been declared four quarterly dividends of 1¼% each, amounting to $850,000, leaving a balance of $590,582, which, added to the surplus of $901,158 brought forward from last year, brings the surplus to $1,491,740 out of which appropriations have been made to the amount of $386,892 as follows:

Depreciation, renewals, etc.	$255,000	Contingent account	$50,000
Insurance fund	56,892	Suspense account	25,000

The object of the suspense account (now aggregating $76,338) is to provide for damage suits, adverse litigation, etc.

Bonds.—There were issued during the year $447,000 4½% bonds to repay the company 75% of the expenditure made during the year for extensions in the gas and electric departments. Owing to the depressed condition of the bond market throughout the year, the sale of these bonds has been withheld and they are at present in the treasury.

Additions, Etc.—During the year the company has completed a dam on the Richelieu River at Ste. Therese for storage purposes and also at the same time to drown the rapids at that point with a view to obviating the trouble at the Chambly plant from frazil ice. During the past winter the dam has fully demonstrated its value.

The company has added to Queen Street Station a 2,000 H. P. turbine unit, and now has available at this and its other steam stations a total capacity of 8,000 H. P. Your directors advise that additions be made to your steam plants for reserve purposes from time to time proportionate to the increase in the amount of hydraulic power developed, to provide against interruptions and insure its customers a continuous service.

The contractors for the Soulanges development (see V. 83, p. 216; V. 82, p. 1436) have not made the progress anticipated, but the work is being rushed, and it is fully expected that the development will be completed and the power therefrom available for the period of the maximum demand during the forthcoming winter.

Your directors contemplate extensive additions in the carbonizing and storage plants of the gas manufacturing department to provide for the increased demand being made for gas. It will take two years to complete these additions.

Our new office building is nearly completed and will shortly be occupied. The increase in the business continues to be most satisfactory, the following additions having been made during the year:

Electric Department—		*Gas Department*—	
Incandescent lamps connect	41,655	Meters installed	5,747
Commercial arc lamps "	266	Stover, gen'tors, &c. sold	2,501
Street lamps "	33	New services (12.7 miles)	1,958
Power (H. P.) "	4,884	New mains laid (miles)	11.14

Commerce and industry, generally, in Montreal continues prosperous, and the prospects for additional business in the future are most favorable.

Columbus & Hocking Coal & Iron Company.

(*Twenty-fourth Annual Report ending March* 31 1907

President N. L. C. Kachelmacher says in substance:

Turning Point.—The fiscal year just ended will be referred to in future as the turning point in the company's affairs, and the company's operations will not, as in the past, be limited to coal alone, but divided between coal and clay.

Coal.—We have met many difficulties. First the prolonged strike, which stopped the company's earning power for about three months; then severe floods; but although our mines were out of operation for about four months, our tonnage totaled up to nearly as much during the twelve months of the previous year, and the net results show improvement over 1905-06. This is due to the improved physical condition and the better equipment of the property. While the company's physical condition was formerly about the poorest to be found in the Hocking Valley, there is now none in this section in better shape to get coal out as profitable. The earnings of the past year by no means represent the actual net progress of the year.

The operations in our great Kinkaid field have progressed favorably, and we have decided to make another opening which will materially increase our Kinkaid output. The operations at our second largest field (Doanville) have also proven satisfactory, and this territory is constantly improving in both output and in the quality of its coal. The company owns there a coalfield of much greater extent than has been estimated. Our secondary operation at Doanville is also showing up well, and we expect to enlarge this operation. Until recently we encountered considerable quantities of sulphur in our operations in this mine, but we have now gotten through the sulphur pockets, and have a large field ahead of us in that territory. Our smaller operations are working successfully, and we have added another mine to our active list during the past year, upon which work had been discontinued, though excellent coal still remains unmined.

In spite of the fact that our coal operations are in splendid shape, there is a great deal of important work still ahead of us in this department. We have a number of unexplored fields to investigate and many improvements to make everywhere; but these are questions ar expenditure and time.

Clay.—Our new great enterprise, the face brick plant, is approaching completion and we expect to start operations shortly. This new department will produce a revenue beyond any that has as yet been secured from any of the company's operations since its organization about 25 years ago.

GENERAL INVESTMENT NEWS.

RAILROADS, INCLUDING STREET ROADS.

Alabama Terminal RR., Birmingham, Ala.—$2,500,000 *Bonds Sold.*—See Atlanta Birmingham & Atlantic Ry. below.

Anthracite Coal Roads.—*Government Brings Suit.*—The suit of the United States Government against the anthracite coal-carrying railroads charged with carrying on a monopoly in the production, transportation and sale of hard coal, was filed on June 12 in the United States Circuit Court in Philadelphia. The suit is the result of the investigation started by the Department of Justice about a year ago. (Compare V. 82, p. 927.) The following statement was made public at the Department of Justice on June 11:

The petition to be filed to-morrow by the Government in the United States Circuit Court at Philadelphia is aimed at the anthracite coal monopoly. The Reading Company (a holding corporation), the Philadelphia & Reading Ry. Co., the Lehigh Valley RR. Co., the Delaware Lackawanna & Western RR. Co., the Central RR. of New Jersey, the Erie RR. Co. and the New York Susquehanna & Western RR. Co., comprising all the roads that tap the anthracite regions save the Pennsylvania, the New York Ontario & Western and the Delaware & Hudson (which last does not extend to tidewater), are made defendants, together with their subsidiary coal-mining companies. As yet no evidence of sufficient probative force to connect the three last-named railroads with the alleged unlawful combination and monopoly has been found. Should such evidence be forthcoming in the progress of the trial they may and of course will be joined with the other defendants.

In brief, the petition recites that the defendant railroads control all the means of transportation between the anthracite mines and tidewater except the lines of the Pennsylvania RR. and the New York Ontario & Western Ry., which reach only a limited number of collieries; that they transport annually about 78% of the total anthracite tonnage; that in their own name or through coal companies whose capital stock they own they control about 90% of all the anthracite deposits and produce about 75% of the annual supply; that independent operators, although owning probably little more than 5% of the anthracite deposits, yet produce about 20% of the annual supply, which would be sold in competition with the output of the defendants were it not for the restraints imposed by the latter.

The petition then charges that the defendants have conspired to silence competition among themselves in the transportation and sale of coal and to prevent the sale of the independent output in competition with their own, thereby establishing a monopoly, and in support of this general allegation it specifies:

First—That the defendant railroads agreed among themselves upon a uniform contract to be entered into by them or by their coal companies with the independent operators along their respective lines under which the railroads would be able to control the sale of the independent output, and that by virtue of their control of all the means of transportation from the anthracite mines to tidewater, save the lines of the Pennsylvania RR. Co. and the New York Ontario & Western Ry. Co., the defendant railroads were able to force and did force the independent operators along their lines into making these contracts.

(b) That the Erie RR. Co. has exchanged shares of its own capital stock for a majority of the shares of the New York Susquehanna & Western RR. Co., a competing line, thereby uniting under a common source of control the two competing railroad companies and their subsidiary coal companies.

(c) That the Reading Company, which already held all the shares of the Philadelphia & Reading Ry. Co., has exchanged its own shares and bonds for a majority of the shares of the Central RR. Co. of New Jersey, a competing line, thereby uniting under a common source of control the two competing railroads and their subsidiary coal companies, which together transport about 33% of the annual anthracite tonnage and control about 60% of the anthracite deposits.

(d) That twice in recent years the defendants have defeated the construction of projected independent railroads from the mines to tidewater which would not only have introduced competition into the transportation of anthracite coal, but would have permitted the output of the independent operators to be sold in the markets in competition with that of the defendants.

The petition prays generally that the defendants be enjoined from further carrying out their combination and specifically that the above-described contracts be canceled, and that the mergers between the Erie RR. Co. and the New York Susquehanna & Western RR. Co. and their coal companies and between the Philadelphia & Reading Ry. Co. and the Central RR. Co. of New Jersey and their coal companies be dissolved.—V. 84, p. 929.

Atlanta Birmingham & Atlantic RR.—*New Stock.*—The shareholders voted on June 5 to increase the capital stock from $24,351,400 to $35,000,000, of which $10,000,000 will be preferred stock and $25,000,000 common stock. The "Atlanta Constitution" of June 9 says: "Of the new stock, it is understood $2,000,000 will be issued at once and will be negotiated, along with bonds, for the purpose of completing the road."

Bonds Offered—Official Statement.—H. W. Poor & Co., New York and Boston, having purchased $5,000,000 first mortgage 5% gold bonds, of which a large portion has been sold, are offering the remainder at 96½ and interest, yielding 5¼%. These bonds are dated Jan. 1 1906 and are due Jan. 1 1936, but redeemable at 106 and interest upon any coupon date. (Compare V. 84, p. 270; V. 83, p. 35.)

Capitalization May 15 1907.

Stock: Common, authorized $25,000,000; issued		$16,170,700
Preferred (5% non-cum.) authorized $10,000,000; issued		8,180,700
Bonds: First mortgage 5% Atlanta Birmingham & Atlantic RR. Co., authorized $30,000,000; issued		7,173,000
First mortgage 5% Atlantic & Birmingham Ry. Co		4,090,000

Abstract of Letter from President H. M. Atkinson, dated Atlanta, Ga., May 15 1907.

The main lines of the railroad company are as follows:

Brunswick to La Grange, Ga.	286.8 m.	Fitzgerald to Thomasville, Ga.	80.5 m.
Waycross to Sessoms, Ga.	26 m.	Talladega to Ashland (Ala. div.)	32 m.

Present total main line	425.3 miles
Main line under construction	223.5 miles
Total main line upon completion	648.8 miles

The lines of the company are being extended from La Grange, Ga., northwesterly to Birmingham, Ala., 168½ miles, and from a connection with this line to Atlanta, Ga., about 77 miles additional. The entire section from La Grange to Birmingham is under construction and well advanced. The bridge over the Chattahoochee River was recently completed, and track laying is now proceeding rapidly west of the Chattahoochee River in the direction of Birmingham. We estimate that we will have a connected through line in operation to Talladega, Ala. (75 miles from Birmingham), by Oct. 1 1907, and to Birmingham, Ala., during 1908, under average weather and labor conditions. Work on the Atlanta line is being rapidly pushed, and our engineering department is confident that we will have our rails into Atlanta by Oct. 1907. What we consider the most complete railroad shops in the South have been built for the railroad company at Fitzgerald, Ga., and are now in operation.

The road is being constructed in accordance with the highest standards, with 80-lb. rail. The maximum curvature is six degrees. The grades on the first 200 miles, from Brunswick to Montezuma, are now being reduced to .6 of 1% maximum, and the grade on the balance of the line will be 1% maximum. Passing tracks capable of holding 50-car trains are being put in every four miles.

After five years of continuous work the acquisition of our Atlanta terminals has been completed. This Atlanta terminal property comprises about 200 acres, and is sufficient for all purposes, yards, shops and city freight and passenger stations, and furnishes connections with all roads entering Atlanta. It also comprises a large amount of property which is well suited for the location of industries. This terminal property has recently been conveyed to the Georgia Terminal Co. The entire capital stock of the Georgia Terminal Co., $1,500,000, will be owned by the Atlanta Birmingham & Atlantic RR. Co., and subject to the lien of its first mortgage bonds. Work on the Atlanta terminal is being pushed rapidly and our contract calls for its completion before the main line is completed to a connection with it. ($3,000,000 first mortgage bonds of the Georgia Terminal Co. have recently been sold as below stated.—Ed.)

Complete terminals have been acquired in Birmingham and the Birmingham district. These terminals comprise local freight and passenger terminals in Birmingham, ample property for yards, shops and also a belt railroad covering the district and running completely through the Pratt coal field. The Alabama Terminal RR. Co. has been organized and will hold the title to the Birmingham terminals; the entire capital stock, $1,500,000, will be owned by the Atlanta Birmingham & Atlantic RR. Co. and will be subject to the lien of the Atlanta Birmingham & Atlantic first mortgage bonds. ($2,500,000 first mortgage bonds of the Alabama Terminal Railroad Co. have recently been sold. See below.—Ed.)

Brunswick, the Atlantic Ocean terminal, has a fine harbor. The Atlanta Birmingham & Atlantic RR. Co. is in strong position for handling business through its ownership of a belt railroad and terminal property, ample for yards, deep water terminals and city freight and passenger stations. The water terminal has over half a mile of deep-water frontage and comprises about 100 acres of land. The construction of two large piers 700 feet long and 400 feet long respectively also four large warehouses on this property, is completed.

Interests friendly to the railroad company organized the Brunswick Steamship Co. early in 1906. Four freight steamers of 5,000 tons displacement, the Satilla, Ogeechee, Ossabaw and Ocmulgee, were completed during the past six months and are now in regular service. So much business was offered that we have recently placed a contract for a fifth steamer of the same type, to be called the Altamaha, to be in service during the current year. Work on our passenger steamer, the Brunswick, was completed in December, and she has been in regular service from New York to Brunswick and Havana since Jan. 5 1907. This enables the making of continuous water and rail rates from the East to the Southeast, and through connections to the West, and vice versa; also rates to and from Havana, through New York and Brunswick. Operations of the Brunswick Steamship Co. are estimated as follows: Gross earnings, $1,040,000; total expenses per annum, including interest and depreciation, $835,880; net earnings, $204,120.

Interests friendly to the railroad company have organized the Birmingham Iron Co. (V. 83, p. 40) and the Birmingham Coal Co. The iron company owns over 30,000 acres of the best coal lands, and several thousand acres of the best ore lands in the Birmingham district, an operating furnace near Birmingham and also extensive coal mines and coke ovens. This company is manufacturing about 4,000 tons of iron per month out of its own raw materials. Improvements are now being made which will increase the capacity to about 7,000 tons of iron per month. The Birmingham Coal Co. owns about 7,000 acres of additional coal lands adjoining the coal lands of the Birmingham Iron Co. Approximately 1,000 tons of coal per day is being mined from these lands. This coal is consumed by the Birmingham Iron Co. Plans have been completed and active work has been started for the construction of new mines on the lands of the company, with a capacity of 3,000 tons of coal per day, the purpose being to render the railroad company itself, the local territory dependent upon it, and the Brunswick Steamship Co., independent so far as their coal supply is concerned. The coal and iron companies are now earning at the rate of $300,000 net per annum. Plans are now being made for consolidating the Birmingham Iron Co. and the Birmingham Coal Co. (See bond sale below.)

The present 425.3 miles of main line in operation are earning a substantial surplus over operating expenses and fixed charges, and are doing this purely as a local road. It is estimated that the system when completed will be approximately 648.8 miles of main line; also that the total bonded debt will be about $31,000 per mile, including terminals, equipment, shops, &c. All terminal properties are covered directly by these bonds, except the terminals at Atlanta and Birmingham, which are owned respectively by the Georgia Terminal Co. and the Alabama Terminal RR. Co., whose entire capital stock ($1,500,000 each) will be subject to the lien of these bonds. (The underlying first mortgage bonds of the two terminal companies have lately been sold as stated in a following paragraph.—Ed.)

When the road has had time to build up its business the earnings per mile should exceed $12,000 gross, showing per annum:

Estimated gross earnings	$7,785,600	Estimated net earnings	$2,335,680
Estimated oper. expenses at 70% (includ. taxes)	5,449,920	Estimated interest	1,005,640
Net earnings per annum	$2,335,680	Balance	$1,330,040

The above estimates have been carefully calculated, and it is believed that the results stated will be exceeded.

Construction Company—Bonds Recently Sold.

The Atlantic & Birmingham Construction Co. has a capital of $8,000,000, and is building the extensions of the Atlanta Birmingham & Atlantic RR. to Birmingham and Atlanta, as described above. Four million dollars of the capital of the construction company has been paid in, and the balance of $4,000,000 is subject to call at any time, 20% having been called June 14 1907. The construction company sold about a year ago $8,000,000 4-year 5% notes (V. 83, p. 35), and has recently sold:

Georgia Terminal Co. bonds (see above)	$3,000,000
Alabama Terminal RR. Co. bonds (see above)	2,500,000
Birmingham Coal & Iron Co. bonds (see above)	2,000,000
Atlanta Birmingham & Atlantic first mortgage bonds	2,000,000

This completes the financing of the enterprise and provides the funds necessary to finish the extensions to Birmingham and Atlanta, will pay for the steamship, a substantial amount of equipment, shops and coal, and iron purchases and improvements; will complete the water terminals at Brunswick, pay for additional freight steamer and many other items.—V. 84, p. 1365.

Birmingham (Ala.) Railway, Light & Power Co.—*New Mortgage.*—The shareholders have authorized a mortgage to secure $25,000,000 bonds, to provide for the retirement of the underlying bonds at or before maturity and for future extensions and improvements, additions, &c.—V. 84, p. 805.

Canadian Northern Ry.—*Additional Motive Power, &c., Required.*—The Board of Railway Commissioners, by order 2,022 issued May 3, direct Chief Traffic Officer of the Board Hardwell to inquire and report what new locomotives and other rolling stock, appliances and equipment the company has ordered for use on its lines, and when the same may be reasonably expected to be ready for use, and what additional locomotives and equipment and facilities for repairing and keeping the same in proper order can be obtained within six months.

The commission finds that at the present time the company has 168 engines of all classes to operate 3,000 miles of road, 23 of which are undergoing repairs; 6,095 of its own cars and 5,008 foreign cars, or a total of 11,103 cars; that for 30 days preceding the report made to it the road moved an average of 39,000 bushels of wheat a day, and that at the same rate it would take until Nov. 25 next to move the balance of the crop on its lines. The company, it is said, "should have at least twice the power it has to operate its existing lines in anything like a satisfactory manner."—V. 84, p. 1247, 1181.

Canandaigua Southern (Electric) RR.—*Mortgage Authorized.*—The New York State Railroad Commission has authorized this company to make a mortgage for $2,000,000. An Albany paper says:

This company was recently authorized to build an electric street surface railroad between Canandaigua, Ontario County, and Atlanta, Steuben County. In its petition for a mortgage the company states that it has filed certificates of extension to build from Atlanta to Wayland, Steuben County, 6¼ miles; from Atlanta to Lake Salubria, 1 mile southeast of Bath, Steuben County, 21½ miles, and from Canandaigua to Palmyra, 14 miles.

Central New England Ry.—*Consolidation Approved.*—The New York State Railroad Commission has consented to the consolidation of the Central New England Ry. Co. and the Poughkeepsie & Eastern Ry. Co. (V. 84, p. 804.)—V. 84, p. 693, 449.

Chesapeake & Ohio Ry.—*Notes Offered.*—Potter, Choate & Prentice are offering, at par and interest, $500,000 of 1-year 6% coupon gold notes, dated June 28 1907 and due June 28 1908. The total issue is $1,200,000 and the notes are a direct obligation of the Chesapeake & Ohio Railway Co. Compare V. 84, p. 1365.

Chicago Electric Traction Co.—*Sale Ordered.*—Judge Kohlsaat in the United States Circuit Court at Chicago has ordered the foreclosure sale of this property.—V. 82, p. 217.

Chicago Subway Co.—*New Interests.*—See Illinois Tunnel Co. below.—V. 84, p. 1366, 220.

Chicago & Western Indiana RR.—*Consolidation of 1882 Legalized.*—Governor Deneen of Illinois recently signed House Bill No. 777 legalizing the consolidation in 1882 of the Chicago & Western Indiana Belt Ry. and South Chicago & Western Indiana RR., two short belt lines, with a view of lifting a possible cloud from the general and consolidated mortgage bonds, which have been issued since the merger. The following is from an authoritative source:

The law, in order to be constitutional, is general in form. There was an irregularity about the consolidation. The intention was to consolidate the Chicago & Western Indiana Belt Ry. and the South Chicago & Western Indiana RR., and thereafter to merge the two consolidated roads into the Chicago & Western Indiana RR. Co.; but instead of doing this the three companies were, through an error on the part of the attorneys, all consolidated at once. This was not legal, and it was to correct this error that Bill 777 was introduced and passed.—V. 84, p. 390, 210.

Colorado & Northwestern RR.—*Receivership.*—This 26-mile road has been placed in the hands of its Secretary and Treasurer, W. B. Hayes, as receiver, upon application of the United States Trust Co. of New York, trustee under the $1,000,000 mortgage, the interest upon which is in default. Col. S. B. Dick of Meadville, Pa., who recently died, was the President of the company and owned most of its stock and bonds. See V. 83, p. 687.

Corvallis & Eastern RR.—*Sale.*—A press despatch from San Francisco dated June 13 states that papers were signed on that day providing for the sale of the road to the Southern Pacific, the consideration being reported at about $4,000,000. The line extends from Yaquina to Idanah, Ore., 142 miles.—V. 77, p. 2159.

Dayton Lebanon & Cincinnati RR.—*Successor Company.*—See Dayton Lebanon & Cincinnati Railroad & Terminal Co. below.—V. 84, p. 995.

Dayton Lebanon & Cincinnati Railroad & Terminal Co.—*Successor Company.*—This company was incorporated under the laws of Ohio on May 31 with $1,000,000 capital stock, the incorporators including Frederick H. Goff and others, as successor, of the Dayton Lebanon & Cincinnati RR., recently sold under foreclosure and bid in by J. F. Morley for E. G. Tillotson, Vice-President and Manager of the Cleveland Trust Co.—V. 84, p. 995.

Delaware & Hudson Company.—*Cornelius Vanderbilt on Board.*—Cornelius Vanderbilt has been elected a member of the board of managers, to succeed Frank E. Smith, of the law firm of Conway, Weed & Smith, local counsel, who on May 14 took the place of Alexander E. Orr temporarily.—V. 84, p. 1307, 1247.

Frederick (Md.) Interurban Ry.—*Consolidation.*—The "Financial Bulletin" of Philadelphia on April 2 published the following:

All of the $1,000,000 stock has been subscribed. The company will also issue $1,000,000 bonds. The company was incorporated for the purpose of consolidating the Frederick & Middletown Electric Ry. Co. (V. 84, p. 1160) and the Jefferson & Braddock Heights Co., the latter road having been just completed. The incorporators are James A. Ingram Jr. and Robert P. Graham, Baltimore; Thomas H. Haller and Richard P. Ross, Frederick, and Emory L. Coblentz of Middletown. Organization will take place next week and the consolidation will go into effect immediately after the organization. The Interurban Company will construct and operate the Myersville & Catoctin Ry., which is now operated by the Frederick & Middletown Company. The line runs between Middletown and Myersville, connecting at the latter place with the Hagerstown Railway Co. An extension from Jefferson to Brunswick is also under consideration.

Frederick & Middletown Electric Ry., Maryland.—See Frederick & Interurban Ry. above.—V. 84, p. 1160.

Georgia Terminal Co., Atlanta, Ga.—$3,000,000 *Bonds Sold.*—See Atlanta Birmingham & Atlantic Ry. above.

Henderson (Ky.) Traction Co.—*Successor Company.*—This corporation was organized at Henderson, Ky., on Apr. 14 with $150,000 authorized capital stock as successor of the Henderson Street Ry. recently foreclosed and has filed a mortgage to the Ohio Valley Banking & Trust Co., of Henderson, Ky., as trustee, to secure an issue of $150,000 5% 20-year gold bonds. The Cincinnati papers published the following list of directors, &c.:

Henry P. Barret, President; J. Henry Lyne, Vice-President; Charles F. Dallam, Secretary and Treasurer; and B. G. Witt, of Henderson; C. C. Tennis, of Pittsburgh; and Charles A. Hinsch and W. F. Boyd, of Cincinnati. Mr. Hinsch headed the bondholders' committee. [The capital stock of the reorganized company is $150,000, of which $55,000 will be treasury stock. Bonds will be issued at once to the extent of $95,000 and, with an equal amount of stock, will be given to the old bondholders in exchange for old securities (we understand, each $1,000 old bond deposited, was exchangeable for $500 in new stock and $500 in new bonds.—Ed.) More bonds to a total of $55,000 will be issued at once for improvements. The embarrassment of the old company was mainly due to the misappropriation by broker A. L. Rick of $70,000 receipts from the sale of bonds. [The new bonds are dated April 15 1907 and mature April 15 1927, but are subject to call on April 15 in 1912, 1917 and 1922 at 105. Interest payable Oct. 15 and April 15 at office of trustee. Denomination $100, $500 and $1,000. Outstanding $95,000. The $150,000 stock is all outstanding—par $100. —Ed.]—V. 84, p. 508.

Interborough-Metropolitan Co., New York.—*New Office for President.*—The office of the President has been moved from the Park Row Building to the 17th floor of the United States Realty Building, No. 115 Broadway.—V. 84, p. 1248, 1242.

Kansas City Southern Ry.—*Proposed Extension of Syndicate.*—Ladenburg, Thalmann & Co., as managers of the syndicate which underwrote the $5,100,000 5% six-year notes, have sent circulars to the members asking for an extension of the syndicate agreement, which was to expire June 22, until Dec. 22. The "New York Sun" says: "The notes were underwritten at 95 and interest, less an underwriting commission of 2½%. It is stated that 60% of the notes have been disposed of.—V. 84, p. 1366, 1182.

Lehigh Valley RR.—*Dissolution of Syndicate.*—The "Philadelphia Ledger" of June 11 said:

The Lehigh Valley collateral trust bond syndicate, organized in October 1905, in connection with that company's acquisition of the Coxe Brothers & Co.'s coal properties, has been dissolved. About 42% of the bonds, it is stated, was disposed of by the syndicate. The collateral trust bonds issued for this purchase amounted to $19,000,000, of which something like $10,000,000 were taken by Coxe Brothers & Co., the balance being taken by the syndicate.—V. 84, p. 1367.

Louisville & Nashville RR.—*Listed.*—The New York Stock Exchange has listed the $10,000,000 Atlanta Knoxville & Cincinnati Division 4% bonds, due 1955. (Compare V. 84, p. 1367; V. 80, p. 872.)

Issuance of $19,160,533 *Atlanta Knoxville & Cincinnati Division* 4% *Bonds (of which* $9,160,000 *still held by L. & N. RR. Co.).*

Purchase of roads	$2,528,543	Redemption of Maysv. & Lexington RR. Co., North Division 7% bonds	$400,000
Revision & construc'n on Atl. Knoxv. & Nor. Ry.	4,386,006	Construction tracks at Atlanta, and Atlanta Belt Line	248,715
Construction of Knoxville LaFollette & Jellico RR. and terminal facilities at Knoxville	7,206,258	Engine houses, coaling facilities, &c	194,746
Terminal facilities at terminal points	659,972	Reduction of grades	440,406
Equipment	2,207,753	Second track	26,129
Interest	862,005		

Earnings of L. & N.—For nine months ending March 31:

Nine Mos.	*Gross.*	*Net.*	*Other Income.*	*Charges.*	*Bal. for Div.*
1906-07	$36,128,532	$9,779,996	$1,112,857	$5,775,910	$5,115,943
1905-06	31,977,560	9,392,530	--------	--------	--------

Dividends at the rate now paid, 6% yearly, call for $2,700,000 (4½%) for the nine months.—V. 84, p. 1367, 749.

Maryland Electric Railways, Baltimore.—*Dividend Increased.*—The directors on June 10 declared semi-annual dividend No. 2, 2%, payable July 1 to stockholders of record June 21. This increases the annual rate to 4% per annum. Dividend No. 1, paid last January, was only 1½%. —V. 84, p. 1114, 1052.

Meridian (Miss.) Light & Railway Co.—*New Stock.*—The shareholders on June 1 authorized the making of an amendment to the charter authorizing an increase in capital stock from $1,000,000 to $2,000,000, to provide for extensions and additions. See page 58 of "Street Railway" Section.—V. 78, p. 1223.

Michigan Central RR.—*Bonds Offered.*—Moffat & White and Clark, Dodge & Co., both of New York, this week offered by advertisement at 99 and interest, yielding about 4.05%, the small unsold portion of their block of $1,500,000 Michigan Central RR. Co., Joliet & Northern Indiana RR. Co. 50-year first mortgage 4% gold bonds, dated July 10 1907, due July 10 1957, which were fully described in last week's issue.—V. 84, p. 1367.

Milwaukee & Northern (Electric) RR.—*Merger.*—A press dispatch from Manitowoc, Wis., on June 8 says:

An important electric road and interurban consolidation was consummated at Sheboygan Thursday when the Sheboygan Heat, Light & Traction Co. interests were merged with the Milwaukee & Northern Ry. Co. and the two came under one management. The Milwaukee & Northern recently filed its $4,000,000 trust deed at Sheboygan, and this, together with the merger with the Sheboygan electric line which had been under consideration for some time past, forecasts the immediate building of the line from Milwaukee to Sheboygan via Port Washington.—V. 84, p. 1367.

New England Investment & Security Co.—*Acquisition.*—This company, which holds practically all the street railway properties in Massachusetts, bought in the interest of the New York New Haven & Hartford RR. Co., has arranged to acquire all, or nearly all, of the $80,900 capital stock of the 10-mile Uxbridge & Blackstone Street Ry. by exchange for its own stock, share for share. There are $80,000 first mortgage 5% bonds on the road, due Feb. 2 1923.—V. 84, p. 1052, 996.

New York Central & Hudson River RR.—*Option on Control of New York Ontario & Western Ry.*—The company's option on the controlling interest in the New York Ontario & Western Ry. Co. held by the New York New Haven & Hartford is mentioned below under caption of the last-named company. The stock in question includes $29,160,000 common (out of $58,113,982), acquired by the New Haven road at $45 per share (par $100), and $2,200 of the $4,000 preferred. The N. Y. N. H. & H. issued $20,759,325 3½% debentures (V. 80, p. 2458) to finance this acquisition and there is some speculation on the Street as to how the Central, in case it exercises its option, will handle the matter.—V. 84, p. 1308, 1248.

New York New Haven & Hartford RR.—*Boston & Maine Men as Directors.*—The following additional directors are announced, the three last named being directors of the Boston & Maine, and the others, it is understood, assenting holders of that company's stock.

Henry K. McHarg of Stamford, Frederick F. Brewster of New Haven, A. Heaton Robertson of New Haven, Lewis Cass Ledyard of New York, Charles M. Pratt of New York and Richard Olney of Boston.

Trackage over Boston & Albany.—The following has been given out:

Trackage Rights to Albany.—The company, it is announced, has obtained from the New York Central & Hudson River RR., as part, it is understood, of the amicable agreement touching the purchase of the Boston & Maine trackage rights over the Boston & Albany RR., as follows: From State Line, between the New York and Massachusetts State lines, to Albany, N. Y.; between Boston Corners, N. Y., to Chatham, N. Y.; between Pittsfield and North Adams, Mass.; between Springfield, Mass., and State Line and between Ashland and Boston, Mass. The new trackage facilities will give new routes to western and other points, and steps, it is said, will at once be taken to increase the passenger and freight service by way of Albany.

President Mellen is quoted as saying:

The publication of the fact that the New York New Haven & Hartford RR. has acquired new trackage rights over the Boston & Albany RR. from Albany practically into Boston means that henceforth we are virtually partners with the New York Central in the advantages to be derived from the use of the Albany road. This agreement was reached between President Newman of the New York Central and myself some three months ago, at the same time that our plans for the future disposition of the New York Ontario & Western were agreed upon. By this I do not mean that a hard and fast, iron-clad contract was drawn up and signed between President Newman and myself, but that the agreement was put into black and white and initialed by both of us. Compare V. 84, p. 1367.

Earnings—Balance Sheet—New Securities.—See statement of April 30 1907 under "Annual Reports" on a preceding page of this issue.—V. 84, p. 1367, 1242.

New York Ontario & Western Ry.—*Additional Bonds.*—The New York State Railroad Commission has authorized the company to issue $1,948,000 additional 4% bonds, secured by the general mortgage of 1905, to provide for additions and improvements on leased lines and for new equipment. This authorization will make $3,948,000 general mortgage 4s issued and issuable, $2,000,000 of the bonds having been put out in 1905. The mortgage is limited to $12,000,000.

Option.—See New York New Haven & Hartford RR. above.—V. 84, p. 932.

Oneida Railway Co.—*New Stock for Ally of West Shore RR.*—The shareholders will vote June 22 on a proposition to increase the capital stock from $15,000 to $2,000,000. The proceeds, it is said, will be used for equipping the West Shore RR. between Utica and Syracuse with the third-rail electric system, the Oneida Railway Co. being an ally of the West Shore.—V. 73, p. 616.

Passenger Fares.—*Two-Cent Fare Bill in New York Vetoed.*—Governor Hughes on June 11 vetoed the Baldwin bill providing for a rate of 2 cents a mile on all railroads in the State having a mileage of 150 miles or more.

The grounds given are, in a general way, that the proposed rate would probably be unfair and disastrous to many roads; that the Legislature has attempted to provide a remedy for dissatisfaction with existing conditions without previous inquiry; and that the Public Service Commissions which go into office on July 1, will be able to deal with the matter in a satisfactory manner, which it is practically impossible for the Legislature to do. See remarks in "Financial Situation" and V. 84, p. 932, 1248.

The latest information from other States is as follows:

Wisconsin.—The Senate on June 13 by a vote of 21 to 6 killed the Husting flat 2-cent fare bill. The Railroad Commission recently made an order fixing a 2½-cent rate on the principal roads (V. 84, p. 868).

Missouri.—Judge McPherson on June 13 granted the petition of 18 Missouri railroads for a temporary injunction restraining the State officials from putting into effect both the maximum freight rate and the 2-cent passenger law (V. 84, p. 868).—V. 84, p. 1308, 1248.

Pawcatuck Valley Street Railway.—*Reorganization.*—The "Boston Herald" of June 1 said:

A reorganization has been effected by a committee of bondholders consisting of E. P. Shaw Jr., of the Boston & Worcester Street Railway Co.; H. F. Walker, President of the Warren National Bank of Peabody, Mass., and Rufus Coffin of the firm of Rufus Coffin & Co.

This railroad defaulted on its interest Nov. 1 1906. It had bonds for $100,000 first mortgage, $40,000 second mortgage and capital stock $75,000. A majority interest of the bonds and stock were owned by W. L. Mauran of the Westerly Light & Power Co., and by an arrangement with the committee the outstanding bonds were canceled and a new mortgage of $50,000 placed upon the property, with an additional amount of $14,000 contributed by the bondholders, which money has gone into permanent improvements and is now covered by the new mortgage.—V. 77, p. 2281.

Philadelphia Baltimore & Washington RR.—*Consolidation.*—Philadelphia advices state that the meeting called for July 31 to increase the company's indebtedness has in view the merger with the company of the allied lines of the Pennsylvania system, including, it is understood, the Philadelphia & Baltimore Central RR., Union RR. of Baltimore, Delaware Maryland & Virginia, Baltimore Chesapeake & Atlantic and Delaware RR.—V. 84, p. 1368.

Poughkeepsie & Eastern Ry.—*Consolidation.*—See Central New England Ry. above.—V. 84, p. 804, 694.

Puebla (Mexico) Tramway, Light & Power Co.—*Bonds Offered.*—This company was incorporated in Canada, its authorized capital stock being $5,000,000. F. B. McCurdy & Co., Montreal, are offering at 90 and interest, carrying a 50% stock bonus, a block of the gold bonds, authorized issue $6,000,000, issued $1,850,000. The bonds are dated Jan. 1 1907 and are redeemable on Jan. 1 1937 by means of a sinking fund of 1% per annum, commencing Jan. 1 1912, which may be applied in redeeming the bonds by annual drawings at 105%, or by purchase at or below that price; or the bonds may be redeemed at 105% on or after Jan. 1 1917. Trustee, National Trust Co., Toronto. Interest payable Jan. 1 and July 1 by coupon at Bank of Montreal, Montreal, New York or London, and at the bank's agents in Berlin, Brussels and Basle. The principal is payable in Montreal or in London at the par of exchange. A circular, evidently prepared several months ago, says in substance:

Tramways.—The company has acquired the entire tramways system in Puebla, which is one of the largest cities in Mexico, and has a population of about 150,000. The company's concessions in the city are perpetual, and give the sole right to operate tramways within the city for a term of 50 years, while the suburban franchise does not expire till 1988. The company intends to extend its present mileage (being 16 miles) to a distance of 40 miles, and to convert the whole system into electric traction, beginning with the belt line in the city and the suburban line to Chalula. The directors' policy of extension is not to incur heavy expenditure until there is an assured prospect of satisfactory returns.

Electric Lighting.—The company has also acquired the entire electric-lighting plant now operating in the city, and has secured a profitable and exclusive contract for the city street lighting till 1929; and negotiations are now pending for the extension of this contract. The electric-lighting company in 1905 was supplying some 12,000 lamps, from which the net profit was $70,500 (gold). Upon the ratio of lamps to population in the City of Mexico, there should be a demand for 50,000 lamps in Puebla, and a sale for at least 30,000 lamps may be expected as soon as the same can be installed, which should give a net profit of $150,000 gold per annum. The company has entered into a contract, on advantageous terms, with the Fortezuela Power Co. for the supply of power up to 2,000 horse-power for 20 years, which ensures a sufficient supply of power.

Water Power.—The company has also acquired one of the most valuable water powers in the Republic of Mexico. This power will develop at least 20,000 horse-power in the dry season, and the cost per horse-power for development will not be over one-half of the average cost of such installations This power is situated at Tuxpangom, in the State of Vera Cruz, near the City of Orizaba, about 80 miles from Puebla. The transmission lines will pass through a country in which there will be a large demand for power in the future, and it is probable that the entire output can be disposed of within a few years.

Earnings.—The tramway and electric-lighting business have not hitherto been operated in an energetic or economical manner, mule traction being employed to operate the tramways; but notwithstanding these unfavorable circumstances, the tramways made a net profit in 1905 of $25,500 gold and the electric-lighting a net profit of $70,500; total, $96,000.

Earnings for 11 Months Ending Nov. 30 1906 (in Gold).

Gross earnings, tramways	$80,197	Gross earnings, lighting	$135,360
Working expenses, tramways	54,960	Working expenses, lighting	57,564
Net profit	$25,237	Net profit	$77,796
Total net profit for the 11 months			$103,033

Status on Basis of Partly Estimated Results for Calendar Year 1906.

Upon this basis, the net earnings for 1906 should amount approximately	$112,500
Amount required for interest on $1,850,000 5% gold bonds	92,500
Leaving a net surplus of	$20,000

Estimated Earnings (in Gold) on Completion of Proposed Extensions as Stated Above.

Tramways—Net earnings	$50,000
Electric lighting—Net earnings, estimated on basis of 30,000 lamps expected to be installed within 18-24 months	150,000
Total net earnings	$200,000
Interest on say $2,000,000 5% bonds (now issued $1,850,000)	100,000
Surplus	$100,000

These estimated earnings are only for the work now about to be undertaken, and considerably greater earnings may be expected whenever the results obtained from the present expenditure justify further extensions of the tramways and the development of the company's water-power.

Rochester Syracuse & Eastern (Electric) RR.—*New Stock.*—The New York State Railroad Commission has authorized the company to increase its common stock from $3,500,000 to $6,000,000, making the total capital stock, common and preferred, $8,500,000.—V. 84, p. 272.

St. Louis & San Francisco RR.—*Guaranteed Equipment Notes Offered.*—G. H. Walker & Co. and Francis Bro. & Co., both of St. Louis, having sold over one-half of the issue, are offering at prices to yield 6% per annum, by advertisement on another page, the remainder of $5,074,000 5% equipment notes, direct obligations of the Railroad Company, dated Aug. 1 1907, and guaranteed by the American Car & Foundry Co. These notes will mature in semi-annual instalments on Feb. 1 and Aug. 1 from 1908 to 1917, the first installment being $262,000 and the last $244,000. Denomination $1,000. Interest payable Aug. 1 and Feb. 1. Trustee, St. Louis Union Trust Co. The notes are secured by a first lien on 3,000 box cars (steel underframe), 500 gondola cars and 1,000 stock cars, on which 10% was paid in cash, the remainder being represented by this issue of notes.—V. 84, p. 750, 627.

Southern Pacific Co.—*Reported Acquisition.*—See Corvallis & Eastern RR. above.—V. 84, p. 1249, 1183.

United Railways Investment Co.—*No Preferred Dividend July 1.*—The directors have decided not to pay on July 1 the semi-annual dividend then due on the $15,000,000 (5% cumulative) preferred stock. The last two dividends were paid in scrip. A director is quoted as saying in substance:

The passing of the dividend was inevitable and has long been discounted. The strike of the employees of the United Railroads of San Francisco, the damage to that company's property and the loss of business caused by the earthquake, and the political trouble in which it has recently been involved, were factors so powerful in reducing earnings and increasing expenses that the United Railroads has been unable to pay dividends to its parent company for about a year.

The United Railroads of San Francisco is reported to be constantly increasing its car service in spite of the strikers. (V. 84, p. 1115.)—V. 84, p. 1109.

United Traction Co., Albany, &c.—*Additional Bonds.*—The directors have authorized the issue of $859,000 additional first consol. 4½s dated 1904, making $2,588,000 of the bonds issued or issuable forthwith. The remainder of the authorized issue of $6,500,000 consols is reserved to retire prior liens.—V. 84, p. 1368, 932.

Uxbridge & Blackstone Street Ry.—*Sale.*—See New England Investment & Security Co. above.

Western New York & Pennsylvania Traction Co.—*Additional Bonds.*—The New York State Railroad Commission has authorized the company to issue $300,000 additional "first and refunding mortgage" bonds. The total amount outstanding will be $2,474,000. See V. 83, p. 1292.

Wisconsin Central Ry.—*Syndicate Extended.*—An exchange says:

Brown Bros. & Co., Edward Sweet & Co., G. A. Fernald & Co. and Maitland, Coppell & Co., composing the syndicate which purchased the major portion of the $7,000,000 Wisconsin Central bonds a year ago, have extended the term of their agreement for one year. The agreement was to expire July 1 1907.—V. 83, p. 1413, 985.

INDUSTRIAL, GAS AND MISCELLANEOUS.

American Ice Securities Co.—*Inspection Limited.*—The Appellate Division of the Supreme Court, First Division, on June 7 handed down a decision (Justice Scott writing the opinion) limiting the right recently granted to Attorney-General Jackson to examine the company's records, with a view to obtaining information upon which to base an action against the company for violation of the State Anti-Trust laws. Compare V. 84, p. 1184, 933.

The Court says that no time limit should be placed on the examination, as some of the contracts made before March 8 1904 may still be in force, or if not, they may still have an important bearing on the contracts subsequently made. But the order made by the lower court, it is stated, is too broad in permitting the examination of all books of account, vouchers, &c. of the company. The examination of such records tending to show the profits made or the unreasonableness of the prices charged is neither proper nor material at the present time, though it may be that later developments will make such a thorough examination necessary or advisable. The order of Justice Greenbaum is therefore modified to include only the contracts made by the company and all correspondence relating to such contracts, regardless of date. Should facts be disclosed by such an examination to justify an inspection of the other books, papers and documents belonging to the company, the Attorney-General may apply for an extension of the order.—V. 84, p. 1184, 1054.

American Pneumatic Service Co., Boston.—*Change in Management.*—At the adjourned annual meeting on June 12 the Ames ticket was elected by a vote of 168,377, being a majority of 27,064. The directors now are:

William H. Ames, Eugene N. Foss, Oliver W. Mink, Oakes Ames, Charles F. Ayer, Atherton Loring, Frederick P. Royce and Gilmer Clapp of Boston; Howard Gould, J. J. Kennedy, William B. Joyce and John E. Mulholland of New York; George H. Chandler of Manchester, N. H.; William S. McCurdy of St. Paul, Minn., and James L. Wolcott of Dover, Del.

The officers, to be elected next week, it is said, will be: William H. Ames, President; Gilmer Clapp, Treasurer; W. E. Barnard (re-elected), Secretary.

Applications, it is announced, have been made for installing the mail tube service in Pittsburgh, Baltimore, Cincinnati, Kansas City and San Francisco, at a probable cost to the company of about $325,000. The floating debt is said to be only about $200,000.—V. 84, p. 1249, 1244.

Armstrong Cork Co. of Pittsburgh.—*New Stock.*—This Pennsylvania corporation early last month filed a certificate of increase of capital stock from $2,500,000 to $3,500,000; Par of shares $100. President, Thomas M. Armstrong; Secretary and Treasurer, Wm. H. Pfahl.

The shareholders in April 1902 voted to increase the company's indebtedness to $400,000. Amount of present indebtedness not known.

Arrowhead Reservoir & Power Co., Cincinnati.—*New Stock.*—This company, incorporated under the laws of Delaware Oct. 5 1905 with $6,000,000 capital stock, filed on May 17 1907 a certificate of increase of stock from $6,000,000 to $6,500,000; par of shares $100.

The company's property is situated in the County of San Bernardino, Cal., and includes a partly constructed reservoir which, it is expected, will afford irrigation for perhaps 25,000 acres. On Jan. 2 1907 the shareholders were to vote on a proposition to increase the capital stock as above, and also to make a mortgage to a trust company in Los Angeles or some other city as trustee, to secure an issue of $6,500,000 5% gold bonds in denominations of $500 and $1,000. The company, in October last, stated that it had agreed to purchase all the property of the Arrowhead Reservoir Co. in San Bernardino Co. and in part consideration therefor to give $362,352 bonds and to assume the debts of said company To pay the aforesaid indebtedness, to extend the business and develop the properties, the proposed issues of stock and bonds were recommended. Hen. F. Ehrman, Room 50, Wiggins Block, Cincinnati, O., is Secretary; Victor C. Smith, Bernardino, Cal., is General Manager. Besides Mr. Smith the incorporators were John D. Works, H. E. Trask, F. C. Finkle, all of Los Angeles.

Atlantic & Birmingham Construction Co.—See Atlanta Birmingham & Atlantic Ry. under "Railroads" above and in V. 83, p. 35.

Baltimore Electric Co.—*New Securities.*—The "Baltimore Sun" (of June 14) understands that H. C. Brown & Co. of Baltimore have organized a syndicate to finance this company's requirements. The advisability of entering the gas field, it is stated, is under consideration.—V. 84, p. 1369.

Birmingham Coal Co.—*Consolidation Proposed with Iron Company.*—See Atlanta Birmingham & Atlantic Ry. under "Railroads" above.

Birmingham Iron Co.—*Consolidation Proposed with Coal Company.*—See Atlanta Birmingham & Atlantic Ry. under "Railroads" above.—V. 83, p. 40.

Brunswick (Ga.) Steamship Co.—*Earnings, &c.*—See Atlanta Birmingham & Atlantic Ry. under "Railroads" above. —V. 83, p. 1292.

California Oilfields, London.—*New Securities.*—The London Stock Exchange has been requested to list a further issue of 125,000 ordinary shares of £1 each, Nos. 250,001 to 375,000. A London paper recently said in substance:

An issue of 125,000 ordinary shares of £1 each is offered to the existing shareholders at the rate of one new share for every two shares now held at £4 10s. per share, payable £2 per share on acceptance and £1 5s. on Feb. 15 and £1 5s. on March 15.

£300,000 5% first mortgage debentures are to be offered at 97½%, payable 10% on application, 37½% on allotment, 25% on Feb. 15 and 25% on March 15. Not exceeding £200,000 additional debentures, ranking pari passu with the present issue, may be sold, provided that there shall have been subscribed, in cash share capital to be hereafter allotted, an amount equal to not less than the par value of the further debentures. Annual sinking fund, beginning Dec. 31 1908, £20,000, to purchase the debentures or to draw them at 102½ and interest, at which price the entire issue may be called on or after Jan. 1 1911 and must be paid on Jan. 1 1924. Compare V. 83, p. 91.

Carnahan Tin Plate & Sheet Co., Canton, O.—See United Steel Co. of Canton, Ohio, below.—V. 84, p. 695.

(Philip) Carey Manufacturing Co., Lockland, O.—*Stock.*—This company recently filed a certificate of increase of authorized capital stock from $1,000,000, of which $500,000 was 6% cumulative preferred, to $3,000,000, of which $1,000,000 is preferred and $2,000,000 common. The outstanding capital theretofore consisted of $500,000 common and $400,000 pref., and the company had no bonds or mortgages on its property. President G. D. Crabbs wrote that "the new stock will be issued from time to time as required." The Cincinnati Stock Exchange is reported to have listed all of the $1,000,000 preferred and $2,000,000 common.

A Columbus, Ohio, paper recently had the following, but we have been unable to confirm it:

All shareholders of record will be permitted to subscribe at par to $600,000 preferred stock, while a block of the new common will be issued to the holders of the common shares as a stock dividend, in order to distribute the accumulated surplus. The company is preparing to enlarge its plant at Lockland and also to erect a large plant in Canada. A Canadian subsidiary of the same name was incorporated late in Jan. 1907 with $100,000 capital stock. Compare V. 75, p. 32.

Central Foundry Co.—*New President.*—August Heckscher has been elected President in place of A. F. Gartz, who recently resigned, and William H. Remick, of R. L. Day & Co., bankers, a director, to fill a vacancy.—V. 84, p. 161.

Central & South American Telegraph Co.—*Listed.*—The New York Stock Exchange has listed $2,082,400 additional capital stock, making the total listed $10,000,000. Of the new stock $2,000,000 was issued as a stock dividend in accordance with a resolution of the board of directors adopted on March 26, which begins as follows:

"Whereas, the accounts of the company show that earnings to the amount of $1,783,000 have been expended in plant and betterments, and contracts of great value, which your directors value at not less than $217,000, have been acquired by your company, making a total of $2,000,000." Compare V. 84, p. 1184, 1054.

Chapman Iron, Coal & Coke Co.—*Sold.*—This company's property was on Jan. 31 sold at auction to an attorney acting for President E. R. Chapman of New York, who, it is stated, will reorganise the company. On Jan. 27 a judgment for $142,488 was entered in the New York courts against the company in favor of Francis A. Huck on an assigned claim of Mr. Chapman; receiver was appointed April 27 1906.

On Jan. 29 all the company's interest in $530,000 of its 5% gold bonds and in $100,000 of its capital stock (certificates "A 47" and "A 48"—par of shares $100), which were held by the Oriental Bank as collateral, was sold at auction at the Real Estate Exchange Sales Rooms in this city and was bid in by Francis A. Huck for the plaintiff.

Columbia Telephone Manufacturing Co., Ottawa, O.—*Decision on West Va. Law.*—The Supreme Court of Ohio on Dec. 11, reversing the judgment of the Circuit Court of Putnam County, in the action brought by the Security Trust Co. of Toledo, as trustee in bankruptcy of the Columbia Telephone Manufacturing Co., against Ford and others, held that the stockholders of a company incorporated under the laws of West Virginia are liable for its indebtedness up to the par value of the stock subscribed, notwithstanding a provision in its certificate of incorporation that the stock shall be regarded as full-paid and non-assessable upon payment of a less amount than par. Smith & Beckwith of Toledo, O., were leading counsel for the plaintiff.

The Telephone Mfg. Co. was incorporated in W. Va. on March 6 1902 and on Nov. 10 1902 was adjudged a bankrupt by the District Court of the United States for the Northern District of Ohio, Western Division. Its stock consisted of $150,000 common and $100,000 6% non-cumulative pref., in shares of $100 each. The certificate of incorporation provided that the common stock should be sold at 50% of its par value in payments of 10% each, as called by directors, the stock after such payments to be full paid and non-assessable. All the subscribers except Ford paid 50%, he subscribing for 50 shares ($5,000) and paying 30% ($1,500). Section 11 of Article 1 of the Constitution of West Virginia provides that stockholders of all corporations and joint-stock companies except banks and banking institutions shall be liable for the indebtedness of such corporations "to the amount of their stock subscribed and unpaid and no more." The indebtedness of the company, it is stated, amounts to about $38,000, while the assets will not realize in excess of $13,000.

Columbus & Hocking Coal & Iron Co.—*Report.*—See "Annual Reports" on a preceding page.

Dividends.—The dividend declared payable July 1 on the new preferred stock ($218,900) is, we learn, distribution No. 2, the first payment on this stock having been made April 1 1907.—V. 84, p. 1370.

Consolidated Rice Milling Co.—See Louisiana Irrigation & Mill Co. below.

Consumers' Gas Co., Toronto.—*Stocks Sold at Auction.*—At Toronto, on June 6, 6,000 shares of new stock were sold at auction at an average of slightly over $95 per share; par $50.—V. 84, p. 628.

Dominion Bridge Co., Montreal.—*New Stock—Acquisition.*—The company has increased its authorized issue of capital stock from $1,000,000 to $2,000,000. The shareholders last month authorized the purchase of the structural steel plant of the Locomotive & Machine Co. of Montreal (V. 82, p. 283).

Dominion Textile Co.—*Listed in Montreal.*—The Montreal Stock Exchange on June 5 listed this company's $5,000,000 of outstanding capital stock.

Report.—The annual report of the directors presented at the general meeting of the shareholders on May 30 said in substance:

The company has in operation 8,048 looms, 368,905 spindles, and employs about 6,000 hands, and paid in wages over $1,750,000, being a large advance over the previous year, and on the 1st of April last there was a further large increase of wages made to the employees.

Owing to the large demand for cotton yarns from the knitting companies, which has taxed the capacity of their yarn mills to the fullest extent, it has been deemed advisable by the directors to increase the output of their yarn plant at Montmorency Falls by the addition of another story to the yarn mill, and work on this plant is now in progress. When completed, the company will be in a position to supply the increased requirements of the knitting companies for some years to come.

Extensive improvements are now under way to improve the bleacheries of the company. When these are completed, the facilities for turning out bleached goods will be of the very first order, and should tend to increase the sale of these lines very materially. During the past year a large new storehouse was erected at the Merchants Mill, which is now almost completed.

The financial statement shows that the net earnings for the year, after writing off the large sum of $205,826 for repairs, betterments, &c., to the mills, amount to $898,518. Out of this amount has been paid interest on bonds, dividends on preferred stock, rent of Dominion and Merchants Mills, amounting in all to $731,839, leaving a surplus of $166,680. This sum, together with the dividends received since closing the books, on the shares of the capital stocks of the Dominion and Merchants companies held by them will increase the surplus for the year to $286,928, and leave a balance at credit of profit and loss account of $523,842.

In view of the showing made for the past two years and the bright outlook for the present year, the directors have declared a dividend of 1¼ % on the common stock of the company, payable on July 2 to shareholders of record on June 15.—V. 84, p. 1250.

Eden (Wyo.) Irrigation & Land Co.—*Bonds Offered.*—Farson, Son & Co., New York and Chicago, are offering at par and interest $400,000 first mortgage 6% bonds dated Jan. 1 1907, which are issued to provide for the development of this company's property in the Eden Valley, Wyo. A circular says in part:

Total authorized issue $700,000 (of which $300,000 remain in the treasury for future uses), maturing in annual installments on Jan. 1 as follows: 1912 to 1916, both inclusive, $50,000 yearly; 1917 to 1922 inclusive, $75,000 yearly, but subject to call at 102½ and interest at any interest date up to Jan. 1 1917; thereafter at par and interest. Denominations, $500 and $1,000. Interest payable Jan. 1 and July 1 at office of Farson, Son & Co., N. Y. City. Chicago Title & Trust Co., Chicago, trustee. Of the proceeds of all lands and water rights sold by the company, 75% are to be held in a sinking fund for the redemption of the bonds.

This company has obtained title from the State of Wyoming to the waters of the Big Sandy River, the Little Sandy River, the New Fork River and some other smaller streams, in all sufficient to irrigate 206,000 acres of land. The company has also secured from the National Government, under provisions of the Carey Act, a segregation of 60,000 acres of choice land, and the segregation of 40,000 more is practically completed. The company owns a natural reservoir site sufficient to irrigate about 20,000 acres, and it has also received from the United States Government one of the finest reservoir sites in the United States, known as the Lecky Basin, into which there are five large streams of water constantly flowing, which will hold sufficient water to irrigate about 60,000 acres of land. The company also owns the canal system already begun and the rights of way, survey, &c., for the entire system. The company has the privilege of selling the water at not exceeding $30 per acre, and the land is sold to the settler at 50 cents per acre. As this class of land is worth from $50 to $100 an acre, there is no difficulty in selling it as rapidly as placed under water, furnishing a constant income to the company's treasury. Engineers estimate that the first 60,000 acres can be placed under water at $5 50 an acre, while the usual cost is from $10 to $25. Products of land: Alfalfa, field peas, sugar beets, vegetables, small fruits. Within 100 miles there are estimated to be 2,000,000 sheep on the ranges (average increase 700,000 lambs per annum) to consume the forage crops; and Rock Springs—a coal-mining town of from 7,000 to 10,000 inhabitants—and other cities and towns on the line of the Union Pacific, will want the fruits and vegetables. Two railroad lines are already surveyed through the property, and one, and probably both, will be built in the near future, while at present the valley is within easy hauling distance of the Union Pacific Railroad.

The company is incorporated under the laws of Wyoming. Outstanding capital stock (all of one class), $2,000,000 in $100 shares. Pres., F. P. Knott; Sec. and Treas., H. B. Parrott. Office, Denver, Col.

Federal Railway Signal Co.—*New Bond Issue.*—This company, which has purchased the plant of the Albany Forge Co. in North Albany, and will shortly establish its business there, has executed a mortgage to the Troy Trust Co. to secure, it is said, an issue of $500,000 first mortgage 6% gold coupon bonds, denomination $1,000 and $500. The mortgage of $300,000 executed April 5 1905 is reported to have been satisfied of record, but no official statement on the subject is obtainable.

The company's machine shop at Troy, N. Y., was destroyed by fire on Jan. 31. The works at North Albany are to be enlarged, increasing the company's output facility, it is said, to double that of its old plant. The new directors and officers are given as follows: Directors: Robert C. Pruyn, James H. Caldwell, J. T. Cade, Lawrence Griffith, P. G. Ten Eyck. Officers: J. T. Cade, Pres.; Lawrence Griffith, Vice-Pres.; P. G. Ten Eyck, Gen. Mgr.; Frederick Pruyn, Treas.; C. E. Newman, Sec.—V. 80, p. 17[illegible].

Gainesboro Telephone Co., Sparta, Tenn.—*Bond Issue.*—A mortgage has been filed to the Union Bank & Trust Co. of Nashville, as trustee, to secure an issue of $100,000 6% gold bonds. The mortgage covers 25 exchanges and 2,500 miles of toll line in Kentucky and Tennessee.

Company incorporated in 1896. Authorized capital stock is $300,000 in shares of $100 each. Bonds dated Jan. 1 1907 and due in 1927, but al subject to call after 10 years at par and interest. Denomination $500. Interest payable quarterly (Jan. 1, &c.) at Sparta. Total gross assets stated as $280,000 and annual gross income as $65,000. President, G. W. Stevens, Nashville, Ky.; Secretary, J. T. Anderson; and Treasurer, S. Hayden Young, Sparta, Tenn.

Herron Pump & Foundry Co., Chattanooga, Tenn.—*Receivership.*—At Chattanooga on June 7 this company was placed in the hands of C. C. Nottingham, Vice-President of the First National Bank of Chattanooga, as receiver. An official statement, it is said, shows: Liabilities about $100,000; assets between $200,000 and $225,000. All creditors, it is stated, will be paid in full. See V. 84, p. 1251.

Home Telephone Co. of Nashville.—*Decision—Re-Incorporation.*—The Supreme Court on March 23, reversing the decision of the Court of Chancery Appeals, dissolved the injunction enjoining the city from removing the poles and wires of the company, which were, it is reported, erected at a cost of about $20,000.

Judge Wilkes holds that the company, which was incorporated under the old general law, had no right to operate a telephone system under its charter as a telegraph company, and therefore could not use the streets of the city without the latter's consent.

On April 3 the company filed articles of incorporation under the so-called Talbert law, covering the incorporation of telephone companies, passed by the present Tennessee Legislature, its capital stock being $1,000,000. Chancellor Allison on the same day denied the application of several tax-payers to enjoin the perfecting of the organization. Officers:

President, R. E. Cooper; Vice-President, W. C. Polk; Treasurer, H. M. Perry; Secretary, Charles Curry.

Illinois Tunnel Co., Chicago.—*New Management.*—J. Ogden Armour and associates, having become largely interested in this enterprise, the following new officers and directors were elected at the annual meeting on June 13:

Samuel McRoberts, Treasurer of Armour & Co., was made President to succeed Albert G. Wheeler; W. J. C. Kenyon, President and General Manager of the Union Stock Yards at Omaha, was elected General Manager. Mr. Armour was made a member of the executive committee, of which A. J. Earling, President of the Chicago Milwaukee & St. Paul Ry., is Chairman. Samuel McRoberts was elected a director to succeed P. A. Valentine and J. Ogden Armour became a member of the board.

The Kuhn-Loeb loan of $5,000,000 is said to have been extended for a considerable period and Messrs. Armour and Harriman are reported to have obtained for the company a long-term loan of $4,000,000, for the completion of construction. Mr. Valentine is said to have sold out his interest in the Chicago Subway Co., the parent company.—V. 84, p. 162.

Indiana Natural Gas & Oil Co.—*Called Bonds.*—All of the outstanding 1st mortgage 6% gold bonds dated 1890 have been called for redemption at 105 and interest on July 1 at the office of the Central Trust Co., New York, or at the Illinois Trust & Savings Bank, Chicago. In 1906 the company made an issue of $6,000,000 5% 30-year gold bonds to provide for refunding the aforesaid bonds and for extensions and additions. The new bonds are guaranteed, principal and interest, by the People's Gas Light & Coke Co. of Chicago. Most of the 1st 6s ($4,000,000 issued) have been exchanged for the new 5s. Compare V. 84, p. 393—V. 83, p. 1293.

International Steam Pump Co.—*New Officers.*—The following changes are announced:

William H. Woodin, Leon P. Fuestman and N. Fleischer have been elected directors in place of directors whose terms have expired.

Leon P. Fuestman elected First Vice-President; Nathan Fleischer elected Treasurer, to succeed Max Nathan, who resigned on account of age; Benjaman Guggenheim elected Chairman of the executive committee.—V. 83, p. 1410, 754.

Interstate Steamship Company.—*Called Bonds.*—The Safe Deposit & Trust Co. of Pittsburgh, as trustee for the bondholders, gives notice that 50 5% bonds for $1,000 each (interest payable June 1 and Dec. 1), dated June 1 1906, the numbers ranging between 4 and 494, were called for redemption on June 1 with interest to date. Incorporated under the laws of West Virginia.

The Interstate Steamship Co. of Willoughby, O., probably this company, was incorporated in June 1905 with $500,000 capital stock, the incorporators being James E. Hoyt, Julian W. Tyler, Gustav von Steiner, all of Cleveland.

Jenner-Quemahoning Coal Co., Pittsburgh.—*Bonds.*—This company, which was incorporated in Pennsylvania in Sept. 1904 with $5,000 authorized capital stock (since increased to $750,000, all of one class and all outstanding, par $100), and thereafter purchased some 3,000 acres of coal land in Somerset County, Pa., has filed a certificate of increase of indebtedness from $410,000 to $750,000.

The aforesaid indebtedness consists of first mortgage 5% gold bonds of an authorized issue of $1,000,000, secured by mortgage to the Fidelity Trust Co. of Philadelphia, as trustee, covering coal, surface and equipment. The issue is dated Oct. 1 1904 and is due $250,000 in 1919 and $750,000 in 1944, but subject to call for sinking fund at par and interest. Denominations $500 and $1,000. Interest payable April 1 and Oct. 1 at office of trustee. President, H. R. Lynn; Sec. and Treas., J. B. Van Wagener; Assist. Treas., Thurston Wright. Original Incorporators: Robert M. Wilson, Herbert Hult, Henry K. Belmont, Albert H. Parker and Holman R. Lynn, all of New York.

Jutte (C.) & Co.—*Litigation—Reported Sale.*—Judge Shafer, at Pittsburgh, on Feb. 9, in the action brought by the Colonial Trust Co. of Pittsburgh, as administrator of the late W. C. Jutte, against F. N. Hoffstot and J. W. Friend, decided that the latter were entitled to possession of certain securities of Jutte & Co. obtained by them in transactions with the deceased. A bill in equity was filed on Dec. 4 by Louis A. Jung and other stockholders in the Common Pleas Court, Pittsburgh, asking for the appointment of a receiver on the alleged ground that Friend and Hoffstot, who controlled the company, proposed to turn over the river equipment and good-will from Louisville south (but not the coal lands) to the Monongahela River Consolidated Coal & Coke Co.

The company is reported to own about 2,400 acres of undeveloped coal lands near Brownsville, Fayette Co., Pa., its capital stock consisting of $4,000,000, part preferred, and its outstanding bonded debt being $1,600,000. The Monongahela River Consol. C. & C. Co. has nothing to do with the bonds, and the Secretary of that company on Feb. 19 wrote: "This company has not purchased the property referred to."

Keystone Driller Co., Beaver Falls, Pa.—*New Stock.*—This corporation has increased its capital stock from $500,000 to $1,000,000. Plans have been prepared for a new foundry building, 100 by 300 feet, of brick and steel construction, for the manufacture of brass, gray iron and steel castings.

Letcher Coke & Railway Co., Cleveland, O.—*New Enterprise—Bonds Offered.*—This company, incorporated a few months ago with $2,000,000 capital stock, in shares of $100 each, to mine coal and engage in the manufacture of coke in Eastern Kentucky, recently offered in Cleveland $2,000,000 5% 30-year gold bonds. The following has been published:

The company has secured coal rights on 16,000 acres of coal lands in Letcher County, Ky., and it will build 500 coke ovens and a branch railroad 15 miles long to connect the property with the nearest distributing point. The coal rights cover deposits which will aggregate over 226,954,000 tons. With a production of 125,000 tons yearly and a net profit of 30 cents per ton, the company should earn on coal $37,500; 468,000 tons of coke at $1 25 a ton would yield $585,000, and rents, &c., at $15,000 from the company's houses and store would increase the total to $637,500. Depreciation and bond interest deducted is expected to leave a surplus of 22% on the $2,000,000 capital stock. J. J. Phillips, Vice-President and General Manager of the Cleveland & Pittsburgh Coal Co. has been elected President of the coke company and James Dunn Jr. Secretary and Treasurer. Office in Garfield Building, Cleveland.

Locomotive & Machine Co. of Montreal.—*Sale of Structural Steel Plant.*—See Dominion Bridge Co. above.—V. 82, p. 283.

Long-Bell Lumber Co. of Kansas City, Mo.—*Refunding Mortgage—Bonds Offered.*—Clark L. Poole & Co., Chicago, are offering by advertisement on another page at par and interest the unsold portion of $9,000,000 6% "first and refunding mortgage" gold bonds, made for the purpose of refunding into one loan all of the outstanding bonds of the company and its subsidiaries, together with practically all its floating indebtedness. These bonds are dated May 1 1907 and mature in semi-annual installments of $250,000 from Nov. 1 1907 to May 1 1908, both inclusive; $300,000 Nov. 1 1908 to May 1 1920; $325,000 Nov. 1 1920 to May 1 1922. Denomination $1,000 and $500. Principal and interest payable at Central Trust Co. of Illinois, trustee, Chicago. A circular says:

This bond issue is a direct obligation of the Long-Bell Lumber Co., whose total assets at a conservative appraisal amount to $25,510,293. Secured by about 275,000 acres of virgin long and short leaf yellow pine timber lands, owned in fee simple, containing over 3,300,000,000 feet of merchantable pine timber, located in Calcasieu, Rapides and Sabine parishes, La., and San Augustine, Angelina and Sabine Counties, Texas. Also about 100,000 acres of partly cut over lands containing about 350,000,000 feet of pine and hardwood timber; seven large modern saw mill plants with a daily capacity of 1,000,000 feet of lumber. Our appraisal of the present cash market value of the property securing this bond issue is $19,261,167. This appraisal does not include the value of the standing timber on the partly cut over and hardwood lands covered by this mortgage, nor the value of the lands for agricultural purposes when the timber is removed. The mortgage requires, under careful restrictions, a deposit with the Central Trust Co. of Illinois, trustee, of $3 50 per 1,000 feet for all timber manufactured into lumber. This will result in the payment of all of the outstanding bonds long before the timber covered by the mortgage has been exhausted. The net earnings (profits) for the year ending Jan. 1 1907, after crediting stumpage account $4 per 1,000 feet, were $2,330,488—over two and one-half times the largest annual payment of principal and interest. The average net earnings (profits) for the past three years were $1,629,679, over three times the interest charge on this bond issue. The company has a capital and surplus of $15,632,203, has been established 30 years, and possesses the highest credit.

Approximate Balance Sheet After Issuance of New Bonds.

Assets—	$	*Liabilities*—	$
Cash, accts. & notes receiv.	2,126,160	Capital stock	5,381,735

Standing timber, 3,650,000,000 @ $4 50 per M.	16,425,000	Notes payable	878,000
Saw-mill plants, cost $3,379,943; less depreciation, $618,775	2,761,168		
Stock of lumber cos., &c.	2,463,039		
Total	25,510,293	Total	25,510,293

Sufficient of the bonds will be held by the trustee, and the proceeds will be applied by it to the liquidation of all obligations which affect the security for this bond issue. This will result in the payment of the entire indebtedness of the company, both direct and guaranteed, except $878,000, which is amply secured by a separate tract of timber not covered by this mortgage, and which does not fully mature until 1918, and draws only 5% interest.

Abstract of Letter from President R. A. Long, dated Kansas City, Mo., May 5 1907.

The company commenced business in the spring of 1875, its possessions being one small retail lumber yard located at Columbus, Kan., with an investment of not to exceed $5,000, and under the management of the writer. The expansion of the business up to its present condition, aside from borrowed capital, has been practically entirely out of the earnings. We have at present 87 retail lumber yards, located in Kansas, Oklahoma and Indian Territories and Texas; about 416,000 acres of land, over 300,000 of which is virgin timber, containing about 3,650,000,000 feet of timber; 8 modern saw mills, capacity 1,000,000 feet per day; 9 modern planing mills; 47 modern dry kilns; 13 stores, and 1,000 dwelling houses in connection with our mills; 185 miles of railroad, including 20 locomotives and 280 logging cars. We manufacture about 270,000,000 feet of lumber, log scale, per annum. Ship 20,000 cars of lumber per annum.

The largest annual payment on our bond issue, together with interest, is $1,082,000. Our net profits for the year 1906 were $2,330,488, after crediting the timber account with its present value. To determine the value in this instance, at $4 50 per thousand, multiplying by our present producing capacity of 270,000,000, we would have $1,215,000 to add to the profits above mentioned to be disbursed through the channels of cash.

Should we conclude to wind up our affairs and go out of business when our stumpage shall have been exhausted, we would expect to realize not only the total assets listed (in balance sheet) above, but at least $6 per thousand additional, in the conversion of standing timber into lumber, equal to $21,000,000, making the total assets $47,410,293. Deducting for retirement of bonds $9,000,000, and interest thereon $4,266,000; also notes payable $878,000, and interest thereon (last maturity 1918) $300,000, a total of $14,444,000, would leave excess resources of $32,966,293. We have figured eventually to obtain $10 50 per thousand out of our standing timber; we obtained $11 19 per thousand for that manufactured during 1906. The white pine of the North will have been almost entirely exhausted within the next six years, and the pine of the South will practically be gone within the next 18 years. Our lumber at our yards and at our mills is all inventoried together, lumber at yards figured at cost; at mills at $12 per thousand, the same being about $5 per thousand less than the average net price to us.

[The amounts of the company's capital stock and surplus, it will be noted, are given in the foregoing balance sheet and will serve to correct a misstatement as to the surplus and a slight inaccuracy as to the amount of outstanding stock which appeared in our issue of May 4 in connection with the recent increase of the company's share capital.—Ed.]

Louisiana Irrigation & Mill Co.—*Sale of Rice Mill Properties.*—A press dispatch from Lake Charles, La., on June 5 says:

A transfer was recorded here yesterday from the Louisiana Irrigation & Mill Co. to the Consolidated Rice Milling Co. of all its rice-mill properties in Crowley, Morse, Jennings, Roanoke and other points in Calcasieu and Acadia parishes. The consideration named was $400,000. This action was taken pursuant to a plan by which the big rice company proposed to put its planting and its milling operations in the hands of two separate companies.—V. 80, p. 715.

Massillon (O.) Iron & Steel Co.—*New Stock.*—This company, which was incorporated under the laws of Ohio in March 1900, and which in Feb. 1904 increased its capital stock from $150,000 to $500,000, on Feb. 18 1907 filed a certificate of increase of the authorized issue from $500,000 to $2,000,000, all of one class. Of the additional stock the present issue is $500,000, part as dividend to shareholders and part for cash at par. No bonds. The company manufactures cast-iron pipe and fittings. The officers are:

H. A. Croxton, President and Treasurer; F. F. Fisher, Chicago, Ill., Vice-President; J. R. Dangler Jr., Sec. and Asst. Treas. Directors: H.A. Croxton, J. W. McClymonds, C. M. Russell and C. O. Heggem of Massillon, O.; F. F. Fisher, Chicago, Ill.; D. T. Croxton and S. W. Croxton, Cleveland, O. Chicago office, The Rookery.

Mather Humane Stock Transportation Co.—*Notes Offered.*—Brown Bros. & Co., New York, are offering at prices to yield the investor 5¼% the 5% gold notes, series "Q." coupon notes of $1,000 each, dated Feb. 5 1907, maturing Aug. 1 1907 to Feb. 1 1917, both inclusive, $30,000 semi-annually. Interest payable Feb. 1 and Aug. 1; Mercantile Trust Co., New York, trustee. A circular says:

Total authorized and issued, $600,000. Principal and coupons payable at the offices of Brown Brothers & Co., New York, Philadelphia and Boston. These notes are secured by a lien on 1,000 Mather patent stock cars of 60,000 pounds capacity, costing $800,000, against which the notes are issued at 75% of their cost. The title to the entire equipment is vested in the trustee until payment has been made in full for the entire issue of these notes. These cars are now under lease for a fixed monthly rental (for six years from the average date of the delivery of the cars, about July 1 1907 and thereafter until terminated upon sixty days' notice by either party) to the Chicago Rock Island & Pacific Ry. Co. The lessor's rights under the contract being held by the Mercantile Trust Co. of New York, as additional security for these notes. The Mather patent stock cars are specially constructed for the transportation of live stock and have been in successful operation on the larger railroad systems for a number of years.

McCall's Ferry Power Co.—See Susquehanna Power Co., below.—V. 84, p. 629, 274.

Merchants' Refrigerating Co. of Kansas City.—*New Stock.*—This company on June 6 filed at Jefferson City, Mo., a certificate showing: Increase of capital stock from $300,000 to $600,000; assets, $850,000; liabilities, $200,000. Compare V. 82, p. 573, 1500.—V. 83, p. 275.

Mexican Petroleum Co., Limited, of Delaware.—*First Dividend.*—On June 3 a dividend of one-half of 1% a month (6% yearly) was declared on the preferred stock, being equal to 12% on the stock of the old Mexican Petroleum Co. of California. Compare V. 84, p. 629.

Milliken Brothers, Staten Island, N. Y.—*Receivership.*—On Monday a petition in involuntary bankruptcy was filed in New York City against this company by the Niles-Bement-Pond Co. and other creditors, and on Tuesday Judge Holt, in the United States District Court, before whom the proceedings were begun, appointed as receivers August Heckscher, a prominent iron man; William L. Ward, of the Russell, Burdsall & Ward Nut & Bolt Co., and J. Van Vechten Olcott, of the law firm of Dougherty, Olcott & Tenney. The liabilities as catalogued by the counsel for the receivers embrace, in addition to $3,000,000 bonds, $1,100,000 in merchandise debts, divided among some 300 creditors and $2,400,000 in loans, which include $1,050,000 advanced by Foster Milliken and H. S. Manning. The company's embarrassment is attributed to the unexpectedly large cost of the new steel plant, which absorbed, besides the proceeds of the bonds, over $1,000,000 working capital. The bankers who arranged the underwriting of the bonds express the utmost confidence that the interest due on the issue Aug. 1 will be promptly met. They have sent a letter to the bondholders under date of June 11, saying:

The cost of the new plant is stated at approximately $4,850,000. According to appraisals made by experts in 1906, the value of the previously existing plant and real estate was estimated to be $2,084,154. Of this the real estate comprised $1,178,634, which, on the basis of what the real estate in this vicinity has actually been sold for, would to-day represent a very much larger amount. It may, therefore, in our opinion, be conservatively estimated that the fixed assets covered by the $3,000,000 first mortgage 6% bonds amount to nearly $8,000,000. We believe that the assets are ample to secure the bondholders and have every expectation that the bondholders will not suffer any loss of principal or interest.—V. 83, p 1102; V. 82, p. 1215.

Ohio Fuel Supply Co., Columbus, O.—*Report.*—For year ending April 30 1906, contrasting with calendar years 1905 and 1904:

Year—	Gross.	Net.	Dividends.	Surplus.
1906-07	$2,056,941	$968,311	$649,991	$318,320
1905 (cal. year)	1,407,952	650,807	(10%) 424,949	225,858
1904 (cal. year)	1,247,814	554,970	(10%) 399,397	155,573

Of the gross receipts for the late year, $1,989,431 was derived from the sale of natural gas and $26,538 from sale of oil; remainder various. The operating expenses include $172,245 for "gas purchased." An 18-inch pipe line to Norwood, near Cincinnati, was completed during the year.—V. 84, p. 1372, 1185.

Ohio & Indiana Consolidated Natural Gas & Illuminating Co.—*Foreclosure Decree.*—The United States Circuit Court at Indianapolis on June 8 entered decrees of foreclosure against four of the underlying operating companies, viz.: Ohio & Indiana Gas Co., Indiana Natural & Illuminating Gas Co., Logansport & Wabash Gas Co. and Lafayette Gas Co. See statement on page 170 (text) of "Railway & Industrial" section and compare V. 84, p. 1310.

Penmans', Limited, Montreal.—*Listed in Montreal.*—The Montreal Stock Exchange has listed this company's outstanding capital stock, namely, $1,075,000 preferred, which is receiving quarterly dividends at the rate of 6% per annum, and $2,150,600 common stock, on which dividends have been begun at the rate of 1% quarterly. There is also an issue of $2,000,000 bonds. The company has woolen mills at Dover, Paris and Thorold, Ont., and St. Hyacinthe, Que. D. Morrice is President.—V. 83, p. 767.

People's Gas Light & Coke Co. of Chicago.—*Financing by Subsidiary.*—See Indiana Natural Gas & Oil Co. above.—V. 84, p. 576, 394.

Red Bank Oil Co. of Pittsburgh, Pa.—*New Stock.*—This company recently filed a certificate increasing its capital stock from $1,000,000 to $3,000,000. A press report says:

The company was incorporated at Dover, Del., May 26 1906, with a capital stock of $50,000, amended Sept. 29 1906 by increasing its capital stock to $1,000,000. Incorporators include E. A. Kern, A. Neuremburg, J. K. Neagley, all of Pittsburgh, Pa.

Roanoke (Va.) Heat, Light & Power Co.—*Bond Issue.*—This company, it is said, has filed a mortgage with the Girard Trust Co. of Philadelphia to secure $500,000 of 5% 30-year bonds.

Rockingham Power Co.—*New Enterprise—Mortgage.*—This company was incorporated in North Carolina on Feb. 20 1905 and is engaged in the development of over 28,000 hydro-electric horse-power at Bluitt Falls, N. C., on Yadkin River, 9 miles from Rockingham and 130 miles from Wilmington. The work includes the construction of a dam 1,650 feet long and 45 feet high. The authorized capital stock is $3,000,000, in $100 shares, $1,500,000 being common and the remainder 5% preferred, cumulative after 1911; subscribed, $1,500,000 common and $1,100,000 preferred.

In February last a mortgage was filed to the Knickerbocker Trust Co. of New York, as trustee, to secure an issue of $5,000,000 first mortgage 40-year 5% gold bonds, due July 1 1946 but subject to call as an entirety at 105 and interest on any semi-annual interest day after Jan. 1 1916, and further subject to a sinking fund to be applied as set forth in the mortgage. Of these bonds, $2,200,000 are outstanding. Messrs. Hugh McRae & Co. of Wilmington, the Colonial Securities Co. of Boston and Electric Bond & Share Co. of New York are interested. M. F. H. Gouverneur of Wilmington is President. The executive committee in charge of construction is composed of R. L. Warner, Chairman; J. D. Mortimer and Henry A. Pressey, 62 Cedar St., New York.

A press dispatch from Bennettsville, S. C., in February last said:

Within a little more than a year the cotton mills at McColl and Bennettsville will be operated by electric power from the dam across Pee Dee River at Bluitt Falls. The power will be transmitted from the plant to Rockingham, thence by Hamlet to Laurel Hill, thence to McColl, Bennettsville, Lumber, Floyds and Hartsville, with a branch line from Laurel Hill to Laurinburg. The dam is to be 1,650 feet long and 50 feet high, from which it is calculated by the engineers that 28,000 horse-power will be available. The present installation of water-wheels and electrical machinery will deliver 15,000 horse-power. The company has already contracted for 10,000 horse-power. The cotton mills at McColl and Bennettsville will use 1,600 horse-power. The contract provides that it shall be ready for use by July 1 1908.

Salisbury Steel & Iron Co., Utica, N. Y.—*Bonds Offered.*—Miller, Adams & Co., New York, are offering at par and interest, with a bonus of 50% in stock, $100,000 1st mortgage 6% 10-year sinking fund gold bonds, due in 1917 but redeemable at 105 and interest on and after Jan. 1 1912. Interest payable Jan. and July 1. The Citizens' Trust Co. of Utica, N. Y., trustee. Authorized issue $250,000. This corporation was incorporated Nov. 12 1902 under the laws of New York. The authorized capital stock is $1,000,000, in shares of $100 each, of which $900,000 has been issued. A circular says in substance:

The company owns in fee simple magnetic iron ore properties in Herkimer County, N. Y., consisting of 856 acres, with standing timber for all mining requirements, and magnetic iron ore estimated sufficient to produce 1,000 tons per diem, 300 days in the year, for many years. The properties have been extensively developed by working shafts, and there is now ready for treatment and shipment a large tonnage. Two shifts of men, day and night, for the past two years have been developing the property. The ore analyzes 56% to 64% metallic iron, reasonably low in sulphur and phosphorus, and without a trace of titanium. There have been shipped several thousand tons to iron and steel plants, giving excellent satisfaction.

The New York Central & Hudson River RR. Co. has secured, by purchase, the control of the Little Falls & Dolgeville RR., running from Little Falls, N. Y., to Dolgeville, 5 miles from te Salisbury mines, and an arrangement has been entered into whereby the Salisbury Steel & Iron Co. is to build an extension from Dolgeville to its property, this extension to be leased to and operated by the New York Central. This arrangement gives excellent shipping facilities, with low rates. The railroad from Dolgeville is now being built and will be in operation by Aug. 1 1907 ("before Sept. 1."—Ed.). Construction is under way for a modern, electrically driven concentrating mill, with a daily capacity of 500 tons of crude ore, or 300 tons of high-grade concentrates. An aerial tramway, ¾ mile long, is under construction to convey the crude ore from the mine shafts to the mill for treatment. New electrical mining and hoisting equipment has been contracted for, and will be installed at the mine shafts to largely increase the daily output by Aug. 1 1907.

The 5 miles of railroad from Dolgeville to the mines have been constructed at an approximate cost of $100,000. This amount is to be paid back into the treasury by the New York Central, by credits each month of the gross tonnage hauled over this branch, to retire these bonds. There will also be set aside 25% of the net earnings of the mines for the same purpose. It is estimated that with the new equipment the ore and concentrates can be loaded in the cars ready for shipment for $1 10 per ton, including all mining and concentrating expenses. Deducting freight and the cost of mining and concentrating from the average price of this company's product, leaves a gross profit of $2 80 per ton, affording, on a basis of 300 tons daily output of ore and concentrates, $252,000; administration expense and 6% interest on $250,000 bonds, $25,000; available for sinking fund and dividends, $227,000. The management is vested in men of wide experience in the iron business. The directors are: Edward L. Wells, of J. B. Wells, Son & Co., President Standard Harrow Co., Utica, N. Y.; William H. Switzer, General Manager Salisbury Steel & Iron Co., Utica, N. Y.; William Kerby, Merchant, New York City; William J. Myers, Treasurer Union Stove Works, New York City; George C. Wing, Auburn, Me.; Henry N. Clark, Boston, Mass.; A. M. Mills, Little Falls, N. Y. Officers: Edward L. Wells, President; William Kerby, Vice-President; William H. Switzer, Secretary and Treasurer.

Schneible Co. of New York.—*Bond Issue.*—This company, incorporated under the laws of New York, with $1,000,000 authorized capital stock, has made a mortgage dated Mar. 1 1907 to the Northern Trust Co. of Chicago, as trustee, to secure an issue of $100,000 20-year 5% bonds. The com-

pany manufacturers carbonating apparatus. Joseph Schneible is President and William B. Greeley is Treasurer, 138 Mott St., New York City.

Slater Shoe Co.—*New Stock.*—The "Monetary Times" of Toronto on June 8 said:

The capitalization of the Slater Shoe Co. will be increased to $1,000,000, and much of the stock will be taken by the present shareholders. Eight years ago the business was taken over from G. T. Slater & Sons. The trade-marks were then valued at $100,000, and it was claimed recently that they were now worth $1,000,000. The company's trade increased from $500,000 in 1904 and $600,000 in 1905 to an estimated trade of over $1,000,000 this year. For the six months of the spring of 1907 the orders taken aggregated in value in excess of $575,000.

Sloss-Sheffield Steel & Iron Co.—*Earnings.*—The results for the three and the six months ending May 31 1907 (August estimated) were:

Three months ending May 31—	*Net earnings.*	*Interest & taxes.*	*Preferred dividend.*	*Common dividend.*	*Balance Surplus.*
1907 (estimated)	$576,428	$62,300	$114,000	(1¾ %) $125,000	$275,128
1906 (actual)	369,263	70,035	114,000	----------	176,228
Six months—					
1905-06 (est.)	$891,767	$124,610	$228,000	(2½ %) $250,000	$289,157
1904-05 (actual)	800,130	156,786	228,000	----------	415,344

The accrued dividend on the common stock at the present rate of 5% per annum would call for $125,000 for the three months, or $372,000 for the nine months.

Total surplus May 31 1907 (est.), $3,040,784.—V. 84, p. 818, 800, 625.

(L. C.) Smith Transit Co., Syracuse, N. Y.—*Bonds Offered.*—The Detroit Trust Co., Detroit, Mich., the mortgage trustee, is offering its 5% interim receipts to be exchanged for $125,000 first mortgage 5% coupon gold bonds of $1,000 each, secured by a first mortgage on the new steel freighter (under construction) Smith Thompson.

Length of vessel 458 feet, beam 52 feet, depth 28 feet, capacity 7,500 tons (est.); cost $320,000. Bond issue $125,000, to be dated July 1 1907, payable in ten annual installments. Interest payable Jan. 1 and July 1 at office of trustee. Unsold maturities (on $109,000 bonds), 1910 to 1918 inclusive.

Officers—L. C. Smith, President; W. L. Smith, Vice-President; H. S. Wilkinson, Secretary; H. W. Smith, Treasurer.—V. 82, p. 1326.

Sorento Coal Co., Chicago, Ill.—*Called Bonds.*—Ten of this company's bonds are payable on July 1 1907 at the Commonwealth Trust Co., St. Louis, Mo.—V. 81, p. 36.

Southern California Cement Co.—*New Enterprise—Mortgage.*—This company, incorporated in California on Nov. 28 1906 with $2,500,000 authorized capital stock, recently made a mortgage, it is understood, to the Los Angeles Trust Co., as trustee, to secure an issue of $1,000,000 bonds.

The company, it is stated, owns extensive cement rock quarries about 4 miles from Riverside and proposes to build a cement plant with a daily capacity of 4,500 barrels at a new town-site to be known as Crescent City. The same interests have incorporated the Crescent City St. Ry. with $100,000 capital stock. Oakland capitalists are interested. The incorporators of both companies are: George W. Reed, P. C. Black, C. N. Reed, B. H. Griffin and C. T. Walker, all of Los Angeles.

Standard Coupler Co.—*Dividend Increased.*—The directors have declared a semi-annual dividend of 2½% on the $1,200,000 common stock, payable with the usual 4% (semi-annual) on the $300,000 preferred June 29 on stock of record June 24. This increases the annual dividend rate for the common shares to 5%, contrasting with 2% prior to last December. On Dec. 24 1906 2% (semi-annual) was paid, raising the rate to 4%.—V. 83, p. 1596.

Standard Iron Mining & Furnace Co., Philadelphia.—*Bonds at Auction.*—In this city on May 8 Adrian H. Muller & Son sold at auction $225,000 first mortgage skg. fund 5% gold bonds due July, 1933, at 10.

The company owns iron furnaces at Chickies, Lancaster, Pa., having at last accounts a total annual capacity of 33,500 tons; also an ore-briquetting plant with a daily capacity of 140 tons.

Standard Screw Co.—*Dividend Increased.*—The directors on Thursday declared a semi-annual dividend of 3% on the common stock, payable July 1 with the usual 3% on the $2,000,000 preferred, to holders of record June 20. This places the common stock on a 6% basis, as against 5% for recent periods. Compare V. 84, p. 1185.

Suburban Telephone Co., Clayton, Mo.—*Mortgage.*—The "St. Louis Globe-Democrat" of Dec. 20 said:

Suburban Telephone Co., which was organized at Clayton by a number of St. Louis County capitalists, and later sold to the Kinloch Telephone Co. of St. Louis last spring, yesterday filed a deed of trust on its property in the county securing 5% bonds to the amount of $600,000. (In June last the authorized issue of capital stock was increased from $100,000 to $600,000. H. W. Karrenbrock is President and Joseph B. Greensfelder, Secretary.—Ed. "Chronicle.")

Susquehanna Electric Power Co.—See Susquehanna Power Co. below.—V. 79, p. 737.

Susquehanna Power Co.—*New Stock for Projected Enterprise.*—A meeting of the shareholders was to be held at the office in Conowingo, Md., on May 21 for the purpose of increasing the capital stock from $3,500,000 to $5,000,000 by the creation of $1,500,000 preferred stock.

The company is controlled by New York and Philadelphia capitalists, its officers including B. Harvey Welsh, of Philadelphia, Pa., who is President, 1110 Betz Building, Philadelphia, and Joel H. DeVictor, 505 Chestnut Street, Philadelphia, Secretary. Among the directors are: B. Harvey Welsh, Joel H. DeVictor, James H. Harlow, Lemuel H. Woddrop, C. William Woddrop, Edward D. Easton. The plan is to establish an hydro-electric plant on the Susquehanna River near Conowingo, Md., to develop from 50,000 to 70,000 horse power and to transmit the electricity for power and lighting purposes.

The McCall's Ferry Power Co., backed by Harvey Fisk & Sons of New York, has for some months past been engaged in the construction of an extensive hydro electric plant at McCall's Ferry on the Susquehanna about 14 miles above Conowingo. Between the property of the Susquehanna Power Co. and the McCall's Ferry Power Co., it is stated, is the proposed location of the projected plant of the Susquehanna Electric Power Co. (V. 71, p. 250; V. 72, p. 824; V. 75, p. 33, 1150; V. 78, p. 902) in which Baltimore capitalists are interested. The Susquehanna Power Co, first named, was recently involved in litigation with one of its neighbors. The "Manufacturers Record" of Oct. 4 1906 contained a description of the McCall enterprise and the same paper, in its issues of Jan. 3 and Feb. 7 had references to the project of the Susquehanna Power Co.

Tidewater Steel Co.—*Option Sought.*—The reorganization committee have notified the shareholders that a party in Cleveland has asked for an option on the stock at 75 cents per share. Certain large holders, including Dick Brothers & Co., have already given the option asked.—V. 83, p. 690.

Union Home Telephone & Telegraph Corporation, Los Angeles, Cal.—*Acquisitions.*—This company was recently incorporated (V. 83, p. 443) with $10,000,000 of authorized capital stock, of which $1,000,000 has been paid up, and made a mortgage to the Title Insurance & Trust Co. of Los Angeles, as trustee, to secure $10,000,000 bonds.

The corporation is organized to take over independent plants in California. Its first issue of bonds, $1,000,000, is issued to arrange for independent plants in the cities of Long Beach, San Bernardino, Santa Ana, San Pedro and Ventura, and the towns of Fullerton, Colton, Anaheim and Highlands and to enlarge and improve those plants. It is expected that a similar group of independent exchanges will soon be arranged for, and that from time to time this will be repeated.

Bonds 5% gold, $1,000 each, dated Aug. 1 1906, due Aug. 1 1936, but subject to call Aug. 1 1916 in any amount at 105. Annual sinking fund payment, beginning on Oct. 1 1916, 2% on all bonds outstanding. Interest payable Feb. 1 and Aug. 1 at National Bank of California, Los Angeles, and at Chase National Bank, New York.

Directors: Col. J. M. C. Marble, President; Geo. B. Ellis, Vice-President; Jas. N. Baldwin, Secretary; J. E. Fishburn, Treasurer; A. B. McCutcheon, Attorney; W. L. Lissenby, Manager; A. R. Detwiler, John E. Marble, John Van Llew and Frank Wachter.—V. 83, p. 973.

United Bank Note Corporation.—*Large Contract for Controlled Company.*—See "American Bank Note Co." under "Miscellaneous News" on a subsequent page of this issue.—V. 84, p. 225.

United Electric Securities Co., Boston.—*Bonds Offered.*—Parkinson & Burr, New York and Boston, have just purchased a new block of United Electric Securities Co. bonds and offer $100,000 thereof at 99 and interest. These bonds are part of an authorized issue of $500,000 collateral trust gold 5s, 25th series, dated Feb. 1 1907 and due Feb. 1 1937, but callable on any coupon date at 103 and interest. Interest payable Feb. 1 and Aug. 1 at the American Trust Co., Boston. Of the authorized issue, $43,000, we are informed, are about to be canceled. A circular letter says:

This company, since its incorporation in 1890, has issued, including the new series, $15,500,000 of its collateral trust bonds. Of these there have been redeemed and canceled $11,512,000, leaving outstanding at the present time $3,988,000. These present outstanding bonds are secured directly by $5,343,000 collateral in the shape of mortgage bonds and indirectly by $1,500,000 stock and $1,220,000 of accumulated surplus, making a total of $8,063,000 securing the outstanding $3,988,000 collateral trust bonds.—V. 84, p. 225.

United Fruit Co., Boston.—*New Bonds Sold.*—Jackson & Curtis, New York and Boston, offered this week, at prices to yield the investor 6¾% interest, and have since sold, the $1,600,000 5% serial bonds authorized in connection with the purchase of the Nipe Bay Co. (Compare V. 84, p. 1311). These bonds are dated June 1 1907, due in equal annual installments from June 1 1909 to June 1 1918, but callable on any interest day after June 1 1910 at 103 and interest. Interest payable Dec. 1 and June 1. The advertisement says:

The bonds are a direct obligation of the United Fruit Co. and rank ahead of $18,349,000 stock-paying dividends of 8% yearly. The company has no mortgage debt and agrees not to place any mortgage on its property during the life of this issue without securing these bonds under such mortgage. For the fiscal year ending Sept. 30 1906 the company reported net income of $3,900,887, with total interest charges of $114,353. Since the last report there have been retired or converted into stock $488,000 bonds, so that there are outstanding to-day $18,349,000 stock and $1,332,000 convertible bonds.—V. 84, p. 1311, 1057.

United Shoe Machinery Corporation, Boston.—*Stock Dividend.*—The directors yesterday declared a stock dividend of 25% on the common stock calling for the issue of about 179,000 new common shares. The regular quarterly dividend of 2% on the stock was also declared. The "Boston News Bureau" gives the following to show that the company has increased its capital by only 53% in the past eight years, while the net earnings per annum have increased 155%.

Results for Years Ending March 1.

	Capital Stock.	*Total Surplus.*	*Net Earnings.*	**Earnings on Com. Stock.*
1906-07	$27,224,200	$11,126,000	$4,183,000	$5.06
1905-06	25,530,337	8,774,605	3,596,200	4.24
1904-05	20,657,894	6,710,914	3,052,910	3.48

* As applied to the 714,313 shares of common stock now outstanding.—V. 84, p. 1372.

United States Crushed Stone Co., Chicago.—*Bond Issue.*—This company, incorporated under the laws of the State of Maine, its capital stock being $600,000, all of one class and all outstanding, par of shares $100, has made a consolidated first mortgage to the First Trust & Savings Bank and Emile K. Boisot, both of Chicago, as trustees to secure an issue of $600,000 5% gold bonds, dated April 1 1907.

The bonds will mature April 1 1927, but are subject to call on April 1 1912 or any interest day thereafter to any amount at 105. Interest payable April 1 and Oct. 1 at office of First Trust & Savings Bank, Chicago. Annual sinking fund, beginning April 1 1912, in amount sufficient to pay 2½% of outstanding bonds yearly. Of the authorized issue $110,000 is reserved to retire $100,500 underlying mortgages. The deed of trust covers both the McCook Quarry, with 170 acres of stone land in Cook County, Ill., and the Ives Quarry in Racine County, Wis., with 100 acres; also large crushing plants. The properties, it is said, have a capacity of 900,000 tons per year. President, Charles A. Klotz; Secretary and Treasurer, Samuel Deutsch.

United States Envelope Co., Springfield, Mass.—*Acquisition—New Plant.*—Treasurer M. M. Wharfield recently confirmed the reported purchase of a large tract of land lying between the railroad and Cypress Street, Springfield, Mass., as the site for a large factory building, which, as tentatively planned, would cost from $300,000 to $400,000, and contain between 350,000 and 400,000 square feet of floor space, being, it is said, about twice what the company has now. Definite plans, financial and otherwise, in connection with the undertaking, have yet to be concluded.—V. 83, p. 378, 384.

United States Rubber Co.—*Listed.*—The New York Stock Exchange has listed $800,000 additional first preferred stock with an extension of time to Nov. 1 1907, to be granted to the company to list $2,413,900 additional first preferred and $151,400 additional second preferred, making the totals authorized to be listed under this and previous applications as follows: $38,676,900 first preferred and $10,000 second preferred. The last official application says:

The present authorized capital stock consists of $40,000,000 1st preferred, $10,000,000 second pref. and $25,000,000 common stock. There is now outstanding $36,263,000 first preferred and $9,848,600 second preferred and $25,000,000 common. Of the common stock $1,334,000 is in the treasury of the Meyer Rubber Co. and has not been listed. In the application dated Jan. 31 1906 it was stated that the Meyer Rubber Co., one of the original subsidiary companies, had for some years served as a holding company for the United States Rubber Co. and had acquired and then held in its treasury 58,000 shares of the first preferred stock of the United States Rubber Co. Under said application of Jan. 31 1906, authority was given for the listing of 50,000 of said shares of first preferred stock so held by said Meyer Rubber Co., which said Meyer Rubber Co. had then sold for cash. It being deemed desirable that said company should convert into cash the remaining 8,000 shares of first preferred stock still held in its treasury, said Meyer Rubber Co. has sold said 8,000 shares on the basis of $100 per share, or for the sum of $800,000, which sum has been received in cash in its treasury for its corporate purposes, and ultimately for the corporate purposes of the United States Rubber Co.—V. 84, p. 1373, 1252.

United Steel Co., Canton, O.—*New Stock.*—This company, incorporated in Delaware on July 23, 1902, with $500,000 capital stock, to build an open-hearth furnace at Canton, to supply the Carnahan Tin Plate & Sheet Co. (V. 84, p. 695) and other Canton enterprises with steel, has increased its capital stock from $500,000 to $750,000. J. E. Carnahan is President.

United Water Improvement Co., Philadelphia.—*Receivership.*—Judge McGill in the Common Pleas Court at Philadelphia on May 31 appointed President W. W. Gibbs of Philadelphia as receiver for the company in equity proceedings brought by the Electric Storage Battery Co., a creditor to the extent of $2,845. The company admits that it is temporarily embarrassed for want of ready money.

The company was organized by Mr. Gibbs in 1905 with $5,000,000 capital stock, of which $1,000,000 is 7% preferred (par of shares $50), to purchase, oreign patents covering the ozone system for the purifiation of water and to install this system for municipalities in the United States. The outstanding capital stock is stated as $4,728,000, of which $728,000 is preferred. The common stock, it was said, would be given as a bonus with the preferred. The floating debt is now stated as about $100,000. Negotiations for the establishment of the system in New York City are reputed to have progressed favorably.

Warwick & Coventry (R. I.) Water Co.—*New Mortgage.*—A mortgage has been filed to the Industrial Trust Co. of Providence, as trustee, to secure $500,000 5% bonds.

Of this issue $250,000 will be reserved to take up the $250,000 first mortgage 5% bonds maturing in 1909, and the remainder will be used for improvements and additions, including the purchase of other companies. Company was incorporated in 1887 by General Assembly of Rhode Island. Options at $30 per share were recently reported to have been secured on all the common stock of the Pawtuxet Valley Water Co. John J. Arnold is President and Herbert B. Barton, Secretary.

Western Union Telegraph Co.—*Quarterly.*—Earnings (partly estimated) for the quarter and the twelve months ending June 30 were:

3 months ending June 30—	*Net revenue.*	*Interest charge.*	*Dividends paid.*	*Balance, surplus.*
1906 (est.)	$1,650,000	$366,187	$1,217,024	$66,789
1905 (actual)	1,740,634	334,075	1,217,022	189,537
12 months—				
1905-06 (est.)	$6,437,009	$1,397,750	$4,868,094	$171,165
1904-05 (actual)	7,070,582	1,327,975	4,868,088	874,519

Total surplus (estimated) June 30 1907 was $16,019,893.

The regular quarterly dividend of 1¼% has been declared, payable July 15.—V. 84, p. 808.

—The American Bank Note Co. has just completed the order of the New York New Haven & Hartford RR. French loan for $29,000,000. There were 290,000 bonds of 500 francs denomination. This required the engraving of about 114 plates weighing 2,000 pounds and the printing of 4,350,000 separate impressions. Including coupons, there were 18,270,000 numbers placed on the bonds. If the total number of sheets were laid lengthwise, in one continuous line, they would reach 206 miles. Almost 12 miles of wire stapling and 55 miles of tape were used to bind bonds and coupons, and the total weight of both was 10¾ tons. Deliveries were made at the rate of 10,000 bonds a day. The printing is in green ink and the text of both bond and coupons are in English and French. The printing of such securities is done with rigid care. The American Bank Note Co., which made both the fifty million loan of the Pennsylvania and the New Haven bonds, employs a system of scrutiny that traces the minutest detail of manufacture. From the time the paper leaves the mill until the finished bonds are delivered every step is watched. The sheets in the New Haven issue were counted about sixteen million times during manufacture.

—O. M. Hopkins, who for several years was in the Boston office of E. H. Rollins & Sons, and for the past few years has been associated with the Chicago bond house of F. R. Fulton & Co., has opened an independent office in the Tacoma Building, Chicago, 131 La Salle Street, and will deal in municipal bonds and other high-grade investment securities.

—The Landis Banking Company of Nashville, Tenn., has removed to new offices on the ground floor of the Stahlman Building. Every modern device is utilized in the new quarters to facilitate the conduct of the company's business.

—Waterman, Anthony & Co., 67 Exchange Place, have issued a booklet entitled "Conservatism in Speculation," giving advice as to methods of operating in the stock market.

—Attention is called to the advertisement of "Manufacturing" offering treasury stock.

The Commercial Times.

COMMERCIAL EPITOME.

Friday Night, June 14 1907.

Although trade is still hampered by a backward season aggregate transactions remain very large. In fact they continue to record gains over a year ago and still more so when compared with those of two years ago. The feeling is confident, prices are firm, manufacturers are everywhere active.

LARD on the spot has declined, owing to weakness in the market for futures at the West, the break in the grain markets and a reactionary tendency in live hogs. Trade has been stagnant at the decline. City 8.62½c. and Western 8.60@8.75c. Refined lard has also declined with trade dull and offerings larger. Refined continent 9.25c., South America 10.35c. and Brazil in kegs 11.35c. The speculation in lard futures at the West has been active with the tendency of prices towards a lower level. The decline in the grain markets has had a depressing effect; so has the dulness of the spot trade and an easier tone at the stock yards. Packers have bought at times but there has been a lack of aggressive support.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

	Sat.	*Mon.*	*Tues.*	*Wed.*	*Thurs.*	*Fri.*
July delivery	9.02½	8.90	8.75	8.55	8.67½	8.60
September delivery	9.20	9.07½	8.92½	8.72½	8 85	8.75
October delivery	9.20	9.07½	8.92½	8.72½	8.82½	8.75

PORK on the spot has been easier, but there has been no marked change in quotations. Trade has been quiet. Mess $17 50@$18 25 clear $17 25@$18 and family $19@$19 50 Cut meats have been irregular but in the main easier, owing to dulness and larger offerings. Pickled shoulders 9¾@10c., pickled hams 12¼@12½c. and pickled bellies 10¾@11¼c. Tallow has been quiet and steady; city 6¼@6½c. Stearines have been moderately active and firm: oleo 9½@9¾c. and lard 10¼c. Butter has been quiet and easier; creamery extras 23½@24c. Cheese has been weak on large stocks; State, small or large, colored or white, best, 11¾c. Eggs have been quiet and easy; Western, firsts, 15½@15¾c.

OIL.—Cotton seed has been quiet and easy. Prime summer yellow 59@61c.; prime winter yellow 64@65c. Linseed has been active and firm. Refiners show disinclination to sell for forward delivery. City, raw, American seed, 45@46c.; boiled 46@47c.; Calcutta, raw, 70c. Lard has been quiet and easier owing to lower prices for the raw material. Prime 76@78c.; No. 1 extra 57@58c. Cocoanut has been quiet and steady; Cochin 10¼@10½c. and Ceylon 9⅛@9¼c. Peanut has been quiet and steady; yellow 50@60c. Olive has been fairly active and steady; yellow 85@90c. Cod has been in moderate demand and steady; domestic 38@40c. and Newfoundland 40@42c.

COFFEE on the spot has been dull at 6¾c. for Rio No. 7. West India growths have been quiet and steady. Fair to good Cucuta 8⅛@9¼c. The speculation in future contracts has been extremely dull with correspondingly small fluctuations in prices. The feeling has been somewhat easier in the main, but this has been due as much as anything to the stagnation of the speculation. There has been some selling, however, against firm offers from Brazil and some tired holders have liquidated. Rumors that the valorization scheme has been abandoned have been ridiculed and have had little effect on the market. It is stated, however, that the Brazilian Government has ceased making purchases.

The closing prices were as follows:

June	5.40c.	October	5.15c.	February	5.25c.
July	5.20c.	November	5.15c.	March	5.30c.
August	5.15c.	December	5.20c.	April	5.30c.
September	5.15c.	January	5.25c.	May	5.35c.

SUGAR.—Raw has been dull and easy. Centrifugal 96-degrees test 3 13-16c., muscovado 89-degrees test 3 5-16c. and molasses 89-degrees test 3 1-16c. Refined has been dull and steady. The continued unseasonably cold weather has affected consumption. Granulated 4.90c. Teas have been moderately active and firm. Spices have been steady and in fair demand. Hops have been quiet and steady.

PETROLEUM.—Refined has been in active demand for both export and domestic account, and prices have ruled strong. Refined, barrels, 8.45c., bulk 5c. and cases 10.90c. Naphtha has been active and firm; 73@76-degrees 18c. in 100-gallon drums. Gasoline has been active and firm; 86-degrees 21c. in 100-gallon drums. Spirits of turpentine has been fairly active and steady at 60½@61c. Rosin has been quiet and easier at $4 55 for common to good strained.

TOBACCO.—The market for domestic leaf has been quiet. Manufacturers, as a rule, report that transactions are confined to small lots. More cigar-makers are idle than for some years past, though this is due not only to the dulness of trade but also to the strike among shippers. The tone of the market, however, has been generally firm. Crop reports as a rule are less favorable, owing to the continued unseasonably low temperatures and excessive moisture. Sumatra has been firm. At the last inscription 3,500 bales of Sumatra were purchased for American account.

COPPER has been less active and easier; lake 24@24¼c. and electrolytic 22⅞@23c. Lead has been fairly active and steady at 5.80@5.85c. Spelter has been quiet and steady at 6.52½@6.55c. Tin has been less active and irregular; Straits 41½@41¾c. Iron has been firm and more active; No. 1 Northern $24 20@$25 20, and No 2 Southern $24@$25

COTTON.

Friday Night, June 14 1907.

THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. For the week ending this evening the total receipts have reached 27,775 bales, against 30,299 bales last week and 17,513 bales the previous week, making the total receipts since the 1st of September 1906, 9,548,588 bales, against 7,513,118 bales for the same period of 1905-06, showing an increase since Sept. 1 1906 of 2,035,470 bales.

Speculation in cotton for future delivery has shown somewhat less activity, and under the influence of better weather over most of the belt prices have declined. The decline has not been very marked, for most of the crop advices have been of an unfavorable kind, speaking of poor stands, grassy fields, weak or dying plants in some sections, and a degree of development at the best which is far behind the normal. The weather in Texas has been hot and dry however, and elsewhere the conditions have been seemingly so much more favorable than recently that not a little liquidation has been done both at home and abroad. Some evidently groundless rumors were in circulation on Wednesday to the effect that financial trouble was impending in the dry goods trade of this city, and until they were emphatically denied they had some effect. It is admitted of course that the backwardness of the season this year has had an unfavorable influence on retail trade in spring and summer cotton fabrics, but conditions in the dry goods trade for all that are considered eminently sound. On Thursday a report that M. C. D. Borden had bought the entire stock of print cloths at Fall River and had advanced the price 1/16c. had a stimulating effect, as it was taken to be a rather striking object lesson, showing the feeling of confidence at the East. In the main, however, it has been a week of liquidation in the markets for cotton futures, owing to some improvement in the weather, and also to the fact that comparatively cheerful crop reports are more numerous than they were recently, although the fact is not questioned that the season is late. Moreover, the special report of a New Orleans newspaper which appeared on Monday last was by no means so bullish as had been generally expected, although it dwelt with a certain emphasis on the familiar drawbacks of the present season, and even took the ground that there is likely to be a distinct decrease in the acreage this season, the precise extent of which, however, it did not undertake to determine. To-day, after a slight advance at the opening, prices again fell off, mainly owing to quite a good weather map, some rather favorable crop reports from some sections and general, if moderate, liquidation. The South and Wall Street sold, and some of the room traders sold more freely for a decline, while outside speculation for a rise was less active. Spot cotton has been quiet during the week. Middling uplands closed at 13.15c., showing a decline for the week of 10 points.

The rates on and off middling, as established Nov. 21 1906 by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows:

Fair	c.	2.00 on	Strict low mid.	c.	0.14 off	Middling tinged	c.	0.12 off
Strict mid. fair		1.75 on	Fully low mid.		0.32 off	Strict low mid. tinged		0.46 off

Houston, "	2,716	2,913,688	5,202	24,799	5,678	2,011,290	6,518	20,442
Paris, "	----	96,981	----	----	----	66,346	100	200
Total, 33 towns	18,295	7,251,048	42,606	217,927	17,036	5,156,042	36,986	229,409

The above totals show that the interior stocks have *decreased* during the week 24,311 bales, and are to-night 11,482 bales less than at the same time last year. The receipts at all the towns have been 1,259 bales more than the same week last year.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since Sept. 1, as made up from telegraphic reports Friday night. The results for the week and since Sept. 1 in the last two years are as follows:

	——1906-07——		——1905-06——	
June 14—		*Since*		*Since*
Shipped—	*Week.*	*Sept. 1.*	*Week.*	*Sept. 1.*
Via St. Louis	5,957	777,265	4,415	503,270
Via Cairo	994	212,256	424	198,453
Via Rock Island	592	81,545	314	43,842
Via Louisville	688	83,517	980	98,620
Via Cincinnati	730	52,847	848	56,300
Via other routes, &c.	1,394	425,051	2,498	247,672
Total gross overland	10,355	1,632,481	9,479	1,148,157
Deduct shipments—				
Overland to N. Y., Boston, &c.	1,378	162,036	788	140,206
Between interior towns	25	93,149	103	19,534
Inland, &c., from South	3,486	65,249	3,395	54,206
Total to be deducted	4,889	320,434	4,286	213,946
Leaving total net overland *a*	5,466	1,312,047	5,193	934,211

a Including movement by rail to Canada.

The foregoing shows the week's net overland movement has been 5,466 bales, against 5,193 bales for the week last year, and that for the season to date the aggregate net overland exhibits an increase over a year ago of 377,836 bales.

	——1906-07——		——1905-06——	
In Sight and Spinners' Takings.	*Week.*	*Since Sept. 1.*	*Week.*	*Since Sept. 1.*

WEATHER REPORTS BY TELEGRAPH.—Our telegraphic reports from the South this evening indicate that the weather has been favorable quite generally the past week. Rain has fallen in most sections, but on the whole the precipitation has been light, and in a number of districts of Texas dry weather has prevailed. As a rule our advices denote that the crop is improving. Boll-weevils are claimed to have caused some damage in Texas.

Galveston, Texas.—Favorable weather has permitted farmers to make good progress in clearing crops and getting stands. There are complaints coming in from some sections of Texas of damage by boll weevils and in other districts it is claimed that showers would be beneficial. Rain has fallen on one day of the week, to an inappreciable extent. Average thermometer 82, highest 86, lowest 78.

Cuero, Texas.—We have had no rain during the week. Average thermometer 86, highest 98 and lowest 74.

Dallas, Texas.—We have had excessive rain on one day during the week, the precipitation being one inch and eighty-one hundredths. The thermometer has averaged 80, the highest being 95 and the lowest 65.

Fort Worth, Texas.—We have had rain on one day of the week, the precipitation being eighty-two hundredths of an inch. The thermometer has averaged 80, ranging from 66 to 94.

Henrietta, Texas.—There has been rain on one day the past week, the rainfall being forty hundredths. The thermometer has ranged from 60 to 103, averaging 82.

Huntsville, Texas.—We have had no rain during the week. Average thermometer 85, highest 95 and lowest 74.

Kerrville, Texas.—Rain has fallen lightly on one day of the week, to the extent of two hundredths of an inch. The thermometer has averaged 82, the highest being 93 and the lowest 70.

Lampasas, Texas.—We have had no rain the past week. Thermometer has averaged 85, ranging from 70 to 99.

Longview, Texas.—We have had no rain during the week. The thermometer has ranged from 73 to 96, averaging 85.

Luling, Texas.—We have had no rain during the week. Average thermometer 84, highest 93 and lowest 75.

Nacogdoches, Texas.—We have had no rain the past week. The thermometer has averaged 82, the highest being 91 and the lowest 73.

Palestine, Texas.—We have had no rain during the week. Thermometer has averaged 82, ranging from 74 to 90.

Paris, Texas.—We have had rain on three days during the week, the precipitation being ninety hundredths of an inch. The thermometer has ranged from 65 to 92, averaging 79.

San Antonio, Texas.—There has been no rain the past week. Average thermometer 85, highest 96 and lowest 74.

Weatherford, Texas.—We have had showers on two days during the week, to the extent of twenty-seven hundredths of an inch. The thermometer has averaged 82, the highest being 98 and the lowest 66.

New Orleans, Louisiana.—We have had rain on two days of the week, the precipitation being twenty-six hundredths of an inch. The thermometer has averaged 81.

Shreveport, Louisiana.—There has been no rain the past week. The thermometer has ranged from 71 to 93.

Leland, Mississippi.—We have had rain during the week, the rainfall reaching ninety-six hundredths of an inch. Average thermometer 74, lowest 87 and lowest 60.

Vicksburg, Mississippi.—We have had rain on one day during the week, the precipitation being two inches and twenty hundredths. The thermometer has averaged 77, the highest being 88 and the lowest 65.

Helena, Arkansas.—Condition of cotton is slightly improved, but the plant is backward. Rain has fallen lightly on two days of the week, the precipitation reaching thirty-seven hundredths of an inch. The thermometer has averaged 42.6, ranging from 32 to 53.

Little Rock, Arkansas.—The weather has continued favorable for farming operations. Cotton is improving but the plant is still small and about five weeks late. We have had rain on one day during the week, the precipitation being eighty-two hundredths of an inch. The thermometer has ranged from 65 to 91, averaging 78.

Nashville, Tennessee.—The weather the past week has been favorable for crops. We have had rain to the extent of one inch and forty-three hundredths. The thermometer has averaged 75, the highest being 91 and the lowest 60.

Memphis, Tennessee.—Continued favorable weather the past week and crop reports are improving. We have had rain on two days during the past week, the rainfall being twenty-eight hundredths of an inch. Average thermometer 79.2, highest 89.2 and lowest 67.2.

Augusta, Georgia.—We have had rain on three days the past week, to the extent of fifty-eight hundredths of an inch. The thermometer has averaged 78, ranging from 56 to 96.

Mobile, Alabama.—Weather has been favorable and crop reports are improving. We have had rain on two days during the week, the rainfall being eight hundredths of an inch. Thermometer has averaged 79, ranging from 73 to 88.

Montgomery, Alabama.—Crops are improving some and farmers are hard at work conquering grass. There has been rain on two days of the past week, the rainfall being forty-six hundredths of an inch. The thermometer has ranged from 66 to 91, averaging 78.

Selma, Alabama.—There has been rain on two days the past week, the rainfall being one inch. Average thermometer 76.5, highest 87, lowest 66.

Madison, Florida.—We have had light showers on two days during the week. The thermometer has averaged 81, the highest being 93 and the lowest 70.

Savannah, Georgia.—There has been rain on three days during the week, the precipitation being one inch and eighteen hundredths. The thermometer has ranged from 65 to 96, averaging 79.

Charleston, South Carolina.—Rainfall for the week thirty-three hundredths of an inch, on four days. Average thermometer 79, highest 90 and lowest 67.

Charlotte, North Carolina.—We have had rain during the week, the rainfall being one inch. The thermometer has ranged from 57 to 85, averaging 71.

The following statement we have also received by telegraph, showing the height of rivers at the ports named at 8 a. m. of the dates given:

		June 14 1907.	June 15 1906.
		Feet.	Feet.
New Orleans	Above zero of gauge	15.8	8.5
Memphis	Above zero of gauge	26.6	15.2
Nashville	Above zero of gauge	27.0	8.0
Shreveport	Above zero of gauge	26.9	13.3
Vicksburg	Above zero of gauge	37.5	23.2

ALEXANDRIA RECEIPTS AND SHIPMENTS OF COTTON.—Through arrangements made with Messrs. Choremi, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years:

Alexandria, Egypt, June 12.	1906-07.		1905-06.		1904-05.	
Receipts (cantars *a*)—						
This week	2,500		1,600		16,000	
Since Sept. 1	6,852,990		5,868,107		6,182,171	
Export (bales) *b*—	*This week.*	*Since Sept. 1.*	*This week.*	*Since Sept. 1.*	*This week.*	*Since Sept. 1.*
To Liverpool	1,750	206,187	750	102,697	3,500	206,687
To Manchester	3,000	103,477		163,849		143,402
To Continent	6,000	329,906	2,750	308,744	8,000	204,740
To America	1,750	108,839	100	67,736	600	67,747
Total exports	12,500	838,409	3,600	733,026	12,100	712,576

a A cantar is about 99 lbs. *b* Egyptian bales weigh about 750 lbs.

JUTE BUTTS, BAGGING, ETC.—The demand for jute bagging has been strictly moderate during the week under review, but prices are firm at 9¾c. for 2 lbs., standard grades. Jute butts dull at 3@4c. for bagging quality.

WORLD'S SUPPLY AND TAKINGS OF COTTON.—The following brief but comprehensive statement indicates at a glance the world's supply of cotton for the week and since Sept. 1, for the last two seasons, from all sources from which statistics are obtainable; also the takings, or amount gone out of sight, for the like period.

Cotton Takings. Week and Season.	1906-07.		1905-06.	
	Week.	*Season.*	*Week.*	*Season.*
Visible supply June 7	4,050,708		3,599,269	
Visible supply Sept. 1		1,784,156		2,545,470
American in sight to June 14	56,930	12,928,286	61,101	10,434,561
Bombay receipts to June 13	58,000	2,763,000	24,000	2,462,000
Other India shlp'ts to June 13	19,000	343,000	18,000	292,000
Alexandria receipts to June 12	500	914,000	400	782,400
Other supply to June 12 *a*	15,000	321,000	10,000	448,000
Total supply	4,200,138	19,053,442	3,712,770	16,964,431
Deduct—				
Visible supply June 14	3,903,829	3,903,829	3,451,471	3,451,471
Total takings to June 14	296,309	15,149,613	261,299	13,512,960
Of which American	177,809	11,293,613	215,899	10,082,560
Of which other	118,500	3,856,000	45,400	3,430,400

a Embraces receipts in Europe from Brazil, Smyrna, West Indies, &c.

EUROPEAN COTTON CONSUMPTION TO JUNE 1.—By cable to-day we have Mr. Ellison's cotton figures brought down to June 1. We give also revised totals for last year that comparison may be made. The spinners' takings in *actual* bales and pounds have been as follows:

Oct. 1 to June 1.	*Great Britain.*	*Continent.*	*Total.*
For 1906-07.			
Takings by spinners.....bales.	3,052,000	4,791,000	7,843,000
Average weight of bales...lbs.	502	480	488.6
Takings in pounds	1,532,104,000	2,299,780,000	3,831,884,000
For 1905-06.			
Takings by spinners.....bales.	2,873,000	3,973,000	6,846,000
Average weight of bales....lbs.	497	481	487.7
Takings in pounds	1,427,681,000	1,911,013,000	3,338,694,000

According to the above, the average weight of the deliveries in Great Britain is 502 pounds per bale this season against 497 pounds during the same time last season. The Continental deliveries average 480 pounds, against 481 pounds last year, and for the whole of Europe the deliveries average 488.6 pounds per bale, against 487.7 pounds last season. Our dispatch also gives the full movement for this year and last year in bales of 500 pounds.

Oct. 1 to June 1. Bales of 500 lbs. each. 000s omitted.	1906-07.			1905-06.		
	Great Britain	*Continent.*	*Total.*	*Great Britain*	*Continent.*	*Total.*
Spinners' stock Oct. 1	253	556	809	256	621	877
Takings to June 1	3,064	4,600	7,664	2,855	3,822	6,677
Supply	3,317	5,156	8,473	3,111	4,443	7,554
Consumption, 35 weeks	2,644	3,675	6,319	2,590	3,535	6,125
Spinners' stock June 1	673	1,481	2,154	521	908	1,429
Weekly Consumption, 000s omitted.						
In October	74	105	179	74	101	175
In November	74	105	179	74	101	175
In December	75	105	180	74	101	175
In January	75	105	180	74	101	175
In February	76	105	181	74	101	175
In March	76	105	181	74	101	175
In April	77	105	182	74	101	175
In May	77	105	182	74	101	175

The foregoing shows that the weekly consumption is now 182,000 bales of 500 pounds each, against 175,000 bales of like weights at the corresponding time last year. The total spinners' stocks in Great Britain and on the Continent have increased 6,000 bales during the month and are now 725,000 bales more than at the same time last season.

INDIA COTTON MOVEMENT FROM ALL PORTS.—The receipts of cotton at Bombay and the shipments from all India ports for the week and for the season from Sept. 1 for three years have been as follows:

Domestic Exports of Cotton Manufactures on page 1408.

SHIPPING NEWS.—As shown on a previous page, the exports of cotton from the United States the past week have reached 35,424 bales. The shipments in detail, as made up from mail and telegraphic returns, are as follows:

	Total bales.
NEW YORK—To Liverpool—June 12—Bovic, 2,140....June 13—Baltic, 1,719 upland, 369 foreign	4,228
To Hull—June 11—Consuelo, 100	100
To London—June 8—Minneapolis, 148	148
To Havre—June 7—Hudson, 9 Sea Island, 56 foreign	65
To Marseilles—June 12—Rhodesian, 1,800	1,800
To Bremen—June 10—Barbarossa, 473	473
To Hamburg—June 7—Pretoria, 24	24
To Antwerp—June 8—Vaderland, 244	244
To Barcelona—June 10—Westonby, 703	703
To Genoa—June 8—Regina d'Italia, 275; Virginia, 300	575
To Naples—June 7—Neckar, 100....June 8—Virginia, 50	150
GALVESTON—To Hamburg—June 10—St. Jan, 776	776
NEW ORLEANS—To Liverpool—June 7—Antillian, 2,135	2,135
To Belfast—June 7—Rathlin Head, 945	945
To Bremen—June 12—Manhattan, 5,000	5,000
To Antwerp—June 12—Manhattan, 814	814
SAVANNAH—To Hamburg—June 8—Recta, 100	100
To Barcelona—June 12—Marianne, 5,268	5,268
To Genoa—June 12—Marianne, 100	100
To Naples—June 12—Marianne, 200	200
To Trieste—June 12—Marianne, 336	336
To Venice—June 12—Marianne, 35	35
BOSTON—To Liverpool—June 10—Saxonia, 1,648	1,648
To Manchester—June 7—Iberian, 1,027	1,027
To Hamburg—June 11—Swakopmund, 3	3
To Yarmouth—June 8—Prince George, 50	50
BALTIMORE—To Liverpool—June 7—Templemore, 1,507	1,507
To Bremen—June 8—Gera, 77....June 11—Darmstadt, 450	527
SAN FRANCISCO—To Japan—June 11—Asia, 1,237	1,237
SEATTLE—To Japan—June 11—Kaga Maru, 2,261	2,261
TACOMA—To Japan—June 11—Yangtsze, 2,945	2,945
Total	35,424

The particulars of the foregoing shipments for the week, arranged in our usual form, are as follows:

	Great Britain.	*French ports.*	*Germany.*	*—Oth. Europe— North.*	*South.*	*Mex., &c.*	*Japan.*	*Total.*
New York	4,476	1,865	497	----	1,672	---	---	8,510

BREADSTUFFS.

Friday, June 14 1907.

Prices for wheat flour have declined as a rule, influenced mainly by the break in wheat quotations and the improved crop outlook in this country; but the continued dulness of trade has also contributed to the depression. Buyers show little inclination to take more than enough flour to satisfy immediate requirements, while export trade has continued at a standstill. Reports from the large milling centres of the Northwest and the Southwest, as well as from the West, show that trade there has also been on a very restricted scale. Corn meal and rye flour have been quiet and steady.

Wheat has declined sharply, owing to better weather, more favorable crop accounts and liquidation both at home and abroad. The Government report which was issued on June 10 was not so unfavorable as had been expected. It gave the condition of winter wheat on June 1 as 77.4%, against 82.9 on May 1 this year and 82.7 on June 1 last year. The acreage was stated as 28,132,000 acres, against 29,623,000 last year. The crop, on this basis, is estimated at 379,782,000 bushels, against 492,888,004 last year and 428,462,834 the year before. The spring-wheat condition was given as 88.7%, against 93 last year, which was taken to mean a crop of 255,192,000 bushels, against 242,372,966 last year and 264,516,055 the year before. The total crop is thus estimated at 634,974,000 bushels, against the final yield last year of 735,260,000 bushels and in the year before 692,979,000 bushels. Some of the very large Western operators, having recently sold out their "long" holdings, took the opposite tack and have recently been endeavoring to depress the market. Favored by the better weather and the more cheerful character of the crop advices, both at home and abroad, they have had considerable success. On Wednesday prices fell about 3 cents. In fact, the general trend of prices has been downward ever since the Government report appeared, as it showed that conditions in the belt were better than had been generally supposed. Furthermore, the world's shipments were very large and the foreign markets have been declining. Private advices from the Northwest have been more favorable. The Kansas State report was not very cheerful, but it has been offset by the conditions elsewhere in the belt. About the only new bullish feature has been some increase in the export demand. The crop estimates show, too, that the yield in this country this season is likely to be fully 100,000,000 bushels smaller than that of last year, and though the European outlook has improved somewhat, it appears to be taken for granted that its production will be rather less than that of last year. To-day prices gave way again under continued favorable weather, crop reports of a more cheerful character and some decline in Liverpool, where cargoes off coast were reported to be offered more freely. The Continental markets, however, were noticeably steady.

DAILY CLOSING PRICES OF WHEAT FUTURES IN NEW YORK.

Dec. delivery in elevator	100¾	99⅜	97½	94½	96⅛	93⅞

Indian corn futures have declined, owing to the sharp reaction in wheat and oats and general liquidation. The crop is undoubtedly backward in many sections, but the weather of late has been warmer, as a rule, with more sunshine, and there is believed to be still plenty of time for the crop to catch up. The receipts, furthermore, have been large, country acceptances have increased at times and the cash demand has been dull at easier prices. Contract stocks at Chicago, however, continue small, and this fact has tended to restrict short selling. To-day prices declined on the weakness of wheat, favorable weather and liquidation.

DAILY CLOSING PRICES OF NO. 2 MIXED CORN IN NEW YORK.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Frl.
Cash corn	64½	64½	64	61	62	62

September delivery in elevator	54	53¾	53¼	52⅝	52⅜	51⅞
December delivery in elevator	52	52¼	51	51	51¼	50¼

Oats for future delivery in the Western market have declined sharply, owing mainly to heavy liquidation attributed to interests recently prominent on the long side of the market. Then, too, bears have shown more aggressiveness, the cash trade has been dull, and some of the private crop reports have been more favorable. The Government report on the 10th inst. was better than expected, stating the condition on June 1 at 81.6%, against 85.9% a year ago. The acreage, however, is about 1,500,000 acres larger than the area harvested last season. This report was taken to indicate a yield of 979,370,000 bushels, against 964,901,522 last year. To-day prices were easier on further liquidation.

AGRICULTURAL DEPARTMENT REPORT ON CEREALS, ETC.—The report of the Department of Agriculture, showing the condition of the cereal crops on June 1, was issued on the 10th inst., and is as follows:

The Crop Reporting Board of the Bureau of Statistics of the Department of Agriculture finds, from the reports of the correspondents and agents of the Bureau, as follows:

Preliminary returns on the acreage of spring wheat sown indicate an area of about 16,464,000 acres, a decrease of 1,242,000 acres, or 7%, as compared with the final estimate of the acreage sown last year (17,706,000).

The average condition of spring wheat on June 1 was 88.7, as compared with 93.4 at the corresponding date last year, 93.7 on June 1 1905 and a ten-year average of 93.3.

The average condition of winter wheat on June 1 was 77.4, as compared with 82.9 on May 1 1907, 82.7 on June 1 1906, 85.5 on June 1 1905 and a ten-year average of 81.1.

The following table shows for the principal wheat States the acreage compared with last year, and the condition on June 1 in each of the last four years, with a ten-year average:

ACREAGE AND CONDITION OF WHEAT ON JUNE 1.

States.	1907. Condition.	1907. Acreage.	1906. Condition.	1906. Acreage.	1905. Condition.	1905. Acreage.	1904. Condition.	1904. Acreage.	*Ten-year Av'ge Condition.*

*Not including winter-wheat area of these States, which is given under "other winter."

Note.—Three ciphers (000) omitted from acreage figures.

The total area reported in oats is about 31,491,000 acres, an increase of 532,000 acres, or 1.7%, as compared with the final estimate of the area sown last year (30,959,000).

The average condition of oats on June 1 was 81.6, against 85.9 on June 1 1906, 92.9 at the corresponding date in 1905 and a ten-year average of 89.7.

The following table shows for the thirteen principal oats States the acreage compared with last year, on a percentage basis, and the condition on June 1 in each of the last three years, with the ten-year June averages:

States.	Acreage compared with last year.	Condition June 1.

United States	101.7	81.6	85.9	92.9	89.7

The acreage reported as under barley is less than that finally estimated as sown last year by about 171,000 acres, or 2.7%.

The average condition of barley is 84.9, against 93.5 on June 1 1906, 93.7 on June 1 1905 and a ten-year average of 89.8.

The average condition of rye is 88.1, against 89.9 on June 1 1906, 93.6 on June 1 1905 and 90.2 the mean of the corresponding averages of the last ten years.

GOVERNMENT WEEKLY WEATHER REPORT.—Mr. James Berry, Chief of the Climate and Crop Division of the United States Weather Bureau, made public on Tuesday the telegraphic reports on the weather in the various States for the week ending June 10, summarizing them as follows:

On the Pacific Coast and in the central and west Gulf States the temperature during the week ending June 10 was favorable and beneficial temperature also prevailed during the latter part of the week in Tennessee and the east Gulf States; elsewhere the weather was abnormally cold, especially over the northern portion of the central valleys and in the Lake region and Atlantic Coast districts northward of North Carolina. Light frosts occurred in the western portion of the upper Lake region and in the lower Lake region. Portions of the lower Missouri, central Mississippi and Ohio valleys experienced very heavy rains, which caused overflows that resulted in considerable damage. In the Southern States the rainfall was very light, none having fallen over a large part of that section. Cloudy weather was prevalent generally throughout the central and northern districts east of the Rocky Mountains, but in the Southern States there was abundant sunshine.

For other tables usually given here, see page 1408.

THE DRY GOODS TRADE.

New York, Friday Night, June 14 1907.

The general conditions of the market have not undergone any material change during the past week. The weather has shown some improvement, but has not on any day been of really seasonable character, and while distribution by the retail trade may have increased somewhat, the expansion has done little to relieve it of the burden of stocks, much heavier than it ought to be carrying at this time of the year. Rumors adverse to the credit of certain large uptown stores were freely circulating around Wall Street during the past day or two, but investigation shows that these have no real foundation, and were probably based upon the fact that the weather hitherto has materially interfered with the distribution of spring and summer goods, and the further fact that in a number of instances payments have not been made quite as promptly as they might have been under more favorable conditions. With this, so far as can be learned, the only basis, the rumors referred to were used for speculative purposes on the Stock Exchange and in the cotton market. The general demand for cotton goods at first hands this week has been of moderate extent only, but still quite sufficient to absorb all unsold supplies coming forward and to prevent any stock accumulations. The tone continues good and prices are firm to a hardening tendency in nearly all directions, with occasional advances quoted on incidental lines. The offerings of men's wear woolens and worsteds for spring are increasing in number, but there has been no development during the week of a character to materially affect the general situation.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending June 8 were 3,674 packages, valued at $253,270, their destination being to the points specified in the table below:

	1906		1905	
New York to June 8—	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain	88	1,018	18	671
Other European	28	562	6	691
China	---	10,043	6,442	63,773
India	25	4,565	42	3,800
Arabia	---	18,753	1,876	19,388
Africa	12	3,609	2	4,335
West Indies	738	10,559	266	10,078
Mexico	55	1,140	60	985
Central America	224	6,851	290	7,282
South America	1,828	21,426	2,125	25,739
Other countries	711	15,014	337	7,537
Total	3,674	93,540	11,464	144,279

The value of these New York exports since Jan. 1 has been $5,970,639 in 1907, against $8,106,892 in 1906.

The prominent feature in heavy brown cottons is the fact that further purchases of these have been made in China for importation into this country. The extent of business thus done is variously estimated, but as prices of both heavy sheetings and drills remain firm here, it is evident that it has not been of sufficient volume to affect manufacturers. Light-weight sheetings, which are well sold ahead, are very firm, with current business of moderate dimensions only. Bleached muslins in all grades are moving out in considerable quantities on existing contracts, and orders coming to hand during the week have, in a number of instances, been accepted "at value only." There are few coarse colored cottons in the market available for quick delivery, and sellers continue difficult to deal with; a similar condition prevailing in the general run of napped fabrics. Printed fabrics are firm for calicos and the heavier descriptions, but the hesitation noticeable last week in thin sheer goods is still evident. Ginghams are firm with new orders moderate in volume. Advances have been quoted in silesias and other converted linings, and the linings market generally is in clean condition. A large purchase of regular print cloths by a leading Fall River printer is said to have absolutely cleaned up the market of these, and as a nominal quotation 5 cents is named. Narrow odds and standard and irregular wide cloths are very firm with a considerable demand.

WOOLEN GOODS.—New lines of men's wear woolen and worsted fabrics for the spring of 1908 are being steadily put before buyers, and this helps to keep business moving in very fair volume. The prices named on the latest additions are in keeping with those previously reported and do not bring about any real change in the price situation. In spite of the fact that clothiers have had such an unsatisfactory spring trade this year, the orders placed for serges for next spring up to date will suffer little in comparison with the volume booked a year ago for the corresponding period. There are few of the higher grades of fancy fabrics shown so far, and indications point to a long-drawn-out season in connection with these. Overcoatings for next spring are being opened, but evoke only a mild response from buyers, and business in cloakings is generally dull. In spring lines of woolen and worsted dress goods a quiet business is being put through on staple varieties, but there is not enough doing as yet to determine tangibly the spring situation. Reorders for fall lines have been quite moderate in all descriptions.

FOREIGN DRY GOODS.—Importers have booked a fair number of orders during the week, chiefly for broadcloths and mohairs, the demand running upon these. There has been a moderate increase in business in piece silks for fall, but the demand for ribbons continues quiet. Linens are slow for quick delivery, and forward business is more or less interfered with by the extreme prices asked at first hands. Burlaps are quiet and in occasional instances easier to buy, but without general reductions in quotations.

Importations and Warehouse Withdrawals of Dry Goods.

The importations and warehouse withdrawals of dry goods at this port for the week ending June 8 1907 and since Jan. 1 1907, and for the corresponding periods of last year, are as follows:

IMPORTS ENTERED FOR CONSUMPTION FOR THE WEEK AND SINCE JAN. 1 1907 AND 1906.

STATE AND CITY DEPARTMENT.

Bond Calls and Redemptions.

Silver Bow County (P. O. Butte), Mont.—*Bond Call.*—The County Treasurer will redeem July 1, $125,000 15-20-year (optional) bonds issued July 1 1892, numbered 1 to 125 inclusive. Denomination $1,000.

Bond Proposals and Negotiations this week have been as follows:

Adams County (P. O. Natchez), Miss.—*Bonds Proposed.*—The Board of Supervisors is considering the advisability of issuing $10,000 road-graveling bonds.

Adel, Berrien County, Ga.—*Bond Sale.*—This city recently disposed of the $25,000 5% 30-year water-works and city-hall-building bonds offered without success on April 15 (V. 84, p. 1066) to the Bank of Adel.

Akely School District (P. O. Akely), Hubbard County, Minn.—*Bonds Authorized.*—This district has authorized the issuance of $8,000 school-building bonds.

Akron, Summit County, Ohio.—*Bonds Proposed.*—Ordinances are before the City Council providing for the issuance of the following bonds:

$6,040 Bittman Street extension bonds. Denomination $1,000, except one bond for $500. Maturity party yearly on June 1 from 1908 to 1910 inclusive.
2,000 Marvin Avenue improvement bonds. Denomination $1,000. Maturity $1,000 on June 1 1908 and $1,000 on June 1 1909.

The above bonds are dated June 1 1907.

Allegheny, Allegheny County, Pa.—*Litigation.*—According to the "Pittsburgh Press" injunction proceedings have been instituted by Councilman E. G. Lang to restrain the issuance of the $1,000,000 4% registered reservoir and water-main bonds offered but not sold on May 30. See V. 84, p. 1318. The case came up for hearing in the Court of Common Pleas on June 13.

Antigo, Langlade County, Wis.—*Bond Offering.*—Further details are at hand relative to the offering on Aug. 1 of the $10,000 4½% coupon refunding bonds mentioned in V. 84, p. 1318. Proposals will be received until 2.30 p. m. on that day by G. O. Palmiter, City Clerk. Denomniation $2,000. Date July 1 1907. Interest semi-annually at the First National Bank of Antigo. Maturity $2,000 yearly on July 1 from 1922 to 1926 inclusive. Certified check for 5%, payable to the City Clerk, is required.

Antlers, Ind. Ter.—*Bonds Voted and Sold.*—This city on June 4 authorized the issuance of $8,000 6% 30-year school bonds by a vote of 122 to 0. These bonds, we are informed, have been awarded to R. J. Edwards of Oklahoma City.

Bamberg, Bamberg County, So. Car.—*Bonds Voted.*—An election held May 7 resulted in a vote of 67 to 23 in favor of a proposition to issue $7,000 water-works bonds.

Bath, Sagadahoc County, Me.—*Offering.*—Proposals will be received until 8 p. m. June 17 by John A. Morse, Chairman of the Finance Committee, "for the whole or any part of one or more of the following issues:"

$90,000 4% gold coupon refunding bonds. Interest semi-annually at the City Trust Co. of Boston. Maturity $10,000 yearly on July 1 from 1911 to 1919 inclusive.
90,000 4½% coupon notes. Interest semi-annually at the City Trust Co. of Boston. Maturity July 1 1909.
90,000 temporary loan notes. Denomination $5,000 to $10,000. "Six months' interest paid in advance on July 1 1907 and Jan. 1 1908." Maturity July 1 1908.

The above bonds or notes will be issued under authority of Section 75, Chapter 4, of the Revised Statutes of 1903, to refund $91,000 4½% bonds maturing July 1 1907. Date July 1 1907. Official circular states there has never been any default in the payment of principal or interest on previous issues and that Story, Thorndike, Palmer & Thayer of Boston will certify to the legality of the bonds or notes issued.

Bath, Steuben County, N. Y.—*Bond Offering.*—Proposals will be received until 1 p. m. June 17 by A. E. McCall, Village President, for $5,500 funding and bell-tower bonds. Denominations $1,000, except one bond of $1,500. Date July 1 1907. Interest (rate to be named in bids) payable annually at the G. W. Hallock Bank of Bath. Maturity $1,500 on July 1 1908 and $1,000 yearly on July 1 from 1909 to 1912 inclusive. Certified check or draft for $100, drawn on a New York City bank and made payable to Charles L. Davison, Village Treasurer, is required.

Bay City, Bay County, Mich.—*Bond Offering.*—Proposals will be received until 12 m. June 24 by C. J. Barnett, City Comptroller, for $200,000 4% public-park bonds. The official circular states that "the city reserves the right to issue $50,000 of these bonds in the following denominations: 125 bonds of $200 each and 50 bonds of $500 each; and will give the citizens of Bay City the preference in the sale of these $50,000 bonds; that bids must be made for $150,000 of the bonds with the above reservation, and for $200,000 of same without said reservation, and also for the $50,000 reserved in the denomination specified." Bonds will be dated June 15 1907. Interest semi-annually in New York City. Maturity 30 years. Each bid must be accompanied by an unconditional certified check for $2,000, except the bids for the small denomination of $50,000 reserved, which shall be accompanied by a certified check for 2% of the amount bid. Purchaser to pay accrued interest. These securities were offered but not sold on May 27.

Beardstown, Cass County, Ill.—*Bond Election Proposed.*—There is talk of calling an election to vote on the question of issuing $50,000 school-building bonds.

Beaumont, Jefferson County, Texas.—*Bond Election.*—The City Council has decided to call an election July 9 to vote on propositions to issue $20,000 Main Street market-house and $20,000 brick fire-station-building bonds.

Bellevue, Huron County, Ohio.—*Bond Offering.*—Proposals will be received until 12 m. June 17 by George Lieber, Village Clerk, for $7,000 5% coupon High Street and York Street (village's portion) improvement bonds. Denomination $500. Date June 15 1907. Interest March and Sept. at Village Treasurer's office. Maturity $500 each six months from March 1 1912 to Sept. 1 1918 inclusive. Certified check for $500 required. Bonds are exempt from all taxes.

Benton Harbor, Berrien County, Mich.—*Bond Sale.*—On May 15 the $30,000 4½% 20-year refunding bonds mentioned in V. 84, p. 950, were awarded to the American Trust & Savings Bank of Chicago at 102—a basis of about 4.35%. Denomination $1,000. Date April 1 1907. Interest semi-annual.

Bonds Voted.—An election held June 3 resulted in favor of a proposition to issue $30,000 30-year new-highway-bridge bonds. The vote was 269 to 71. Interest not to exceed 5%.

Bevier School District (P. O. Bevier), Macon County, Mo.—*Bonds Voted.*—This district on May 18 voted in favor of a proposition to issue $16,000 high-school-building bonds. The vote was 192 "for" to 19 "against."

Big Falls, Koochiching County, Minn.—*Bond Offering.*—Proposals will be received until 3 p. m. June 22 by the Village Council for $5,500 6% coupon water-works-system-construction bonds. Denomination $500. Date July 1 1907. Interest annually in New York City or St. Paul. Maturity $500 yearly on July 1 from 1917 to 1927 inclusive. An unconditional certified check for $300, payable to the Village Treasurer, is required. Accrued interest, if any, to be paid by purchaser. C. L. Hillstead is Village Recorder.

Big Timber, Sweet Grass County, Mont.—*Bond Sale.*—On June 3 the $40,000 6% 10-20-year (optional) coupon water-works bonds described in V. 84, p. 1195, were awarded to the Caledonia Investment Co. of St. Paul for $41,301 50 (103.253) and accrued interest.

Biloxi, Harrison County, Miss.—*Bond Election Proposed.*—The City Council is considering the advisability of calling an election to vote on a proposition to issue $50,000 high-school-building and site-purchase bonds.

Bloomville School District (P. O. Bloomville), Seneca County, Ohio.—*Bond Sale.*—On June 7 the $10,500 4½% coupon school-house-improvement bonds described in V. 84, p. 1318, were awarded to Hoehler & Cummings of Toledo at 103.492—a basis of about 4.095%. Following are the bids:

Hoehler & Cummings, Tol.	$10,866 75	C'mercial Nat. Bk., Tiffin.	$10,580 50
Otis & Hough, Cleveland	10,733 00	Hayden, Miller & Co., Cle.	10,561 00
Sec. Sav. Bk. & Tr. Co., Tol.	10,672 00	W. J. Hayes & Sons, Cle.	10,530 00
Rogers & Son., Chagrin F.	10,623 00	F. L. Fuller & Co., Cleve.	10,513 50
Tiffin Sav. Bk., Tiffin	10,584 00	S. A. Kean, Chicago	10,300 00
Tiffin Nat. Bk., Tiffin	10,582 00		

Maturity $500 yearly on Sept. 1 from 1908 to 1928 inclusive.

Blum School District (P. O. Blum), Hill County, Tex.—*Bond Sale.*—We have just been advised that on May 7 the $10,000 5% 10-30-year (optional) coupon school-building bonds described in V. 84, p. 1066, were awarded to the State School Fund of Texas.

Bossko Township (P. O. Otto), So. Dak.—*Bonds Not Sold.*—No bids were received on May 30 for the $2,000 5% coupon funding bonds described in V. 84, p. 1011.

Breckenridge School District (P. O. Breckenridge), Caldwell County, Mo.—*Bonds Voted—Bond Offering.*—An election held June 4 resulted in a vote of 193 to 74 in favor of a proposition to issue $13,000 5% school-improvement bonds. Interest semi-annual. Maturity part yearly on Jan. 1 from 1909 to 1926 inclusive. Proposals for these bonds will be received up to June 18.

Buchanan School District (P. O. Buchanan), Stutsman County, No. Dak.—*Bond Sale.*—This district has awarded $11,000 school-building bonds to the State of North Dakota.

Buffalo, Erie County, N. Y.—*Bond Sale.*—On June 12 the $200,000 4% 1-20-year (serial) registered city and county-hall refunding bonds, a description of which was given in V. 84, p. 1383, were awarded to the Erie County Savings Bank of Buffalo at par and accrued interest. No other bids were received.

Caldwell County (P. O. Lockhart), Tex.—*Bonds Not to be Issued this Year.*—We are informed that the County Commissioners have decided not to issue the $35,000 coupon jail-and-road bonds mentioned in V. 84, p. 1011, until next year.

Calgary, Alta.—*Debentures Not Sold.*—No award was made on May 31 of the seven issues of 4½% debentures, aggregating $131,500, described in V. 84, p. 1135.

Canton, Madison County, Miss.—*Bond Offering.*—Proposals will be received until Sept. 1 by E. B. Harrell, City Clerk, for the $50,000 5% coupon sewer-construction bonds described in V. 84, p. 1261. Authority Sections 3115, 3116 and 3119, Chapter 99, Code of 1906. Denomination $500. Date Sept. 1 1907. Interest semi-annually at the City

Treasurer's office. Maturity Sept. 1 1927, the first five bonds being subject to call after Sept. 1 1912. Certified check for $2,000, payable to the Mayor and Board of Aldermen, is required. Bonds are tax exempt.

Canton, Stark County, Ohio.—*Bond Offering.*—Proposals will be received until 12 m. July 1 by Armstrong Ashbrook, City Auditor, for $1,600 4% Dueber Avenue storm-water-sewer-construction bonds. Authority Section 2835 of the Revised Statutes. Denomination $1,000, except one bond for $1,600. Date July 1 1907. Interest semi-annual. Maturity July 1 1917. Bids to be made on blank forms furnished by the City Auditor and accompanied by a certified check for 5% of bonds bid for, drawn on a bank in Canton and made payable to the City Treasurer. Purchaser to pay accrued interest and furnish blank bonds at his own expense.

Cheboygan School District (P. O. Cheboygan), Cheboygan County, Mich.—*Bond Sale.*—On June 5 the $24,000 5% 15-year high-school-building bonds offered on that day (V. 84, p. 1319) were awarded to O'Connor & Kahler of New York City at 101.51 and accrued interest—a basis of about 4.579%. Following are the bids:

O'Connor & Kahler, N. Y.	$25,089 60
E. H. Rollins & Sons, Chi.	25,056 00
Seasongood & Mayer, Cin.	24,854 40
W. E. Moss & Co., Detroit	$24,750 00
Spitzer & Co., N. Y.	24,321 40
W. E. Moss & Co., Det. (4¾s)	24,010 00

The above bonds are dated June 1907. Interest semi-annual.

Checotah, Ind. Ter.—*Bond Sale.*—This city recently awarded an issue of $65,000 6% 30-year water-works bonds to R. J. Edwards of Oklahoma City at par. Denomination $1,000. Interest semi-annually July and January. Date July 1907.

Chicago, Ill.—*Charter Election.*—An election will be held Sept. 17 to vote on the question of a new city charter.

Cincinnati, Hamilton County, Ohio.—*Bonds Authorized.*—The City Council recently passed ordinances providing for the issuance of the following bonds:

$25,000	3.65%	coupon fire-department bonds. Denomination $1,000. Date, day of sale. Maturity 30 years.
22,500	3.65%	coupon fire-department-building bonds. Denomination $100. Date, day of sale. Maturity 30 years.
20,000	3.65%	coupon Harrison Avenue viaduct-repair-fund bonds. Denomination $500. Date May 25 1907. Maturity May 25 1927.
40,000	4%	coupon fire-department-building bonds. Denomination $500. Date, day of sale. Maturity 30 years.
10,000	3.65%	coupon McMicken Avenue improvement bonds. Denomination $500. Date June 15 1907. Maturity June 15 1909.
23,000	4%	coupon fire-department bonds. Denomination $500. Date, day of sale. Maturity 30 years.
363,000	4%	coupon street-improvement (city's portion) bonds. Denomination $500. Date June 30 1907. Maturity June 30 1922.
150,000	3.65%	coupon refuse-disposal-station bonds. Denomination $500. Date, July 15 1907. Maturity July 15 1927.

Certified check for 5% of bonds bid for, payable to the Township Trustees, is required. Bonds to be delivered on or before July 31 at the Township Treasurer's office.

Steuben County (P. O. Bath), N. Y.—*Bond Offering.*—Proposals will be received until 2 p. m. June 29 by Frederick W. Hastings, Clerk of the Board of Supervisors, for $20,000 4% registered jail bonds. Authority an Act of the Board of Supervisors adopted May 21 1907. Denomination $1,000. Date July 1 1907. Interest payable annually at the Farmers' & Mechanics' Bank in Bath. Maturity $5,000 yearly on July 1 from 1908 to 1911 inclusive. Certified check for $500, payable to the Clerk of the Board of Supervisors, is required.

Stow Township School District (P. O. Cuyahoga Falls), Summit County, Ohio.—*Bond Sale.*—On June 8 the $13,000 4% 3-15-year (serial) registered school-building and site-purchase bonds described in V. 84, p. 1387, were awarded to S. A. Kean of Chicago at 100.10.

Sugar Creek Township (P. O. Gomer), Allen County, Ohio—*Bond Sale.*—On May 18 the $2,000 6% 2-5-year (serial) public-hall bonds described in V. 84, p. 1072, were awarded to R. N. Jones at 102.75—a basis of about 5.132%.

Syracuse, Onondaga County, N. Y.—*Bond Sale.*—On June 4 the $213,750 1-19-year (serial) high-school and the $65,000 1-20-year (serial) Salina school 4½% registered bonds described in V. 84, p. 1266, were awarded to O'Connor & Kahler of New York City at 102.38 and 102.47 respectively—a basis of about 4.207% on both issues. The following bids were received:

	$213,750 *High-School Bonds.*	$65,000 *Salina Sch Bonds.*
O'Connor & Kahler, New York	102.38	102.47
A. B. Leach & Co., New York	102.178	102.178
Kountze Brothers, New York	102.133	102.34
N. W. Halsey & Co., New York	102.077	102.277
Edmund Seymour & Co., New York	101.9517	101.8617
George M. Hahn, New York	101.67	101.43
W. J. Hayes & Sons, Cleveland	101.12	101.11

Tekamah, Burt County, Neb.—*Bonds Not Sold.*—We are advised under date of June 5 that no sale has yet been made of the $10,000 electric-light-plant and the $2,500 water-extension coupon bonds described in V. 84, p. 1072.

Telegraph School District, San Joaquin County, Cal.—*Bond Sale.*—On June 4 $2,000 6% 10-year school-building bonds were awarded to T. E. Wilkinson of Lodi at 105—a basis of about 5.348%. Denomination $200. Date May 7 1907. Interest annual. A bid of 101 was also received from W. F. Keeney.

Timpson School District (P. O. Timpson), Shelby County, Tex.—*Bond Election.*—Local papers state that an election will be held July 6 to vote on a proposition to issue $18,000 5% 40-year school-improvement and refunding bonds.

Tuscaloosa, Tuscaloosa County, Ala.—*Bond Sale Postponed.*—We are informed that the sale of the $125,000 5% coupon water-works bonds which was to have taken place June 6 (V. 84, p. 1201) has been postponed for the time being, pending a decision of the State Supreme Court as to the validity of the issue.

Union Township, Warren County, Ohio.—*Bond Offering.*—Proposals will be received until 12 m. July 8 by George Cooper, Township Clerk (P. O. South Lebanon), for $5,000 4½% coupon public-hall and public-office bonds. Authority, Section 2835 of the Revised Statutes. Denomination $250. Date July 1 1907. Interest March 1 and Sept. 1. Maturity $250 each six months from March 1 1908 to Sept. 1 1917 inclusive. Certified check for 3% of bonds bid for, payable to the Township Treasurer is required. Purchaser to pay accrued interest.

Unionville School District (P. O. Unionville), Putnam County, Mo.—*Bond Election.*—An election will be held to-day (June 15) to vote on the question of issuing $5,000 5% 10-20-year (optional) building bonds. Denomination $500. Date July 1 1907. Interest semi-annual. These securities, if authorized, will take the place of the $1,000 bonds voted on May 9. See V. 84, p. 1201. The first election was found to be illegal.

Vaiden, Carroll County, Miss.—*Bond Offering.*—Further details are at hand relative to the offering on July 1 of the $4,000 5% school-improvement bonds mentioned in V. 84, p. 1387. Proposals will be received until 4 p. m. on that day by P. T. Flowers, Town Clerk. Authority Sections 3115, 3416, 3419 and 3420, Mississippi Code 1906. Denomination $500. Date July 1 1907. Interest annually by the Town Treasurer. Maturity July 1 1927. Certified check for 5% of bond bid for, drawn on some bank of Vaiden and made payable to P. T. Flowers, Town Clerk, is required. Bonds are tax-exempt. Bonded debt this issue. Assessed valuation 1906 $400,000.

Ventura, Ventura County, Cal.—*Bond Election Proposed.*—The City Trustees propose to call an election to submit to the voters propositions to issue bonds for various local improvements.

Waller County (P. O. Hempstead), Texas.—*Bonds Registered.*—On June 6 the State Comptroller registered $1,995 4% bridge-repair bonds.

Washington Township, Preble County, Ohio.—*Bond Offering.*—Proposals will be received until 1 p. m. July 6 by Hugh R. Gilmore, Township Clerk (P. O. Eaton), for $4,630 4% coupon Mound Hill Cemetery enlargement and improvement bonds. Authority, Sections 1472 and 2835 of the Revised Statutes. Denomination $1,000, except one bond for $630. Date July 6 1907. Interest annually at the office of the Township Trustees. Maturity on July 6 as follows: $630 in 1908 and $1,000 yearly from 1909 to 1912 inclusive. Certified check for $100, payable to the Township Treasurer, is required. Accrued interest to be paid by purchaser.

Waterbury, New Haven County, Conn.—*Bonds Not Sold.*—No bids were received on June 10 for the $150,000 4% 1-50-year (serial) street improvement bonds described in V. 84, p. 1201.

Waterford, New London County, Conn.—*Bonds Not Sold.*—Reports state that no sale was made on June 8 of the $100,000 4% 30-year coupon bonds described in V. 84, p. 1326.

Webster, Day County, So. Dak.—*Bond Sale.*—On June 10 the $10,000 5% 10-20-year (optional) sewer bonds described in V. 84, p. 1202, were awarded to David Williams of Webster at 101—a basis of about 4.873% to the optional date and about 4.922% to full maturity.

West Burlington (P. O. Burlington), Des Moines County, Iowa.—*Bond Sale.*—On June 3 an issue of $3,000 5% water bonds was awarded to Mrs. Eliza C. West at 100.50. Date June 15 1907. Interest annually on June 8. Maturity June 15 1927, subject to call at any time.

Westchester County (P. O. White Plains), N. Y.—*Bond Offering.*—Proposals will be received until 2 p. m. June 20 by Joseph B. See, County Treasurer, for the following bonds:

$27,677 04 4½% registered temporary loan bonds. Denomination $5,000, except one bond for $2,677 04. Maturity July 1 1910.
275,000 00 4½% registered court-house bonds. Denomination $5,000. Maturity on July 1 as follows: $20,000 in 1926, $25,000 in 1927, $35,000 in 1928, $25,000 in 1929, $15,000 in each of the years 1930, 1931 and 1933, $35,000 in 1934, $40,000 in 1935 and $50,000 in 1936.
64,579 75 4½% registered funding bonds. Denomination $5,000, except one bond of $4,579 75. Maturity $24,579 75 on July 1 1928 and $20,000 on July 1 in each of the years 1931 and 1933.

Securities are dated July 1 1907. Interest semi-annually at the County Treasurer's office in White Plains. Certified

Post Office Box 958. NEW YORK.

CLEARING HOUSE RETURNS.

The following table, made up by telegraph, &c., indicates that the total bank clearings of all the clearing houses of the United States for the week ending to-day have been $2,587,399,311, against $2,633,007,829 last week and $2,713,066,272 the corresponding week last year.

Clearings—Returns by Telegraph. Week ending June 22.	1907.	1906.	*Per Cent.*
New York	$1,212,970,994	$1,466,458,373	−17.3
Boston	117,005,368	114,634,948	+2.1
Philadelphia	118,531,667	126,561,084	−6.3
Baltimore	24,128,058	22,466,234	+7.4
Chicago	208,199,910	173,629,074	+19.9
St. Louis	54,194,010	48,098,761	+12.7
New Orleans	14,091,432	13,165,848	+7.0
Seven cities, 5 days	$1,749,120,539	$1,965,014,522	−11.0
Other cities, 5 days	420,000,078	365,147,623	+15.0
Total all cities, 5 days	$2,169,120,617	$2,330,162,145	−6.9
All cities, 1 day	418,278,694	382,904,127	+9.2
Total all cities for week	$2,587,399,311	$2,713,066,272	−4.6

The full details for the week covered by the above will be given next Saturday. We cannot furnish them to-day, clearings being made up by the clearing houses at noon on Saturday, and hence in the above the last day of the week has to be in all cases estimated, as we go to press Friday night.

We present below our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, June 15, and the results for the corresponding week in 1906, 1905 and 1904 are also given. Contrasted with the week of 1906 the total for the whole country shows a loss of 5.8%. Outside of New York the increase over 1906 is 12.4%.

THE FINANCIAL SITUATION.

We referred last week to one writer struggling with the interminable query of a rise in the price of capital, who was trying to make the problem less obscure, but who found, to his chagrin, that the more he studied the problem the more of a riddle it became. When an individual wants to cover up some public doings in which he is a party, he is apt to speak of it as the work of a mysterious agent. If it happens to affect finances, ten to one he will call it an involvment of capital; right or wrong, he knows very few can offhand disprove the statement, and for a time at least not a few will be confused and will have to stir about and collect their scattered wits before they can be prepared to put in an intelligent answer.

We have come across another inquirer the current week. He is an explorer in the same field plowed up already, but he differs in this, that he has a decidedly logical turn of mind but has become involved in a somewhat similar conclusion—no less puzzling and no more satisfactory than his predecessors.' It is the old enigma, though, that he is quarreling with; the uncertainty he seeks to explain differs in no way, as we have said, but as he has a more logical mind he wants a methodical way out. Under such circumstances there is no method that can equal that of assuming in the form of the question the whole conclusion desired. It confuses the hearer past recovery; for if the subject happens to be somewhat abstruse, the inquirer has his antagonist down before he has a chance to get in a blow. Hence in this case the questioner boldly asks—What is the reason for the decline in capital? After asking that and not waiting for the antagonist to have time to catch his breath, he is absolutely overwhelmed by a full-fledged syllogism. Capital, he is told in this case, is synonymous with gold, which has declined in value; the gold dollar is the measure of all values; if a purchaser wishes to buy anything to-day he must give the seller two gold dollars instead of one as formerly; these dollars have shrunken by reason of the decline in capital; the higher price one has to pay for his coat is an uplift due to the shrinkage in the value of the dollar, the measure of values.

After a while the disturbed listener is able to subdue his confusion so far as to discover the flaw in such reasoning. The error naturally comes to the surface after the hearer has succeeded in untangling the mass of assertion the foregoing statement contains. If he is a man of any individual thought, he will soon ask from whence is the authority derived or the facts obtained for the assumption contained in the major premise of the proposition—that capital has declined, or that the decline in prices of commodities has had anything to do with that ponderous word capital; or, if capital has declined, has it exercised any such potency as implied in the question? Although it is not the province of a critic to prove a negative, we will refer to a fact or two which will be conclusive of the whole controversy the foregoing suggestion gives rise to. The only circumstance that can have any relation to or connection with the assumption of a decline in capital is the larger production of the world's gold mines in recent years. All we need say in reply to that suggestion, and to absolutely negative such an inference if urged, is that every individual acquainted with the financial surroundings of to-day knows that the work awaiting for and being actively used in the industrial operations of the country has been multiplied many times faster than the increase in the product of gold has been added to. In other words, the added uses or demand has much more than equaled the developing product. Not only that, but we think investigation would show clearly a demand so much greater than the supply that there is a strain in the bullion market to satisfy it.

Moreover, it is labor and not capital that is mainly chargeable with the derangement in values noticed. This is so patent a fact that it does not need enforcement. The results have been brought about by friendly concessions of employers to their employees, by the demand of labor unions, by legislators everywhere—these latter beginning at Washington years ago and more recently active in State capitals. A large portion of every session of Federal and State law-making assemblies has been spent in devising and enacting statutes the working out of which has ended in an almost uninterrupted increase in day wages and shorter hours. There have also been many other laws passed besides those directly having this tendency—serving in various ways to increase the cost of manufacture. These matters do not need to be enlarged upon. Any one who still thinks that a decline of capital has in any measure advanced the values of things had better visit some large manufacturing concern and post himself in practical affairs.

The Philadelphia "Press" says that the suits by railroads of that State to test the two-cent fare bill raise a special issue; that is as to the effect of the constitution of 1873 upon older railroad charters. Section 2 of the article on corporations in general provides that the Legislature shall not pass any laws remitting forfeiture of charter of any corporation then existing, or alter or amend the same, or pass any general or special law "for the benefit of such corporation, except upon the condition that such corporation shall thereafter hold its charter subject to the provisions of this Constitution." Section 10 of the article on railroads and canals declares that no railroad or other transportation company then in existence "shall have the benefit of any future legislation by general or special laws, except on condition of acceptance of all the provisions of this article." These articles do not directly touch upon the control of fares and rates further than that Section 2 may be construed as forbidding or fixing a general rate.

If the old charters, says the "Press," were not modified by the Constitution, the State has no power to name a maximum fare; if the Constitution is superior to an earlier limitation upon sovereignty, the two-cent law may stand. The issue has been approached from many sides but has never been squarely made, nor have the railroads seemed to care about raising it. If it is raised and the control of the State is established, the State is quite certain, the "Press" thinks, to pass a utilities law, and if that law is sustained in New York, it will be imitated in all the States. This may be true; as an interpretation of the present drift of things it is a reasonable prediction to make, but we do not concur in the opinion of the "Press" that "resistance to moderate regulation, like the two-cent fare Act, is certain to lead to extreme legislation later."

It is a fair question whether that Act is really "moderate;" whether it is not "extreme legislation" already here. But the question of the future course is larger. The proposition that if the railroads do not yield quietly now they will only bring worse things upon themselves is not new; it has been openly stated, and the newspaper cartoonists have sketched the railroads flying to the Federal Government as a refuge from attacking States. But there is something to be got over before such a stage can come.

The intimation is that if the roads do not quietly submit to a law which may crush them financially they will provoke other laws which will crush them flatter. This means a conflict with higher and deeper laws which are as immovable as the physical laws of nature, for the ground of resistance to the reduced fare may be that it is not financially endurable. With an increasing need of increased transportation facilities (including an asserted need of still more expensive rails, as shown by a number of breakages), attempting to enforce a financial impossibility will prove a different matter from enacting one into statute. It therefore seems to us that this attempted enforcement is more likely to bring an abrupt check than certain to lead to still more violent enactments as a penalty of self-defense. At least, legislatures have now come to a halt for the present, and there is an interval for thinking the subject over.

In the sense that a decreasing export balance cover a less favorable showing in our foreign trade, the statement for the month of May, issued this week, is the least satisfactory for some time past. Not only does the total of merchandise exports exhibit a considerable falling off from the April aggregate, but the volume of imports shows an unimportant decline from the preceding month. The result is a balance of merchandise exports of only $8,001,002, as against nearly 28 millions in April and, respectively, $25,639,190 and $31,268,145 in May 1906 and 1905. So low an export balance as recorded in May this year—in a month when the foreign trade movement is, as a rule, largely in our favor—is somewhat anomalous and rather difficult of explanation pending receipt of the details of the whole movement.

According to the advance figures of some of the principal items of export, petroleum alone fell behind last year in value and the aggregate of all the products—breadstuffs, provisions, cattle and hogs, cotton and petroleum—is stated at $61,062,544, or approximately 9 million dollars greater than in May 1906. Hence the outward movement of merchandise other than these specially reported articles was only about 73 million dollars, against 82 millions in April and 78 millions in May last year. On the other hand, the import movement continues at a very full scale, the figures for each successive month running materially ahead of the corresponding month of the previous year. This relative situation has existed almost uninterruptedly since August 1904. It is, furthermore, worthy of note that the increasing imports, as compared with the previous year, are largely among what are classed as manufactures or materials for manufacture—the identical items of export that show steady growth. While our favorable export balance for the eleven months of the current fiscal year is $420,953,778, an imposing one, it has been exceeded to a greater or less extent by seven of the ten preceding years. Moreover, it is likely to be reduced in June, as we face the possibility of an import balance for that month, imports continuing full and cotton shipments running behind a year ago. It is the decreasing cotton shipments that are causing a dearth of bills in the market, which helps to explain the exports of gold that set in towards the close of May and have been freer in June.

The operatives in the cotton-spinning industry of Great Britain were, on June 6, granted an advance in wages of 5%, the new scale to be in force from June 13. This action, which involves higher wages to approximately 150,000 hands, was taken after a joint conference between a sub-committee of the Federation of Master Cotton Spinners' Associations and representatives of the operatives. The movement which culminated as above stated was started early in May, when the various organizations of mill hands, acting under the terms of the Brooklands agreement, notified the employers that twelve months had elapsed since the last advance in wages and that they desired a further increase of 5%. Their request was based upon the profitable state of trade the preceding twelve months, which they claimed justified it.

The employers, on their part, while admitting the claims of the hands as to the state of trade during the last twelve months, insisted that on present conditions an advance would not be justified. After discussion, however, the Federation General Committee decided in favor of the advance, but in announcing the decision the hope was expressed that should it be necessary at the expiration of the twelve-month period, on account of poor trade, to request a reduction in wages, they would be met as generously as they had met the operatives. By according the increase as requested, the Federation has, seemingly, not only gained the good will of the employees but removed the possibility of a serious dislocation of the cotton-spinning industry of Great Britain.

The influx of immigration to the United States in May was of unprecedented proportions and consequently greatly in excess of the same month in 1906, when the previous high record was made. Through all ports of entry there came in during the month 184,886 aliens, the number passed by the immigrant authorities at New York alone reaching the enormous total of 146,588, or an average of nearly 5,600 per working day. Every country in Europe, with unimportant exceptions, helped to swell the tide, but the arrivals from Austria-Hungary, Italy and Russia were conspicuously heavy. From the first-named country there came in 49,865, against 33,575 in 1906; Italy's candidates for American citizenship numbered 37,973, against 42,565 a year ago, and the arrivals from Russia and Finland totaled 35,503, as compared with 28,817 in May last year. For the five months of the calendar year 1907 the number of immigrant aliens admitted to the country has been 589,218, against 554,392 for the same period of 1906, the combined aggregates for the three countries specially referred to above having been approximately 406,000 and 394,000, respectively, in the two years. With this heavy influx of aliens, of which, for the five months, 460,173, or 78%, were males, it would almost seem that in the near future there would be less complaint of scarcity

of laborers in the South and elsewhere. The people are coming here in large numbers—numbers undoubtedly sufficient to relieve the labor situation. But it rests with those having a need for their services, by themselves or through competent and intelligent representatives, to secure them. Among certain classes of immigrants there is too strong an inclination to remain in, or close to, large cities like New York, where they are not needed. But this situation could, we have no doubt, be largely regulated and the immigrants directed to points where they are really needed by agents of their own races, who could more readily gain their confidence.

———

The most important European event this week was the dissolution of the Russian Douma by an Imperial decree which was enforced early on Sunday morning. This event had been foreshadowed for some days, and, indeed, it had been predicted at intervals during last week, and therefore when it occurred it had comparatively little political effect anywhere. In Russia it caused only a minimum of domestic disturbance, owing to the precautions taken by the Government to prevent a popular outbreak. The financial effect in Western Europe was also comparatively unimportant and the derangement to the security markets soon subsided. Russian bonds at first met a sharp decline, recovering by the middle of the week, continuing, however, more or less feverish, as the result of the earlier drop.

Discounts in the London market were firm at the Bank rate, the rise therein having occurred on the previous Saturday in response to the withdrawal from the Bank of $1,250,000 gold for Egypt. Paris discounts were not affected and those at Berlin only slightly. The comparatively unimportant financial disturbance noted was attributed to the fact that the dissolution of the Douma made improbable any successful effort on the part of the Russian Government to negotiate a new external loan, the European financial syndicates being committed to the policy adopted last year of refusing to effect such emissions unless they were authorized by the Douma; therefore, until a new parliament shall be convened and action taken by it in the matter of a new loan, none can be issued. The necessities of the Government for money with which to meet maturing interest, &c.—if the statement which was officially made last week, as reported in the "Chronicle," is true—Russia has decided to procure by an interior loan. It seems probable, therefore, that with new borrowing by Russia deferred, or restricted to specific requirements, accumulations of European capital that had been made in anticipation of Russian needs would be released for other employment. The syndicates, however, which have been instrumental in the negotiation of previous loans, would feel, it is presumed, under obligation to their clients who had invested in such loans to protect the market price thereof so as to prevent serious declines in the securities and hence aid Russia.

This desire of French bankers thus to sustain Russians for the benefit of their clients may, it is thought likely, account for the urgency that was manifested this week in the French demand for our gold. Though these bankers did not bid for any portion of the £500,000 consignment from South Africa that was offered in London on Monday, arrangements were made by them for an import of $1,000,000 from New York by Wednesday's steamer, and on that day $2,500,000 more of the metal was secured for shipment hence to Paris on Thursday. On Friday a further sum of $1,500,000 was engaged for shipment on Saturday (to-day) to Paris. Those of our bankers who express opinions appear quite confident that the movement of gold to the French capital will continue, and that it will be promoted by the Bank of France. There were also some indications on Tuesday that the metal might be shipped hence to London, provided inducements were offered to facilitate such a movement. On Friday the announcement was made that $1,100,000 had been engaged for export to-day (Saturday) to the British capital. It is understood that this export was facilitated by advances of credits by the Bank of England to the consignees which enabled the consignors to employ cables as a means for their reimbursement of the exported metal.

Independently of the Russian political situation, and of the consequent financial outlook, there seem to be developments which may possibly compel keen competition for our gold between the Bank of France and the Bank of England. The Egyptian demand for the metal, the Transvaal situation and the political unrest are disturbing factors in England, a rumor current to-day being that an Egyptian bank has suspended. The troubles in the French wine districts and the desire of the Bank of France to augment its reserve are unsettling factors in that country.

———

Reason still holds sway in the affairs of men, even though political developments often make one think that the contrary is true. The politicians, when they attack the railroads or the other instruments for conducting the country's commerce and industry, evidently feel that they are voicing the demands of the masses or of the commercial classes. But things are constantly cropping out now going to show that there is much mistake underlying the notion. We observe, for instance, that the Board of Trade of Louisville has adopted a set of resolutions and is distributing it through the State of Kentucky urging the people of that State to take advantage of the anti-railroad campaigns in other States and by special inducements seek to attract capital for new railroad building in Kentucky. The Board declares itself in favor of legislation, "if such be necessary," to prevent fictitious capitalization while demanding the enforcement of laws to correct corporate abuses as well as the punishment of those who fail to obey such laws. But it expresses the belief that what is now in order and for the interest of the public is co-operation between the people of the State and the railroads with a view to the good of both. We believe, say the resolutions, that if the railroads honestly accept their responsibilities to the public and endeavor to live up to them, then the public should as honestly strive to make the business of the railroads successful and profitable. Public hostility, harsh criticism and drastic legislation, it is declared, can serve no good end. Continuing in this strain, the Board adds:

"It is undoubtedly a true economic proposition that the losses of a business, as well as the profits, depend on the earnings of the business. In applying this proposition, we believe it is true that any excessive

expense or damage that the public, or its individual members, inflict upon the railroads in any way whatever, either in excessive taxes, damages for personal injury, or any other items that go to make up the cost of operation, must be met by the public in the shape of payment for transportation; hence the best way for the public to secure cheap transportation and satisfactory service of transportation companies is by fair and moderate laws, fairly and justly administered."

"Fair and moderate laws" is all that any one can ask for, and yet how far away from that doctrine we are drifting. We are glad to see a Southern commercial body expressing itself strongly in favor of such a course, for no part of the country has more to gain than the South from adherence to such principles. The railroads have done much for the South and they are ready to do a great deal more, provided only they can be assured of fair and decent treatment and be allowed to make an adequate return on the money invested. The South also needs outside capital for the development of its enormous mineral and agricultural resources. Such capital, too, it can only obtain under "fair and moderate laws." The Louisville Board of Trade declares itself in favor of ten years' exemption from all taxes—State, county and municipal—on all new railroad mileage built in the State, either by existing railroad companies or other companies desiring to come into the State, or by individuals or corporations generally who seek to develop and enrich the State by providing it with increased means of transportation. The suggestion, we should judge, was a wise one, and it furnishes evidence that our Southern friends are alive to the needs of the situation. They are pursuing a policy of enlightened self interest when they seek to favor those who are in position to favor them.

In the political world also, there have been some very encouraging developments recently. We like particularly the veto by Governor Guild of Massachusetts of what was known as the Holyoke Ice Bill and the message which accompanied the veto. The measure would have allowed the City of Holyoke to harvest and sell ice at wholesale. But Governor Guild shows that he, for one, is not imbued with socialistic ideas, and that, moreover, the carrying on of private business under municipal auspices is not permitted under the Massachusetts Constitution. The Governor points out that if such a bill should become law it would establish a precedent by following which any town, city or Commonwealth might engage in any kind of commercial or manufacturing enterprise. The bill in question not only sought to establish such a precedent, but even went to extremes in municipal finance by authorizing the city to borrow money outside its debt limit that it might engage in such a business experiment. Water, gas, electricity and transportation, he argues, cannot be furnished to the public without permission granted by the public for the laying of pipes and tracks and the erection of poles or wires. The proposed legislation as to a municipal ice plant, however, would go farther than the Government ownership of public utilities. It would let a city conduct a kind of business that needs nothing more than what any private citizen can secure by raising the necessary capital and investing it in a plant. The Governor says the manufacture and sale of shoes or clothing, the cultivation and distribution of vegetables, the erection and leasing of tenements —any business enterprise, in short—could be lawfully conducted by a city if this proposed Act were lawful. He quotes from the opinion of the Attorney-General of the State, whose advice he asked, to the effect that the conducting of such a business is not a public purpose for which money may be raised by taxation. Moreover, that when it is considered the bill authorizes the sale of ice at wholesale only, it is even more apparent that the purpose is not public. Under such circumstances, the Governor said he was not called upon to decide whether this legislation, so serious in its character, is or is not desirable. Legislation of a similar character has been declared unconstitutional by the Supreme Court, and hence very properly the Governor interposed his veto.

We also observe that the Massachusetts Legislature has acted in accordance with a previous suggestion of Governor Guild, and passed a resolution providing for the appointment of a special commission on commerce and industry, whose duty it is to be to investigate general industrial conditions in Massachusetts in all its various phases and the effects upon the same of existing laws and the need as to future legislation. The five members of the commission are to represent law, transportation, manufactures, labor and capital, and they are to serve without compensation. The commission may employ experts and incur reasonable expenses, for which and for the carrying on of the investigation an appropriation of $15,000 has been made. The theory underlying the creation of this commission is obviously a sound one. Under the universal demand for laws to regulate everything under the sun, the practice now is to legislate first and to investigate afterwards. Massachusetts proposes to reverse this time-honored practice and investigate first, with the view to seeing if there is need for further legislation—whether indeed there may not have been too much legislation, and whether the ills from which the Commonwealth is suffering may not be due to that cause. Massachusetts is a progressive State, and it usually follows conservative lines of action, too. Her people do not purpose being left behind in the race for industrial advancement and industrial supremacy, and one of the functions of the commission is to consider what may be done by legislation, executive action or otherwise for the exploitation of the industries of the State. We have no doubt that it will find many obsolete laws on the statute books, and also that these have proved a bar to progress. At all events, nothing but good can result from the creation of such a body; and other States which are beset with the evil of proceeding with too free a hand to grind out additional statutes could not do better than imitate the example of Massachusetts in that respect.

Besides the many serious problems with which the Inter-State Commerce Commission is called upon to deal, it is also obliged from time to time to pass upon the petty vexations of office routine. The Commission has just called the attention of carriers to the fact that a great amount of mail matter addressed to it containing tariffs and other documents is sent without sufficient postage. The Commission therefore announces that hereafter no tariff or supplement to the same will be accepted for filing unless it is delivered to the Commission, free from all charges or claims for postage, the

full thirty days required by the law before the date upon which such tariff or supplement is to be effective. We were not aware that the carriers were called upon to pay the expense of postage on all the numerous documents that they are obliged to forward to Washington for the use of the Commission and in compliance with the law, but the regulation just made will undoubtedly suffice to correct the practice of the carriers in the particular noted. It also appears that there is often tardiness in prosecuting complaints before the Commission. The Commission holds that in formal proceedings before it, complaints must be prosecuted with reasonable diligence, and the Commission particularly insists that when a case has been formally assigned for hearing on a certain day, the parties shall appear and present such evidence as they may wish to offer in support of their contentions, or, in advance of the date set, request postponement on stated grounds, showing good and sufficient cause for delay. Obviously no fault can be found with a requirement of that kind.

———

There was no change in official rates of discount by any of the European banks this week; compared with last week, unofficial, or open market, rates were, at the close, ⅛ of 1% higher at London, Berlin and Frankfort and unaltered at Paris; during the greater part of the week discounts at London were at the Bank minimum of 4%. The discount as well as the securities markets were unfavorably affected by the political crisis at St. Petersburg incident to the forcible dissolution of the Douma, but while there was more or less feverishness observable, there was a tendency toward normal financial conditions after the middle of the week, though international properties, and especially Russians, were unsettled.

The feature of the statement of the New York Associated Banks last week was the decrease in the surplus reserve by $1,465,900, to $4,514,625, as the result of a loss of $2,683,200 cash, less a reduction of $1,217,300 in reserve requirements. Loans were contracted $1,689,500 and deposits decreased $4,869,200. The bank statement of this week should reflect, among other items, the withdrawal of $3,500,000 gold, which was shipped to Paris on Wednesday and Thursday, and also the average of $2,600,000 that was exported to that centre and to London to-day (Saturday). Total shipments to Paris and to the British capital thus far on this movement, $18,500,000.

———

The low bank reserves, as indicated by last week's return, the loss of gold through exports, and also of cash by reason of absorptions by the Treasury and expectations that the movement of gold to Paris would continue, contributed to the establishment and maintenance of firmer rates for money on call and for fixed periods. Day-to-day loans, representing bankers' balances, were effected at the Stock Exchange during the week at 3¾@2¼%, averaging about 3%; banks and trust companies quoted 2½% as the minimum. On Monday and on Tuesday loans were at 3% and at 2¼% with the bulk of the business at 2¾%. On Wednesday transactions were at 3½% and at 2¼% with the majority at 2¾%. On Thursday loans were at 3¾% and at 2½% with the bulk of the business at 3½%. On Friday transactions were at 3½% and at 2½% with the majority at 3⅛%. Loans on good mixed Stock Exchange collateral were quoted at 4% for thirty and 4½% for sixty to ninety days, 4½@5% for four, 5½% for five to six and 5¾@6% for seven months. Easier rates are looked for after the middle of July, and therefore the demand for time money was chiefly for the shorter maturities. Commercial paper is liberally offered, because of slow collections, which are due to the backward season, and the demand is light. Rates are 5½% for sixty to ninety day endorsed bills receivable, 5½@6% for prime and 6@6½% for good four to six months' single names.

———

The Bank of England rate of discount remains unchanged at 4%. The cable reports discounts of sixty to ninety day bank bills in London 3⅞@4%. The open market rate at Paris is 3⅜% and at Berlin and Frankfort it is 4⅞@5%. According to our special cable from London, the Bank of England gained £664,601 bullion during the week and held £35,668,332 at the close of the week. Our correspondent further advises us that the gain was due in about equal measure to heavy receipts from the interior of Great Britain and purchases in the open market. The details of the movement into and out of the Bank were as follows: Imports, £509,000 (wholly bought in the open market); exports, £488,000 (of which £250,000 to Egypt and £238,000 to Paris), and receipts of £644,000 *net* from the interior of Great Britain.

———

Though irregular, the foreign exchange market was generally strong this week at about the highest prices of the year, influenced, as has latterly been the case, by a scarcity of bankers' bills and an urgent demand, especially for cables, for the reason that the foreign settlements due at the end of the half-year had to be met with this class of exchange instead of with short, which, unless it was remitted by mails early in the week, would not arrive out in time to be available for such adjustments. Long sterling was in fair demand, influenced chiefly by a meagre supply of commodity bills, but the higher discount rate in London tended to restrict purchases. Continental exchange was strong in consequence of the disturbed political situation in Russia and it was affected also by firm discounts at Paris and Berlin. Dearer local money rates seemed to have no influence on the market, the slight recession in short sterling, after Tuesday, being due not to the advance in call loans, but to the relaxation in the inquiry for remittance with such bills and to the preference given to cables, for the reason above noted. The fact that French bankers refrained from bidding for the South African gold that was offered in London on Monday, thus enabling the Bank of England to secure the consignment, gave rise to a rumor that the requirements of these bankers for gold had been satisfied, and an advance of half a centime in the rate for exchange at Paris on London seemed to confirm this rumor. On the following day, however, an engagement of $1,000,000 gold was announced by a firm which had been one of the largest shippers, and it was then stated that the Bank of France was still offering inducements to American bankers to ship gold to Paris. On Wednesday this Bank withdrew £238,000 from the Bank of England, which indicated that the French bank had not yet fully effected collection of its advances to that institution. It was then announced that $2,500,000 gold would be shipped to Paris on

Thursday, and a further amount of $1,500,000 was forwarded by the steamer sailing to-day (Saturday). There are no indications that the requirements of the Bank of France for gold will be satisfied by these exports and bankers are of the opinion that much more will be needed; therefore, it seems probable that the movement will continue until it shall be arrested by a sustained advance in rates for money at this centre. There was a report early in the week, when the movement to Paris seemed to be suspended, that negotiations were in progress for an export of gold hence to London, and that shipments might be effected provided the Bank of England would offer the inducement of an allowance of interest on the metal while it was in transit, without which inducement gold could not be shipped. There was no confirmation of this report until Friday, when the engagement of $1,100,000 for shipment to London was announced; the export was facilitated by advances of credits by the Bank of England which enabled cables to be employed for covering. The exports for the week were $5,000,000 to Paris and $1,100,000 to London, making the total thus far to both centres $18,500,000. It may be noted that gold has begun to move from Alaska—from which section $1,000,000 is expected soon to arrive at San Francisco. The production of Alaskan gold this season is estimated at about $6,000,000 and probably double that amount will be received from the Klondike fields.

Nominal quotations for sterling exchange are 4 84½@4 85 for sixty day and 4 88@4 88½ for sight. On Saturday of last week the market was strong and compared with the previous day short rose 10 points to 4 8715@4 8725 and cables 10 points to 4 8765@4 8775; long was 10 points lower at 4 8360@4 8370. On Monday long advanced 15 points to 4 8375@4 8380, short 20 points to 4 8735@4 8740 and cables 20 points to 4 8790@4 8795. On Tuesday long fell 5 points to 4 8370@4 8375 and cables 5 points to 4 8785@4 8790; short was unchanged. On Wednesday long rose 15 points to 4 8385@4 8390 and cables 5 points to 4 8785@4 8795; short was unaltered. On Thursday long advanced 20 points to 4 84@4 8410 and cables 5 points to 4 8790@4 88; short was 5 points lower at 4 8730@4 8740. The market was strong on Friday and 10 points' higher for long, 5 for short and 10 for cables.

The following shows daily posted rates for sterling exchange by some of the leading drawers:

		Fri., June 14	Mon., June 17	Tues., June 18	Wed., June 19	Thurs., June 20	Fri., June 21
Brown Bros. & Co.	60 days	4 84½	84½	84½	84½	84½	84½
	Sight	4 88	88	88	88	88	88
Baring & Co.	60 days	4 84½	84½	84½	84½	84½	84½
	Sight	4 88	88	88	88	88	88
Bank British North America	60 days	4 84½	84½	84½	84½	84½	85
	Sight	4 88	88	88	88	88	88½
Bank of Montreal	60 days	4 84½	84½	84½	84½	84½	84½
	Sight	4 87½	88	88	88	88	88
Canadian Bank of Commerce	60 days	4 84½	84½	84½	84½	84½	84½
	Sight	4 87½	88	88	88	88	88
Heidelbach, Ickelheimer & Co.	60 days	4 84½	84½	84½	84½	84½	84½
	Sight	4 88	88	88	88	88	88
Lazard Freres	60 days	4 84½	84½	84½	84½	84½	84½
	Sight	4 88	88	88	88	88	88
Merchants' Bank of Canada	60 days	4 84½	84½	84½	84½	84½	84½
	Sight	4 87½	88	88	88	88	88

The market closed on Friday at 4 8410@4 8415 for long, 4 8735@4 8740 for short and 4 88@4 8810 for cables. Commercial on banks 4 8365@4 8375 and documents for payment 4 83@4 84⅜. Cotton for payment 4 83@4 83¼, cotton for acceptance 4 8365@4 8375 and grain for payment 4 84¼@4 84⅜.

The following gives the week's movement of money to and from the interior by the New York banks.

Week ending June 21 1907.	Received by N. Y. Banks.	Shipped by N. Y. Banks.	Net Interior Movement.
Currency	$6,401,000	$4,504,000	Gain $1,897,000
Gold	1,500,000	1,120,000	Gain 380,000
Total gold and legal tenders	$7,901,000	$5,624,000	Gain $2,277,000

With Sub-Treasury operations and gold exports the result is as follows:

Week ending June 21 1907.	Into Banks.	Out of Banks.	Net Change in Bank Holdings.
Banks' interior movement as above	$7,901,000	$5,624,000	Gain $2,277,000
Sub-Treas. oper. and gold exports	26,000,000	30,000,000	Loss 4,000,000
Total gold and legal tenders	$33,901,000	$35,624,000	Loss $1,723,000

The following table indicates the amount of bullion in the principal European banks.

Bank of	June 20 1907.			June 21 1906.

a The division (between gold and silver) given in our table of coin and bullion in the Bank of Germany and the Bank of Belgium is made from the best estimate we are able to obtain; in neither case is it claimed to be accurate, as those banks make no distinction in their weekly returns, merely reporting the total gold and silver; but we believe the division we make is a close approximation.

b The Austro-Hungarian Bank Statement is now issued in Kronen and Heller instead of Gulden and Kreutzer. The reduction of the former currency to sterling Pounds was by considering the Gulden to have the value of 80 cents. As the Kronen has really no greater value than 20 cents, our cable correspondent in London, in order to reduce Kronen to Pounds, has altered the basis of conversion by dividing the amount of Kronen by 24 instead of 20.

d The total of gold in the Bank of Russia includes the balance held abroad—that is the amount held for Russian account in other Continental banks. The proportion so held and consequently duplicated in the above statement is about one-quarter of the total.

DISSOLUTION OF THE SECOND DOUMA.

We suppose that the first comment which most thinking men will make on the dissolution of the second Russian Douma by the Czar, last Sunday, is that it reflects, on the part of Russia's rulers, a hopeless vacillation of mind and uncertainty of political grasp which promise no very good results for the future. In this respect the conduct of the Czar may possibly divide criticism with the conduct of members of the Douma, whose most serious shortcoming—the one charge in the Czar's bill of complaint which is certainly well founded—was their repeated failure to make up their minds on needed proposals of legislation. In the case of the Czar, the natural and proper criticism will be that he began his experiment by granting everything, and followed up this beginning by taking away first one and then another of his concessions. This is a fair inference from his edict of Sunday, in which provision is made for a radical reconstruction of the suffrage, the method of election, and the constituency of the Douma.

Now, a child in politics should be aware that grants which are made and then revoked, even if part of the concession is left in force, sometimes create more dissatisfaction than absence of any grant at all. Statesmen who can see further ahead than from one day to the other are accustomed to measure the practicability of concessions when they are first proposed. Experience teaches them that, if they grant a little now, a little more next year, and so proceed until the full measure of concession has been reached, they will have preserved both their own consistency and the popular approval. To grant everything, and then withdraw half of what was granted, may conceivably end with the people in possession of all they ought to

have had at any time; yet it is obvious that a feeling of soreness, distrust and irritation must remain. Nor are such feelings under such circumstances unreasonable. It is all very well for the sovereign or the minister to explain that he made a mistake in the first place, which he is now correcting through his revised arrangement. But the proletariat will answer, or if it does not openly answer will at all events believe, that there is now no guaranty against further and even more radical change of mind in a future exigency. In the case of Russia, if the Czar is now exercising the right of revoking a part of the privileges solemnly granted to the Russian people, what is to prevent his revoking the whole of them next year? We suppose that Sunday's manifesto will be taken in exactly this spirit by the Russian people.

The Czar presents formally his reasons for this step. Very probably they state the honest convictions of a well-meaning sovereign; but people experienced in parliamentary government will, we imagine, pronounce them just a little naive. "To our sorrow," this document recites, "a considerable section of the second Douma failed to justify our expectations." These expectations were for the pacification of the country and for what the Czar indefinitely calls "to establish the affairs of state in regular course." Now the probability is that at least a part of the Douma's membership would answer this charge by saying that they never had any intention of justifying precisely the expectations entertained by the Czar, and that they were not sent to St. Petersburg by their constituents for such a purpose.

The very term "opposition", as employed in the parliamentary language of every well-developed constitutional State, shows that such hostility to the purposes of the governing power is a part of necessary parliamentary machinery. We do not deny that circumstances in the case of the Russian Parliament were peculiar. But it does not appear to us that the Czar's manifesto anywhere establishes facts except the habitual delays of the Douma and its failure to follow out the Imperial purpose. Assertions that the Douma was not "desirous of working for the interests of the country," or that it "did not lend its moral support to the government in the restoration of order," or that "the right of interpellation was transformed into a means of fighting against the Government and of exciting distrust against it," are comments which, at all events, show a singular obtuseness to the Anglo-Saxon theory of representative government.

Although these various shortcomings of the Douma in its legislative capacity are asserted as cumulative grounds for sending its members home, the real cause for dissolution by the Czar is stated in the following allegation:

"Lastly, an act was committed unheard of in the annals of history. The judicial authorities discovered a plot by a section of the Douma against the State and power of the Czar, but when our Government demanded the exclusion, until judgment had been passed, of fifty-five members of the Douma implicated in the crime, and the arrest of those among them most compromised, the Douma failed to carry out immediately the lawful demand of the authorities, which admitted of no delay."

It is difficult at this distance to pass judgment on the merits of this particular charge; but it is not difficult to show that assertion of the right to seize and try members of the Douma by wholesale, on general charges of treasonable conspiracy, would instantly do away with the whole independence of the Legislature. The Czar, it is true, did not, in imitation of Charles I, undertake to enter the Douma with his soldiers and drag out the members designated for such prosecution by the Government. But the logical sequel of his demand on the Douma, if granted, may readily be foreseen. The Czar and his Ministers claim to judge as to what members shall thus be placed on trial; nothing, then, could be more simple than the submission of such demands at any time when an awkward majority against the Government had developed in the Douma. If the Opposition numbered, let us say, a majority of ten, removal of fifteen members on the grounds set forth in this week's manifesto would give a comfortable margin for the Government's own measures, and to precisely the same extent would defeat the purposes of the people. Our own Constitution, it is true, provides only that Senators and Representatives "shall in all cases, except treason, felony and breach of the peace, be privileged from arrest during their attendance at the sessions of their respective Houses and in going to or returning from the same." Treason is what the Czar alleges against the fifty-five members of the Douma. But the habeas corbus is not the instrument of protection in Russia which it is in Anglo-Saxon countries; the nature of the Russian criminal process renders Executive tyranny perfectly feasible, and the cases are, therefore, in no respect identical. Adopted in habitual practice, the Czar's plan would simply mean the holding of permanent terrorism over legislative critics of the Czar's own policy. Such powerful sovereigns as Henry VIII and Elizabeth shrank from this.

As for the new electoral law which the Czar proposes, fixing September 14 for the assembling of the new Douma elected under it, all that can be said is that districts from which the more radical members of the present body came are partly or wholly disfranchised, whereas a larger parliamentary representation is granted to constituencies whence the defenders of the Imperial power have been sent. Whether the Russian people will give up without serious resistance to these new proposals is perhaps a doubtful question; for ourselves, we should imagine that the spirit of blind and purposeless insurrection, such as was witnessed during 1905 and a good part of 1906, must for the most part have spent its force. On this fact, doubtless, the Czar and his advisers reckoned. A more serious question is whether this limitation of the suffrage under such peculiar circumstances may not mean such break-down of popular belief in the parliamentary plan that elections may henceforward become a perfunctory farce, leaving the Douma, like the French Assembly under the Bourbon kings, a mere machine for registering the royal will.

As regards the effect of this new step on Russia's outside credit, the most that can be said just now is that Russia hardly has reason to expect the outside markets to lend it money under any circumstances during the present financial situation. Perhaps in preparation for this week's step the Imperial Bank, as we have hitherto pointed out, has added to its home reserves during the past fourteen months no less than $100,000,000. On this, no doubt, the Government relies as its present financial mainstay.

GOVERNOR HUGHES AND THE POLITICAL OUTLOOK.

Governor Hughes has followed up his commendable action in vetoing the Two-Cent Fare Bill which the Legislature of this State had enacted by vetoing still another measure of the same type. He has put the seal of his disapproval upon what was known as the Train Crew Bill. The object of this bill was to compel the employment by the railroads of an additional brakeman on their freight trains, thereby increasing the customary size of the crew from five to six persons. The Governor's reasons for withholding his approval are sound and incontrovertible. He well says that the bill takes no account of the differences between the different roads and parts of roads, in tracking and switching facilities, and of the fact that what may be necessary in the case of some railroads may be wholly unnecessary in others. For example, on the New York Central, the tracking and switching facilities on the main lines of the system are of such a character as to make unnecessary the employment of a third brakeman. Mr. Hughes argues with much force that to require the expenditure of a very large amount of money (estimated at several hundred thousand dollars annually) without necessity for the outlay, is simply arbitrary exaction and taking of property without due process of law. In these days, when it is the fashion to favor adverse legislation of all kinds directed against the railroads, no matter how severe and unjust, a departure such as here indicated is obviously welcome.

On account of these two vetoes we are already being told that Mr. Hughes is the man of the hour and looms up large as a possible Presidential candidate. We are asked to believe that he has suddenly become a figure of national prominence and that we must hail him as our saviour from the political tendencies of the times. One publication, usually very conservative in its utterances, goes so far as to compare him with Lincoln. While apparently following intelligent and capable public opinion, like a born statesman he has endeavored (this critic argues) wisely to direct and mold it and there are those, we are told, who even "anticipate good results from his Public Utilities Law, provided an upright, impartial commission is secured."

It is a striking commentary upon the pass we have reached when a high Government official becomes, as would here appear, a figure of national prominence simply because he does two or three acts of justice in the ordinary course of his routine duties. And yet, we confess that to us there is something decidedly encouraging in this kind of praise and comment, obviously overdone as it is. For a long time we have been told that the assaults on the railroads, on corporations, on capital, on accumulated wealth, voiced popular sentiment—and voiced it in such an overwhelming degree that it was useless and foolish to attempt to stem the tide. To float with the current has been the one ambition of the politician, the Government official and the newspaper editor everywhere. How quickly the whole movement would collapse if it could be proved to the satisfaction of these fickle elements that the bulk of our people do not look with unqualified approval upon the course being pursued.

In the way Governor Hughes is being praised for his two recent acts there is evidence, it seems to us, that there is, after all, a considerable body of citizens who are not satisfied with recent tendencies, and who are ready to take up, nay are anxiously looking for, a candidate of a conservative rather than of a radical type. We believe, too, that the sentiment reflected by those who favor conservative action is by no means uncommon—that large numbers of the population are out of patience with the policy which seeks to hamper the activities of the carriers and of other industrial agencies, and who unqualifiedly condemn antagonism or hostility to the capitalist or to honest wealth. We have now, as we have always had, great faith in the integrity and common sense of the American people. If the issue could be presented clearly and distinctly, free from side matters of all kind, we are sure that appeal to the justice and spirit of fair dealing of the voters of the United States would not be in vain. Such an appeal never has failed. There have been many critical periods in the past when questions of the greatest moment were submitted to the American masses, and the verdict has always been on the side of right and justice.

The only danger is—we fear that now as we always have—that the issue may be obscured in such a way that the voters will be voting under a misapprehension or be obliged to choose the lesser of two evils. With a man standing squarely and unequivocally for the rights of property and the protection of vested interests on the one side, and an opponent of these old-fashioned ideas on the other side, demanding the overthrow of the existing order, we have absolutely no doubt as to the outcome. Candor compels the statement, however, that at the moment there appears to be little prospect of a square, up-and-down political battle of this kind. The two great parties are apparently vying with each other to see which may go furthest in yielding to unreasoning clamor and embracing socialistic notions. We are apprehensive lest the so-called conservative prove to be one who has no real claim to the title, who is not at all moderate, but who is ready to make concession after concession to the noisy crowds in order to gain their favor or their votes. This is the kind of "conservatives" that are in office nearly everywhere to-day, and it is the kind that we are now to be asked to accept and endorse. They would concede everything, even the fundamentals of right, in the effort to keep out the dreaded "radicals."

As a matter of fact this class of conservatives—and the woods are full of them—are really more dangerous than the out-and-out radicals who make no disguises, but declare their undying hostility to the existing order. Should such a radical of a pronounced type by any chance be elected to office, he would be powerless to accomplish anything. He would be opposed by the conservative element in the Democratic Party, which, we are obliged to say, possesses the bulk of these irreconcilables, and he would be opposed by the whole of the Republican Party, which until the last few years has always stood for what was best and highest in political ideals. Every measure proposed by such an assailant against established ideas would be scrutinized and squarely challenged. But as things are now, with the so-called "conservatives" in control, criticism is disarmed and the existing order is being slowly but surely sapped by concession after concession, until it is becoming a question whether we would not do better by embracing the whole brood of nauseating socialistic doctrines all at once and be done with it.

We would then have an end of shams and everybody would know just where he stood and what was ahead of him and the country.

It is in this light that Mr. Hughes's pretensions and political aspirations—for he certainly has political aspirations, otherwise he would not be in the Governor's chair—must be tested and examined. There never was a time in the history of the country when there was greater need of a man of the right type—sane, sensible and courageous—than at present, and there never was a time when a man of that type had greater opportunity for achieving success. As already indicated, if such a man would come forward and appeal to the suffrages of the people, he would sweep the country. But that favor is reserved only for him who professes no adhesion whatever to the noxious political nostrums of the day. In other words, what is wanted is the genuine article—not the man who fears that his conservatism may not appeal to the masses, but must have a preponderating admixture of radicalism—a man who hopes to gain the vote of the better element in the population by holding himself out as a conservative, and yet all of whose acts are guided by a desire to pose as a champion of the masses and of those who clamor for the impossible. Judged by his political record, it does not seem to us that Governor Hughes can lay claim to the distinction of being a conservative—a person whose acts are dictated by a sense of right and not by motives of expediency. Obviously no one would claim for Mr. Hughes and his course the least bit of originality. The great master in the art has been President Roosevelt—a man of force as well as originality—and Mr. Hughes has been simply imbibing political wisdom from that master, although he appears to be unwilling to admit the fact. Taking isolated acts in the career of Mr. Roosevelt, or quoting isolated passages from his speeches and utterances, it would be possible to make out the President as an ultra-conservative; but Mr. Roosevelt would himself he the first to deny the accuracy of such a characterization. Similarly we must judge Mr. Hughes by the whole of his acts and not by seeming exceptions to the rule.

Mr. Hughes is responsible for the Public Utilities Bill, which embodies in its provisions more of the feeling of unreasoning hostility to public service corporations than any measure ever enacted in the history of the United States. This Act gives to two public bodies, whose members hold office only during the pleasure of the Chief Executive, absolute, unlimited, unchecked and unrestrained control over the affairs of the carriers, whether steam roads or street roads, and also over gas and electric-light concerns. It puts no limit upon the number of employees they may engage, or the amount of money they may use up. They are responsible to no one except the Governor. The two bodies will regulate not only rates of freight, of fare, and charges for express, for gas, for electricity, but they will have the power to regulate nearly everything else connected with these public service corporations—their facilities, service, &c., &c. In his veto of the Two-Cent-Fare Bill last week, Mr. Hughes said that "it (the bill) plainly reflects dissatisfaction with the existing conditions and an effort to provide a remedy through arbitrary action." But, we may be permitted to ask, does the Public Utilities Bill possess any greater merit? Does it not, too, "reflect dissatisfaction," and is it any the less "arbitrary" in its action? It should be noted, too, that Mr. Hughes did not put his veto of the Two-Cent-Fare Bill on the ground that two-cent fares were wrong *per se*. He based his action on the assertion that the Public Service Commissions had been created for the express purpose of determining the question. He said: "I do not mean to be understood as saying that a maximum two-cent passenger rate would be unreasonably low. It might be high enough in many cases. Possibly it would be high enough in all cases." And as further evidence of a desire to propitiate those who had been instrumental in the passage of the bill, he added: "I fully appreciate the fact that those who have promoted this bill believe that such a rate would be fair." What trifling with a serious matter! Those who advocate two-cent fares do not care a tuppence whether the rate pays or not. Yet we are told by one applauding critic that "the whole message is written as an almost unconscious explanation of his own position on economic questions which suggests a refutation of the recent charges of Chancellor Day of Syracuse." Refutation indeed!

It is also to be remembered that Mr. Hughes is responsible for the recent insurance legislation in this State. He is commonly reputed to have drafted all of last year's laws on this subject. These laws evidence hasty and ill-considered action, and it is difficult to believe that they do not also evidence unwise concessions (so common these days) to so-called popular sentiment. How else are we to explain the fact that under the provisions of this law it took just six months to complete the count of the vote cast last December at the annual election of the trustees of the insurance companies. As every reader of the daily newspaper knows, the whole thing degenerated into a farce. However, the call was for drastic legislation and accordingly drastic it was made, with very little regard to the consequences. The Legislature is now engaged in amending the law in that particular so as to avoid further ridicule. But very little is being said about the amending process. This is being furtively done where the original legislation was loudly proclaimed.

Nor can it be asserted that Mr. Hughes is always consistent. He considered it arbitrary for the Legislature to pass a two-cent fare bill in view of the fact that at his instance special bodies had been created for determining such questions. Yet on April 26 he approved the bill reducing the price of gas in Albany from $1 30 per one thousand cubic feet to only $1. He also last year favored the reduction in the price of gas in New York from $1 to 80 cents, and took occasion to commend some of the State legislators for their course in the matter, although a Gas Commission had been expressly created the previous year for dealing with the subject. This fixing of eighty cents as the price of gas in this city has just been declared confiscatory by a special master appointed by Judge Lacombe in the United States Circuit Court. The Gas Commission has itself the present year reduced the price of gas in Syracuse and some other points. Gas securities until this crusade was begun were considered among the best and most approved type of investments. Nearly every man of moderate means left a little gas stock for his wife and children, so that it is literally true to say that gas securities are held by the widows and orphans. Mr. Hughes's "conservatism" is simply playing havoc with these investments.

One statement in Mr. Hughes's veto of the two-cent measure is to the following effect: "If a passenger rate of two cents a mile is just and reasonable it can be fixed (by the Commission). If it is not just and reasonable it should not be fixed." In this Governor Hughes naively ignores last year's experience of the Gas Commission. The Gas Commission had been created not for the purpose of examining carefully and judicially into the question what would be a just and reasonable charge for the price of gas, but for the simple purpose of reducing the price. When, therefore, the Legislature met the following January (1906) and the price had not yet been reduced, our Albany legislators immediately got to work. Senator Stevens, the author of the Act creating the Gas Commission, in February 1906 introduced a bill proposing to legislate the Commission out of existence. With this threat hanging over it the Commission made an order cutting the price to eighty cents. But the Legislature wanted no more fooling about the subject, so to clinch the matter it made the price eighty cents by legislative enactment.

What guaranty have we that the same thing will not happen in the case of the Public Service Commissions just created, and in that view of what avail will it be even if Mr. Hughes should, as every one believes he will, appoint impartial, upright and high-minded men as members of the two Commissions. If they failed to act in accordance with the notions of the legislators who have been championing the Act, how long would they last?

Of course Mr. Hughes may have experienced a real change of heart; and if henceforth he should reverse his course there would be good reason for acclaiming him as the coming leader, but in view of the foregoing record, it isobvious that further proof will be necessary to sustain the theory that he has altered or is getting ready to alter his views.

RIGHT OF WOMEN TO WORK AT NIGHT.

It has now been definitely settled by the decision of the highest tribunal in the State that a statute forbidding adult women to work in factories before six in the morning or after nine o'clock at night is unconstitutional. Previously we had the ruling of the lower courts to this effect, but now the Court of Appeals has also passed on the question and has given adhesion to the same views, and affirmed the judgment below. We have twice before referred to this case, first when Justice Olmsted, in the Court of Special Sessions of the First Division of the City of New York, declared the statute invalid, and again when the Appellate Division of the Supreme Court in the First Department upheld the ruling of Justice Olmsted; but the final disposition of the case gives new interest to the subject. Moreover, as it happens, Governor Hughes has just attached his signature to a bill re-enacting some of the provisions here declared unconstitutional, adverting in so doing to the decision of the Court of Appeals, but taking the ground that this feature of the bill did not affect the validity of the rest of the measure.

As may be recalled, the case was that of the People of the State of New York vs. David L. Williams, who conducts a printing and bookbinding establishment uptown. One night in January 1906 a deputy factory inspector visited the bookbindery of Mr. Williams and found some girls of full legal age at work engaged in their usual occupation of folding sheets and doing other similar work customary in binderies. Night work is essential on many different papers, and periodicals, which cannot be sent to press until late at night, and which must be ready promptly for distribution to the reading public the next morning. But the legislator has attempted to prevent women from working at night. The law, it is proper to say, has been on the statute books for a number of years, forming Sec. 77 of Chap. 415 of the Laws of 1897, and has been amended from time to time. It provides "that no minor under the age of eighteen years and no female shall be employed, permitted or suffered to work in any factory in this State before six o'clock in the morning or after nine in the evening of any day." The word "factory" has a very broad designation, the statutory definition of it being to this effect: "The term factory when used in this chapter shall be construed to include also any mill, workshop or other manufacturing or business establishment where one or more persons are employed at labor." Under this provision Mr. Williams, as one of the proprietors of the establishment referred to, was found guilty in having employed one Katie Mead to work in his establishment after nine o'clock at night on certain specified dates. At the trial the deputy inspector was called to prove the bare fact of employment after prohibited hours in a factory. The accused offered no evidence and was thereupon found guilty. Upon a motion in arrest of judgment, Mr. Williams, through his counsel, contended first, that Section 77 of the Labor Law, under which the conviction was had, is in contravention of the Fourteenth Amendment of the Federal Constitution, in that it is an infringement of the privileges and immunities of the citizens of the United States, and denies to women the equal protection of the laws; and, second, that it contravenes Article 1, Section 6, of the State Constitution, in that it deprives a citizen of her liberty and property without due process of law. The only plea in justification of the statute urged by the State was that it was enacted to protect the comfort, welfare and safety of the whole people, and the individual must suffer this curtailment of his granted rights in the interest of the common good.

In our issue of Jan. 12 last, we reviewed at length the grounds upon which Justice Olmsted based his conclusion that the law was invalid. He took for his guidance the decision of the United States Supreme Court (Lochner vs. New York, 198 U. S. R., p. 45) in the case where it was attempted to fix a ten-hour day for employees of bakeries and confectionery establishments, which the Court, as will be remembered, declared unconstitutional. In that case it had been urged that it was to the interest of the State that its population should be strong and robust, and therefore any legislation which might be said to tend to make people healthy must be valid as health laws enacted under the police power of the State. But the United States Supreme Court said that if that be a valid argument and a justification for this kind of legislation, it would follow that the protection of the Federal Constitution from undue interference with the liberty of person and freedom of contract is visionary wherever the law is sought to be justified as a valid exercise of the police power. The United States Supreme Court in that case said: "The Act is not within any fair meaning of the term a health law, but is an illegal interference

with the rights of individuals, both employers and employees, to make contracts regarding labor upon such terms as they may think best or which they may agree upon with the other parties to such contract. Statutes of the nature of the one under review, limiting the hours in which grown and intelligent men may labor to earn a living, are mere meddlesome interferences with the rights of the individual." Justice Olmsted applied the same course of reasoning to the New York statute prohibiting the employment of women after 9 o'clock at night or before 6 o'clock in the morning, and accordingly declared the law unconstitutional. The Appellate Division took the same view and did not feel called upon to enlarge upon the points made by Justice Olmsted.

The opinion just handed down by the Court of Appeals is of similar tenor. It was written by Judge Gray. He declares that the Legislature, in the law referred to, overstepped the limits set by the Constitution to the exercise of the power to interfere with the rights of citizens. Under our laws, he says, men and women now stand alike in their constitutional rights and there is no warrant for making any discrimination between them with respect to the liberties of person or of contracts. He could find nothing in the language of the Section which suggested the purpose of promoting health, except that it might be inferred that for a woman to work during the forbidden hours of night would be unhealthful. If the inhibition of the Section in question had been framed to prevent the ten hours of work from being performed at night, or to prolong them beyond 9 o'clock in the evening, it might more readily be appreciated that the health of women was the matter of legislative concern. But that is not the effect or the sense of the provision in question. If that enactment was sustained, he argues, then an adult woman, although a citizen and entitled as such to all the rights of citizenship under our laws, may not be employed nor contract to work in any factory for any period of time, no matter how short, if it is within the prohibited hours; and this too without any regard to the healthfulness of the employment. It is proper to note here that the deputy factory inspector in his testimony had said with reference to the Williams establishment that "it is the best factory of the kind in New York City."

Accordingly Judge Gray, voicing the opinion of the Court of Appeals, reaches the conclusion that such legislation cannot and should not be upheld as a proper exercise of the police power, being certainly discriminative against female citizens in denying to them equal rights with men in the same pursuit. He then goes on as follows:

"The courts have gone very far in upholding legislative enactments framed clearly for the welfare, comfort and health of the community, and that a wide range in the exercise of the police power of the State should be conceded, I do not deny. But when it is sought under the guise of a labor law, arbitrarily as here, to prevent an adult female citizen from working at any time of the day that suits her, I think it is time to call a halt. It arbitrarily deprives citizens of their right to contract with each other. The tendency of legislatures, in the form of regulatory measures, to interfere with the lawful pursuits of citizens is becoming a marked one in this country, and it behooves the courts firmly and fearlessly to interpose the barriers of their judgment when invoked to protest against legislative Acts plainly transcending the powers conferred by the Constitution upon the legislative body."

Such clear, ringing words as these at a time when the tendency is so strongly in the direction of disregarding Constitutional provisions, or of stretching them in such a way as to deprive them of all potency and effect, are certainly reassuring. The amendment to the law which the Legislature has made the present session and to which Governor Hughes gave his approval last Saturday, covers both the provisions with reference to the employment of women and the hours of labor and the ages of minors. With reference to the latter, the amendment restricts further the time within which minors may be employed and the number of hours in the aggregate that they may work in any day. It is the view of Mr. Hughes that the unconstitutional part of the bill is clearly separable, so that the remainder of the law will not be affected. As the Governor has had considerable experience as a lawyer, we are not inclined to dispute his statement. And yet it seems to us the better course would have been to have returned the bill to the Legislature, called its attention to the limit upon its powers as just set out in the opinion and decision of the State's highest court, and asked it to eliminate the unconstitutional part of the law. It is not a dignified proceeding to put new laws upon the statute books when we are apprised in advance that a part, if not the whole, of the law is sure to be declared unconstitutional. The Legislature is still in session, wrangling with reference to a new apportionment of Assembly and Senatorial districts, and could easily pass a new bill free from all objections.

THE LIFE INSURANCE LAWS AS ALREADY TESTED.

Precisely six months after the closing of the polls on the day of election, and about two months after the conclusion of the count in case of the Mutual, announcement is made of the close of the contest for control in the New York Life. The administration ticket received a vote ranging from 236,999 to about 236,000, one name receiving, however, only 136,142; the leading name on the opposition ticket received 100,782, the others ranging from 98,719 to 95,470. Two of the men chosen have died, and one declines to serve, so that three vacancies are to be filled. The retiring board made admirable nominations, and nothing need be said of the new board further than that it is of the highest character. On nomination by Mr. Orr, who took the presidency only temporarily and with the expressed desire that a practical insurance man should succeed, Vice-President Darwin P. Kingsley has been unanimously chosen President. Mr. Kingsley is a Vermonter, now just past 50, and for nearly twenty years has been with the company, progressively filling many positions. His selection was naturally indicated, and it is received by the press with hearty commendation. It is satisfactory to have this matter concluded, and the conclusion itself is one upon which management and policyholders are to be congratulated.

The outcome in both companies must be deemed a result of self-government by the real policyholders. The utmost liberty was given to opposition, for every group of a hundred was empowered to put up a ticket; yet no spontaneous movement appeared. The so-

called International Policyholders' Committee, notwithstanding its pretentious title, was in no sense representative. As we pointed out at the time, the sole question before the electors was one of persons, not of policy; they had only to decide which of two or more sets of men they preferred to trust. Therefore a genuine policyholders' movement would have named its ticket and would then have left each voter to quietly make his own decision, since the widest possible publicity had already been given to all the facts in the case; but a movement from without, seeking control, would naturally perceive that its only hope of success lay in keeping up excitement. That was the course taken. The person behind the movement not only sent fresh complaints to the Department every few days and made charges of misconduct against the company administrations, which were utterly unrestrained and incredible, but raised the cry of fraud and kept that up during the progress of the count, abandoning it only a few weeks ago.

It was even asserted over and over that the administration tickets and all effort in their behalf were subversive of the intent of the law, which was said to be an entire change in the personnel of administration. Had that been the intent, the law would have made the old trustees ineligible, which is exactly what the most violent agitators openly sought. On the contrary, the law assumed that the policyholders had not heretofore been allowed to express their will. It therefore deposed the existing boards entirely, but left it to the policyholders to decide whether they would restore any or all of them. The boards were expressly required to nominate a ticket; and, in order to make liberty of the voters more complete and to insure intelligent decision between old men and new men, the ticket put up by the boards was to be designated the "administration" ticket. Whatever else be said of the law, it could not have been better framed, in the provisions for nominating tickets, for the purpose of ensuring an open and fair election.

But this is the utmost which can be said for it. Its assumption that the policyholders had been disfranchised hitherto was utterly unfounded. Its clean sweep of the boards and ordering a complete new election was just what we vainly pointed out while the subject was before the Legislature; it was contrary to long and universal custom in corporate matters, highly dangerous in its nature, and in this case an invitation to all the world to enter into a struggle for control of nearly a billion of assets. Attempts at this control have been quietly made in the past, attracting no public attention; this forcible declaration by the law of a free-for-all contest, especially after a term of such exaggerated agitation, is not relieved of its reprehensible character by the fortunate fact that the self-seeking plan of outsiders proved unsuccessful.

The publication of lists of policyholders is to be condemned in every aspect. As we also pointed out vainly at the time, it could have performed no service whatever, even for the purposes of the opposition movement. An amendment was passed by the Senate (and then abandoned because of a storm directed upon it) which would have given the persons who managed the opposition movement every assistance which these lists gave them. Since all the newspapers were open to them without stint, they could have reached in that manner every voter with everything they had to communicate, and the rejected amendment (or some other simple device) would also have enabled a direct communication by mail, without any such publication of addresses.

How obnoxious an invasion of privacy such a publication is, how objectionable for business reasons, and how vexatiously policyholders are exposed by it to all sorts of annoying circulars and the like, we need not urge. But the mischief extends to that interference with the stability of policies which is called "twisting," and here is an example of still another form of evil; for some years past certain parties have been seeking out holders of "deferred dividend" policies, namely the kind (now prohibited) which have a fixed term to run and defer settlement of so-called "profits" till the end of the term. These persons offer to buy the policies, paying therefor more than the cash which the companies will pay now. They can well do this, because there is a profit by carrying the policy to maturity, and if the insured died meanwhile, the gain would be still greater. So long as this operation was confined to policies which the holders, for any ordinary reason, were determined to surrender, the holders gained something, and the profit of the speculator did no moneyed injury to anybody. But since agitation began, the speculator gets the published addresses, seeks out the holder, makes his offer, and the fact that it is larger than the company will pay naturally suggests to him that the much-denounced company is not treating him honestly; so he is tempted to sell a policy which otherwise he might not have thought of disturbing. One illustrative case is told of a holder who was just on the point of closing with the offer, when he discovered that the speculator would have made a profit of $3,000, which he could have saved (and of course decided to save) for himself by paying the two remaining premiums, and that, if the payment was difficult, he could borrowthe money from the company at 5%. How much of this under-surface business has been done we are unable to say; but the Mutual recently sent to its policyholders a direct warning against it, and it illustrates the vicious nature of the publication of policyholders addresses.

Without dwelling upon them, we wish to suggest for serious consideration at this point two questions. First, more than five-sixths of the insurance outstanding in the companies of this State is owned outside of the New York jurisdiction, considerable of it being under foreign governments; therefore, does not this State assume to push its radical intervention too far? Second, these companies have no grant from the State. They are not utilities; they owe no public duty, and perform no public service. They are not even "business" corporations in any sense. They are merely associations of persons who come together for a strictly personal and selfish purpose of their own, contemplating nobody outside. They are as private as a cemetery association, for example. Their vast size complicates the conditions, admittedly, but it does not change the essence, nor is that changed, because the technical corporate form is necessary. Now, by what right in reason and morals does a legislature assume to forcibly enter into a private concern, abolish a board of control and an order of election which the owners of the fund had established, upset its rules of procedure and its modes of investment, and throw away

forcibly, in a vain and mischievous scheme of a new election, an amount of private funds which has been estimated as high as a million, and is at least very large, without an atom of advantage to any legitimate interest?

The legal competency of all this we do not discuss, but we cannot refrain from saying that, while the circumstances made it inexpedient to raise the issue in the courts, we have felt that it is very doubtful whether the new laws would pass judicial inquiry at several points.

They have now been a year in enactment, and about six months in full effect, and the elections scheme has had its trial, so that it is possible to apply a beginning of test to their practical value. They set legislatures in other States going, naturally, in the bad course of following a bad example. Fortunately, this did not go far beyond keeping up an agitation which has been the cause of a destructive sacrifice of insurance by innocent holders who will suffer, silently and unknown, for the faults of persons who will not recognize the wrong of needlessly disturbing the feeling of confidence. The worst legislation provoked by this example is the new investment law of Texas, already commented on by us. The New York Life has explained the matter to its Texas policyholders direct, in a circular announcing its withdrawal from that State, and a Philadelphia company has put the case still more pointedly by asking its Texas policyholders whether they are willing to be charged the extra which the law puts on as special tax. They must bear it, willingly or unwillingly, knowingly or unknowingly; but it is exactly right to bring the thing home in this way to the persons who are affected and who must deal with their own legislators. This is the referendum principle, which has been coming into life insurance administration in the last few years, none too soon, and ought to become settled practice.

These vicious new laws and the vicious extension of State regulation must be included as a part of the emotional legislation of the last five years into which we are more and more swiftly and thoughtlessly hurried. The custom is getting to be to pass a lot of undigested laws first, and then think about them afterwards. The thinking ought to precede, but it is better to think out of time than not think at all, and we may better understand clearly that the thinking is bound to come, timely or untimely. Probably the courts will do some of it in their cool and deliberate way, but we commend the reader to that kind of thinking for himself, without awaiting and relying on the protective action of the judiciary.

RAILROAD GROSS AND NET EARNINGS FOR APRIL.

Our April statement of railroad gross and net earnings bears out expectations in showing greatly improved results as compared with the preceding months of the current calendar year. The gain in the gross earnings is far in excess of that of the earlier months and for the first time this year we have a monthly return showing a substantial increase in net. In January and February, it will be remembered, there were actual losses in the net, and in March, although there was a gain, it was of insignificant extent—only nominal in amount. Our present April statement, on the other hand, records an increase in net in the sum of $8,882,437, or 26.41%.

In the gross the increase reaches the very large figure of $27,021,029. The fact that this gain, however, has yielded an increase of only $8,882,437 in the net is highly significant. It shows that the additions to expenses during the month reached over $18,000,000 and indicates that the same conditions that served to swell the expense accounts in the preceding months—such as the higher cost of labor and of materials and supplies and the other things entering into the operating accounts of the railroads—are still in force. This is of course the feature in the affairs of the railroads that is giving chief concern along with the action of legislative bodies and Government officials in raising the taxes of the railroads and in other ways adding to operating cost. That there was a gain in net during April is due alone to the fact that the expansion in the gross was of extraordinary proportions. And this bears out what we have said on previous occasions, namely that as the greater part of the augmentation in expenses is more or less constant—running on, we mean, from month to month—and is of large extent, it can be overcome only when the gains in gross are of very great magnitude such as happened in April.

	April. (91 *roads.*)			*January 1 to April 30.* (91 *roads.*)		
	1907.	1906.	*Inc. or Dec.*	1907.	1906.	*Inc. or Dec.*
	$	$	$	$	$	$
Gr. earn	142,884,383	115,863,354	+27,021,029	540,194,688	481,545,931	+58,648,757
Op. exp.	100,362,834	82,224,242	+18,138,592	389,466,043	337,586,757	+51,879,286
Net earn	42,521,549	33,639,112	+8,882,437	150,728,645	143,959,174	+6,769,471

We need hardly tell the reader that very exceptional circumstances account for the extent of the gain in the gross during April. Comparison is with a period last year when the roads had lost a good part of their coal traffic because of the suspension of work at the coal mines. The anthracite roads lost practically the whole of their coal traffic, as the anthracite mines were idle throughout the whole month of April last year. The bituminous coal roads likewise lost large portions of their coal tonnage and this was a circumstance that applied to practically all the roads in the Middle and the Middle Western and to a good many in the Southwestern States, though suspension was not complete in any one State, since some of the mines were able to keep operations going by granting at the start the 1903 wage scale which subsequently was granted at all the mines. We have a capital illustration of the part played by the return to normal conditions in the coal business this year in swelling earnings in the fact that the Pennsylvania Railroad, the largest coal-carrying road in the country, sustained a decrease in its gross earnings last year on its lines east of Pittsburgh and Erie in amount of $540,100, and this year reports an increase in earnings for the same part of the system in the sum of no less than $3,121,200. The loss on the Eastern lines last year was offset by a gain of $508,300 on the Western lines, reducing the loss for the combined lines to only $31,800. The present year the combined lines show a gain in the prodigious figure of $4,418,600.

There were some other special favoring circumstances the present year. April last year contained five Sundays. This year it had only four. It follows that there was one more working day in the month in 1907 than there had been in 1906. Furthermore, Western roads had the advantage of a larger grain movement and in some instances likewise

of a larger live-stock movement. It is proper to say, though, that the Southern roads in many instances had a smaller cotton movement.

Notwithstanding the diminution in the coal traffic last year, United States roads, as a whole, in April 1906 did not show any falling off in either gross or net earnings, the prosperity and activity of general trade having served to offset, and more than offset, the loss in the coal traffic. Our table at that time recorded $5,399,836 increase in the gross earnings, or 5.16%, and an increase of $1,411,064, or 4.67% in the net earnings. This year's large improvement is all the more noteworthy because of this improvement in 1906. In the previous years, too, there were larger or smaller gains, with the exception of 1904, as may be seen from the following.

	Gross Earnings.			Net Earnings.

1907	540,194,688	481,545,931	+58,648,757	150,728,645	143,959,174	+6,769,471

Note.—Includes for April 129 roads in 1896; 127 in 1897; 134 in 1898; 124 in 1899; 127 in 1900, 127 in 1901; 120 in 1902; 109 in 1903; 96 in 1904; 96 in 1905; 91 in 1906 and 91 in 1907. And from Jan. 1 to April 30, 127 roads in 1896; 122 in 1897; 132 in 1898; 122 in 1899; 125 in 1900; 127 in 1901; 117 in 1902; 108 in 1903; 95 in 1904; 96 in 1905; 88 in 1906 and 91 in 1907. Neither the Mexican roads nor the coal-mining operations of the anthracite coal roads are included in any of these totals.

In the case of the separate roads, the list of gains is a noteworthy one, while the losses are inconsequential. Indeed, in the gross earnings, there is no single loss for as much as $30,000. In the net, there are five such losses, owing to the part played by augmented expenses in the affairs of the roads. This feature of increased expenditures is strikingly reflected in the case of the Pennsylvania Railroad, which, with $4,418,600 improvement in the gross, is able to record only $580,400 improvement in the net. The changes for the separate roads in both gross and net are set out in the following:

Baltimore & Ohio	201,302	Toledo St. Louis & West	35,203
Kansas City Southern	190,060		
Chicago & Alton	166,047	Total (40 roads)	$8,836,048
Toledo & Ohio Central	162,115		
Southern Railway	125,222		*Decreases.*
Denver & Rio Grande	121,415	West Jersey & Sea Shore	$118,900
Hocking Valley	120,048	Central of Georgia	71,240
Union Pacific	119,441	Yazoo & Mississippi Valley	58,317
Wabash	115,791	Georgia RR	47,557
Illinois Central	112,303	Phila. Balt. & Washington	32,700
Northern Central	109,900		
Missouri Kansas & Texas	104,128	Total (5 roads)	$328,714

x These figures are for the Railroad Company, the Coal & Iron Company reports an increase of $507,520.

y These figures cover lines directly operated east and west of Pittsburgh and Erie. The net on Eastern lines increased $410,300, and the net on Western lines increased $170,100.

When arranged in groups, the gains are very noteworthy, both in the case of the gross and the net, and there is no group that has failed to record an improvement in either. Very naturally the anthracite coal roads stand out with particular prominence, as these suffered enormous losses last year by reason of the suspension of operations at the mines. The gain for that group reaches 69% in the gross and 268% in the net. But several of the other groups, it will be observed, also show very large percentages of gain.

Net increase (21.45%)			33235703	

In this way the final increase for the month is brought up to $33,235,703, or 21.45%. Last year, in this month, our final table made up in the same way recorded $8,679,762 gain, or 6.78%.

ITEMS ABOUT BANKS, BANKERS AND TRUST CO'S.

—No sales of bank or trust company stocks have been made this week either at the Stock Exchange or at auction. Bid and asked quotations for New York and Brooklyn bank and trust company stocks are published weekly in the "Chronicle," and will be found to-day on pages 1470 and 1471.

—The State Treasurer's request for higher rates of interest from the banks after July 1 for deposits of N. Y. State funds is being quite generally agreed to. Out of 250 institutions throughout the State which have been notified of the change, 200 are said to have expressed assent to the increased rate, some even asking for additional money at the higher figure. The rate is to be raised from 2% to 2½%. The proposed change was referred to in this department May 18.

—Governor Hughes on Monday signed Senator McManus's bill which provides that when the State Superintendent of Banking shall take possession of a bank or individual banker's property, he shall give notice thereof to all banks, trust companies, associations and individuals holding any assets of said bank or individual banker, which shall act as a bar against such holders of the assets securing a lien against any of the assets of the embarrassed bank.

—In the Massachusetts Senate on the 14th inst. it was voted to refer to the next General Court the bill providing for a tax of two cents on transfers of stock of the face value of $100 or a fraction thereof. The proposed measure was adverted to in this department May 4.

—The Riverside Bank of this city has decided to abandon the practice of clearing through the Bank of the Manhattan Company after July 1, and will thenceforth clear its checks over its own counters. The directors of the Riverside Bank were moved to this course, owing to the fact that its downtown accounts were not sufficiently large to warrant a continuance of the present practice.

—Charles H. Stout resigned the past week as a Vice-President of the Liberty National Bank of this city to become Vice-President of the Manhattan Trust Company, to which post he was elected on Wednesday. The changes will become effective July 1. He will continue, however, to be identified with the Liberty as a member of its executive committee, as well as a director. Mr. Stout was Cashier and later Vice-President of the National Bank of the Republic before its merger with the First National Bank. After the consolidation he became one of the active Vice-Presidents of the First, and only resigned this office to accept the vice-presidency of the Liberty.

Mr. Stout has had a wide banking experience, and every institution with which he has ever been connected has profited immensely from such experience. His entry into the Manhattan Trust Co. means that this feature of that institution's business is to be actively developed. His influential connections are also sure to be of advantage to the institution.

—The Texas bankers, their wives and daughters, to the number of about 200, who have been on a sight-seeing tour since the close of the annual meeting of the Texas Bankers' Association at Corpus Christi on May 30, reached New York on Tuesday last. They arrived from Boston on Charles W. Morse's new steamer, as the guests of the National Bank of North America. Upon their arrival at Pier 14, East River, they were met by representatives of the Hanover, Oriental, Park and Seaboard national banks and given an auto trip through the city, later proceeding by boat to Dreamland, at Coney Island, where luncheon was served. After visiting the various attractions, they were dined at Luna Park and shown its various entertainments, returning to the city at midnight. On Wednesday, as the guests of the National City Bank, the visitors witnessed the performance of the "Red Mill" at the Knickerbocker Theatre, after which a banquet was served at the Cafe des Ambassadeurs. Thursday morning the Phenix National Bank gave a breakfast at the Waldorf-Astoria, while Thursday evening the Mercantile National acted as host at an elaborate "beef-steak dinner" at Shanley's Times Square restaurant, following which there was a theatre party at the Casino given by the Consolidated National Bank. The bankers left for Philadelphia at midnight Thursday.

—The Colonial Bank of this city has declared a semi-annual dividend of 10%, payable July 1, which is an increase of 2% over the last semi-annual payment made last January.

—Lee Shubert, the theatrical manager, has been elected a director of the Mutual Bank, at Broadway and 33rd Street, this city.

—The directors of the Washington Trust Company of this city have elected to their board George Gray Ward, Vice-President of the Commercial Cable Company and of the Postal Telegraph Cable Company. Mr. Ward replaces the late Charles F. Cutler.

—Frederick T. Haskell, Vice-President of the Illinois Trust & Savings Bank of Chicago, has been elected to succeed the late James H. Eckels on the board of the Bankers' Trust Company of this city.

—John H. Davis has resigned as an Assistant Cashier of the Seaboard National Bank of this city on account of ill-health. The following new Assistant Cashiers have been appointed: L. N. De Vausney, J. C. Emory and O. M. Jeffords.

—A special dividend of 150% has been declared by the Fifth Avenue Bank of this city out of the earnings for the year 1906, payable July 1. The usual quarterly dividend of 25% will be paid at the same time. Similar large distributions have been made in the past, 100% in July 1903, when the earnings for several years previous had been unusual and 120% in July 1905. The capital of the bank is $100,000.

—The directors of the Corn Exchange Bank of this city have appointed Thomas Nash an Assistant Cashier. Mr. Nash has been connected with the bank for a quarter of a century.

—The proposition to increase the capital of the New York County National Bank of this city from $200,000 to $500,000 was ratified by the stockholders on the 18th inst. A special equalizing dividend of 150%, to be declared out of the surplus fund, will be used as payment for the new stock.

—Archibald Turner, President of the Franklin Savings Bank of this city, and a director of the Lincoln Trust Company, died on the 18th inst.

—The directors of the Bank of America of this city have again increased the semi-annual dividend, declaring 13%, payable July 1. The semi-annual distribution in Jan. 1907 was 12%. In July 1906 11% was paid and previously 10%, at each half-yearly period.

—The Chase National Bank of this city has declared a semi-annual dividend of 3%, payable July 1. This is the first dividend on the enlarged capital. The directors in December last increased the capital from $1,000,000 to $5,000,000 by the declaration of a 400% dividend. The payments on the old capital were 10% Jan. 1907 and July 1906, and 6% each semi-annual period previously back to 1904.

—The Yorkville Bank of this city has declared a semi-annual dividend of 8%, payable July 1, placing the stock on a 16% per annum basis. The last two semi-annual distributions were 6% each, previous to which 5% was the half-yearly rate.

—Oliver M. Dennett, the accomplice of William O. Douglas, the defaulting Assistant Loan Clerk of the Trust Company of America of this city, pleaded guilty on Wednesday to the charges of larceny on which he was recently indicted.

—The second dividend declared by the Union Exchange Bank of this city and to be paid July 1 was increased to 5%, the initial distribution having been 2½% in December 1906. The institution began business in 1903.

—The suspension of Frank W. Duryea, floor member of the firm of Duryea & Co., 20 Broad Street, was announced on the New York Stock Exchange on Wednesday. The firm, which, it is said, is in no way affected by Mr. Duryea's suspension, has been dissolved and reorganized under the name of Duryea, Tappin & Co.—two of the former partners, Harry H. Duryea and Fred S. Battershall, and Lindsley Tappin, a member of the New York Stock Exchange, forming the new co-partnership. The reorganization is understood to have been contemplated before the announcement of the suspension; indeed, arrangements had already been made, it is stated, for the new firm to begin business July 1. It is reported that the difficulties of the suspended partner arose

through his inability to realize on real estate investments, rather than through Stock Exchange commitments.

—At a meeting of the directors of the People's Trust Company of Brookyn on Wednesday, Charles A. Boody was unanimously elected President of the institution to succeed the late Edward Johnson. Mr Boody, who is a son of ex-Mayor Boody of Brooklyn, has been connected with the company since its organization in 1889. Starting as bookkeeper he has steadily advanced, becoming Assistant Secretary in 1891, and in 1903 succeeding Mr. Johnson as Secretary. Mr. Boody is replaced in this office by Charles L. Schenck, heretofore an Assistant Secretary.

—The North Side Bank of Brooklyn has declared a semi-annual dividend of 4%, payable July 1, increasing the rate per annum to 8%, 6% having been the amount previously paid since 1895, when the first dividend was made.

—Arthur E. Appleyard, whose suspension from the Philadelphia Stock Exchange was reported in this department last Saturday, failed to make the $40,000 payment to Receiver Wheeler of the German Bank of Buffalo in settlement of his civil liabilities to the bank. The money was due a week ago.

—Warren A. Spalding was elected President of the National Tradesmen's Bank of New Haven, Conn., on the 13th inst., to succeed William T. Fields, resigned. The institution in its latest statement (May 20) makes an excellent showing. Its combined capital and surplus is $618,544—$300.000 representing capital—and the bank holds third place among the city's financial institutions in its ratio of surplus and profits to capital; the deposits are $1,280,462 and the total resources stand at $2,181,274. During the bank's existence it has paid dividends aggregating $1,179,000.

—H. P. Buncher has been elected Cashier of the Waltham National Bank of Waltham, Mass., succeeding J. F. Gibbs; F. G. Stickney replaces Mr. Buncher as Assistant Cashier.

—Charles D. Barney of the firm of C. D. Barney & Co., Philadelphia and New York, has announced his intention of retiring from active business on July 1. There will, however, be no change in the conduct of the company's business, which will be carried on as heretofore, under the same name, by the remaining partners, viz., J. Horace Harding, Jay Cooke 3d, Henry E. Butler and Charles S. Phillips. The firm is one of the oldest in Philadelphia, having been organized thirty-four years ago after the Jay Cooke failure; the original partners were Mr. Barney and Jay Cooke 2d; the latter subsequently retired and was succeeded by Jay Cooke 3d.

—At the unanimous request of the directors, Grier Hersh has withdrawn his resignation as President of the Maryland Trust Company of Baltimore. Mr. Hersh had resigned on the ground that he was unable as head of the institution to give the desired attention to his private affairs. The directors have therefore arranged matters so that Mr. Hersh will be relieved of some of the duties entailed in the office, thereby enabling him to devote the necessary time to personal matters. Under the arrangement thus made much of the work formerly exacted of the President will devolve, it is stated, upon Vice-President L. S. Zimmerman.

—The Maryland Bankers' Association held its anual convention this week. The business sessions were held on board the steamship Atlanta while the bankers were en route to Old Point Comfort and the Jamestown Exposition. Alexander Neill, President of the Hagerstown Bank, of Hagerstown, Md., in his address as President of the Association, advocated a new general banking law for the State, the present one failing to meet the requirements of the day. He declared himself in favor of the establishment of a State banking department, with a banking commission and other agencies to make it effective. Most of the States, he said, have such departments, and they are regarded as an essential part of the State Government. F. V. Baldwin, Cashier of the Commercial & Farmers' National Bank, of Baltimore, was a speaker at the meeting, the subject of his remarks being "Baltimore as a Reserve Depository." Col. Henry B. Wilcox, Vice-President and Cashier of the First National Bank of Baltimore, is President of the association for the ensuing year. The Secretary and Treasurer were re-elected; they are respectively Charles Hann, Assistant Cashier of the National Mechanics' Bank of Baltimore, and William Marriott, Cashier of the Western National Bank of Baltimore. The Maryland bankers were the guests of the Virginia Bankers' Association at a reception in the Virginia Building at the Jamestown Exposition on Thursday evening.

—The newly organized United States Trust Company of Washington, D. C., began operations on Monday, opening in temporary quarters on 14th Street. The authorized capital is $1,000,000, one-half of which, it is understood, has been paid in. H. Bradley Davidson has replaced Daniel N. Morgan as President, the latter having agreed to serve in that capacity only during the preliminary stages of organization. He will, however, continue to be identified with the company, having been chosen Auditor. Mr. Davidson's other associates are M. A. Winter, William J. Oliver and R. W. Beall, Vice-Presidents; Richard E. Claughtan, Treasurer; James Trimble, Secretary, and Charles A. Douglas, General Counsel.

—The annual convention of the Ohio Bankers' Association will open at Cincinnati on Wednesday next, the 26th inst., and will continue in session for two days. The program which has been prepared includes the following addresses: "Place of the Independent Treasury in the American Banking System," by Prof. E. S. Meade of the University of Pennsylvania, at Philadelphia; "Legislation and Progress," by Myron T. Herrick, former Governor of Ohio; "President Roosevelt's Responsibilities Compared with those of President Washington," by Charles H. Treat, U. S. Treasurer; "The Treasury and the Banks," by Milton E. Ailes, Vice-President of the Riggs National Bank, Washington, D. C.; "Security," by Warren G. Harding, Editor of the Marion (Ohio) "Star;" and "Work of the Currency Commission of the American Bankers' Association," by Col. James R. Branch, Secretary of that Association. There will also be a discussion of the following subjects: "Requirements of a Satisfactory State Banking Law," led by Judge Henry W. Harter, and "The Group System for the Ohio Bankers' Association," led by F. E. Shaffmaster, President of the Waterville State Savings Bank Company.

—It is reported that the Columbia National Bank of Lincoln, Neb. (capital, $100,000), has been consolidated with the First National Bank of that city. Controlling interest in the Columbia is said to have been purchased by S. H. Burnham, President of the First National. The capital of the latter was increased in January from $300,000 to $400,000

—The increase in the capital of the German-American Bank of Detroit, alluded to last week, was voted upon by the shareholders yesterday. The capital is to be increased to the extent of $150,000, raising it from $100,000 to $250,000. Out of the surplus of $90,000 a dividend of 70% has been declared, reducing the surplus to $20,000, with the sale of the new 1,500 shares at $120 each, the surplus will however be brought up to $50,000. The enlarged capital will go into effect about July 1.

—The American National Bank of Kansas City, Mo., has been succeeded by the National Bank of the Republic. The capital is $500,000, as against $250,000 for the old bank, and the institution has a surplus of $50,000. William Huttig has assumed the presidency, succeeding J. S. Parks, resigned. The other officials are J. H. Berkshire, John Worthington and Willis Wood, Vice-Presidents; and John C. Wood, Cashier.

—The Comptroller of the Currency has approved an application to organize a new Federal institution in Seattle, Wash., under the title of the Citizens' National Bank. The new bank will have a capital of $200,000 and surplus of $50,000. It will open in September in the quarters of H. O. Shuey & Co., by whom the proposed institution is being organized.

—For the year ending May 31 1907 the Merchants' Bank of Canada (head office Montreal) reports net profits of $961,660, against $740,399 for May 31 1906. The present year's profits added to the balance of $74,596 brought forward from last year gave a total of $1,036,256, out of which $480,000 was paid in dividends; $100,000 was added to the reserve fund; $100,000 written off bank premises, and $22,000 contributed to the Officers' Pension Fund, leaving a balance of $34,256 to be carried forward. The bank has a paid-up capital of $6,000,000, and its reserve fund, with the addition above noted, now stands at $4,000,000. The total assets are $52,865,687. E. F. Hebden is General Manager.

Monetary and Commercial English News

(From our own correspondent.)

London, Saturday, June 8 1907.

There has been a decidedly better feeling on the Stock Exchange this week, though business is certainly not more active. Indeed, members of the Stock Exchange allege that, if possible, it is less active. The main thing, however, is that for the moment liquidation is stopped. The best opinion is that the liquidation is not yet completed. During the past six or eight months the losses have been very heavy and a considerable number of persons have had to be helped. Their stocks have been taken over by those who helped them and at every favorable opportunity these holdings are sold. It is this constant offering of "wreckage," to use the Stock Exchange phrase, that alarms the Exchange and keeps it in a nervous state.

The condition of things is very similar in Berlin. There, also, the losses have been very heavy. Berlin speculated on a great scale in American securities as well as in purely German securities. Both classes of securities have fallen sharply and the losses have been very heavy. It is believed that the liquidation there also is far from completed. The public in Germany, just as in England, is holding aloof from the market. Consequently, it is difficult to complete the liquidation and every fresh offer adds to the uneasiness of the Bourse.

In France there have been sharp losses also, though to nothing like the extent that occurred in London and Berlin. The speculation in Paris was chiefly in copper and diamond shares. Of course there were other things, but the great speculation was in these, and the speculation was either by exceedingly wealthy people, who were able to take up and carry their purchases for a favorable opportunity, or by weak people, whose failure would not affect markets. At the same time, the speculation was sufficient to induce the Bank of France to discourage it in every way and to raise its rate of discount to 3½%. Just now, partly because of the general uneasiness all over Europe and in New York, partly because of the fear of Socialist legislation and especially of an income tax, and partly because of the persistent rumors that the Reactionaries at the Russian Court are recovering the Czar's favor and are doing their utmost to bring about a dissolution of the Douma, the French banks think it necessary to strengthen themselves, and gold in very considerable amounts is, in consequence, flowing into Paris. In addition to the shipments of the metal from New York, considerable amounts are being sent from London to Paris. The shipments from London have been going on for fully two months and will certainly go on for the remainder of this month. Besides this, the French banks have withdrawn a large part of the balances they have been employing in Berlin, which, no doubt, is one reason why the Berlin market is so nervous and uneasy.

While, however, the stock exchanges and bourses are in this nervous state, trade continues wonderfully good. Here at home every monthly Board of Trade return shows increasing improvement. And so far as can be judged up to the present, the improvement is still going on. The home trade, too, is very good. In France, trade is much more active and profitable than it has been for several years past. In Germany trade continues marvellously good. In spite of the extreme dearness and scarcity of money every one of the great trades are reported to be working at the highest pitch. The one serious drawback respecting trade is the fear of exceedingly short crops. The winter and spring have been most unfavorable. Probably the view taken now is unduly pessimistic. Still, the crops are very late, and in the opinion of many good observers will be very short.

Owing mainly to the action of the French banks in attracting gold to Paris, the rates of interest and discount have somewhat advanced in London this week, and the general expectation appears to be that money will tend to grow somewhat scarcer and dearer during the remainder of the month. This will, of course, mainly depend upon the action of France. If a steady stream of gold flows to France, the other European markets must necessarily be affected. Also it depends to a considerable extent upon the German market. There, rates were kept tolerably easy by the large amount of French money employed by the banks at the comparatively high rates ruling. The French banks, however, have withdrawn a considerable proportion of their funds, with the result that the best opinion in Berlin now clearly is that there will be no reduction in the Bank rate, at all events not during the month of June, for at the end of the half-year the usual requirements will be so large that there will inevitably be a very large expansion of the note circulation of the Imperial Bank. It is argued, therefore, that it would be folly for the Imperial Bank to put down its rate now and to raise it again at the end of the month.

The India Council offered for tender on Wednesday 50 lacs and the applications amounted to nearly 454½ lacs at prices ranging from 1s. 4d. to 1.s 4 5-32d. per rupee. Applicants for bills at 1s. 4 3-32d. and for telegraphic transfers at 1s. 4 1/8d. per rupee were allotted about 15% of the amounts applied for.

a Transfer books not closed. *d* On account of accumulated dividends and being remainder of such dividends unpaid. *e* Correction.
f From earnings of year 1906 *g* Payable in collateral trust bonds.

Statement of New York City Clearing-House Banks.—The following statement shows the condition of the New York City Clearing-House banks for the week ending June 15. It should be distinctly understood that as to all items except capital and surplus the figures are the averages of the daily results, not the totals at the end of the week. In other words, in reporting loans and deposits and holdings of specie and legal tenders, the practice is to take the aggregate of the amounts for the several days of the week and divide this aggregate by the number of days.

We omit two ciphers (00) in all cases.

Banks 00s omitted.	Capital.	Surplus.	Loans.	Specie.	Legals.	Deposits. a	Reserve

a Including for Boston and Philadelphia the item "due to other banks" and also Government deposits. For Boston these Government deposits amounted on June 15 to $4,583,000; on June 8 to $4,580,000.

Imports and Exports for the Week.—The following are the imports at New York for the week ending June 15, also totals since the beginning of the first week in January:

FOREIGN IMPORTS AT NEW YORK.

For week.	1907.	1906.	1905.	1904.
Dry Goods	$2,963,845	$2,602,655	$2,306,326	$1,943,959
General Merchandise	12,553,749	11,633,317	8,207,205	7,624,233
Total	$1 ,517,594	$14,235,972	$10,513,531	$9,568,192
Since January 1.				
Dry Goods	$88, , 45	$76,393,614	$65,812,622	$55,730,279
General Merchandise	326,722,032	277,476,998	268,531,231	226,808,500
Total 24 weeks	$415, ,677	$353,870,612	$334,343,853	$282,538,779

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending June 15 and from Jan. 1 to date.

EXPORTS FROM NEW YORK FOR THE WEEK.

	1907.	1906.	1905.	1904.
For the week	$12,787,447	$10,964,737	$8,429,195	$7,890,925
Previously reported	276,172,208	283,271,109	237,625,676	217,520,499
Total 24 weeks	$288,959,655	$294,235,846	$246,054,871	$325,411,424

The following table shows the exports and imports of specie at the port of New York for the week ending June 15 and since Jan. 1 1907, and for the corresponding periods in 1906 and 1905:

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

Gold.	Exports.		Imports.	
	Week.	Since Jan. 1	Week.	Since Jan. 1
Great Britain	------	$4,845,085	------	$2,540,353
France	$2,501,198	6,037,969	------	331,087
Germany	------	--------	------	1,155,297
West Indies	------	412,555	$17,240	156,282

Wall Street, Friday Night, June 21 1907.

The Money Market and Financial Situation.—The most prominent characteristic of the security markets continues to be the exceptionally small amount of business transacted, and in this particular a new low record, both for a single day and for a complete week, has been established. Prices, however, have been more steady than for some time past, for which there is at least one good reason. We refer to the more seasonable weather throughout the country and to the fact that the prospects of a good harvest in the South and West are better than they have been. Other than this there is no change worthy of note in the general situation.

Gold to the amount of $5,000,000 has been engaged for shipment to Paris and $1,100,000 for London, which makes the total outward movement to date $18,500,000. There is very little change in the money market conditions at home or abroad. In the London market consols have made a new low record and, as is generally well known, all the principal European banks are maintaining a higher discount rate than is usual at this season. There the market has a slightly firmer tendency and rates for both call and time loans are quoted a little higher.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 2¼ to 3¾%. To-day's rates on call were 2½@3½%. Prime commercial paper quoted at 5½% for endorsements and 5½@6% for best single names.

The Bank of England weekly statement on Thursday showed an increase in bullion of £664,601, and the percentage of reserve to liabilities was 47.30, against 46.96 last week.

The discount rate remains at 4% as fixed April 25. The Bank of France shows an increase of 29,900,000 francs in gold and 1,825,000 francs in silver.

The New York City Clearing House banks in their statement of June 15 showed a decrease in the reserve held of $2,683,200 and a surplus over the required reserve of $4,514,625, against $5,980,525 the previous week.

	1907. June 15.	Differences from previous week.	1906. June 16.	1905. June 17.
	$	$	$	$
Capital	129,100,000	----------	117,472,700	115,972,700
Surplus	161,720,600	----------	149,236,400	139,492,800
Loans and discounts	1,139,755,900	Dec. 1,689,500	1,060,076,300	1,104,860,900
Circulation	50,477,400	Dec. 88,500	48,487,400	47,359,000
Net deposits	a1114,272,300	Dec. 4,869,200	1,048,182,100	1,140,284,800
Specie	210,056,200	Dec. 3,518,000	185,357,000	205,857,400
Legal tenders	73,026,500	Inc. 834,800	83,761,900	86,423,300
Reserve held	283,082,700	Dec. 2,683,200	269,118,900	292,280,700
25% of deposits	278,568,075	Dec. 1,217,300	262,045,525	285,071,200
Surplus reserve	4,514,625	Dec. 1,465,900	7,073,375	7,209,500

a $31,639,400 United States deposits included, against $31,661,700 last week and $15,375,000 the corresponding week of 1906. With these United States deposits eliminated, the surplus reserve would be $12,424,475 on June 15 and $13,895,950 on June 8.

Note.—Returns of separate banks appear on the preceding page.

Foreign Exchange.—The market was generally strong this week at about the highest points of the year, influenced by an urgent demand and a scarcity of bills. Gold exports to Paris $5,000,000 and to London $1,100,000, making $18,500,000 thus far on this movement.

To-day's (Friday's) nominal rates for sterling exchange were 4 84½@4 85 for sixty-day and 4 88@4 88½ for sight. To-day's (Friday's) actual rates for sterling exchange were 4 8410@4 8415 for long, 4 8735@4 8740 for short and 4 88@4 8810 for cables. Commercial on banks 4 8365@4 8375 and documents for payment 4 83@4 84⅜. Cotton for payment 4 83@4 83¼; cotton for acceptance 4 8365@4 8375 and grain for payment 4 84¼@4 84⅜.

To-day's (Friday's) actual rates for Paris bankers' francs were 5 18¾*h*@5 18¾*a* for long and 5 16¼@5 15⅝*h* for short. Germany bankers' marks were 94⅝@94 11-16 for long and 95¼@95 5-16*d* for short. Amsterdam bankers' guilders were 40 37@40 39 for short.

Exchange at Paris on London to-day 25f. 15c.; week's range 25f. 15½c. high and 25f. 14½c. low.

The week's range for exchange rates follows:

	Long		Short		Cables	
Sterling Actual—						
High	4 8410	@ 4 8415	4 8735	@ 4 8740	4 88	@ 4 8810
Low	4 8360	@ 4 8370	4 8715	@ 4 8725	4 8765	@ 4 8775
Paris Bankers' Francs—						
High	5 18¾*h*	@ 5 18¾*a*	5 15⅝*h*	@ 5 15¾*d*	----------	
Low	5 19¾	@ 5 18¾	5 16¼	@ 5 15⅝*h*	----------	
Germany Bankers' Marks—						
High	94¾	@ 94 11-16	95¼	@ 95 5-16	----------	
Low	94 9-16	@ 94 11-16	95¼	@ 95 5-16*d*	----------	
Amsterdam Bankers' Guilders—						
High	----------		40 37	@ 40 39	----------	
Low	----------		40¼	@ 40 5-16	----------	

Less: *a* 1-16 of 1%. *d* 1-32 of 1%. *h* 3-32 of 1%.
Plus: *k* 1-16 of 1%. *x* 1-32 of 1%. *y* 3-32 of 1%.

The following were the rates for domestic exchange on New York at the undermentioned cities to-day: Savannah buying, 50c. per $1,000 discount; selling, 75c. per $1,000 premium. Charleston selling, $1 per $1,000 premium. New Orleans bank, 15c. per $1,000 premium; commercial, 20c. per $1,000 discount. Chicago, 5c. per $1,000 premium. St. Louis, 55c. per $1,000 premium. San Francisco, par.

State and Railroad Bonds.—Sales of State bonds at the Board are limited to $15,000 Virginia 6s, deferred trust receipts, at 25.

The transactions in all classes of bonds at the Exchange barely reached a total of $700,000, par value, on Tuesday, and for the week have averaged little more than that sum. Of this a large portion has been railroad bonds, although the industrial issues are steadily gaining in importance, and the relative proportion of this class of bonds in this week's total is larger than it has sometimes been. Sales include American Tobacco, Colorado Industrial, U. S. Steel and Central Leather issues. The latter close 1 point higher than last week, and Rock Island 4s, Burlington & Quincy joint 4s and Pennsylvania convertibles have been strong features of the market.

United States Bonds.—Sales of Government bonds at the Board include $4,000 3s, coup., 1908–18, at 102⅜ to 102¾, and $1,000 4s, reg., 1907, at 100⅞. The following are the daily closing quotations; *for yearly range see third page following.*

* This is the price bid at the morning board; no *sale* was made.

Railroad and Miscellaneous Stocks.—Mention is made above of the limited transactions at the Stock Exchange, and there is little else of interest to record in regard to the stock market.

The trading on Thursday aggregated less than 200,000 shares, and for the entire week has averaged but little more.

Fluctuations have been so narrow as to be almost wholly without significance, many issues not having covered so much as a point during the week, and net changes are generally to lower figures. Of a list of 25 prominent issues only 4 close higher than last week.

Reading and Union Pacific are again the exceptional features. Transactions in the former were nearly one-third of the whole, and the two supplied material for more than half the business of the week. They were also the most irregular issues, each covering a range of about 2½ points. Reading closes without net changes in price, and Union Pacific, ex-div., in only ⅛ lower than last week.

New York Air Brake has recovered about half the decline noted last week and Smelting and Colorado Fuel & Iron are higher. General Electric is down 2½ points and Amalgamated Copper is over a point lower. Steel common has fluctuated narrowly and closes without net change. Steel preferred is fractionally lower.

For daily volume of business see page 1477.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

STOCKS. Week ending June 21.	Sales for Week.	Range for week. Lowest.		Range for week. Highest.		Range since Jan. 1. Lowest.		Range since Jan. 1. Highest.

Outside Market.—The "curb" market has been an exceedingly dull affair this week. Transactions were extremely light and price movements, with few exceptions, within the narrowest limits. The general tone of the market continues heavy. Boston Consolidated Copper dropped from 23¾ to 23, advanced to 24⅛ and ran off finally to 23⅜. Butte Coalition sank from 23¾ to 23, rose to 25 and fell back to 23¾. Douglas Copper, after fluctuating between 10½ and 10⅝, moved down to 9, but subsequently recovered to 10¼. United Copper common advanced from 61 to 61½, then fell to 63, recovering to 65½. It weakened again and sold down to 61½, the close to-day being at 62⅝. Trading in Nevada Utah was brisk at times, though price changes were insignificant—fluctuations were between 4¾ and 5. Greene Cananea lost half a point to 15, advanced to 15¾, easing off finally to 15½. Micmac Mining was strong, the price moving up from 5½ to 6½. Nipissing ranged between 11⅛ and 11¾. Butte & New York rose a point to 4, but sold down finally to 3⅝. Business in industrials was practically at a standstill. Standard Oil was conspicuously weak, moving down from 511 to 508½. It recovered to 510, but on heavy transactions broke to 503. Consolidated Steamship lost about a point to 2⅞. Waterbury Company common sold off half a point to 40. Western Ice, from 34½, dropped to 33½, advancing to-day to 34½. Chicago Subway declined from 24⅜ to 21.

Outside quotations will be found on page 1477.

Investment and Railroad Intelligence.

RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July 1 to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. *The returns of the street railways are brought together separately on a subsequent page.*

ROADS.	Latest Gross Earnings.			July 1 to Latest Date	
	Week or Month.	Current Year.	Previous Year.	Current Year.	Previous Year.

Net Earnings Monthly to Latest Dates.—The following shows the gross and net earnings to latest dates of all STEAM railroads furnishing monthly statements. The compilation includes every road from which we can get a return of this character, and in that form is given once a month. Early returns are published from week to week, as soon as issued, but for the convenience of our readers all the roads making retruns are brought together here in the week in which we publish our monthly article on net earnings—say, about the 20th of the month.

Roads.	Gross Earn'gs Current Year.	Gross Earn'gs Previous Year.	Net Earnings Current Year.	Net Earnings revious Year.

a Net earnings here given are after deducting taxes.

b Net earnings here given are before deducting taxes.

c The heavy increase in expenses in 1907 is ascribed to hte continued congestion of traffic caused by storms and washouts; also higher price of fuel and increase in wage schedules.

d The company now includes earnings of the Denver Enid & Gulf RR., Pecos Valley system and Santa Fe Prescott & Phoenix Ry. In both years. For April taxes and rentals amounted to $237,126, against $195,903 in 1906 after deducting which, net for Apr. 1907 was $2,967,349 against $2,264,902 last year. From July 1 to Mch 31 1907 taxes and rentals were $2,116,199, against $1,996,982 last year

h For Apr. 1907 additional income was $3,017, against $7,316 in 1903, and from July 1 to Apr. 30 was $48,577 in 1907, against $49,808 in 1906.

k For Apr. 1907 additional income was $17,644, against $17,486 in 1906, and from July 1 to Apr. 30 was $194,018 in 1907, against $155,349 in 1906.

n These figures represent 30% of gross earnings.

o Including other income, total income (exclusive of results of coal companies) for April is $1,274,762 in 1907, against $337,274 in 1906, and for period from July 1 to Apr. 30 is $12,088,435 in 1907, against $10,570,564 in 1906. Deductions from total income for additions and improvements were $167,205 in April 1907, against $65,726 in 1906, and from July 1 to Apr. 30 were $1,666,934 in 1907, against $1,099,674 last year.

p For Apr. 1907 additional income was $1,221, against $518; and from July 1 to Apr. 30 was $26,861 in 1907, against $17,826 last year.

s Includes $454 other income for April 1907, against $444 in 1906, and from July 1 to April 30, $4,514 in 1907, against $4,704 last year.

y For April additional income and net profits from coal, &c., were $72,583 this year, against $87,657 last year, and from July 1 to April 30 were $562,893 this year, against $722,854 last year.

Interest Charges and Surplus.—The following roads, in addition to their gross and net earnings given in the foregoing, also report charges for interest, &c., with the surplus above or deficit below these charges:

a Figures for the month in both years include operations of the Scranton Ry., acquired Jan. 1 1906. b Figures are from Feb. 1. c These figures are for consolidated company. d These are results for main line. f Now includes Rapid Ry. Syst., Sandwich Windsor & Amherstburg Ry. and Detroit Monroe & Toledo Short Line Ry. h These are early preliminary returns; decrease due to earthquake, fire and strike among employees, Aug. 26 to Sept 5 1906.

Street Railway Net Earnings.—The following table gives the returns of STREET railway gross and net earnings reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the issue of June 1 1907. The next will appear in the issue of June 29 1907.

ANNUAL REPORTS.

New River Company.

(Report for Period Ending Dec. 31, 1906.)

The first report of the directors of this holding company, which owns all of the stock of the New River Fuel Co., for the eighteen months since its organization on July 1 1905 is given at length on pages 1491 to 1494. The report shows the earnings of the New River Fuel Co. and gives a balance sheet of the latter as of Dec. 31 1906. It also contains a description of the properties owned and discusses the plans for their future development as well as facts in regard to the origin and management of the New River Co.—V. 84, p. 935, 576.

United Shoe Machinery Corporation.

(Report for Fiscal Year ending March 1 1907.)

President Sidney W. Winslow is quoted as saying:

Additions.—During the year the addition of 60% to the factory at Beverly has been completed and machinery is now being installed. The four main buildings of that factory now have a length of 820 feet each and the floor space is over 17 acres. In England and Germany the factory additions are well under way and the facilities for manufacturing in those countries will soon be greatly improved and extended.

General Results.—During the fiscal year the business both in this country and abroad has steadily increased and the active demand for our machinery has taxed the facilities of our factories and has necessitated a large increase in our investment in merchandise, material and stock in process. In this country the number of machines out under lease March 1 1907 was 57,777, an increase for the near of 8,877.

Legislation.—The so-called "Shoe Machinery Bill" recently enacted in Massachusetts, if it shall be held by the courts to be constitutional, will require certain modifications of the lease contracts under which the company and its predecessors have conducted the greater part of the business. It can have no ill effect upon the prosperity of the company. It is to be applicable, if at all, to contracts to be made in Massachusetts in the future and is not to affect the obligations of the existing contracts in that State. To meet the requirements of Massachusetts Shoe Manufacturers for additional or improved machinery, contracts which are not within the prohibition of the law will be offered, which we believe will be acceptable to the shoe manufacturers in the State, even though the terms of the modified contracts may be less favorable to the shoe manufacturers than at present. (V. 84, p. 1372.) Pending legislation in Great Britain, if enacted, may require modifications of the present forms of lease contracts in that country, and may oblige the British company to build a larger number of its machines in that country than heretofore. With the extensions to its factory at Leicester, England, now under construction, and with the provision it has made for further extensions, the British company can comply with the proposed law without lessening its profits or materially affecting the growth of its business.

The "Boston News Bureau" furnishes the following, showing an increase of nearly 70% in the number of machines out on lease during the past three years, or since the completion of the company's new plant at Beverly, Mass.

GROWTH IN NUMBER OF MACHINES LEASED

March 1 1907	57,777	March 1 1905	42,136
March 1 1906	48,900	March 1 1904	34,105

On March 1 1901 there were 25,605 machines out on lease.

As to stock dividends, earnings, &c., see V. 84, p. 1433.

American (Bell) Telephone & Telegraph Co.

(Reports of Sub-Companies for Calendar Year 1906.)

Below will be found the reports of the leading sub-companies which issue printed annual statements. These companies are all controlled by the American Telephone & Telegraph Co. through ownership of a majority of their issues of capital stock, except the Southern New England Telephone Co. and the Bell Telephone Co. of Canada, in each of which only a minority interest is held. The parent company, in its report for the calendar year 1905 (V. 82, p. 699), gave the percentage of its holdings in each of the subsidiary corporations, and in the absence of later returns we repeat this percentage, no material change, it is understood, having taken place. The Michigan State Telephone Company operates under license from the Bell interests, but is not controlled by the latter. A complete list of these subsidiaries was given in V. 82, p. 699. Among those making no report is the New York Telephone Co., which has long paid dividends of 6% per annum; of its $50,000,000 capital stock, 64.13% was on Dec. 31 1905 owned by the parent company. As to the growth of the business in New York City see the report of the New York & New Jersey Telephone Co. below.—V. 84, p. 1369, 1250.

Bell Telephone Co. of Missouri.

(Report for Fiscal Year ending Dec. 31 1906.)

The American Telephone & Telegraph Co. owns 66.27% of the capital stock.

Results for Calendar Year 1906.

Gross earnings	$1,669,811	Net earnings	$417,797
Operating expenses	1,252,014	Dividends	416,368
Net earnings	$417,797	Balance, surplus	$1,429

Dec. 31—	Stock.	Bonds.	No. Stations.	Capital per Station.
1906	$6,391,250	None	42,843, inc. 41.9%	$149
1905	4,916,825	None	30,187 inc. 37.2%,	162

The new stock (about $2,028,000 sold at par to shareholders of record Feb. 26, it is understood, increased the capital stock to $8,788,000.—V. 84, p. 510.

The new stock (about $2,028,000) sold at par to shareholders of record Feb. 26, it is understood, increased the capital stock to $8,788,000.—V. 84, p. 510.

Bell Telephone Co. of Philadelphia.

(Report for Fiscal Year ending Dec. 31 1906.)

President U. N. Bethell on Feb. 9 1907 said in substance:

Stock.—The treasury received from new stock issued at par during 1906 the following sums: in April, $3,992,050; in November, $2,893,350; a total of $6,885,400. Of the stock offered to stockholders at par during the year $8,957,450, or 99.65% of the total offered, was subscribed for. There remains to be paid on this subscription $2,072,050, which is due Feb. 15 1907. On Dec. 31 there was held in the treasury, subject to the disposition of the board, $58,050 of capital stock. The total authorized capital stock at the end of the year was $30,000,000, and the total issued $22,878,433. The company has no bonded debt and no real estate mortgages. Its capitalization is represented by property at a fair and legitimate valuation. Franchises, or the privilege of using public highways, have not been capitalized.

Extensions and Additions.—To meet the rapidly increasing demand, large additions to the plant were made during the year. Twelve buildings, specially designed, were completed, nine of which were put into service. In all, the company owned on Dec. 31 1906 49 buildings, including those in process of construction. No less than 771 miles of underground ducts were added to the exchange systems in 1906, 390 miles being added in Philadelphia. There were added to the underground cable plant 1,821,500 feet of cables, bringing the total of such cables to 5,875,000 feet. These underground cables contained an aggregate of 242,600 miles of wire. Through underground lines from Trenton, N. J., to Philadelphia, and thence to Wilmington, Del., were completed. Approximately 118,600 stations, or 72% of the total in service at the end of the year, were in exchange centres which were connected together by underground trunk lines.

The successful operation of long telephone lines in underground cables has been made possible by the use of "loading coils," the remarkable invention of Prof. M. I. Pupin. Of the total mileage in Philadelphia at the end of the year, 91% was in underground cables. On Dec. 31 1906 there were 2,505 miles of poles and 36,300 miles of aerial wire in the system. Of the total stations, approximately 97% were served from central offices equipped with the common battery type of apparatus. Of the stations gained during the year, 18,053 were in business houses and 21,368 in residences. Of the 164,211 in service, 91,119 were in business houses and 73,092 were in residences. The number of private branch exchanges was increased during the year by 1,282, in connection with which 8,823 stations were installed.

COMPARATIVE STATEMENT.

	1906.	1905.	1904.	1903.
Stations Dec. 31 including controlled companies	164,211	124,790	82,497	67,268

Bell Telephone Company of Buffalo.

(Report for Fiscal Year ending Dec. 31 1906.)

The American Telephone & Telegraph Co. on Dec. 31 1905 owned 50.23% of the capital stock.

The following comparative statement was issued on Feb. 16 in connection with the offering to shareholders of record Feb. 11 1907 of the right to subscribe at par for $1,452,000 new stock to the extent of one share for every five shares of their respective holdings. Subscriptions under this offer were payable April 16 1907.

"Dividends at the present rate of 6% per annum have been paid uninterruptedly for over 25 years. It has been our custom to charge off to Depreciation surplus earnings above the amount necessary for dividends. The population of the territory served, comprising seven northwestern counties of New York State, was by the Census of 1900 about 858,000 and now exceeds 900,000. The company has no bonded debt. The cost of all extensions and additions has been met out of earnings and by the sale of new stock at not less than par."—V. 84, p. 573.

Central District & Printing Telegraph Co., Pittsburgh, Pa.

(Report for Fiscal Year ending Dec. 31 1906.)

The American Telephone & Telegraph Co. on Dec. 31 1905 owned 66.94% of the capital stock.

President D. Leet Wilson, under date of Feb. 14 1907, says:

The growth of the past year has been by far the largest of any year in the history of the company. There was a net gain of 68 private branch exchanges. At present we are operating 37 main exchanges, 153 branch exchanges and 406 private branch exchanges. During the year toll stations were established in 43 additional towns, making a total at the close of the year of 1,086 cities, towns and boroughs in which stations are operated. The total mileage of subway owned is 117 miles and 3,451 feet; total mileage of ducts therein, 778 miles and 90 feet. Common battery switchboards were installed during the year in seven exchanges. The $1,288,636 invested in real estate covers your general office and exchange building, 7th Ave., Pittsburgh, Pa.; also in 19 other exchange and office buildings.

To provide for our debt on Feb. 1 1906 there was offered to our stockholders $1,000,000 of new stock, all of which was subscribed and paid for at par. There was expended during this year $1,737,531 for real estate and extensions to the plant. To care for these expenditures and to provide for the growth of the business during the coming year, your board will, no doubt, authorize an additional issue of stock at an early date. (Stockholders of record March 15 1907 were offered the right to subscribe at par ($100 a share) to and including April 15 1907 for $2,000,000 new stock in the proportion of two shares for every eleven shares held, subscriptions to be paid and certificates of stock to be dated May 1 1907.—Ed.)

Chicago (Bell) Telephone Company.

(Report for Fiscal Year ending Dec. 31 1906.)

The American Telephone & Telegraph Co. on Dec. 31 1905 owned 52.04% of the capital stock.

President Arthur D. Wheeler, under date of Jan. 16 1907, says in substance:

Payment under Ordinance of 1889.—In 1906 $451,481 was paid to the City of Chicago on account of its demands under the ordinance of 1889, which provided for the payment to the city of 3% upon the gross receipts from the telephone business done within the city. This makes a total of $1,393,987 paid to the city on claims under that ordinance (V. 82, p. 454, 572).

Plant.—The net increase in telephone stations in service is 27,611; of this, 18,789 was in the Chicago exchange system and 8,822 in the suburban and rural districts, partly within and partly without the Chicago limits, connected with the various other exchanges which the company operates in Illinois and Indiana. The grand total of telephones in service for subscribers at the end of 1906 is 170,834 (Chicago exchange system 123,177, suburban 47,657), of which 101,398 are upon measured or message service rate; 78% of the stations in the Chicago exchange system are upon measured service basis. The damages and loss occasioned by climatic conditions in January amounted to over $100,000.

Underground construction from Chicago to Kenosha, as a part of an underground system to Milwaukee, was carried forward during the yearh The use of underground cables for such distances becomes possible throug the use of loading coils embodying the great invention of Professor Pupin Our real estate operations during the year have included the erection of exchange buildings at Irving Park, La Grange, Wilmette, Blue Island and Wheaton and for the Chicago sub-exchanges to be known as Edgewater and Kedzie. Additional land has also been secured. Plans were completed and bids received for the erection of a large building adojining the main office on Washington St., Chicago, to provide opportunity for growth of the Main exchange. The building has not been commenced.

The stockholders should know that the practice and views of the company since 1889, which the Supreme Court has now indicated to have been erroneous, were openly and in good faith entertained, and were in harmony with prior decisions of the Supreme Court.

Negotiations.—The company has been in continued negotiation throughout the year with a committee of the City Council of Chicago upon the subject of an extension of ordinance rights within the city.

Extensions and Additions.—Pending action by the City Council, the stockholders have not been asked to invest additional money in the plant, as it has seemed reasonable that the terms of the ordinance under which such investment could be made should be ascertained. The plant increase, therefore, has been made by the expenditure of practically all the reserve funds, your surplus and borrowed money. It is obvious that further extension should not be made until warranted by the investment of additional capitae The operating efficiency of the company in its Chicago exchange system has with great difficulty, approximated the company's high standards. The disturbances and uncertainties of litigation and of negotiation with the city have compelled the company to fall behind that ample margin of provision for the future which it has always sought to maintain. At the lowest estimate, $6,000,000 should be expended in 1907 if the changes and extensions contemplated should be necessitated by the passage of an ordinance upon the basis now under consideration by the committee of the Chicago Council.

Chesapeake & Potomac (Bell) Telephone Company.

(Report for Fiscal Year ending Dec. 31 1906.)

The American Telephone & Telegraph Co. on Dec. 31 1906 owned 57.06% of the capital stock (V. 82, p. 699).

The report signed by President U. N. Bethell, under date of Washington, D. C., Feb. 9 1907, has the following:

Net Gain in Stations and Number in Service at End of Year.

	Wash'ton.	Baltimore.	Elsewhere.	Total.
In service Jan. 1 1906	21,202	23,285	8,133	52,620
In service Jan. 1 1907	27,043	31,155	11,969	70,167
Per cent of gain	27.5	33.8	47.1	33.3

Additions to construction account 1906, $2,038,779, viz.: Underground lines, $628,173; aerial lines, $585,672; equipment, $824,933.

For construction and other purposes the company borrowed upon its notes during the year $2,325,000, making outstanding bills payable $7,024,000. The American Telephone & Telegraph Co. added to its investment in real estate for your company's use $312,950, making the total of such investment at the end of the year $1,217,465. Through the sinking fund, $26,000 of mortgage bonds were canceled, leaving the bonded debt $1,344,000.

The work of extending the plant, particularly in Washington and Baltimore, was actively prosecuted. In Washington the capacity of the various central offices was considerably increased, and the construction of a new central office was almost completed. The underground conduit system was extended by the addition of 108,452 feet of conduits, comprising 423,298 feet of ducts, making the total conduit in the District 413,225 feet. Within the fire limits, approximately 99% of the total wire mileage was underground, or otherwise so disposed of as not to be upon streets and avenues.

In Baltimore, the new 9-story St. Paul exchange was successfully opened early in the year, and additional equipment was installed in several other offices. The old buildingion St. Paul St., which was badly damaged by the great fire, was disposed of. The underground conduit system in Baltimore was greatly extended; 95,978 feet of conduit (comprising 497,458 feet of ducts) was constructed (making the total conduit in the city 367,295 feet.—Ed.). Of the total wire mileage within the fire limits Dec. 31, approximately 95% was underground, or otherwise so disposed of as not to be upon public streets and avenues.

Outside of the District of Columbia and the City of Baltimore, 19 central offices were established or acquired, 402 miles of exchange poles erected and 5,462 miles of exchange wire placed. The interurban trunk line plant was also greatly extended, 70 miles of pole lines and 1,440 miles of wire having been added thereto during the year.

In 1902 the company discontinued the payment of dividends, and it has since vigorously carried forward a comprehensive plan of development. On Jan. 1 1902 it had 15,548 telephone stations and on Jan. 1 1907 70,167, an increase in five years of 54,619, or 351.42%, notwithstanding the great Baltimore fire. Your board believes that no other course was open than that which has been followed, although it has necessitated a heavy floating debt. This debt and the investment by another company in real estate for this company's use have reached such proportions that it will soon be advisable to make some adjustment of the company's finances with a view to a more sound and permanent arrangement, and that funds for further extensions as the business develops may be obtainable.

Cumberland (Bell) Telephone & Telegraph Co.

(Report for Fiscal Year ending Dec. 31 1906.)

The American Telephone & Telegraph Co. on Dec. 31 1905 owned 52.09% of the stock.

President James E. Caldwell Jan. 21 1907 said:

The figures indicate a healthy and substantial gain in both gross and net earnings. The net gain in subscribers was 23,924, making the total number of subscribers 165,190. This gain was several thousand more than in any previous year in the history of the company. To meet the growth of the business, your directors on Jan. 3 1907 authorized an increase in the capital stock equivalent to 20% of the amount then outstanding, to be due and payable in quarterly instalments during the year 1907. This, when taken, will make the present authorized capital ($20,000,000) fully taken up and paid for. (The limit of capital stock was in February 1907 authorized to be increased from $20,000,000 to $30,000,000.—Ed.) Sixty-eight new exchanges were opened and equipped during the year. This made, at the close of the year, 508 exchanges in operation. The company owns and occupies buildings of its own in 21 cities. The number of linear feet of cable purchased during the year was 1,607,024. 931 miles of toll pole routes were added with 8 151 miles of wire.

Missouri & Kansas Telephone Co.

(Report for Fiscal Year ending Dec. 31 1906.)

The American Telephone & Telegraph Co. on Dec. 31 1905 owned 53.72% of the capital stock (V. 82, p. 699).

President C. S. Gleed, under date of Jan. 23 1907, says:

Improvements and Extensions.—The work of expanding and improving the property has been pushed with vigor. The new capital invested within the year has amounted to $3,389,861. This, like a similar amount in 1905, was applied for the purchase and construction of new property. In addition to this, earnings have been liberally applied for reconstruction and betterments. The company has lately completed its construction work begun two years ago to such a point as to be able to reduce its construction forces by five and six hundred men.

Stations.—The company now has nearly 100,000 stations of its own and about 50,000 other stations co-operating under various contracts.

Strike.—In August last about 900 members of the International Brotherhood of Electrical Workers and their sympathizers left the employ of the company in support of sundry demands in every respect unreasonable. The strike lasted about two months and was attended by considerable violence to persons and property. No concessions whatever were made and only the strikers whose places had not been filled and who had not been guilty of violence were re-employed.

Suspension of Dividends.—Your directors regret the necessity for a temporary suspension of dividends. It is essential at this time that every dollar obtainable be expended for the improvement of the property. The wonderful growth of the two States in which the property is located—in population, wealth and volume of business—makes it imperative that the company (in common with all other public service corporations) make every possible effort to keep pace with the general improvement.

New telephone property does not reach its full earning power until some time after its installation and the very rapid expansion of the plant in the past three years has provided the company with a large amount of property which has as yet barely begun to show its effect on the revenue. This property becomes of greater value each month, and though some time must elapse before adequate returns can be expected from it, your directors feel no hesitancy in expressing the opinion that eventually it will give adequate returns. It is believed that the suspension of dividends will not be for a period of serious length.

Nebraska Telephone Company.

(Report for Fiscal Year ending Dec. 31 1906.)

The American Telephone & Telegraph Co. on Dec. 31 1905 owned 58.33% of the capital stock.

President C. E. Yost under date of Feb. 14 1907 says:

At the close of 1906 your company had 162 exchanges, also 41,517 subscribers' stations, an increase over the same date of 1905 of 8,916. In addition, the company was connected by sub license contract with 36,131 subscribers of so called independent telephone companies. During the year over 1,200 farmer subscribers were added to our list. There were 9 of our larger exchanges rebuilt and changed to common battery; 944,342 feet of underground conduit was laid; 96,780 feet of underground cable was pulled in, 1,238,726 feet of aerial cable was strung.

During the year there was expended for construction $1,039,401 making the total amount in the construction account $4,625,567, with a capital stock of only $3,281,200. There is in the surplus account $558,321 and in the reserve for maintenance $231,973. During the past year our new South Omaha exchange building and our Omaha warehouse were completed. Our new branch office in North Omaha is nearly completed and we expect to begin giving service from there about March 1. We have invested in buildings and ground $347,639. During the last year our indebtedness was increased but the increased earning capacity of the plant will pay a good return on the increased debt. The increase in exchange receipts for the year over 1905 was $179,089, and the increase in the toll line receipts was $43,343.

New England Telephone & Telegraph Co.

(*Report for Fiscal Year ending Dec.* 31 1906.)

The American Telephone & Telegraph Co. on Dec. 31 1905 owned 58.27% of the company's capital stock. (See V. 82, p. 699.)

President Thomas Sherwin under date of May 6 1907 says in substance:

General Results.—Compared with 1905 there was an increase in gross revenue of $1,241,755 and in net revenue of $199,528. The number of stations added to our exchange lists was 38,621, making the total at the end of the year 205,184. Including the subscribers connected with exchanges of the Southern Massachusetts, Northern and Aroostook, formerly the White Mountain and Vermont companies, the exchange stations operated under the management of this company in Maine, New Hampshire, Vermont and Massachusetts, including also a small number in Rhode Island, numbered 228,400, as compared with 185,448 at the end of 1905. In addition, there were 27,176 stations equipped with Bell telephones and operated by sub-licensees in small towns and rural districts, making the entire number of exchange and toll stations connected with our system 255,576. The growth of the business has been greater than that of any preceding year.

The telephone system of this company is now, measured by the number of stations connected with its exchanges and toll lines, the second, in fact in magnitude in the United States, and there is scarcely a village or settlement within its territory whose residents cannot avail themselves of its service. It is an interesting fact that in the four great centres, New York, Chicago, Philadelphia, and what may be termed the Greater Boston, the development of the business in proportion to population is very nearly uniform, the latter being slightly in the lead, with one telephone station to every fourteen of the population; while in the city of Boston alone the proportion reaches to about one in every eleven of the inhabitants.

Comparing this development with that of the four largest cities of Europe, we find that in London there was on Jan. 1 1907 one exchange station to each 53 of population; in Berlin, one in 24; in Paris, on Jan. 1 1906, the latest date for which statistics can be obtained, one in 46, and in Vienna one in 79.

Additions and Improvements.—Extensive additions have been made, and the work of reconstruction has been vigorously carried forward. The latter work has consisted, to a large extent, in the substitution of improved switchboards for those of older type, and the replacement of open wire by aerial cable in the exchanges to provide for further growth and reduce the cost of future maintenance in replacements and extensions upwards of 1,300,000 feet of aerial cable have been hung. About one-fourth of the entire length of our toll circuits has been rearranged, thereby materially increasing their efficiency.

Early in the year a part of the territory was visited by two sleet storms, of unusual severity, which involved a considerable addition to the expense accounts, as well as loss of revenue while the damaged lines were out of service.

Of the 49 exchanges which constitute the Boston and Suburban Division, 26 had on Dec. 31 1906 been equipped with relay switchboards of the most approved form. It is expected that within the next year substantially all of the Boston and Suburban exchanges will be equipped with relay switchboards.

Sub licensees.—A number of local companies, each covering a considerable area of rural territory, have been organized, to which the parties in interest have conveyed their respective properties, this company becoming the majority holder of the capital stock, the management, however, being largely entrusted to those having substantial local interests. To these companies we have in many instances made loans for the extension and improvement of the properties.

Massachusetts Commission.—All the telephone companies doing business in Massachusetts on July 1 1906 came under the provisions of Chapter 433 of the Acts of 1906 which provided that the Massachusetts Highway Commission shall have general supervision of all companies engaged in the transmission of intelligence by electricity within said Commonwealth.

The expenditure for new construction during the year amounted to $3,051,884, of which $757,581 was for exchange aerial construction, $686,897 for exchange underground conduit and cables, $534,760 for toll lines and $1,072,646 for equipment. The expenditure for land and buildings was $259,417. Twenty-two new exchanges have been opened. The underground system of the company now consists of about 511 miles of conduit, containing 2,697 miles of duct. 6,539,592 feet of cable have been drawn into the underground system.

Construction and Repairs.—The expenditure for lines and equipment during the year has been: For new construction, $3,051,884; for repairs and maintenance, $3,045,183; total, $6,097,068, as against an expenditure in 1905 of $1,720,792. We estimate that the expenditure during 1907 will be: For new construction and real estate, $2,500,000; for maintenance, $3,000,000; total, $5,500,000.

New Stock.—During 1906 payment was received for new stock issued under circulars of 1905 and 1906, $3,516,500, making the outstanding capital stock Jan. 1 1907, $29,761,100. The second installment upon the subscription made under circular of June 6 1906, $1,936,700, has been paid, making the present issued capital stock, $31,697,800.

Bonds.—Of the bonded debt, $493,000 was paid off during 1906, and a further amount of $499,000 of the 6% bonds of the issues of 1892 and 1893 was paid on April 1 1907, and the bonds retired.

OPERATIONS AND FISCAL RESULTS.

Statistics.—Results of operations were as given below:

New York & New Jersey Telephone Co.

(*Report for Fiscal Year ending Dec.* 31 1906.)

The American Telephone & Telegraph Co. on Dec. 31 1905 owned 8.78% of this company's capital stock, which holding with the amount owned by the subsidiary New York Telephone Co. gave it control.

The report, signed by Chairman Charles F. Cutler and President U. N. Bethell, says, under date of Feb. 9 1907:

Capital Stock and Bonds.—From the issue of stock at par the treasury received during 1906 from the 1905 offering $632,225 and from the 1906 offering $1,719,100, a total of $2,351,325. This sum being insufficient to provide for the large additions made to the property during the year, the additional funds required were raised by loans upon notes aggregating, Dec. 31 1906 $2,050,000. To pay these loans and provide for 1907 construction, the directors in December 1906 authorized an offer to stockholders of new stock at par to the amount of 33 1-3% of the then outstanding stock, or $6,310,167. The entire issue was taken excepting some fractional shares, aggregating less than 60 shares, which remain in the treasury.

Rates and Growth in Stations.—In carrying out our policy substantial reductions in service charges were made in 1906. As a result of such reductions, the average earnings per station have decreased during the past ten years approximately 50%, the decline being fairly uniform throughout the entire period. The total gain for the ten years was 117,109 stations, or about 817%.

Territory and Plant.—The territory operated by the company embraces all of Long Island and Staten Island, including three of the five boroughs of New York City and all of that part of New Jersey which is directly tributary to New York City. It covers about 4,500 square miles and contains a population estimated at the present time at 3,600,000. Of the buildings now occupied 33 are owned, 25 of which are modern fire-proof structures especially adapted to the peculiar needs of the business. More than 66% of the stations in the entire territory are served from common battery offices.

The additions to construction account during 1906 aggregated $5,296,641, viz.: Real estate, $477,946; underground plant, $2,058,305; aerial plant, $1,313,838; equipment, $1,446,552. Over 100,000 of the total number of stations operated, or more than 75% of the whole, are in centres which are joined together by an underground trunk-line system. The extensive development in underground trunk lines has been made possible by the use of "loading coils," the remarkable invention of Prof. M. I. Pupin. Your company has the exclusive right to the use of this invention within its territory.

Arrangement with N. Y. Telephone Co.—The operations of your company and of the New York Telephone Co. are necessarily so closely related that in many respects the systems of the two companies may be viewed as one, their rapid growth being shown as follows:

New York & New Jersey Telephone Co. and New York Telephone Co.

No. Telephones Dec. 31—	1906.	1905.	1904.	1903.	1902.
Telephones in service and under contract	389,000	321,890	255,993	210,981	167,792
Net gain during year	67,110	65,897	45,012	43,189	42,414

To secure uniformity and economies in administration, an arrangement was made in the early part of 1906 with the New York Telephone Co. under which the construction and operation of the plants of both companies have been entrusted to a staff of officers serving the companies jointly.

Competition.—The companies operating plants in competition with your company have made no apparent progress during the year, and your company's development has not been appreciably affected by their operations.

Pacific Telephone & Telegraph Co., San Francisco.

(Report for Fiscal Year ending Dec. 31 1906.)

This company was organized at the beginning of 1907, as stated in the following extract from a letter of President Scott. Below are given the earnings of the constituent properties for 1905 and 1906 (the earthquake and fire took place in April 1906) and the balance sheet of the new company on Jan. 2 1907. The American Telephone & Telegraph Co. on Dec. 31 1905 owned 50.10% of the capital stock of the old Pacific States Telephone & Telegraph Co., and presumably owns at least as large an interest in the new company.

Pres. Henry T. Scott, San Francisco, Jan. 4 1907 wrote:

This company was organized (Dec 31 1906.—Ed.) under the laws of California, with an authorized capital of $50,000,000, divided into $32,000,000 preferred and $18,000,000 common stock (par of shares, $100 each.—Ed.). Of this amount, it is proposed to issue at present $18,000,000 common and $18,000,000 preferred stock, of which $17,000,000 common and $17,000,000 preferred is to be issued in exchange for the outstanding stock of the Pacific States Telephone & Telegraph Co. (V. 83, p. 1416), and $1,000,000 common and $1,000,000 preferred stock issued for additional working capital. This will leave a balance of $14,000,000 preferred stock unissued in the treasury. The company owns the entire plant and real estate formerly belonging to the Pacific States Telephone & Telegraph Co. in the city and county of San Francisco. It also owns a majority of the capital stock of that company and expects to acquire the balance outstanding through the issuance of its preferred and common shares reserved for that purpose. The company is operating under lease the properties of the Pacific States Telephone & Telegraph Co. in Washington and Oregon, and the properties of the Sunset Telephone & Telegraph Co. in California and Washington.

The company has a total authorized issue of $35,000,000 "first mortgage and collateral trust" 5% gold bonds, of which there are to be issued to provide for present requirements $10,000,000. (See bond offering, &c., in V. 84, p. 163, 1185; also see V. 83, p. 1416.)

[In 1907 the shareholders were invited to subscribe for new stock on the basis of one share of preferred and one share of common for each 25 shares of preferred in their names on the books of the company on April 1 1907, on the payment of $100 for one share of common and one share of preferred, to be paid for and issued on June 1 1907.—Ed.]

Southern New England Telephone Co.

(Report for Fiscal Year ending Dec. 31 1906.)

The American Telephone & Telegraph Co. on Dec. 31 1905 owned 33.18% of the capital stock.

President Morris F. Tyler, writing in January last, said in part;

The year 1906 has been one of great activity. We had on Jan. 1 1906 41,829 stations on Dec. 31 52,476 stations. This, a net increase of 10,647 stations, has involved the expenditure of $1,484,145, the setting of 33,138 poles, the running of 11,150 miles of open wire and 153 miles of cable, underground. Our total wire mileage in the State, including wires in cables, is 141,624 miles, which is nearly twice what we had at the beginning of the year. This increase is largely due to the fact that we have been obliged to build for the future, and consequently we have a great deal of dead plant. The result is that to day we have 1 in 19 of the inhabitants of the State equipped with telephone service of some kind.

General Superintendent H. H. Sykes says:

For the year 1906 we received an average rental of $28.08 per station from exchange service, while our average total expense per station was $31 34. What balance is needed to meet the expenses and provide for the dividends on the plant investment must come from our toll-line earnings, which for the year 1906 amounted to $9 53 per station.

GENERAL INVESTMENT NEWS.

RAILROADS, INCLUDING STREET ROADS.

Alabama & Vicksburg Ry.—*Presidency of Queen & Crescent Lines.*—We learn that while C. C. Harvey has mentioned to his friends that it is his intention to resign from the presidency of these lines in the near future, he has not as yet presented his resignation.—V. 84, p. 1365.

Boston Elevated Ry.—*New Bonds.*—The Massachusetts Railroad Commission has approved the issue of the $5,800,000 30-year 5% bonds covered by the company's application of April last. Compare V. 84, p. 930, 1051.

Boston & Providence RR.—*Act Authorizing Purchase By Old Colony Railroad.*—Governor Guild on June 17 signed the bill authorizing the purchase of the property and franchises of the Boston & Providence RR. by the Old Colony RR. on the following conditions:

The Old Colony may purchase upon such terms as may be agreed to by the directors of the respective companies and approved by the Railroad Commission, and by votes of the shareholders, provided, however, that the vote of the selling corporation shall be a vote of two thirds of interest of all shareholders, and upon such purchase the purchaser shall be held to pay all debt and to perform all the duties and obligations of the seller, and provided further that such terms shall be approved by the Railroad Commission and shall not be operative until assented to by the General Court.—V. 78, p 201.

Central New England Ry.—*Merger Probable.*—See New York New Haven & Hartford RR. below.—V. 84, p. 1427, 693.

Chesapeake & Ohio Ry.—*New Directors in Place of New York Central Representatives.*—It was announced this week that William H. Newman, President of the New York Central & Hudson River RR., and Chauncey M. Depew, also a director of the latter, have resigned, and that Thomas P. Fowler, President of the New York Ontario & Western, and Walter G. Oakman have been elected as their successors. Only one representative of the New York Central interests, H. McK. Twombly, remains on the board. The changes, it is understood, are due to the fact that the New York Central, which on Jan. 1 1907 owned $5,000,000 of the C. & O. stock, has sold a considerable part of its holdings.

New Financial Plan.—The directors, it is understood, have under consideration a plan to provide for new capital required and to retire underlying bonds. The plan, it is stated, contemplates the authorization of a new mortgage for an amount variously reported as $25,000,000 to $75,000,000. It is not expected that any of the bonds will be sold at present, but that part of the issue will be deposited as collateral for short-term notes, possibly $5,000,000 to $10,000 000 in amount, to be sold to finance the immediate

requirements of the road and to carry on construction work now under way, consisting largely of double-tracking and elimination of grades.—V. 84, p. 1427, 1365.

Chicago & Alton RR.—*Alternate Management Abandoned.*—The agreement entered into in 1904 between the Rock Island and the Union Pacific interests for alternating management each year has been abrogated. The C. R. I. & P. owns $14,320,000 common and $4,470,000 preferred stock, and therefore holds a preponderating interest. The Union Pacific owns $10,343,100 preferred stock. The total stock issued is $19,542,800 common and $19,544,000 preferred.

The termination of the agreement for joint control releases the stock deposited in trust with the Central Trust Co.—V. 84, p. 1365, 809.

Chicago City Ry.—*Notes Called.*—The $3,000,000 5% 3-year notes due in 1908 have been called for redemption at 101 and interest on July 1.

New Bond Issue.—Chicago papers says that the directors have authorized an issue of $10,000,000 first mortgage 5% 20-year gold bonds, of which $6,000,000 has been sold to the First Trust & Savings Bank and the Harris Trust & Savings Bank, both of Chicago, at a price believed to be 95 to provide for the payment of the aforesaid notes and for the work of rehabilitation. Of the amount sold, $4,000,000, it is said, will be issued July 1, $1,000,000 Aug. 1 and $1,000,000 Sept. 1. The remaining $4,000,000 of the authorized issue will be sold later as the work of improving and re-equipping the property proceeds.—V. 84, p. 1365, 930.

Chicago Junction Ry.—*Reported Lease.*—See Chicago Junction Railways & Union Stock Yards under "Industrials" below.—V. 80, p. 711.

Chicago Junction Railways & Union Stock Yards Co.—*Reported Lease of Controlled Road.*—Chicago advices quote President Spoor of the Chicago Junction Ry., whose stock is all owned, as saying that the Vanderbilt interests have arranged to lease the road for a term of years, with an option of purchase. Supplementing this, it is reported, it has also been arranged to lease a part of the tracks of the Chicago Terminal Transfer Co. Officials of the New York Central in this city yesterday declined to confirm the correctness of the report, stating that the matter had not been consummated.—V. 84, p. 1113, 446.

Cincinnati Newport & Covington Light & Traction Co.—*Lease.*—See Columbia Gas & Electric Co. under "Industrials" below.—V. 84, p. 1366, 930.

Des Moines & Fort Dodge RR.—*Report.*—For the year ending Dec. 31:

Cal. Year.	Gross earn'gs.	Other income.	Net earn'gs.	Interest & taxes.	5% div. on Pref.	Bal., surplus.
1906	$591,022	536,506	$264,604	$173,692	$38,175	$52,737
1905	475,070	39,002	207,018	161,064	38,175	7,779

There was also expended for additions and improvements $65,073 in 1906, against $57,384 in 1905.—V. 82, p. 1322.

Eastern Ohio Traction Co.—*Receiver's Sale June 25.*—This company's property, it is announced, will be offered at auction by Receiver Beatty at his office in the Electric Building, Cleveland, on June 25, subject to the following divisional bonds and the accrued interest thereon: $200,000 Cleveland & Chagrin Falls first mortgage 6s and $1,000,000 Cleveland & Eastern first mortgage 5s.

The property will be first offered as a whole; upset price, $308,500.
If not so sold, it will be offered in parcels subject to the aforesaid divisional bonds, as follows: Cleveland & Chagrin Falls Div. upset price $106,000; Cleveland & Eastern line, upset price $50,000; Chagrin Falls & Garrettsville line, upset price $152,500.—V. 82, p. 1379.

Erie RR.—*Car Trust.*—Car trust agreement, series J., was filed for record on June 10, the parties to it being the Standard Steel Star Co., as builders of the freight cars included in the trust, the Bankers' Trust Co. as trustee and the railroad company as lessee. The agreement secures an issue of $950,000 4% equipment gold bonds dated Nov. 1 1906 and due in twenty semi-annual installments of about $47,000 each to and including Nov. 1 1916.

Loan for Genesee River Line.—The Genesee River RR. Co. has negotiated a loan of $2,000,000 secured by its bonds (V. 84, p. 1366) to cover the estimated cost of the proposed cut-off. (V. 81, p. 777.) The loan is a private transaction, involving, we are informed, the placing of no additional notes or other securities on the market.—V. 84, p. 1366, 1247.

New York Central & Hudson River RR.—*C. & O. Stock Holdings Reduced.*—See Chesapeake & Ohio Ry. above.

Agreement as to Tracks of Chicago Junction Ry.—See Chicago Junction Railways & Union Stock Yards Co. under "Industrials" below.—V. 84, p. 1428, 1308.

New York New Haven & Hartford RR.—*Merger of Subsidiaries.*—See Boston & Providence RR., above.

Absorption of Central New England Ry. Probable.—Advices from New Haven state that steps will shortly be taken to merge with the company the Central New England Ry., control of which was acquired in 1904, the company on June 30 1906 owning $2,963,300 of the $3,450,000 common stock $2,696,100 of the $3,150,000 preferred stock and $5,904,000 of the $7,250,000 general mortgage 5% income bonds. The company is stated to be offering 72¼ cash for the outstanding general incomes and to have in contemplation the exchange of the issue for its own 3% fixed interest bonds, having the same security, etc., as the present general incomes. T. C. Delavan, of Cummings & Co., 20 Broad St., New York, is at the head of a committee which proposes to look out for the interests of the minority stock and incomes in any merger proceedings.—V. 84, p. 1428, 1424.

New York Ontario & Western Ry.—*Bonds Sold.*—The company has sold $1,300,000 general mortgage 4% bonds to provide for improvements and additional equipment. The new bonds are a part of the $1,948,000 recently authorized to be issued by the New York Railroad Commission, and increase the amount outstanding to $3,300,000. Compare V. 84, p. 1428, 932.

Northern Ohio Traction & Light Co.—*Application to List.*—The New York Stock Exchange has been requested to list the company's $7,938,000 capital stock.—V. 84, p. 1248, 337.

Pere Marquette RR.—*Reorganization Plan.*—To clean up all floating debt and provide for equipment payments due this year, $5,000,000 is necessary. It is proposed to raise this by an issue of $5,000,000 6% 5-year notes at par, and it is expected that these will be taken by the present holders of the preferred stock. To preferred stockholders thus subscribing a new first preferred stock will be given share for share in exchange for their present stock, plus 15%, which is supposed to represent the dividends that they have lost. The new preferred will have preference both as to assets and earnings, and will be cumulative after 3½ years. The right will also be afforded to common stockholders to subscribe for the 6% notes to the extent of 20% of present holdings, receiving in exchange 100% of new common, and as a bonus an amount of new common equal to the par value of the debentures subscribed for.

Preferred stockholders who do not subscribe to the notes will receive share for share the new second preferred stock, and the common likewise will receive share for share in new common.

These new securities will be issued by the new Pere Marquette company, which will take over all the assets and assume all the liabilities of the present company.

A director of the company makes the following statement:

1. The road is earning a comfortable surplus over fixed charges. This result was obtained under the receivership and should be increased when the road is out of receiver's hands.
2. The proposition is favorable to the stockholders, as, when out of receiver's hands, the road should be able to earn dividends.
3. The plan is favorable to the bondholders on account of the additional money put in behind the bonds.
4. This reorganization is a distinct advance toward the adjustment of the C. H. & D. note situation, which is the next matter scheduled for settlement.—V. 84, p. 1368, 868.

Philadelphia Rapid Transit Co.—*Franchise Ordinance*—The Select and Common Councils, Thursday, after much opposition, approved the ordinance giving the company a franchise to operate surface lines. Compare editorial in V. 84, p. 1084, 1085; V. 84, p. 1248.

Assessment.—Press reports from Philadelphia state there will be a call of $5 per share on July 1, another $5 call in January 1908 and again in July, making the stock full paid. (Compare V. 84, p. 868.)—V. 84, p. 1248, 1114.

St. Louis & San Francisco RR.—*New Stock and Bonds.*—The stockholders will vote Aug. 27 on authorizing the following securities: (1) An issue of "general lien 15-20-year gold bonds," limited to $115,000,000 at any one time outstanding and to bear interest at not exceeding 5% per annum, to be payable May 1 1927, free from all taxes which the company may be required to pay under any present or future law of the United States, or of any state, county or municipality therein, and secured by a new mortgage on all railroads and interests in railroads, equipment and franchises and property now owned or hereafter acquired.

(2) An increase of the authorized issue of capital stock for $100,000,000, to $200,000,000 (such increase to be wholly common stock), to comply with the laws of the State of Missouri respecting the relative amounts of stock and indebtedness.

A circular dated June 18 says in substance:

Description of New Bonds.

"General lien 15-20-year gold bonds," date of maturity May 1 1927, redeemable at option of company on any interest date prior to May 1 1922 at 102½ and interest, and also redeemable on May 1 1922, or any interest date subsequent thereto, at par and interest. Rate of interest not to exceed 5%.

Purposes for which the $115,000,000 New Bonds are to be Issued.

To be issued forthwith, the proceeds to be used only for reimbursement for capital expenditures made during the current fiscal year, and for future additions, improvements and betterments to the property covered by this mortgage	$10,000,000
Reserved to be used only for retiring, taking up or acquiring at or before maturity the following bonds and notes (see below—Ed.)	62,816,000
Reserved to be issued from time to time in aid of the above refunding operations	5,000,000
Reserved to be issued from time to time after June 1 1909, as the company shall thereafter pay installments of equipment trusts that may be issued after the date of the new mortgage, but only for 60% of the face amount of such payments	5,000,000
Reserved to be issued after June 1 1909 for the cash cost of future improvements and betterments, but not exceeding in any year the rate of $500 face amount of bonds for each mile of railroad at the time owned by the company, or controlled by lease or other arrangement for control extending for a period beyond the term of the new mortgage. No bonds under this clause to be issued at a rate exceeding $2,500,000 in any one year until and including the year 1911, and thereafter not exceeding $3,000,000 in any one year. (The congestion of traffic on all the railways of the country, due largely to lack of adequate facilities, is matter of common knowledge. The wisdom of making ample provision for improvements to your property, including additional shops and terminals, must be apparent to all stockholders.)	27,184,000
Reserved to be issued after June 1 1909 at the rate of not exceeding $1,000,000 per year, as the company shall furnish to the trustee certificates stating that it has, subsequent to the date of the new mortgage expended an amount of cash equal to the then market value of the new bonds so issued for the construction, purchase or acquisition of additional lines of railway or branches, on which this mortgage will be a first lien	5,000,000

Bonds and Notes to Retire Which the Aforesaid $62,816,000 New Bonds Are Reserved.

1. $7,125,000 St. Louis & San Francisco RR. Co. 5-year 4½% notes (St. L. San Fran. & N. O. RR. collateral), maturing Dec. 1 1908;
2. $6,500,000 St. Louis & San Francisco RR. Co. 2½-year 5% notes (St. L. Memphis & Southeast. RR. Co. collateral), maturing June 1 1909;
3. $15,632,000 St. Louis Memphis & Southeastern RR. Co. 5 year 4½% bonds, maturing June 1 1909;
4. $397,000 St. Louis Memphis & Southeastern RR. Co. first mortgage 4% bonds, maturing Jan. 1 1952;
5. $7,500,000 St. Louis & San Francisco RR. Co. 5-year 5% notes (Colorado So., New Orl. & Pac. RR. Co. collat.), maturing Jan. 1 1911;
6. $424,000 Orange & Northwestern RR. Co. first mortgage 5% 30-year gold bonds, maturing Sept. 15 1933;
7. $170,000 Beaumont Sour Lake & Western Ry. Co. first mortgage 6% gold bonds maturing July 1 1935;
8. $4,500,000 St. Louis & San Francisco RR. 7-year 4½% notes (Arkansas Valley & Western Ry. Co. collateral), maturing Feb. 1 1912;
9. $2,880,000 Ozark & Cherokee Central Ry. first mortgage 5% bonds, maturing Oct. 1 1913;
10. $100,000 Muskogee City Bridge Co. 1st M. 5% bonds, maturing July 1 1942.

(The above issues are secured by first liens upon 1,526.45 miles of railroad now part of the Frisco lines, and upon their payment or acquisition the new mortgage will become a first lien thereon.)

11. $5,649,600 St. Louis & San Francisco refunding 4s of 1951, to be issued during the term of the new mortgage as follows: (*a*) $4,000,000 issuable at a rate not exceeding $1,000,000 per annum against actual cost of additions and improvements; (*b*) $972,600 issuable against new mileage; (*c*) $677,000 issuable against the payment of certain underlying securities.
12. $10,338,616 St. Louis & San Francisco RR. Co. equipment trust notes, maturing in series until 1917;
13. $1,600,000 Colorado Southern New Orleans & Pacific RR Co. equipment trust notes, maturing in series until 1917.

By the payment of these equipment notes the new mortgage will become a first lien on equipment costing originally $18,499,792.

Position of New Mortgage.

The new mortgage will be a first lien on—

	Miles.
(*a*) All property constructed or acquired through the proceeds of the bonds	
(*b*) Lines of railway, on payment or acquisition of bonds and notes as above	1,526.45
It will also be a lien, subject to existing mortgages, on the company's interest in lines owned by the company, or leased or controlled by stock ownership, aggregating	3,798.19
Total mileage	5,324.64

Your directors believe that, by thus making provision for these maturing obligations and for a part of future necessary expenditures for improvements and additions, the company will sooner be enabled to distribute to the stockholders that proportion of the net earnings of the property to which in the exercise of a conservative policy they will become entitled. The territory traversed by your lines of railway is rapidly developing. The building of branches and extensions from time to time will be necessary to meet the demands of the growing commerce of those sections, and to protect the position of your property.—V. 84, p. 1429, 750.

Philadelphia Baltimore & Washington RR.—*Merger Report Denied.*—Regarding the report that the meeting called for July 30 to authorize an increase of indebtedness foreshadows a consolidation with the subsidiary lines, an officer of the company writes: "There is no truth whatever in the report."—V. 84, p. 1428.

Texas Central RR.—*Case Dismissed.*—About a year ago the Texas Railroad Commission attacked the legality of the issue of the first mortgage bonds of the Texas Central RR. Co. Vice-President Charles Hamilton, under date of June 12 1907, writes as follows:

I wired on Monday about the Railroad Commission dismissing the complaint against our company growing out of the alleged illegal issue of bonds, which I confirmed by letter. I am this morning in receipt of a formal notice, signed by the full board and attested by the Secretary, to the effect that the case is dismissed.—V. 83, p. 1038.

Texas & Pacific Ry.—*Bonds Sold.*—The company has sold to Blair & Co. $3,100,000 of 5% equipment bonds and $450,000 Louisiana Division Branch Lines 5% bonds. The equipment bonds are dated June 1 and mature in 20 equal installments of $155,000 each to June 1 1917. They cover box cars, passenger cars and locomotives recently purchased.—V. 84, p. 694, 687, 509.

Union Pacific RR.—*New Stock Authorized.*—The shareholders on June 15, without opposition, approved the proposition to increase the authorized issue of common stock by $100,000,000, to provide for the redemption of the new convertible bonds and for future improvements, &c. The authorized stock as so increased includes: Common stock, $296,178,700, of which $195,179,900 is listed on the New York Stock Exchange; and 4% non-cumulative preferred stock, $200,000,000, outstanding $99,569,300. The votes in favor of the increase were: Preferred, 642,927; common, 1,550,388; total, 2,193,315 shares. Of the new common shares $12,857,143 will be set aside to provide for the conversion of the proposed issue of $75,000,000 convertible 20-year 4% bonds on the basis of par for the bonds and $175 per share for the stock. See official statement in V. 84, p. 1115, 1183, 1368.

INDUSTRIAL, GAS AND MISCELLANEOUS.

Adams Express Co.—*Distribution of Bonds to Shareholders.*—A circular signed by President Levi C. Weir, under date of June 17, says in substance:

Pursuant to the Articles of Association, the board of managers have determined to reduce the amount of the capital of the association and the reserved fund derived largely from its investments, by transferring and assigning bonds and stocks belonging to the association of the value of $24,000,000 to a trustee to hold for the pro rata use and benefit of its shareholders and their assigns, and to issue to the shareholders distribution bonds to represent their distributive share of said reduction and their respective interests in the stocks and bonds so transferred and assigned, such bonds to be known as "The Adams Express Co. collateral trust 4% distribution gold bonds of 1907," and to be payable June 1 1947, with interest from June 1 1907 at the rate of 4% per annum, payable semi-annually on the first days of June and December in each year, the first coupon being payable Dec. 1 1907. Bonds and stocks heretofore owned by the association sufficient in value to secure the payment of said distribution bonds have accordingly been transferred to the Standard Trust Co. of New York under a deed of trust dated June 17 1907, which provides, among other things, that they shall be held by the trustee as security for the payment of said bonds and the benefit of the bondholders. The income derived from said securities is more than sufficient to pay the interest on the bonds.

Each shareholder of record at 3 p. m. June 27 1907 will be entitled to receive $200 face value of said collateral trust distribution bonds for each share standing in his name. The bonds will be issued in denominations of $1,000 and $500, and scrip will be issued for fractional amounts of bonds which may be combined for exchange for bonds of the face value of $500 or $1,000. The Treasurer, on or before Sept. 1 1907, will purchase from any shareholder the scrip issued to him representing amounts less than $500 at par for cash. Pending the engraving of the bonds, temporary printed bonds will be issued. It is desirable that the Articles of Association be amended as stated in the enclosed consent and proxy, which shareholders are requested to sign and promptly return to the Treasurer.

(This distribution is generally supposed to have been called out by the provision of the Hepburn amendment to the Inter-State Commerce Act, bringing the express companies, as common carriers, under the surveillance of the Inter-State Commerce Commission and requiring them to file annual reports, showing their balance sheets, &c., for the years ending June 30 not later than Sept. 30. See text of Act in "Railroad Gazette" of New York for May 25 1906.)—V. 83, p. 40.

American Telephone & Telegraph Co.—*Syndicate Extended.*—The syndicate which in Feb. 1906 agreed to purchase $100,000,000 convertible gold bonds has been extended to July 1 1908, with the proviso that it may be terminated at any earlier date. Of the 30% of unpaid subscriptions on this issue, 10% is expected to be called for shortly and the remaining 20% is payable one-half next October and the remainder Jan. 1 1908. Compare V. 82, p. 394, 571, 699; V. 83, p. 438; V. 84, p. 105, 160, 273, 933.

Financial Requirements.—President Vail, in reply to an inquiry from a stockholder regarding the financial requirements of the company and its subsidiary, says:

It is now safe to state that, after providing for all the existing and anticipated demands for the current year, the American Telephone & Telegraph Company will commence the year 1908 with no floating debt and with a very substantial cash balance. This does not in any way take into account the money received for the share capital of the company now being issued, which will, under normal conditions, make it possible for the company to go through to Jan. 1 1909 without further financing of any kind.

Output.—The instrument output for May and the five months ending May 31 was as follows (each telephone being two "instruments," viz., one receiver and one transmitter):

May—	1907.	1906.	1905.	1904.
Gross output	153,835	211,573	168,764	103,897
Net output	74,258	152,230	115,552	52,176
Jan. 1 to May 31—				
Gross output	777,743	944,614	777,065	508,372
Net output	323,873	641,252	545,950	305,326
Total outstanding May 31	6,431,709	6,339,510	5,026,514	4,084,843

Reports of Subsidiary Companies.—See "Annual Reports" on a preceding page.—V. 84, p. 1369, 1250.

Bethlehem Steel Co.—*Guaranteed Notes.*—See Bethlehem Steel Corporation below.—V. 81, p. 1612.

Bethlehem Steel Corporation.—*Sale of Guaranteed Notes.*—An issue of $2,500,000 6% serial notes of the Bethlehem Steel Co., guaranteed as to principal and interest by the Bethlehem Steel Corporation, has been sold. The notes will be dated July 1 1907 and mature one-fifth in three years, one-fifth in four years and three-fifths in five years. The issue will be countersigned by the Morton Trust Co., New York. The proceeds will be used to complete the extensions and improvements by which the company will be made an important factor in the general steel business and practically independent of Government contracts.

President Schwab about the middle of March last negotiated a personal loan for $2,000,000, secured by stock and bonds of the company, with other collateral. Participations in the loan were offered among note-brokers at a 6% rate less ½% commission. The loan was a private matter, the company being in no way interested, and was made, it is supposed, to provide cash for syndicate operations in which Mr. Schwab was interested and for the acquisition of mining properties recently purchased.—V. 84, p. 1110, 933.

Boise-Payette River Electric Power Co.—*Amalgamation.*—See Idaho-Oregon Light & Power Co. below.—V. 77, p. 2099, 2160, 2282, 2341.

Butte Coalition Mining Co.—*New Officer.*—J. W. Allen has been elected Secretary and Treasurer in place of James O'Grady, who retires on account of ill-health.—V. 84, p. 1369, 451.

Columbia Gas & Electric Co.—*Lease.*—The shareholders of this West Virginia corporation voted on June 18 to ratify the contract with the Cincinnati Newport & Covington Light & Traction Co., by which that company's property is leased for 90 years from April 1 1907 to The Columbia Gas & Electric Co., incorporated under the laws of Ohio, the capital stock of which is all owned by the Columbia Gas & Electric Co. of West Va. The lease is made on the following basis:

The lessee company guarantees interest on all outstanding bonds, the 4½% dividend on the preferred stock ($4,264,000 outstanding; $5,000,000 authorized) and dividends on the $5,000,000 common stock as follows: 3% for the first year, 3½% for the second, 4% for the third, 4½% for the fourth, 5% for the fifth, 5½% for the sixth and 6% for the seventh and each year thereafter. All dividends are to be paid quarterly. The first dividend on the common stock will be paid on July 15 1907. The Columbia Company has deposited in banks approved by the Cincinnati Newport & Covington Co. $1,250,000 as a guaranty that the terms of the lease will be faithfully executed. Of this amount $1,000,000 is to be spent on improvements to the property subject to approval of the directors of the C. N. & C. L. & T. Co.

Holders of stock and bonds of the C. N. & C. had until June 15 the right to subscribe at 90 for bonds of the Columbia to an amount equal to 50% of their respective holdings, receiving as bonus an equal amount of stock of the Columbia Gas & Electric Co.

Bonds, &c.—The directors on June 13 authorized the issue of $6,500,000 of the company's bonds for the purpose of building pipe lines from the West Virginia fields to Covington, Ky., Cincinnati and other cities of Ohio.

The circular issued to the shareholders of the Cincinnati Newport & Covington Light & Traction Co. states that the $25,000,000 bond issue of the Columbia Gas & Electric Co. is for the following purposes:

$9,000,000 for purchase of Cleveland gas properties; $6,000,000 to build pipe line to Cleveland; $6,500,000 to build pipe line to Cincinnati; $1,000,000 to acquire gas fields in West Virginia, and $2,500,000 for guaranty fund and future development purposes.

At the aforesaid meeting the directors also ratified the franchise agreement with the City of Hamilton, Ohio.—V. 84, p. 1184, 1055.

Crucible Steel Co. of America, Pittsburgh, Pa.—*Earnings.*—For the nine months ending May 31 1907:

Total net earnings, after deducting all expenditures for repairs, interest on bonds, mortgages, &c.	$2,022,180
Less amount set aside as reserve for contingencies	40,444
Three quarterly dividends on $24,436,500 7% cumulative preferred stock, Nos. 17, 18 and 19, 1½% each, paid Nov. 30 1906 and Feb. 28 and May 31 1907 (4½%)	1,099,643
Surplus for the quarter	$882,093

The statement is based on inventory values as of Aug. 31 1906 for all finished material. Raw and process material is valued at cost as of May 31 1907.—V. 84, p. 696.

Idaho-Oregon Light & Power Co., Boise, &c.—*Amalgamation—Bonds Offered.*—MacDonald, McCoy & Co., 181 La Salle Street, Chicago, are offering at par and interest, on another page of this issue of the "Chronicle," the present issue of $500,000 "first and refunding 6% gold bonds" of $1,000 each (c*), dated April 1 1907 and due in annual installments on April 1, $25,000 yearly 1915 to 1917, $50,000 yearly 1918 to 1922, $75,000 yearly 1923 and 1924 and $25,000 in 1925; but subject to call on April 1 1915, or on any interest date thereafter, at 105 and interest until and including Oct. 1 1926; on April 1 1927, or any interest date thereafter, at 102½ and interest, until and including Oct. 1 1936, and on April 1 1937 or any interest date thereafter, at par and interest. Interest payable Oct. 1 and April 1 at State Bank of Chicago, trustee. Available population, estimated, 60,000. A circular says:

Capitalization: Preferred stock outstanding, $595,000; common stock outstanding, $3,800,000.

Authorized Issue of $7,000,000 *"First and Refunding Gold Bonds."*

In the hands of trustee to retire $540,000 bonds of acquired properties (including, we understand, $500,000 first 6s due Oct. 1 1921, of Boise-Payette River Electric Power Co., interest payable April 1 and Oct. 1 at Mercantile Trust Co., Boston; also $40,000 of 6% bonds of Electric Power Co., Ltd.—Ed.)	$550,000
In the hands of trustee to develop the Ox Bow water power, &c.	2,000,000
In the hands of trustee to purchase or acquire other properties, and for additions, improvements, extensions, &c.	3,950,000
Outstanding	500,000

These bonds are a first mortgage on the Ox Bow power on the Snake River, and stocks of the acquired companies, namely: The Boise-Payette River Electric Power Co., the Capital Electric Light, Motor & Gas Co. and the Electric Power Co., Ltd., are deposited with the trustee as collateral security. Bonds numbered from 1 to 2,500 bear interest at the rate of 6% per annum, and mature serially from 1915 to 1945. The trust deed provides that the remaining bonds, when issued, shall bear interest at the rate of 5% per annum and shall mature in 1947.

Actual net earnings of the acquired properties, 1906	$85,520

Estimated Annual Earnings on Completion of Certain Extensions.

Net earnings when Boise-Weiser extension is completed (over twice the interest charge on all the bonds now outstanding)	$130,000
Net earnings of the Ox Bow plant when completed, estimated	282,000
Or a total estimated net earnings of the combined plants, when approximately $3,000,000 bonds will be outstanding, of	$412,000

The above earnings are on a basis of disposing of practically half of the ultimate capacity of the plant. Additional earnings may be expected as the market develops, with only a nominal addition to the operating expenses and to the fixed charges.

The company has acquired, by the purchase of stock, control of the Boise-Payette River Electric Power Co., Capital Electric Light, Motor & Gas Co. and the Electric Power Co., Ltd., supplying light and power to the city of Boise, Idaho, which companies have been in successful operation for years; and by securing these properties the Idaho-Oregon Light & Power Co. controls all the electric light and power business in the city of Boise. It has also secured the electric light plant at Emmett, the electric light plant at Meridian and the electric light plant and water works at Ontario, in Idaho. The franchses run for more than 40 years. There is now in operation 2,000 horse-power adjacent to Boise, which is insufficient for its present needs, and the company has recently acquired and now owns the Ox Bow power property, located 60 miles below Weiser, Idaho, on the Snake River, capable of developing more than 18,000 minimum electrical horse-power. The Snake River has a minimum flow as great as the present maximum flow of the Chicago Drainage Canal, or 300,000 cubic feet per minute.

Transmission lines, as planned, traverse Boise and its adjacent suburb n the Boise Valley; electric railroads in and about Boise, and extensive mining operations; and there is no competition except from power produced by steam plants operated by coal in the territory above described. Within this district there is now a market for one-half the energy that can be produced by the waters of the Snake River at the Ox Bow during the months of minimum flow; and judging the future of this country from the past, developed under the most disheartening conditions, it should be only a matter of a short time until the entire output of the plant could be utilized. The conditions of the present and the possibilities of the future are most promising. These companies supply the city with its entire lighting, operate the street railroads, and the surplus power is sold for manufacturing and mining and pumping. At the present time, the power has all been sold, and the demand is so great that it is necessary to supply additional power at once, not only for Boise, but for the towns down the Boise Valley, Payette Valley and the Snake River Valley as far as Weiser, Idaho, the Boise combined companies having acquired, either by contract or purchase, the power and lighting market in the territory above named. No new water power can be profitably developed on the Snake River within reasonable distance of this market, all other rivers having such a small flow that power which might be developed by them would be very small, indeed. There is, therefore, practically no competition.

[The company was incorporated in Colorado on June 5 1907 with $7,500,000 authorized capital stock, the incorporators being Orlando B. Willcox, Horace G. Lunt, D. B. Ellis, L. B. Johnson, George A. H. Frazer, W. A. Reef, Charles I. Hawthorne and J. C. Darling, all of Colorado Springs, but in association with Eastern capitalists. Headquarters will be maintained in Denver.—Ed.]

Ontario Power Co. of Niagara Falls, Ont.—*Contract with Outario Government.*—Secretary R. C. Board, to whom we submitted the following statement, pronounces the same substantially correct, and says that the company already has 42,000 horse-power installed and operating. About a year ago two additional generators, for 12,000 horse-power each, were ordered, and these will probably be installed between July and October of this year, giving the company a total of 66,000 horse-power. The head works are completed for the full development of 200,000 horse-power (compare V. 80, p. 1427; V. 82, p. 395, 632).

Contract with Canadian Government.—The company has received notice rom the Hydro-Electric Power Commission of Ontario (Canada), Hon. Adam Beck, Chairman, that the Commission intends to accept its tender for a supply of power, and the contract is now being drawn. It provides for a sale of from 30,000 to 100,000 horse-power daily to the Ontario Government. A minimum amount of 8,000 horse-power is to be taken, the Commission to have the right to increase this at any time to 30,000 on giving 30 days' notice, and to secure a still larger supply on notice. The contract is for 10 years, with the option of renewal for 40 years. The current is to be alternating 3-phase 25-cycle, 60,000 volts at the transformer station.

The Ontario Government will sell this power to various Ontario municipalities at cost. The power will cost the Government $10.40 per horse-power up to 25,000 horse-power at the transformer station at Niagara Falls, Ont., where the Ontario Power Co. is located. Above 25,000 horse-power, the company will get a flat rate of $10 per horse-power. It is estimated that the price of power to the municipalities will be from $16 to $24.

Already fourteen different Ontario municipalities have made application for an aggregate of about 40,000 horse-power, and this demand, it is expected, will be increased largely just as soon as the final details of the contract become generally known. The municipalities which have been authorized to enter into contracts, and the amount of power they ask to be supplied with, are as follows:

Toronto, 15,000 horse-power; Toronto Junction, 4,000; London, 6,000; Guelph, 2,000; Galt, 1,200; Woodstock, 1,200; Ingersoll, 1,200; Stratford, 2,500; St. Mary's, 750; Preston, 500; Berlin, 1,000; Waterloo, 700; Hespeler, 300; Brantford, 2,500. St. Thomas and Paris also have voted for 1,200 to 1,500 horse-power each.—V. 84, p. 224; V. 82, p. 395, 632.

Randolph-Macon Coal Co.—*Protective Measures.*—A bondholders' committee consisting of Frederick H. Ecker, Chairman; Wm. A. Read, Willard E. Edminster, George S. Coe, all of New York, and Francis R. Cooley, Hartford, Conn., notifies all holders of first mortgage 5s who desire to become parties to the protective agreement to deposit their bonds on or before June 27 1907 with the Central Trust Co. of New York, 54 Wall St., New York. Holders of more than $1,390,000 of bonds have already deposited them. See circular obtainable from Trust Company and compare V. 84, p. 935, 342.

United Gas Improvement Co., Philadelphia.—*Lease of Philadelphia Gas Plant to Continue.*—On June 20 the Philadelphia City Councils by votes of 33 to 8 in Select Council and 54 to 33 in the Common Chamber, killed the ordinances which provided for serving notice on the company that it was the city's intention to terminate the present lease on Dec. 31 next, and directing Mayor Reyburn to advertise for bids for the remaining 20 years of the lease. Compare V. 84, p. 1373, 1311.

United Shoe Machinery Corporation.—*Report.*—See "Annual Reports" on a preceding page.

Stock Distribution.—A circular gives the following particulars regarding the stock dividend of 25% on common shares announced last week.

The board of directors, at a meeting on June 14, resolved that, for the purpose of representing in the capitalization of the corporation existing surplus assets to the extent of $4,464,581, 178,583⅓ shares of its authorized, unissued, common capital stock be issued and distributed as a dividend pro rata among holders of common capital stock of the corporation of record on Saturday, June 29, at 12 o'clock, in the ratio of 25 shares to each 100 shares of common capital stock then held by them. Fractional scrip certificates will be issued, convertible into certificates of common capital stock, upon surrender at the American Trust Co., transfer agent, Boston, or its agent, the Hanover National Bank of New York City, in sums amounting to $25 or multiples thereof.

Certificates representing full shares and fractions thereof will be delivered to each stockholder entitled thereto on July 15, or as soon thereafter as the certificates can be prepared.—V. 84, p. 1433, 1372.

Western Union Telegraph Co.—*Strike Averted.*—The proposed strike of the Commercial Telegraphers' Union against this company, which threatened to involve the Postal Company, was averted on June 20 when President Clowry wrote a letter to C. P. Neill, Commissioner of Labor at Washington, stating the intention of the company to make universal the 10% increase in wages granted March 1.—V. 84, p. 1434, 808.

—Booklet "D" issued by the Guaranty Trust Company of New York entitled "How to Invest Money" contains valuable suggestions relative to the various classes of investments which should enable the reader to determine what particular form of security is best adapted to his individual needs. The comparative advantages of railroad bonds, real estate mortgages, street railroad and public utility bonds and other forms of investments are presented in a clear and concise manner. The ideal investment is defined as one which combines ample security of principal and interest, a good rate of income, convertibility into cash and reasonable promise of appreciation in value. Measured by the requirements of this definition, the conclusion seems justified that well selected railroad bonds, purchased under conditions such as exist in the bond market to-day, will be found the most desirable form of investment. A copy of the booklet may be obtained upon request.

—The ninth annual edition of the "Directory of Directors in the City of New York" has just come from the press. It contains the names of over 25,000 directors, each name being followed, first, by the name of the firm or company with which he is directly associated, and then by all the companies in which he is a director. Selected lists of corporations in banking, insurance, transportation, manufacturing and other lines of buisness, alphabetically arranged, accompanied in each case by the names of the company's officers and directors, are to be found in the appendix, as well as a list of the principal exchanges in New York, with their officers and managers. The directory is published by the Audit Company of New York, 43 Cedar Street, at five dollars a copy.

—Mr. J. E. Sterrett, C. P. A., of Philadelphia and New York, has joined the firm of Jones, Caesar, Dickinson, Wilmot & Co., the practice of which will hereafter be conducted under the firm name of Dickinson, Wilmot & Sterrett, with offices at 925 Chestnut St., Philadelphia, in addition to those hitherto maintained by the firm jointly with Price, Waterhouse & Co. in New York, Chicago, St. Louis, Pittsburgh, San Francisco, Seattle, City of Mexico, Melbourne and London.

—H. P. Taylor & Co., 248 Fourth Avenue, Pittsburgh, have issued a chart of the Pennsylvania RR. system, which they have recently compiled, showing all of the main and subsidiary lines East and West, and the manner in which they are owned or controlled by the Penna. RR. Co.

—The Bond Buyers' Dictionary, issued by S. A. Nelson & Co., describes the various kinds of bonds with consideration as to their merits and demerits, together with much other matter germane to the subject, including the Savings Bank Investment laws.

Reports and Documents.

THE NEW RIVER COMPANY.

DIRECTORS' FIRST REPORT TO STOCKHOLDERS TO JANUARY 1 1907.

To the Stockholders of the New River Company:

As no report has been made to the directors since the formation in June 1905 of the New River Fuel Company, now absorbed by the New River Company, and as much has taken place since that time of interest to the stockholders, there has been incorporated in the following first report of the directors not merely a statement of the present condition of the Company, but also a review of the manner in which the Company was brought together and of what has been done and what is proposed to be done in the near future in the Company's interest.

Your directors are highly appreciative of the confidence which has been shown by the over-subscription of the stock issued in January and in August 1906 to cover, in part, the purchase of new properties acquired, and trust that this report will be found to post the stockholders fully with reference to all matters which would have been covered by earlier reports had they been made.

By order of the Board of Directors.

JAMES W. SMILEY, Secretary.

May 1 1907.

THE NEW RIVER COMPANY.

(Incorporated under the laws of West Virginia.)

CAPITAL STOCK.

Authorized capital	$18,000,000
Preferred	$6,000,000
Common	12,000,000
Issued and outstanding December 31 1906:	
Preferred, 6% cumulative	$4,639,000
Common	9,279,500

ORGANIZATION.

Officers.

President and General Manager, SAMUEL DIXON, Macdonald, W. Va.
First Vice-President, WILLIAM A. PAINE, Boston, Mass.
Second Vice-President, STILLMAN F. KELLEY, Boston, Mass.
Secretary and Treasurer, JAMES W. SMILEY, Macdonald, W. Va.
Assistant Secretary and Treasurer, GEO. W. BUNTON, Boston, Mass.
General Superintendent, F. W. SCARBOROUGH, Macdonald, W. Va.

Directors.

Executive Committee.

Wm. A. Paine, Chairman. — Samuel Dixon. — James F. Shaw.
Junius Beebe. — Edward S. Jones. — Phineas W. Sprague.
Henry N. Sweet. — Louis A. Watres.

TRE RELATION OF THE NEW RIVER COMPANY TO THE NEW RIVER FUEL COMPANY.

The New River Company is a holding company, owning all of the stock of the New River Fuel Company, acquired by exchange of one share of its preferred and two shares of its common stock for each share of New River Fuel Company stock. The statements herein contained are of the liabilities, properties and assets of the New River Fuel Company, constituting, however, also the assets of the New River Company through its ownership of all the stock of the New River Fuel Company. The New River Company has no liabilities except its outstanding stock.

ASSETS AND LIABILITIES NEW RIVER FUEL COMPANY AT CLOSE OF BUSINESS DECEMBER 31 1906.

Assets.

Cash in bank	$26,930 68
Subscriptions (payable in monthly installments)	542,663 32
Notes and accounts receivable	48,573 52
Investment in sub-companies (at cost)	5,283,966 28
Investment in coal lands (at cost)	407,345 95
Miscellaneous	323 26
	$6,309,803 01

Liabilities.

Capital stock issued	$4,810,800 00
Capital stock paid for but not issued	2,936 68
Capital stock subscribed for	542,663 32
*Notes and accounts payable	952,474 86
Sundries	928 15
	$6,309,803 01

*Notes and accounts payable represent obligations incurred in the purchase of new properties and mature at intervals until May 1909. As against these obligations the Company has subscriptions coming due monthly until August 1908 to the amount of $542,663 32

And undistributed profits in sub-companies of	199,737 88
	$742,401 20

In the year 1906 the earnings of the operating companies exceeded by $182,000 the amount required for the payment of the 6% dividend heretofore paid. As several of the largest operations are just reaching the stage of full development, the excess of earnings above the amount required to pay this dividend should, in 1907, exceed the figures of 1906. But assuming no increase over 1906, the excess earnings of the sub-companies for the year 1907 will, with the $742,401 20 of undistributed profits and subscriptions and the $48,573 52 of notes and accounts receivable, exceed the $952,474 86 of notes and accounts payable, the last of which do not mature until May 1909. But as this $952,474 86 represents new properties purchased, and is properly chargeable to capital account, it is proposed, in connection with a new issue of stock referred to hereinafter, to take care of such portion of it as is necessary to leave future profits available for distribution in dividends.

There are no bonded obligations outstanding on any of the properties of the Company.

PRODUCTION AND EARNINGS.

The output of the mines controlled by the New River Fuel Company since its organization, that is, July 1 1905, and its proportion of the net earnings has been as follows:

SIX MONTHS ENDING DECEMBER 31 1905.

Month—1905—	Coal output, gross tons.	Capital Issued.	Net Profits.
July	83,743	$1,341,500	$6,944 92

June	147,255	3,590,000	30,022 63
Total	764,386 (av)	$2,999,900	$182,369 68

Net earnings, 6.08%, or at the rate of 12.16% per annum on stock issued.

SIX MONTHS ENDING DECEMBER 31 1906.

Month—1906—	Coal output, gross tons.	Capital Issued.	Net Profits.
July	123,293	$3,643,400	$28,319 31
August	154,094	3,956,400	38,675 09
September	150,065	4,186,000	34,495 52
October	152,760	4,726,200	39,036 32
November	142,379	4,794,000	44,923 04
December	127,243	4,810,800	35,220 78
Total	849,834 (av)	$4,352,800	$220,670 06

Net earnings, 5.06%, or at the rate of 10.12% per annum on the stock issued.

The earnings during the past 18 months have amounted to 6% per annum on all the preferred and more than 2% per annum on all of the common stock outstanding of the New River Company.

Eighteen out of the 25 mines now in operation are new mines which have not as yet reached their ultimate production, and it is estimated that the output during the next few years should be as follows:

Year—	Output.
1907	2,000,000 tons.
1908	2,500,000 "
1909	3,000,000 "

At the average rate of profit for the last five years this output would yield net profits of $600,000 for 1907, $750,000 for 1908 and $1,000,000 for 1909, thus affording by 1909 a return of 4% on all of the common stock, after providing for the 6% dividend on the preferred.

Within the following few years the output should reach 4,000,000 tons, which, on the same basis of profits, would yield 7% per annum on the common stock after paying the preferred stock dividend. If the constant upward tendency in the price of high-grade coals, which has for many years been observed both in this country and abroad, continues, still larger returns should result.

COAL PROPERTIES.

The coal properties owned and controlled by the New River Fuel Company and its sub-companies are as follows:

MINING COMPANIES IN NEW RIVER COAL FIELD.

Company—	No. of Mines.	Acreage.	Estimated tons coal remaining.	No. of coke ovens
Macdonald Colliery Co	1	862	3,000,000	120
Collins Colliery Co	1	1,036	3,000,000	100

Total	25	55,915	495,000,000	389

In the development of these large areas, towns and villages are built up, constituting complete communities, on the land of the operating company, and in some cases, as at Mabscott, with their own mayor and council, independent of any other community. The houses are let to the miners on a reasonable basis of return on capital invested, and a complete department store is established and run by the company at each centre. While the main item of expenditure in the opening up of a property is for mine development, the investment represented by the houses, stores and other structures, and in tools and equipment is considerable, and in the present operations is approximately as follows:

INVESTMENT.

	Value.
19 store buildings	$92,500
Stock in trade in stores	236,000
53 houses of superintendents and officials	178,500
1,666 miners' houses	795,100
17 stables	22,900
605 horses and mules	80,500
8 stable equipments	22,700
26 tipples	207,950
3,433 mine cars	162,590
96 boilers installed	192,000
Boiler and engine houses, engines, pumps, fans and compressors	678,550
389 coke ovens and equipment	195,000
Blacksmith and machine shops, tools, &c	38,500
4 supply-houses and stocks	25,500
Real estate (other than coal lands)	162,567
29 electric motors	53,800
57 mining machines	25,100
5 saw-mills	23,500
Material	121,500
Total	$3,314,757

OTHER PROPERTIES.

White Oak Railway Co.—Piney River & Paint Creek Railroad Co.

These roads, the stock of which is all owned by the sub-companies, connect such of the Company's operations as are not directly on the Chesapeake & Ohio and the Deepwater (recently re-named the "Virginian") Railway with those roads. They are operating over twenty-two miles of rail and represent an investment to date, including the connection, now forty per cent complete, of the White Oak Railway Company with the Deepwater Railway, of $587,935 85.

In addition to the carriage of freight, both roads are operating a regular passenger schedule. By a traffic arrangement with the C. & O. RR., the White Oak Railway Company operates, in addition to its own line from Stuart and Parral to Carlisle, the passenger service on the connecting portion of the C. & O. Railroad from Carlisle to Glen Jean, from which point the White Oak Railway coaches are taken by the C. & O. trains and carried through to Thurmond, thus giving through transportation between Stuart, the present northerly terminus of the White Oak Railway, and the main line of the C. & O. without change of cars or detention.

White Oak Coal Company.

This Company, all of whose stock is owned by The New River Company, is the inland sales agent in both Eastern and Western markets of that Company. It owns an extensive plant at Richmond, Virginia, for the storage and sale of coal both at wholesale and retail, the most complete in the city, representing an investment of $60,000. The Company is equipped to supply the needs of all customers, carrying not merely New River domestic, steam and smithing coal, but also Eureka splint, a fancy fireplace coal which is produced by the Eureka operation of The New River Company, and for which there is a large demand in the Southern market, and a supply of anthracite. This Company now sells seventy-five per cent of the coal sold in Richmond.

NEW RIVER COAL AND COKE, AND ANALYSES.

Of the 495,000,000 tons of coal owned and controlled by the Company and its sub-companies, all but 22,000,000 is the famous New River Smokeless Coal.

This coal, which stands at the head of bituminous steam coals and is, in prepared sizes, next to anthracite, best adapted for domestic consumption, is found only in a limited area of about 200,000 acres in the State of West Virginia. The basin containing it is elliptical in shape, being longest from north to south and shortest from east to west. To the east the veins throw out to daylight along Piney Creek and in the bluffs on the west shore of New River from Prince to Thurmond, and by a disturbance of nature are pinched out and lost to the west of the line of the Deepwater Railway. Lengthwise with the basin, in a northerly direction as the veins reach and cross New River, the seams grow thinner and less desirable for mining operations.

On the map annexed to this report with the properties of the Company colored will be found indicated the east and west limits of the New River measures. The first portion of the field to be developed was the easterly section along the river banks. The coal in this section is to a considerable extent worked out.

When the plan was first formulated for the organization of the Company, and before it was organized, the properties afterwards taken over were examined by Mr. M. F. Dodge, of Wilkesbarre, Pennsylvania, an expert coal mining engineer of large experience both in anthracite and bituminous operations, employed by the Boston and Scranton interests who were contemplating investing in the proposition. He reported as follows with reference to the coal areas examined:

"The cream of the coal seems to be covered by the areas of the nine bodies of land covered by this report, which are on the thickest strike of the Sewell and Beckley seams.

"Upon these lands there are three seams of coal that have been actually developed by either mining or borings or operations upon adjoining properties.

"They are as follows:

"In a few acres, in the northerly section, the Eagle seam, which is the lowest of the Kanawha series, crops out on the hill tops.

"The next vein below, in order, is the Sewell Seam, which is the uppermost of the lower series of veins in West Virginia. This seam will run on an average of from 4½ to 5 feet in thickness over the whole of the lands under discussion, and is known as New River Smokeless Coal.

"The next seam which has been thoroughly developed by bore holes in these lands, and by workings on adjoining lands, is known as the Beckley Seam, which will average fully 4 feet of workable coal over the whole of the lands under discussion. This vein is also known as New River Smokeless Coal.

"Below you will find an analysis made by the United States Navy Department in August 1904, giving the component parts of the Sewell Seam:

	Fixed Carbon.	Volatile Matter.	Moisture.	Ash.	Sulphur.	Heating Value B.T.U.
Macdonald Col. Co.	79.18 %	18.58 %	1.20	1.04	.42	15326
Stuart Col. Co	74.48 %	22.14 %	1.42	1.96	.58	15393
White Oak Fuel Co.	78.06 %	19.48 %	1.24	1.22	.48	15170

"For the sake of comparison, I submit the composition of Anthracite Coal:

"'Analysis by A. S. McGrath of 30 samples especially collected for the purpose from RR. cars as loaded for market. Samples taken from each of the fields. The coal coming from beds between the Primrose and the Buck Mountain inclusive.

"A general average of the results shows the constitution of commercial anthracite to be as follows:

Water	3.3 %
Volatile Matter	3.8 %
Fixed Carbon	84.05 %
Sulphur	.5 %
Ash	8.4 %

N.B.—The above is copied from Page 1926, Pa. Geological Survey, 1895, Summary of Final Report, Vol. 3, Part 1, Carboniferous.

"Another comparison may be interesting at this point, viz.: with the Bloss vein, a popular coal mined in Tioga County, Pennsylvania. Analysis by E. V. D'Invilliers in his final report, Pennsylvania Survey, page 2275, giving the average of eight analyses of Bloss vein coal at different openings as follows:

Water	1.465 %
Volatile Matter	19.741 %
Fixed Carbon	68.974 %
Sulphur	.686 %
Ash	9.134 %

"So far as I have been able to learn by inquiries, the results in actual practice are fully as good from coal taken from the Beckley Seam as from the Sewell Seam, and therefore I think it will be safe to class the Beckley Seam in the same category as the Sewell Seam so far as value and results are concerned.

"In the actual burning of the coal from the Sewell Seam, when the coal is first placed upon the fire, there is considerable smoke emitted by combustion, but in an incredibly short time this smoke disappears and then under forced or natural draught there is practically no more smoke than from Anthracite. The lasting qualitiesof this coal will compare favorably with the best grades of anthracite so far as I was able to discover from personal inspection of the use of this coal."

In actual use New River coal is found to produce more steam per ton than any other American bituminous coal. This results from the large per cent of fixed carbon and the small quantity of sulphur and ash. It is preferred to all other coals by electric-lighting companies.

In the northerly portion of the New River field, where the greater part of the Company's operations are located, the coal is unusually hard and screens out a large per cent of lump and egg, running as high as seventy-five per cent as against an average of about forty per cent in the entire New River field. This lump and egg is in such demand for domestic consumption in the West, where the price of anthracite is almost prohibitory, that the supply is entirely inadequate and sells at very satisfactory figures. Shipments for domestic consumption to the West began in 1903 at 300 tons daily from the New River field and has increased to 6,000 or 7,000 tons daily in 1907.

Further analytical tests made of several different coals are as follows:

	Fixed Carbon.	Volatile Matter.	Ash.	Water	Sulphur.
New River Coal	79.18	18.58	1.04	1.20	.42
Cumberland Coal	72.70	19.13	6.40	.95	.78
Clearfield Coal	60.27	22.16	6.44	1.18	.93

The relative efficiency of different coals is customarily stated by the United States Government in terms of the number of pounds of coal which are the equivalent in heat value of a cord of white oak wood. Tests made by the United States War Department of a large number of bituminous coals, which placed New River Company coal at the head of the list in effi-

ciency, first suggested the designation "White Oak" as applied to the Company's coal. These tests were as follows:

NEW RIVER COAL.	*Pounds of coal equivalent to one cord of white oak wood.*
Average of Macdonald Collins, Scarboro and Stuart (Operations of The New River Company)	1638
Pocahontas.	
Tazewell County Mines	1740

Cowpen Cambois West Hartley Coal	2129

ANALYSIS OF COKE.

On account of the excellent market for New River coal for steam and domestic consumption there is but little occasion for manufacturing it into coke, and the company operates at the present time only 389 coke ovens. The coke produced from New River coal is, however, of the highest quality, the analysis in comparison with the well-known Connellsville coke being as follows:

	New River coke.	*Connellsville coke.*
Fixed carbon	92.03	87.05
Volatile matter	1.37	.67
Ash	6.45	11.04
Water	.15	1.24
Sulphur	.68	.74

The small proportion of ash in New River coal makes it possible, by variation of the constituents, to produce a coke of the first grade for either foundry or smelting purposes, for which a higher price than heretofore may be expected in view of the rapid depletion of the coal supply in the Connellsville region, where, it is stated, 20,000 ovens will go out of commission this year for lack of coal.

TRANSPORTATION.

Railroad Transportation.

The Company's properties are wedged between the trunk lines of the Chesapeake & Ohio and the Deepwater-Tidewater (now called the "Virginian") Railway, where these roads parallel each other, and are tapped directly by both roads, and connected with both by the White Oak Railway and the Piney River & Paint Creek Railroad, the stock of which is all owned by the New River Company and its sub-companies. The Company is thus in a position to secure through the Chesapeake & Ohio and the Deepwater-Tidewater (Virginian) Railway, and through the equipment of its own railroads with cars, better transportation facilitiesthan any other operations in the West Virginia field.

River Transportation.

By the acquisition a year ago of a terminus for the White Oak Railway Company at the head of navigation on the Great Kanawha River the Company secured the further advantage of a line of transportation for its coal to the South and West entirely independent of any railroad lines other than those controlled by it. This terminus, which includes a river frontage of a mile and a quarter, was purchased as a part of the Great Kanawha Colliery Company property. Through the projected extension of the White Oak Railway to this point, the Company will be able to ship its coal by river to markets of the Ohio and Mississippi valleys, to which no smokeless bituminous coal has as yet been able to penetrate, and which are nearer, by 200 miles to this point than to the Pittsburgh coal fields, from which they are at present chiefly supplied by river shipment. By bridging the Great Kanawha River at this terminus, a connection can be made with the Toledo & Ohio Central Railroad, and by building up the Gauley River over an ideal location, a connection can be made with the Western Maryland Railroad through the Kanawha & West Virginia Railroad, thereby affording additional outlets both West and to the Middle Eastern States.

MARKETING.

The quality of New River coal is such that the amount which can be disposed of at profitable prices, either for manufacturing use, for domestic consumption, or as coke, is limited only by the amount which can be mined and got to market.

TIDEWATER COAL.

The Company's tidewater agents are C. H. Sprague & Son Company, through whom the coal is marketed under the same terms on which New River coal has for many years been handled by them. Under this contract all accounts are guaranteed by the agents, so that there is no loss on bad accounts.

The tidewater trade extends the length of the Atlantic coast including both North and South American countries, and a large trade has been built up in Mexico. Shipments to the Philippines have recently been made, and there is also a European market, which, while at present intermittent is constantly extending, and, with the diminishing supply and increasing price of European coal, has a promising future.

New River coal, by reason of the small amount of sulphur contained in it, is free from the tendency to spontaneous combustion which is found in other bituminous coals, and this is an element of value [illegible] tidewater trade, as it enables the coal not only to [illegible] tribution, but also to be accumulated in large [illegible]

desiring to lay in their supply during the summer, when there is the largest amount available for tidewater shipment.

While tidewater coal is in most cases discharged at the consumer's wharf there are some central points where large discharging plants are needed from which coal can be distributed, and to meet this need there have been established since the formation of the Company by its tidewater agents at Providence, R. I., and at Searsport, Me., plants of the most modern type, with a storage capacity of 50,000 and 75,000 tons, respectively, for the discharging and storage of New River coal. The plant at Searsport is at the newly established tidewater terminus of the Bangor & Aroostook Railroad, which itself has for many years used New River coal exclusively. This is the only coal discharging plant at that port, and through it and the connections of the Bangor & Aroostook Railroad are commanded all of the markets of Northern Maine, with their extensive paper and pulp mills and manufacturing establishments, all large consumers of steam coal.

The terminus at Searsport can be reached at all seasons of the year, and Searsport has, through the establishing of this discharging plant, largely superseded as a coal port the city of Bangor, which during a considerable portion of the year cannot be reached by vessels on account of the closing of the Penobscot River by ice.

To further facilitate marketing the tidewater agents of the Company have also within the last few months consummated the purchase of four steamers and six barges, which are owned and operated by the White Oak Transportation Company and employed exclusively in the transportation of New River coal. These are steel vessels of a carrying capacity aggregating over 25,000 tons. They are of the whaleback type, which makes it possible for them to go to sea when no other vessels can safely leave port, and in several instances where a tug has lost its tow the barge has anchored and ridden out storms which it would have been impossible for a barge of any other type to weather. The steamers are constructed with engine quarters in the extreme stern and crew quarters in the extreme bow, enabling the entire intervening space from stem to stern to be opened up for the loading and discharging of coal, thereby reducing the cost of trimming to a minimum and securing a dispatch in loading and discharging which does not exist in vessels of the usual type. They carry coal themselves and also tow the barges. The fleet is capable of carrying more than 600,000 tons of coal yearly, being the equivalent of 21 ordinary barges, and constitutes one of the most efficient coal-carrying equipments in service on the Atlantic coast.

Outside of its own capital the New River Company has in these storage plants and vessels the benefit of an investment exceeding $1,200,000, devoted to the marketing of its tidewater coal.

INLAND COAL.

Smokeless New River coal in prepared sizes is eagerly absorbed in Western markets, where the price of anthracite is prohibitory of general use.

Heretofore the amount of coal which could be shipped West for domestic consumption has been limited, for want of storage facilities, by the available cars during the winter months, and it has been necessary to refuse many profitable orders on account of the impossibility of shipping. By the establishing of discharging and storage plants in Western cities similar to the Richmond plant coal can be accumulated during the summer and sold during the winter at the high prices then prevailing.

A location is being secured in Cincinnati on high ground in the residential section where coal can be discharged direct from the cars into elevated bins and distributed by teams by a down-hill haul, and it is planned to establish similar plants in the principal cities of the West and thereby build up a direct trade with the consumer which will be a permanent asset of the Company.

PLANS FOR FURTHER DEVELOPMENT.

An important problem which confronts the New River Company, in common with all other coal-mining companies at the present time, is the supply of cars. The Deepwater (Virginia) Railway is not yet completed to tide, and at present the Company's operations are dependent on the Chesapeake & Ohio cars. During the past year the cars furnished have averaged less than a three days' supply a week. The effect of this is not only to limit the output of the mines to about 50% of their capacity, but also results in an increased cost of production in the coal which is mined.

While it is gratifying that under these adverse conditions the Company's mines have earned during the year 1906 more than 10% on the outstanding preferred stock, or 4% in excess of the 6% dividend which has been declared, there is no excuse for submitting to this serious handicap, and it is proposed to remove it by equipping the White Oak Railway and the Piney River & Paint Creek Railroad with 1,800 50-ton hopper-bottom, steel or composite cars of the best type, together with the necessary locomotive power, suitable repair shops, &c.

These railroads when so equipped will earn a reasonable return on the capital invested. They tap directly the largest of the Company's operations and will, when supplied with cars, enable the mines to run on full time, with a resulting diminution in the cost of production and a large increase in output and profits.

In addition to the equipment of the railroads with cars, it is planned to complete the Carter's Branch of the White Oak Railway, running from Oak Hill to connection with the Deepwater-Tidewater (Virginian) Railway, in order that cars may be sent from the White Oak Railway over either the Deepwater (Virginian) or the Chesapeake & Ohio, as may be most advantageous.

It is also planned to complete the erection of storage and distributing plants in several Western cities and to push as rapidly as possible to the stage of full production the 18 operations which are not yet fully developed out of the 25 opened up.

To accomplish these purposes the following sums will be required:

To be applied to the equipment of White Oak Railway and Piney River & Paint Creek Railroad with cars, engines, repair shops, completion of Carter's Branch, and completion of title to railroad rights of way	$850,000
Storage and distributing plants and terminal and working capital for the same	300,000
Mine development	300,000
Additional working capital for 12 operating companies	120,000
To be applied on bills payable for properties purchased	180,000
	$1,750,000

The cars will be purchased on the car trust plan, and the item of $850,000 [illegible] the cash payments required for this purpose. The items of [illegible] for mine development and $120,000 for additional working capital [illegible] the operating companies in shape to mine and market the larger

output, which can be handled with an adequate car supply, and, with the $180,000 to be applied on bills payable for properties which have been purchased, will make available for the payment of dividends the net profits which are hereafter made. It is believed to be good policy to thus round out the operations already opened up, facilitate the transportation and marketing of their product, lower the cost of production and capitalize the Company's obligations for the new properties which have been purchased rather than to open up new operations at the present time.

It is proposed to secure the $1,750,000 required by the issue of stock, to which each shareholder in the New River Company will be entitled to subscribe proportionately to his present holdings on the basis of $100 for a block of one share of preferred and two shares of common, one subscription right attaching to each nine shares now held, whether preferred or common.

Information in detail as to this issue will be given to stockholders by circular.

ORIGIN, MANAGEMENT AND DEVELOPMENT OF THE NEW RIVER COMPANY.

In 1878 Mr. Samuel Dixon, now President and General Manager of the New River Company, came from England at the age of 22 and located in the Kanawha coal field, having from the age of 14 been in the employment of collieries surrounding his native town of Skelton, England.

He filled, in turn, positions in every department of mining operations in West Virginia, including mine boss, bookkeeper, superintendent and manager, until, from the accumulations of his earnings, he became interested with Mr. Symington Macdonald of Glasgow, Scotland, on his own account in certain of the operations which he was managing.

On the opening in 1893 of the Loup Creek section of the New River coal field in West Virginia he secured, with Mr. Symington Macdonald and others, a lease of the property now owned by the Macdonald Colliery Company; organized that Company, of which he has ever since been the manager, and developed its operations. Re-investing his profits in other coal properties and associating with himself in his new enterprises the same investors, to a large extent, originally associated with him, he had in 1905, when the New River Fuel Company was formed, acquired the control and management of extensive sections of the New River field. These operations had uniformly been brought to a successful development and included some of the most profitable operations ever opened up in West Virginia.

Among these were Sugar Creek Coal & Coke Company, original investment $32,000, earnings for nine years $394,000, and Macdonald Colliery Company, original investment $30,000, earnings for 12 years $679,000.

The policy pursued by Mr. Dixon in the development of operations was to make no charge for his personal services until the operations were brought to a paying basis; to install the best equipment obtainable; to build up around each operation a mining town with houses a little ahead of the prevailing standard in the field, supplemented by church and school buildings and a general merchandise store, where the needs of the community could be supplied, and to exercise a close supervision over all expenditures of capital.

To each operation as it was taken over, the English system of mining accounts, brought over by Mr. Macdonald and Mr. Dixon and introduced into their first operations, was applied, affording complete knowledge at all times of the financial aspects of the business, the cost of each month's output of coal, the relation of development to production expenses, the value of the Company's property even to minute items, the profits made in the operations and the stores, and full data with reference to the houses, their rental and repairs and the profits derived therefrom.

On the accounting and financial side Mr. Dixon had from 1894 the valuable assistance of Mr. James W. Smiley, who then became associated with him at the age of 20 in the position of bookkeeper, and who was rapidly advanced until he became Treasurer of all the companies in which Mr. Dixon was interested. On the formation of the New River Fuel Company in 1905 and of the New River Company in 1906, Mr. Smiley was, with the approval of all interests, made the Treasurer of both these companies.

The policy pursued with reference to the personnel of his working organization was to secure young, active men, and, starting them in minor positions, to advance rapidly those who demonstrated their ability. The certainty of advancement, and that positions would be available by reason of Mr. Dixon's steady extension of his operations, was such as to secure the continuous service of desirable men, so that when the New River Fuel Company was formed there were found in charge of the practical side of all the operations men in the prime of life, not merely with a knowledge of mining operations in general, but with an intimate knowledge of the particular operations in which they were engaged, acquired through several years of experience. It is significant of the interest of this working organization in its employment that over $2,348,000 of stock of the New River Company has been purchased and is held by those who were employed in the Dixon operations at the time of the formation of the Company.

In 1905 the services of Mr. Francis W. Scarborough were secured as General Superintendent of all the properties. To accept this position Mr. Scarborough gave up the position of Engineer of Maintenance of Way of the Chesapeake & Ohio Railroad, in charge of the entire system, and brought to the service of the New River Company a wide experience in constructive engineering and also a special knowledge with reference to railroad construction, development and operation, which has been invaluable in the laying out and construction of the White Oak Railway and Piney River & Paint Creek Railroad, and in the solution of transportation problems.

Mr. Dodge, the expert who examined the properties, reported as follows as to the equipment, organization and management:

"There is a fully-equipped and efficient organization around the various collieries, as well as at the central offices at Macdonald. The business in the clerical and operating departments is conducted in a very systematic manner. The mine surveying, as well as outside engineering, is done in an up-to-date manner.

"I desire to say further that the machinery, buildings, mules, &c., are all in first-class condition, the machinery, with the exception of Macdonald, being new and of the very latest type of their various kinds. The machinery at Macdonald, while not so new, has been kept in perfect repair and is in first-class order.

"In developing and working the mines great attention is paid to equal distribution of pillar support, which precludes caving of mines that follow haphazard apportionment of pillar support. The pillars are unusually large as to mine openings in the first mining. In the first mining not over 33 1-3 per cent of the vein is removed, thus insuring a very certain and large yield from second mining, or robbing of pillars.

"All the collieries are equipped with what are practically large department stores. These stores are fully stocked and equipped to conduct, as they are now doing, a very profitable and large business."

The plan of bringing together into one company a large area of New River coal to supply the New England demand for a steam coal of the best quality, and the growing Western demand for a smokeless bituminous coal for domestic use, originated with Mr. Phineas W. Sprague of C. H. Sprague & Son, who, as wholesale dealers in New England for 32 years, had handled coal from all the Eastern bituminous fields, including New River coal from the time when it first came on the market.

Mr. Sprague ultimately associated with himself in the proposition certain Scranton (Pa.) investors, who were familiar with the characteristics and value of New River coal, and who from their knowledge and experience in coal investments were glad to join in the enterprise. The facts disclosed by an investigation of the Dixon properties were such as to make it easy to interest Boston capital, and the New River Fuel Company was finally put together by including in it the stock of the operating companies controlled by Mr. Dixon taken at their actual value, without bonus, commission or promoter's fee. The capital of the New River Fuel Company was supplied by Mr. Dixon and his associates and by the Boston and Scranton interests, thus forming a company controlled entirely by men of experience in coal matters, and retaining as stockholders the same parties who had been profitably associated with Mr. Dixon from the beginning in his coal operations in the New River field.

Since its formation the Company has acquired control of the following additional properties:

Dillon Coal & Land Company, area	6,133	acres
Mossy Coal & Land Company, area	2,896	"
Beckley Coal & Coke Company, area	3,789	"
Cranberry Fuel Company, area	6,255	"
McGuffin Properties (Harvey, Dunn Loop & Prudence), area	3,589	"
Gordon, Mossy & Pack's Branch Lands	2,647	"
	25,300	"

By these properties the northern operations in Fayette County were joined with the Mabscott Coal & Coke Company, the most southerly of the operations in Raleigh County.

To afford an outlet for river transportation there was also secured at a later date the Great Kanawha Colliery Company (2,959 acres), controlling a river frontage of a mile and a quarter on the Great Kanawha River and affording a terminus for river transportation to the markets of the Ohio and Mississippi River valleys. The Eureka Colliery Company (2,202 acres), an operation in close proximity to the Great Kanawha Colliery Company, was also acquired to operate in conjunction with it, and these two operations are now carrying the entire investment on the Kanawha River, including the river terminus, at a net profit of 10 per cent.

A section of coal lands in Southern Raleigh County of 10,708 acres, occupying a strategic position in the small portion of the New River field not as yet pre-empted, has also been acquired.

In these acquisitions regard has been had to the balance between properties acquired for future development and producing properties, so that while at present more than 55% of the acreage controlled is held untouched for future mining, and while out of the 25 operations opened up only seven have as yet reached the stage of their ultimate production, the earnings of the operating companies during the 18 months preceding January 1, 1907, were in excess of 10 per cent on the entire outstanding preferred stock of the Company.

The increase from all sources since the New River Fuel Company was formed in the acreage controlled has been as follows:

Originally controlled	14,746 acres
Now controlled	55,915 "
Increase	379 per cent

The properties thus brought together form an almost unbroken area of coal for more than 35 miles, following the main trough of the New River seam from north of Fayetteville, the county-seat of Fayette County, to 15 miles south of Beckley, the county-seat of Raleigh County.

THE FORMATION OF THE NEW RIVER COMPANY.

Since the plan was conceived of bringing these properties together, values of coal lands in the New River field have more than doubled. In view of this fact and of the earnings shown by the operations controlled by the Company, and of the increase of values in the Pennsylvania coal fields, which in some cases has exceeded 1,000 per cent in 10 years, the New River Company was formed in April 1906 for the purpose of capitalizing the value, above the original capitalization, believed then to be in these properties, by taking over all the stock of the New River Fuel Company and giving to each stockholder in exchange for each one share of stock held by him three shares of stock, namely, one of preferred and two of common. This change was made only after there had been brought to a producing stage the four new mines of the Cranberry Fuel Company and the two mines of the Price Hill Fuel Company, and after the large operations of the White Oak Fuel Company and the Mabscott Coal & Coke Company operation had been brought to the stage of profitable production, and the White Oak and Piney River & Paint Creek railroads had been practically completed to connection with the Chesapeake & Ohio and the Deepwater (Virginia) railways, and the terminus for water transportation by the Great Kanawha River secured.

To give certainty and stability to the policy of development and of balancing producing and non-producing properties, which was outlined when the Company was organized, an opportunity was given to all stockholders, without discrimination, to deposit their common stock in the hands of Trustees, and the holders of over 87 per cent of the common stock have availed themselves of this opportunity, thereby assuring a consistent carrying out of the development of these properties for a period of five years.

Such new stock as has been issued since the formation of the Company has been over-subscribed and taken up without underwriting by the Company's own stockholders.

The members of the Board of Directors represent directly a holding of over $6,000,000 out of the total outstanding stock.

STOCK OF THE NEW RIVER COMPANY.

Preferred Stock.

The preferred stock, of par value $100 a share, is a 6 per cent cumulative stock, preferred as to dividends and in distribution of assets to the extent of $100 a share and any cumulated and unpaid dividends, and subject to call and retirement at $115 a share. It has the same voting power as common stock, and the dividends are payable quarterly at 1½ per cent on the first days of February, May, August and November.

Common Stock.

The par value of the common stock is $100 a share.

The Commercial Times.

COMMERCIAL EPITOME.

Friday Night, June 21 1907.

The weather having become more seasonable, general trade is better, the retail distribution of goods the country over having sensibly increased. The weather, too, has been more favorable for the crops and the outlook for the fall trade is described as promising. Prices are generally well sustained.

LARD on the spot has declined further, owing to the continued dulness of trade and increasing supplies and offerings. Small jobbing sales have been made of late at 8.37½c. for city and 8⅝c. for Western. Refined lard has been dull at unchanged quotations. Refined Continent 9.25c., South America 10.35c. and Brazil in kegs 11.35c. The speculation in lard futures at the West has been moderately active with prices irregular. At times the tone has been rather weak, owing to liquidation by longs in July. The continued dulness of the spot trade has also had a depressing effect. There has been an absence of support from packers. Aggressive selling has been held in check, however, by moderate receipts of live hogs, a firm tone at the stock yards and the rise in grain.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
July delivery	8.60	8.70	8.72½	8.65	8.60	8.57½
September delivery	8.77½	8.87½	8.87½	8.82½	8.80	8.77½
October delivery	8.75	8.85	8.87½	8.82½	8.80	8.77½

PORK on the spot has ruled steady with trade quiet. Mess $17 50@$18 25, clear $17@$18 and family $19@$19 50. Beef has been in fair demand and firm. Mess $10, packet $11 50@$12, family $12 50@$14 25 and extra India mess $22. Cut meats have been quiet and steady; pickled shoulders 8¾@9c., pickled hams 12½c., and pickled bellies 14@10 lbs., 11¼@12½c. Stearines have been dull and steady; oleo 9½@9¾c. and lard 10¼c. Tallow has been quiet and steady; City 6⅜@6½c. Butter has been active and steady; creamery, extras, 23½@24c. Cheese has been moderately active and easy; State, large or small, colored or white, best, 11½c. Eggs have been in fair demand and steady; Western firsts 15½@16c.

OIL.—Cotton seed has been fairly active and steady Prime summer yellow 59@60c.; winter 63@64c. Linseed has been active and firm; City, raw, American seed, 45@46c.; boiled 46@47c.; raw, Calcutta, 70c. Lard has been quiet and steady; prime 76@78c.; No. 1 extra 57@58c. Cocoanut has been dull and steady; Cochin 10¼@10½c.; Ceylon 9⅛@9¼c. Peanut has been quiet and steady; yellow 50@60c. Olive has been fairly active and steady; yellow 85@90c. Cod has been quiet and steady; domestic 38@40c. and Newfoundland 40@42c.

COFFEE on the spot has ruled dull and steady at 6¼@6⅝c. for Rio No. 7. West India growths have been quiet and steady; fair to good Cucuta 8⅛@9¼c. The market for future contracts has continued to fluctuate within narrow confines with the speculation still on a very restricted scale and destitute of features of interest. The European news has furnished nothing of a stimulating character and local traders have been disposed to await developments. The reports that the Brazilian Government has stopped making purchases under the valorization plan have had no effect.

The closing prices were as follows:

June	5.30c.	October	5.20c.	February	5.30c.	
July	5.20c.	November	5.20c.	March	5.35c.	
August	5.20c.	December	5.25c.	April	5.35c.	
September	5.20c.	January	5.30c.	May	5.40c.	

SUGAR.—Raw has been dull and steady. Centrifugal, 96-degrees test, 3.71c., muscovado, 89-degrees test, 3.21c., and molasses, 89-degrees test, 2.96c. Refined has been quiet and steady. Granulated 4.90c. Teas have been moderately active and firm. Spices have been quiet and steady.

PETROLEUM.—Refined has been firm with a good demand for export and domestic account. Refined barrels 8.45c., bulk 5c. and cases 10.90c. Naphtha has been active and firm; 73@76-degrees 18c. in 100-gallon drums. Gasoline has been active and firm; 86-degrees, 21c. in 100-gallon drums. Spirits of turpentine has been dull and easy at 60@60½c. Rosin has been dull and steady; common to good strained $4 55.

TOBACCO.—Trade in domestic leaf has continued dull but prices have been firm as a rule, owing to unfavorable crop prospects as a result of the unseasonably cold spring. Sumatra has been in good demand and firm. Some demand is reported for old-crop Havana which has ruled strong of late. Advices from Cuba state that the available supply of Vuelta Abajo and Partido has been bought up at exceptionally high prices.

COPPER has been quiet and easier; lake 23¾@24c. and electrolytic 22½@22¾c. Lead has been quiet and steady at 5.80@5.85c. Spelter has been quiet and easy at 6½c. Tin has been moderately active and strong; Straits 43½c. Iron has been firm and more active; No. 1 Northern $21 20@$25 20; No. 2 Southern $24@$25.

COTTON.

Friday Night, June 21 1907.

THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. For the week ending this evening the total receipts have reached 25,388 bales, against 27,775 bales last week and 30,299 bales the previous week, making the total receipts since the 1st of September 1906, 9,573,976 bales, against 7,544,691 bales for the same period of 1905-06, showing an increase since Sept. 1 1906 of 2,029,285 bales.

Speculation in cotton for future delivery has been on a moderate scale at a decline in prices, mainly owing to better weather and more cheerful crop advices which have come not only from Texas but also from many sections of the Mississippi Valley. Some accounts state that the improvement has been very marked; others that while there has been some betterment, the raising of a large crop—that is, one of sufficient size to meet the requirements of the world's consumption—is rather improbable. But, however this may be, the more cheerful tenor of the weather and crop news has undoubtedly had the effect of causing a good deal of liquidation and some lowering of prices. This selling has been not only by some prominent room operators who had accumulated a considerable long interest, but also by Wall Street, Southern and Western interests. At the same time there has been a decline of public interest in the speculation. It has thus become very largely what is known as a professional market. There are still many, however, who adhere to the bull side from a conviction that whatever the improvement in the crop prospects resulting from a couple of weeks of better weather conditions, the probability of an adequate crop being raised is not sufficiently strong to warrant an expectation of a material or permanent decline. It is concededly, for the most part, a market which is dominated very largely by the weather news. At one time during the week prices were strong and had a noticeable upward tendency, owing to dry, hot weather in Texas and very many crop reports of an unfavorable kind from many parts of the belt. Meantime, too, the spot markets were, if anything, firmer than ever. Liverpool and other European interests were buying next crop months here, partly, it appears, for spinners, and the more seasonable weather, causing an improved retail trade throughout the country, naturally had a strengthening effect upon an already strong dry goods situation. The legitimate side of the cotton trade is active and prosperous, appearances seemingly indicating a large consumption, not only this year, but well into the next. To-day prices declined at first, owing to favorable crop and weather reports, but later recovered and made a small net advance, owing to covering of shorts and some New Orleans buying. Rumors that a new bull pool had been formed had some effect. Spot cotton has been quiet and easy. Middling uplands closed at 12.85c., a decline for the week of 30 points.

The rates on and off middling, as established Nov. 21 1906 by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows:

Fair	c. 2.00 on	Strict low mid.	c. 0.14 off	Middling tinged	c. 0.12 off
Strict mid. fair	1.75 on	Fully low mid.	0.32 off	Strict low mid. ting	0.46 off
Middling fair	1.50 on	Low middling	0.50 off	Low mid. tinged	0.90 off
Barely mid. fair	1.25 on	Barely low mid	0.70 off	Strict g'd ord. ting	1.25 off
Strict good mid.	1.00 on	Strict good ord.	0.90 off	Fully mid. stained	0.42 off
Fully good mid.	0.88 on	Fully good ord.	1.07 off	Middling stained	0.50 off
Good middling	0.76 on	Good ordinary	1.25 off	Barely mid. stained	0.78 off
Barely good mid.	0.57 on	Strict g'd mid. tgd.	0.30 on	Strict low m. stain.	1.50 off
Strict middling	0.38 on	Good mid. tinged	Even	Fully l. m. stained	1.75 off
Middling	Basis	Strict mid. tinged	0.06 off	Low mid. stained	2.00 off

The above totals show that the interior stocks have *decreased* during the week 20,297 bales and are to-night 15,762 bales less than at the same time last year. The receipts at all the towns have been 1,828 bales more than the same week last year.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since Sept. 1, as made up from telegraphic reports Friday night. The results for the week and since Sept. 1 in the last two years are as follows:

June 21—	1906-07 Week.	1906-07 Since Sept. 1.	1905-06 Week.	1905-06 Since Sept. 1.
Shipped—				
Via St. Louis	5,767	783,032	3,683	506,953
Via Cairo	1,031	213,287	540	198,993
Via Rock Island	1,140	82,685	239	44,081
Via Louisville	743	84,260	706	99,326
Via Cincinnati	490	53,337	618	56,918
Via other routes, &c.	1,286	426,337	5,397	253,069
Total gross overland	10,457	1,642,938	11,183	1,159,340
Deduct shipments—				
Overland to N. Y., Boston, &c.	1,839	163,875	487	140,693
Between interior towns	48	93,197	---	19,534
Inland, &c., from South	4,485	69,734	2,475	56,681
Total to be deducted	6,372	326,806	2,962	216,908
Leaving total net overland *a*	4,085	1,316,132	8,221	942,432

a Including movement by rail to Canada.

The foregoing shows the week's net overland movement has been 4,085 bales, against 8,221 bales for the week last year, and that for the season to date the aggregate net overland exhibits an increase over a year ago of 373,700 bales.

In Sight and Spinners' Takings.	1906-07 Week	1906-07 Since Sept. 1.	1905-06 Week.	1905-06 Since Sept. 1.
Receipts at ports to June 21	25,388	9,573,976	31,573	7,544,891
Net overland to June 21	4,085	1,316,132	8,221	942,432
Southern consumption to June 21	48,000	1,994,000	46,000	1,939,000
Total marketed	77,473	12,884,108	85,794	10,426,123
Interior stocks in excess	*a*20,297	101,354	*a*16,017	78,215
Came into sight during week	57,176		69,777	
Total in sight June 21		12,985,462		10,504,338
North. spinners' takings to June 21	3,519	2,543,827	28,424	2,282,301

a Decrease during week.

Movement into sight in previous years:

Week—	Bales.	Since Sept. 1—	Bales.
1905—June 23	117,589	1904-05—June 23	12,528,013

WEATHER REPORTS BY TELEGRAPH.—Reports to us by telegraph from the South this evening are generally of a favorable tenor. Temperature has been seasonable, on the whole, and where rain has fallen it has been to the benefit of the plant. Further improvement in the crop is reported by many of our correspondents.

Galveston, Texas.—Good progress has been made during the week in cultivating the crop. Showers have been beneficial but the plant is small and many stands irregular. The boll-weevil is increasing in numbers. More rain is needed in Texas. We have had no rain the past week. The thermometer has averaged 82, the highest being 87 and the lowest 77.

Abilene, Texas.—We have had rain on two days during the week, to the extent of forty-eight hundredths of an inch. The thermometer has averaged 79, ranging from 64 to 94.

Brenham, Texas.—It has rained on two days of the week, the precipitation reaching ninety-three hundredths of an inch. The thermometer has ranged from 64 to 92, averaging 78.

Corpus Christi, Texas.—There has been no rain during the week. Average thermometer 81, highest 86, lowest 76.

Cuero, Texas.—There has been rain on one day of the week, the rainfall being twelve hundredths of an inch. The thermometer has averaged 83, the highest being 100 and the lowest 65.

Dallas, Texas.—We have had rain on one day of the past week, the rainfall being three hundredths of an inch. The thermometer has averaged 79, ranging from 64 to 93.

Fort Worth, Texas.—Rain has fallen on one day during the week, the rainfall reaching sixteen hundredths of an inch. The thermometer has ranged from 66 to 92, averaging 79.

Henrietta, Texas.—It has rained on one day of the week, the rainfall being fifty hundredths of an inch. Average thermometer 81, highest 98, lowest 64.

Huntsville, Texas.—We have had a trace of rain on one day of the past week. The thermometer has averaged 81, the highest being 95 and the lowest 67.

Kerrville, Texas.—We have had rain on two days during the week, the precipitation reaching one inch and eighteen hundredths. The thermometer has ranged from 60 to 91 averaging 76.

Lampasas, Texas.—We have had rain on two days of the past week, the rainfall reaching one inch and nine hundredths. The thermometer has averaged 79, the highest being 95 and the lowest 62.

Longview, Texas.—Rain has fallen on one day during the week, the rainfall reaching thirty hundredths of an inch. The thermometer has ranged from 63 to 95, averaging 79.

Luling, Texas.—There has been excessive rain on three days of the week, the precipitation reaching three inches and one hundredth. The thermometer has averaged 80, the highest being 93 and the lowest 67.

Nacogdoches, Texas.—There has been a trace of rain on one day of the past week. The thermometer has averaged 76, ranging from 62 to 90.

Palestine, Texas.—Rain has fallen on two days during the week, the rainfall reaching seventy-two hundredths of an inch. The thermometer has ranged from 66 to 92, averaging 79.

Paris, Texas.—There has been rain on three days the past week, the rainfall being thirty hundredths of an inch. Average thermometer 78, highest 93, lowest 63.

San Antonio, Texas.—There has been rain on two days during the past week, the precipitation reaching twelve hundredths of an inch. The thermometer has averaged 81, the highest being 96 and the lowest 66.

Weatherford, Texas.—There has been rain on two days during the week, to the extent of ninety-nine hundredths of an inch. The thermometer has ranged from 67 to 98, averaging 83.

New Orleans, Louisiana.—We have had rain on two days the past week, the precipitation being twenty-four hundredths of an inch. Average thermometer 80.

Shreveport, Louisiana.—We have had no rain during the week. The thermometer has averaged 80, the highest being 92 and the lowest 68.

Leland, Mississippi.—There has been no rain during the week. The thermometer has averaged 74, ranging from 60 to 86.

Vicksburg, Mississippi.—We have had rain on one day during the week, the rainfall reaching one hundredth of an inch. The thermometer has ranged from 66 to 90, averaging 78.

Helena, Arkansas.—Crops are much improved, although late. Land outside the levee is again overflowed. There has been no rain here the past week, but thunderstorms have occurred within hearing. The thermometer has averaged 76.2, the highest being 91 and the lowest 62.

Memphis, Tennessee.—Crop prospects are improving. Rain would be desirable, but cotton is not suffering. We have had rain on one day during the week, the precipitation being one hundredth of an inch. The thermometer has averaged 77.6, the highest being 88.9 and the lowest 64.

Nashville, Tennessee.—We have had no rain the past week. The thermometer has averaged 74, ranging from 58 to 89.

Mobile, Alabama.—The weather in the interior has been warm and favorable, and cotton generally, though small, is growing steadily. There are some complaints of grassy fields. It has rained on one day of the week, the rainfall reaching forty-one hundredths of an inch. The thermometer has ranged from 67 to 91, averaging 78.

Montgomery, Alabama.—Crops are considerably improved and are getting out of the grass. Showers would help now, the weather having been dry all the week. Average thermometer, 77 highest 91 and lowest 63.

Selma, Alabama.—We have had rain on one day of the past week, to the extent of fifty hundredths of an inch. The thermometer has ranged from 62 to 85, averaging 74.5.

Union Springs, Alabama.—The crop is small, uneven and grassy and thirty days late. Much low land has been replanted in corn. We have had no rain during the week.

Madison, Florida.—There has been no rain the past week. Average thermometer 79, highest 94 and lowest 62.

Augusta, Georgia.—Splendid weather prevails, permitting farmers to do good work and causing rapid growth of the plant. We have had no rain during the week. The thermometer has averaged 76, the highest being 94 and the lowest 60.

Savannah, Georgia.—We have had no rain during the week. The thermometer has averaged 77, ranging from 64 to 90.

Charleston, South Carolina.—There has been rain two days during the week, the rainfall reaching twenty-eight hundredths of an inch. The thermometer has ranged from 66 to 88, averaging 77.

Greenwood, South Carolina.—There has been rain on one day during the week, to the extent of one inch and five hundredths. Average thermometer, 72 highest 84, lowest 61.

Statesburg, South Carolina.—Sharp thunderstorms on two nights with the heaviest and most destructive hail we have yet had in this vicinity this season. The rainfall was two inches and twenty-eight hundredths in less than an hour. The thermometer has averaged 74, the highest being 89 and the lowest 59.

Charlotte, North Carolina.—We have had only a trace of rain the past week. The thermometer has averaged 73, ranging from 55 to 89.

ALEXANDRIA RECEIPTS AND SHIPMENTS.

Alexandria, Egypt, June 19.	1906-07.	1905-06.	1904-05.

BREADSTUFFS.

Friday, June 21 1907.

Prices for wheat flour have ruled steady, the downward drift having been arrested by the rally in wheat and the less favorable tenor of the crop accounts. Within a day or two a somewhat larger inquiry has been reported, but as a rule the transactions have been small, buyers still showing a disinclination to anticipate future requirements, despite the smallness of stocks. Export trade has been lifeless. At the Northwest business has been stimulated to some extent by the upward movement in wheat, but the condition of the flour trade everywhere in this country leaves much to be desired. Rye flour and corn meal have been quiet and steady.

Wheat has advanced, owing to less favorable crop reports from the spring-wheat section, and also within a day or two from Kansas and some other parts of the winter-wheat belt. Moreover, the Russian crop outlook is described as unfavorable, and Liverpool quotations have latterly advanced rather sharply, with a good demand there and light offerings, while the weather in the United Kingdom has again become rainy. Threshing reports from parts of the Southwest are said to be rather unfavorable, and green bugs and wire-worms are complained of in the Northwest. It is true that the reports from the Northwest have been more or less contradictory, some saying that the outlook was good, while others have painted it in very lurid colors. As near as can be gathered, the damage from insects there has been exaggerated; while, on the other hand, some large interests appear to be minimizing the damage. Some reports to mercantile agencies are to the effect that the weather has been favorable during the week for the development of all crops. The speculative world, however, has lent a readier ear to bad reports than to good, especially as the market had apparently become somewhat oversold, not only here but at the West, and had thus become more or less nervous and susceptible to the influence of bullish rumors of any sort. For several days the export business, too, was good, and this with strong European markets helped to advance prices. Some of the large bear operators at the West, who were original bulls and recently sold out and took the other tack, are now said to have covered and to be ready for another turn on the "long" side of the market. Speculation is less brisk than formerly, however, the recent favorable weather having cooled the enthusiasm of many. At the same time some experienced people adhere to the conviction that the crop is to be short, both in this country and in Europe, and that the only question is just how short it is going to be. In any case, they believe that sooner or later prices must reach a higher level. To-day prices were irregular within narrow limits. The crop news was conflicting, and many were disposed to operate merely for quick turns up and down. The weather continued favorable.

DAILY CLOSING PRICES OF WHEAT FUTURES IN NEW YORK.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
No. 2 red winter	98⅛	99¼	99½	100¼	99⅞	99⅝

Sept. delivery in elevator	92¼	93¾	94¼	95	94⅝	94½
Dec. delivery in elevator	94¼	95½	96¼	97⅛	96⅝	96¾

Indian corn futures have advanced, influenced mainly by the lateness of the crop everywhere at the West. This has led to buying for a rise, not only by professional traders but also by commission houses. Moreover, country operators have been buying at Chicago, a fact which has given color to the unfavorable crop reports. The cash demand has been more active at firm prices. Receipts have been smaller and the lightness of contract stocks at Chicago has held selling in check. Within a day or two the weather has been warmer and the crop is believed to be making better progress now. There is no doubt, however, that the crop has gotten a late start and speculation for a rise has broadened. To-day prices were easier on favorable weather and liquidation.

DAILY CLOSING PRICES OF NO. 2 MIXED CORN IN NEW YORK.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
Cash corn	62	62	62	62	62	63

Sept. delivery in elevator	52¼	52⅝	53	53⅝	53⅝	53¼
Dec. delivery in elevator	50⅝	50¾	51⅛	52⅛	52	51⅝

Oats for future delivery in the Western market have been strong and advancing, with the speculation active. The principal bulish influence has been the tenor of the crop reports from many sections. Illinois in particular has sent reports telling of serious damage from green bugs. But unfavorable reports have come from all States, and they had not a little effect on sentiment. Commission houses have been large buyers, prominent Chicago operators have given support and shorts have covered freely. The receipts have been small and a pretty good cash business has been done at firm prices. To-day prices were firmer in the main on bad crop reborts and general buying.

THE DRY GOODS TRADE.

New York, Friday Night, June 21, 1907.

A marked improvement in the weather has, according to the reports coming to hand, caused a considerable extension of business among the retail houses. The outcome of this in the wholesale market has been some increase in orders placed with jobbers for seasonable varieties; but the business at first hands has shown little variation from recent weeks. The stocks with retailers will stand considerable reduction before replenishing needs become extensive or imperative. Continued seasonable weather will help out the situation, but it is doubtful if the setback from prolonged unfavorable weather conditions can this season be overcome. The business doing this week at first hands in the cotton goods division has again been of moderate dimensions only. The demand for immediate supplies has been limited and the placing of orders for forward deliveries in a measure curtailed by the indisposition of manufacturers to commit themselves to distant contracts on regular staple lines. The tone of the market continues firm for nearly every description of cotton goods, and in the great majority the tendency of prices is still against buyers. Raw material just now enters little as a factor into the situation, as, on an average, cotton goods are relatively well above parity with the average price of cotton. The rumors current last week affecting the credit of certain large retail houses have quite died out, having apparently served the purpose for which they were started. At the same time complaints of slow payments are still fairly numerous, but with the improved weather conditions confidence is increasing that settlements from now on will be made with greater promptitude.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending June 15 were 2,038 packages, valued at $179,359, their destination being to the points specified in the table below:

	1907		1906	
New York to June 15.	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain	29	1,047	18	689
Other European	43	605	44	735
China	---	10,043	---	63,773
India	---	4,565	---	3,800
Arabia	---	18,753	375	19,763
Africa	---	3,609	---	4,335
West Indies	507	11,066	521	10,599
Mexico	98	1,238	44	1,029
Central America	612	7,463	221	7,503
South America	715	22,141	906	26,645
Other countries	34	15,048	22	7,559
Total	2,038	95,578	2,151	146,430

The value of these New York exports since Jan. 1 has been $5,249,998 in 1907, against $8,266,280 in 1906.

Although the demand for heavy brown sheetings and drills has been on an indifferent scale for the home trade and but light for export, the tendency of prices has been upward, and advances have occasionally been demanded on any deliveries required within the next three months. Light-weight brown goods are also moving gradually against buyers, owing to their very well sold condition, and manufacturers' reserve in going beyond their present contracts. Orders for bleached cottons for the fall season are of moderate extent and are still being accepted in most cases "at value only." All coarse colored cottons continue firm and on some Southern makes of denims and tickings higher prices are being quoted, and an occasional advance is also made on napped fabrics for dress purposes. Printed calicoes are quiet but firm, while orders for fine light printed goods have again been of limited extent. Ginghams rule firm without material change in feature. New lines of cotton dress suitings for next spring are being opened and are attracting a fair amount of attention; these are designed to compete with low-class woolen and worsted fabrics, and range, as a rule, in price from 7½ to 16½c. per yard. All descriptions of linings are very firmly held. There are no regular print cloths in the market, and a quotation of 5 cents is purely nominal. Wide standards are quoted at 7⅛c. for immediate delivery, but have been sold for delivery first half of next year on the basis of 6¾c.

WOOLEN GOODS.—The opening of new lines during the past week in men's wear woolens and worsteds has not introduced any new factor into the situation. They have been almost entirely additions to descriptions already shown and of about the same price levels at earlier exhibits. The higher-grade fancies still make but an indifferent showing, but are likely to be added to steadily from now forward. The business done during the week indicates that clothing manufacturers are not disposed to operate to any material extent outside of the most staple varieties, and in these they are confining their orders mostly to serges in the best known numbers. The leading lines of serges have therefore done well and are in good position on next spring's business. In other directions the results have not been so satisfactory. A number of the cheap manipulated fabrics, which have figured quite prominently so far in the openings for next spring, have met with quite an indifferent response at the hands of buyers who, in the majority of cases, have done little more than take sample pieces. On the whole, the men's wear situation could stand considerable improvement without being in any degree regarded as unusual. Business in overcoatings and cloakings continues quiet and without marked feature. New lines of worsted dress goods coming upon the market for next spring show plain worsteds mainly in request, and on some of these manufacturers are quoting an advance of 5 per cent over a year ago. The re-order business for fall has been quiet in both plain goods and fancy.

FOREIGN DRY GOODS.—The demand for imported woolen and worsted dress goods has been steady within moderate limits; it has again run chiefly upon plain varieties. The tone of the market is generally firm. The warmer weather has caused a slight increase in the call for piece silks and sales of ribbons also show some improvement. The linen situation is without new feature; current requirements at first hands are light and buyers have shown little disposition to order ahead. Importers, however, still demand extreme prices. Burlaps are in moderate request without marked change in price on the week, but are available at some concession from the recent high level.

STATE AND CITY DEPARTMENT.

News Items.

Michigan.—*Legislature Adjourns.*—The Legislature of this State adjourned June 19.

New York City.—*Rapid Transit Railway's Law Amended.*—The Governor signed on June 18 (not June 7, as given in V. 84, p. 1382) the amendment to Chapter 4 of the Laws of 1891 in relation to the powers of the Board of Commissioners of the Sinking Fund to prescribe the rate of interest on bonds issued for the construction of rapid transit railways, subways, tunnels, etc.

The substance of this bill will be found in V. 84, p. 1260, of the "Chronicle."

Work Commenced on Aqueduct.—On June 20 the city commenced the construction of the Catskill Reservoir, one of the most important features of the new 161-million dollar aqueduct. As stated in V. 84, p. 763, the contract for the first portion of this work was awarded on March 27 to Thomas McNally & Co. of Pittsburgh.

Bond Proposals and Negotiations this week have been as follows:

Alhambra, Los Angeles County, Cal.—*Bonds not Sold—Bond Offering.*—The following bids, all of which were rejected, were received on June 4 for the $68,500 4½ % gold coupon bonds described in V. 84, p. 1261:

N. W. Harris & Co., Los A	$68,615 00
Los Angeles Tr. Co., Los A	68,600 00
Wm. R. Staats Co., Pasa	$68,593 50
J. W. Phelps, Los Angeles	68,593 50

Proposals are again asked for these bonds and will be received, this time, until June 25.

Fountain Green School District (P. O. Fountain Green), Sanpete County, Utah.—*Bond Sale.*—On June 1 $12,000

5% 10-20-year (optional) central-school-building bonds dated June 1 1907 were awarded to the State Board of Land Commissioners at par. Denomination $500. Interest June and December.

Garfield County (P. O. Panquitch), Utah.—*Bond Offering.*—Proposals were asked for up to 12 m. yesterday (June 21) by William T. Owens, County Treasurer, for $6,000 6% gold coupon court-house bonds. Denomination $100, $250, $500 and $1,000. Date Jan. 1 1908. Interest annually in Utah. Maturity Jan. 1 1928, subject to call after Jan. 1 1918. The result of this offering was not known to us at the hour of going to press.

Gatesville School District (P. O. Gatesville), Coryell County, Texas.—*Bond Sale.*—This district on June 15 awarded the $10,000 4½% school-building bonds voted on May 7 (V. 84, p. 1263), to the State School Board at 104.88 and accrued interest. Denomination $500. Date June 1 1907. Interest semi-annual. Maturity June 1 1947, subject to call $5,000 after June 1 1917 and $5,000 after June 1 1922.

Georgetown, Brown County, Ohio.—*Bond Offering.*—In addition to the $12,500 4% electric-light-plant-extension bonds to be offered at 12 m. July 2 (V. 84, p. 1443), proposals will also be received at the same time and place by William A. Eylar, Village Clerk, for $6,000 4% coupon public-hall and office building bonds. Authority Section 2835 of the Revised Statutes. Denomination $500. Interest Feb. 20 and Aug. 20. Maturity $500 each six months from Feb. 20 1918 to Aug. 20 1923 inclusive. Bonds are free from all taxes. Certified check, or cash, for 10% of bonds bid for, payable to the Village Council, is required.

Glencoe School District No. 35 (P. O. Glencoe), Cook County, Ill.—*Bond Sale.*—On June 13 the $20,000 4½% central-school-addition bonds dated July 1 1907 and mentioned in V. 84, p. 1384, were awarded to the Northern Trust Co. of Chicago at 101.18—a basis of about 4.29%. The following bids were received:

Northern Trust Co., Chic.	$20,236 00	First Nat. Bank, Chicago	$20,110 00
Harris Fr. & Sav. Bk., Chic	20,227 00	E. H. Rollins & Sons, Chic.	20,102 00
Mason, Lewis & Co., Chic.	20,216 50	O'Connor & Kahler, Chic.	20,053 00
Thos. J. Bolger & Co., Chic	20,151 62	Devitt, Tremble & Co., Chic.	20,050 00
N. W. Halsey & Co., Chic.	20,150 00		

Denomination $500. Interest April and October in Chicago. Maturity $2,500 yearly on Oct. 1 from 1910 to 1917 inclusive.

Glenville Union Free School District No. 15 (P. O. Glenville), Schenectady County, N. Y.—*Bond Offering.*—Proposals will be received until 12 m. July 15 by Joseph Hanigan, Trustee, at the office of Wm. Dewey Loucks, Parker Building, Schenectady, for $6,000 5% school bonds. Denomination $500. Date July 15 1907. Interest semi-annually at the Citizens' Trust Company of Schenectady in New York Exchange. Maturity $500 yearly on July 15 from 1908 to 1919 inclusive. Certified check for 10% of bonds bid for is required. Purchaser to pay accrued interest.

Grand Rapids, Kent County, Mich.—*Bonds Not Sold.*—No bids were received on June 20 for the $15,000 1-5-year (serial) coupon sewer-construction bonds and the $255,000 1-5-year (serial) coupon street-improvement bonds described in V. 84, p. 1320.

Greenfield School District No. 212, Man.—*Debenture Offering.*—Proposals will be received up to June 27 by A. R. McMillan, District Secretary (P. O. Margaret), for $3,500 5% school debentures. Denomination $175. Date April 1 1907. Maturity part yearly on Jan. 2.

Gulfport, Harrison County, Miss.—*Bond Offering.*—In addition to the $18,000 school-house and $4,000 jail-building 5% coupon bonds to be offered on July 2 (V. 84, p. 1320) proposals will also be received until 8 p. m. on the same day by N. D. Goodwin, City Clerk, for the $125,000 street-paving and $30,000 sewer and water-works-extension 5% bonds mentioned in V. 84, p. 1263. Denomination not less than $100 nor more than $1,000. Maturity not later than July 1 1927. Certified check for 10% of bonds is required.

Gunnison, Bolivar County, Miss.—*Bond Sale.*—This city has disposed of the $5,000 6% 20-year water bonds described in V. 84, p. 1068 to H. B. Sherman & Co. of Chicago at par. Denomination $500. Date July 2 1907. Interest annual.

Harnett County (P. O. Lillington), No. Car.—*Bond Offering.*—Proposals will be received until 12 m. July 8 by Geo. K. Grantham, Chairman of Board of Commissioners, for $40,000 5% coupon refunding bonds. Denomination $500. Date July 1 1907. Interest annually in New York City. Maturity 30 years. Certified check for $500, payable to the Chairman of the Board of Supervisors, is required. The county has no debt at present.

Hartwell, Hart County, Ga.—*Bond Offering.*—Proposals will be received until July 10 by J. Rod. Skelton, City Secretary and Treasurer, for the $20,000 5% gold coupon school-house bonds voted on May 20. Authority Section 377, Volume 1, of the Code of Georgia. Denomination $1,000. Date July 1 1907. Interest semi-annually in Hartwell. Maturity $1,000 yearly on July 1 from 1917 to 1936 inclusive. Certified check for $1,000, payable to J. Rod. Skelton, City Secretary and Treasurer, is required. Total debt, including this issue, $35,000. Assessed valuation 1906 $832,678.

Hester Creek School District, Santa Cruz County, Cal.—*Bond Sale.*—This county on May 20 awarded $1,200 6% 1-10-year (serial) bonds of Hester Creek School District to Charles B. Younger Jr., for $1,225, the price thus being 102.083. Denomination $1,000. Date June 1 1907. Interest annual.

Hillyard School District No. 122, Spokane County, Wash.—*Bond Sale.*—The County Treasurer on May 18 awarded $25,000 5% 10-15-year (optional) school-building bonds of this district to E. H. Rollins & Sons of Chicago at 100.80—a basis of about 4.90% to the optional and about 4.924—to full maturity. Denomination $1,000. Date June 1 1907. Interest semi-annual.

Huntington Beach Union High School District, Orange County, Cal.—*Bond Offering.*—Proposals will be received until 11 a. m. July 2 by W. B. Williams, County Clerk (P. O Santa Ana), for $35,000 4½% school bonds. Denomination $875. Date August 1 1907. Interest semi-annually at the County Treasurer's office in Santa Ana. Maturity $1750 yearly on June 1 from 1908 to 1927 inclusive. Successful bidder will be required to deposit a certified check or a bond for $100.

Independence School District (P. O. Independence), Jackson County, Mo.—*Bond Election.*—An election will be held on June 25 to submit to the voters the question of issuing $35,000 4% 5-20-year (optional) school-house-addition bonds.

Jefferson County (Kan.) School District.—*Bond Sale.*—This district recently awarded $8,900 5% 15-year school-house bonds to the State School Fund at par. Denomination $500, except one bond for $400. Interest semi-annually January and July. We are not advised as to the official name of this district.

Kansas City School District (P. O. Kansas City), Jackson County, Mo.—*Bids Rejected.*—All bids received on June 15 for the $600,000 4% 20-year gold coupon school-building bonds described in V. 84, p. 1264, were rejected.

King County School District No. 7, Wash.—*Bond Sale.*—On May 27 this district awarded $13,500 5-10-year (optional) school-building bonds to Morris Bros. of Portland for $13,617.50 (100.87) for 5s. Denomination $500. Date June 15 1907. Interest annual.

King County School District No. 52, Wash.—*Bond Sale.*—On May 27 $1,000 3-5-year (optional) school-building bonds were awarded to the State of Washington at par for 5s. Denomination $200. Date June 15 1907. Interest annual.

La Grange, Troup County, Ga.—*Bond Offering.*—Proposals will be received until 12 m. July 1 by J. D. Edmondson, Mayor, for $40,000 4½% gold coupon school-building and street-paving bonds. Authority an Act of the General Assembly approved Dec. 6 1897. Denomination $1,000. Date July 1 1907. Interest semi-annually in New York. Maturity $5,000 yearly on July 1 from 1921 to 1928 inclusive. Bonds are exempt from city taxes.

Logan School District (P. O. Logan), Harrison County, Iowa.—*No Bonds Voted.*—We are informed that the report that this district recently voted to issue $6,000 bonds is not correct.

Louisville, Ky.—*Bond Offering.*—Proposals will be received until 12 m. July 10 by the Commissioners of Sewerage for $1,000,000 4% gold coupon sewerage-system-construction bonds. These securities are part of an issue of $4,000,000 bonds authorized by an Act of the General Assembly, approved Feb. 19 1906, ordinance passed by City Council on Oct. 2 1906 and election held Nov. 6 1906. Denomination $1,000. Date Feb. 1 1907. Interest semi-annually at the First National Bank of New York City. Maturity forty years. Bonds are exempt from all taxation for municipal purposes of the city of Louisville. Each bid must be made on a blank form furnished by the Commissioners of Sewerage and must be accompanied by a certified check for 2% of the bonds bid for on a national or State bank doing business in Louisville. Accrued interest to be paid by purchaser. P. L. Atherton is Chairman and Chas. P. Weaver, Secretary and Treasurer of the Commissioners of Sewerage.

The official notice of this bond offering will be found among the advertisements elsewhere in this Department.

Bond Sale.—Up to June 6 $11,000 more of the $1,000,000 4% Louisville Water Co. gold coupon mortgage bonds offered but not sold on March 6 (V. 84, p. 766) had been disposed of. This makes a total of $263,000 bonds sold to date.

Lower Merion Township School District, Montgomery County, Pa.—*Bond Offering.*—Proposals will be received until 6 p. m. June 24 by Harry S. Zeigler, Secretary of School Board (P. O. Ardmore), for $35,000 4% school-ground-purchase bonds. Date July 1 1907. Maturity part yearly on July 1 from 1910 to 1936 inclusive.

McComb, Hancock County, Ohio.—*Bond Sale.*—The following bids were received on June 3 for the $2,790 5% electric-light improvement bonds described in V. 84, p. 1137:

Henry Rudwell	$2,819 00	Security Savings Bank & Trust Co., Toledo	$2,792 00
Hoehler & Cummings, Tol.	2,797 50		

Maturity $465 each six months from Oct. 1 1907 to April 1 1910 inclusive.

Manchester, Washtenaw County, Mich.—*Bonds Defeated.*—An election held June 3 resulted in the defeat of a proposition to issue $25,000 4½% improvement bonds.

Manitoba.—*Debenture Offering.*—Proposals will be received until July 1 by J. H. Agnew, Provincial Treasurer (P. O. Winnipeg), for $500,000 4% telephone and telegraph system debentures. Denomination $500. Date July 1 1907. Interest semi-annually at the Union Bank of Canada in Montreal or at Parr's Bank in London at option of purchaser. Maturity July 1 1947. Debentures to be delivered monthly in sums of not less than $100,000. Accrued interest to be paid by purchaser.

Marceline, Linn County, Mo.—*Bond Sale.*—This place on May 1 awarded $11,000 5% 10-20-year (optional) school-building bonds to the William R. Compton Bond & Mortgage Co. of Macon at 102 and accrued interest. Denomination $500. Date May 1 1907. Interest semi-annual.

Marshall, Lyon County, Minn.—*Bonds Voted.*—On June 11 the issuance of $17,000 electric-light-improvement bonds was authorized by a vote of 174 to 38. We are informed that application has been filed with the State for this loan.

Marshalltown, Marshall County, Iowa.—*Bond Sale.*—This city, it is stated, recently awarded $16,000 4½% funding bonds to the Harris Trust & Savings Bank of Chicago.

Michigan City, Laporte County, Ind.—*Bond Sale.*—Reports state that this city on June 19 awarded $12,000 refunding bonds to E. M. Campbell & Co. of Indianapolis for $12,817.50, the price thus being 106.812.

Monroe Union Free School District No. 1 (P. O. Monroe), Orange County, N. Y.—*Bonds Not Sold.*—No bids were received on June 18 for the $40,000 4% school-building bonds described in V. 84, p. 1445.

Montebello School District (P. O. Montebello), Los Angeles County, Cal.—*Bond Election.*—According to local reports, an election will be held June 29 to vote on the question of issuing $10,000 5% school bonds.

Morrillton, Conway County, Ark.—*Bond Sale.*—This city on May 15 awarded an issue of $25,000 6% 10-year water-works-construction bonds to the Pine Bluff Trust Co. of Pine Bluff at par. Denomination $1,000. Date May 15 1907. Interest semi-annual.

Muskegon, Muskegon County, Mich.—*Bond Sale.*—This city, it is stated, recently awarded $15,000 4½% 20-year refunding bonds to the Harris Trust & Savings Bank of Chicago.

New Castle County (P. O. Wilmington), Del.—*Bond Sale.*—On June 18 the $110,000 4½% gold coupon highway improvement bonds described in V. 84, p. 1445, were awarded to the Equitable Guarantee Trust Co. of Wilmington at 100.76 and accrued interest—a basis of about 4.448%. Following are the bids:

Equitable Guarantee & Trust Co., Wilmington	$110,836 00
W. J. Hayes & Sons, Cleveland	110,353 00
F. L. Kutz, Wilmington (for $20,000)	20,302 00
Artizans Savings Bank, Wilmington (for $15,000)	15,000 00
Wm. H. Heald, Wilmington (for $10,000)	10,000 00

Maturity $10,000 yearly from 1926 to 1930 inclusive and $15,000 yearly from 1931 to 1934 inclusive.

New Orleans, La.—*Bond Offering.*—Proposals will be received until 3 p. m. July 12 by the Board of Liquidation of the City Debt for the $175,000 to $200,000 4% coupon school-teachers'-salary bonds offered but not sold on March 26. See V. 84, p. 829. Denomination $1,000. Date Jan. 1 1907. Interest semi-annual. Maturity Jan. 1 1927, subject to call after Jan. 1 1917. Certified check for $5,000 on the entire issue and for 3% on amounts less than the entire issue is required. Past-due interest coupons will be canceled before delivery to purchaser.

New Richmond, Clermont County, Ohio.—*Bond Sale.*—On June 17 the $4,400 4% 25-year sidewalk-construction (village's portion) bonds described in V. 84, p. 1265, were awarded to the First National Bank of New Richmond at par and accured interest.

New York City.—*Bond Offering.*—Proposals will be received until 2 p. m. June 28 by Herman A. Metz, City Comptroller, for $29,000,000 4% gold registered or coupon corporate stock and bonds as follows:

$20,000,000 4% corporate stock for various municipal purposes, maturing May 1 1957.
5,000,000 4% corporate stock for water supply, maturing May 1 1957.
1,500,000 4% corporate stock for the construction of the Rapid Transit Railroad. Maturity May 1 1957.
500,000 4% corporate stock for the construction of a library building in Bryant Park. Maturity May 1 1957.
2,000,000 4% assessment bonds, maturing May 1 1917

The above bonds are exempt from all taxation save for State purposes, *except* the Bryant Park Library building bonds, which are *exempt from all taxation.* Interest May 1 and November 1.

Bonds or stock issued in coupon form can be converted at any time into registered bonds or stock and bonds or stock issued in registered form can be converted at any time into coupon bonds or stock in denomination of $1,000.

Either money or a certified check drawn to the order of the City Comptroller for 2% of the par value of the stock or bonds bid for must accompany proposals.

Chapter 274 of the Laws of 1901, which applies to the sale of bonds of the City of New York, provides that "all-or-none" bids cannot be considered by the Comptroller unless the bidder offering to purchase "all or none" of the bonds offered for sale shall also offer to purchase "all or any part" thereof.

The official notice of this bond offering will be found among the advertisements elsewhere in this Department.

Omaha, Douglas County, Neb.—*Bond Offering.*—Proposals will be received until Aug. 1 for $381,500 4½% refunding bonds. Denomination $1,000. Date Sept. 1 1907. Interest semi-annual. Maturity Sept. 1 1927.

Ovid and Middlebury Townships School District No. 9 (P. O. Ovid), Clinton County, Mich.—*Bond Offering.*—Proposals will be received until 1 p. m. July 8 by Calvin E. Jillson, Secretary of the Board of Education, at the State Savings Bank of Ovid for $17,000 5% coupon school-house bonds. Authority vote of 80 to 11 cast at election held Sept. 24 1906, Section 4717 of the Compiled Laws of 1897 and Act No. 396 of the Local Acts of 1885. Denomination $1,000. Date July 1 1907. Interest annually on Dec. 31 at the State Savings Bank of Ovid. Maturity $1,000 yearly on Dec. 31 from 1907 to 1919 inclusive and $2,000 on Dec. 31 in each of the years 1920 and 1921. This district has no debt at present. The official circular states there is no controversy or litigation pending or threatened affecting the corporate existence or the boundaries of the district, or the title of the Board of Trustees to their respective offices, or the validity of the bonds.

Paterson, Passaic County, N. J.—*Bond Sale.*—On June 20 the $81,000 25-year school and $100,000 30-year renewal 4½% coupon or registered bonds described in V. 84, p. 1386, were awarded to John D. Everitt & Co. of New York at 100.573 and 100.723 respectively—a basis of about 4.462% on the school bonds and about 4.457% on the renewal bonds.

Pelham, Mitchell County, Ga.—*Bond Sale.*—This city has disposed of the $15,000 electric-light, $12,000 water-works, $9,000 ice-plant and $4,000 sewer 5% coupon bonds described in V. 84, p. 1138. Maturity $2,000 yearly on Jan. 1 from 1926 to 1930 inclusive and $5,000 yearly on Jan. 1 from 1931 to 1936 inclusive.

Pelham First Fire District (P. O. Pelham), Westchester County, N. Y.—*Bond Sale.*—This district on June 20 awarded $12,000 1-8-year (serial) registered bonds dated July 1 1907 to George M. Hahn of New York City as 6s. Denomination $1,500. Interest semi-annually at the Columbia Trust Co. in New York City.

Pensacola, Escambia County, Fla.—*Bond Offering.*—Further details are at hand relative to the offering on July 9 of the $450,000 4½% gold coupon improvement bonds mentioned in V. 84, p. 1386. Proposals will be received until 12 m. on that day by L. Hilton Green, Chairman of the Board of Bond Trustees. Authority Chapter 5530 of the Laws of 1905. Denomination $1,000. Date Jan. 1 1906. Interest semi-annually at the office of the United States Mortgage & Trust Company in New York City. Maturity Jan. 1 1936, being subject to call as follows: $50,000 after twenty years and $150,000 after twenty-five years. Each bid must be made on a blank form furnished by the city and must be accompanied by a certified check for 2% of the bonds bid for, drawn on a bank in Pensacola and made payable to the Board of Bond Trustees. Purchaser to pay accrued interest. These bonds will be certified to as to their genuineness by the United States Mortgage & Trust Company and their legality will be approved by Dillon & Hubbard, of New York City, whose opinion will be delivered to purchasers.

The official notice of this bond offering will be found among the advertisements elsewhere in this Department.

Perinton, Monroe County, N. Y.—*Bond Sale.*—On June 20 the $25,000 1-20-year (serial) registered town-hall bonds described in V. 84, p. 1445, were awarded to the Rochester Savings Bank, Rochester, at 100.04 for 4½s.

Phoenix, Ariz.—*Bonds Awarded in Part.*—It appears that all but $60,000 of this city's issue of $300,000 water bonds have been sold and issued, and that this $60,000 will also be issued shortly. It is proper to say that the $300,000 5% water bonds were originally voted on Dec. 12 1903, but, owing to subsequent litigation, they were not issued until June 1 1906. The securities were awarded at that time to W. R. Todd & Co. of Cincinnati at par and accrued interest; but further litigation prevented the consummation of this sale until February 1907. In January 1907 the city contracted with the Phoenix Water Company for the purchase of their plant, subject to the approval of Congress. The contract was approved by Congresss on March 14 1907, with the provision that the proposition be submitted to a vote of the people. See V. 84, p. 829. An election was held on May 7, at which time a majority of the electors voted in favor of the proposition. Under the terms of the contract $60,000 of these bonds are to be held by the city pending the

final transfer of the water plant, which we are informed will probably take place about July 1.

Pike County (P. O. Petersburg), Ind.—*Bond Sale.*—This county recently awarded an issue of $7,000 4½% Bainbridge Township rock-road bonds to the National Bank of Ferdinand for $7,170, the price thus being 102.428.

Pleasantville, Westchester County, N. Y.—*Bond Sale.*—On June 12 the two issues of 5-29-year (serial) registered water-works bonds, aggregating $8,000, described in V. 84, p. 1386, were awarded to George M. Hahn of New York City as 5s.

Pomona, Los Angeles County, Cal.—*Bond Offering.*—Proposals will be received until 2.30 p. m. July 16 by T. R. Trotter, City Clerk, for the $40,000 4½% coupon school-building and site-purchase bonds voted on March 28. Authority the Municipal Improvement Act of Feb. 25 1901. Denomination $1,000. Date July 1, 1907. Interest semi-annually at the City Treasurer's office. Maturity $1,000 yearly on July 1 from 1908 to 1947 inclusive. Certified check for 10% of bid, payable to the City Clerk, is required. Purchaser to pay accrued interest. The official circular states there has never been any controversy or litigation pending or threatened affecting the corporate existence or the boundaries of the City of Pomona, or the title of its present officials to their respective offices, or the validity of their bonds, and that there has never been any default in the payment of principal or interest.

Port Chester, Westchester County, N. Y.—*Bond Offering.*—Proposals will be received until 8 p. m. July 1 by the Board of Trustees for $53,750 4½% gold highway, sewer and fire-apparatus bonds. Securities will be dated July 1 1907. Leander Horton is Village President.

The official notice of this bond offering will be found among the advertisements elsewhere in this Department.

Portland, Cumberland County, Me.—*Note Offering.*—Proposals will be received until 11 a. m. to-day (June 22) by David Birnie, City Treasurer, for the discount of $100,000 temporary-loan notes. Denominations to be named in bids. Date day of issuance. Maturity Oct. 1 1907.

Prince Albert, Sask.—*Debentures Not Sold.*—No bids were received on May 31 for the three issues of 4½% debentures, aggregating $160,360, described in V. 84, p. 1199.

Reeves County (P. O. Pecos), Texas.—*Bond Sale.*—This county recently awarded $12,000 bridge bonds to the School Fund.

Richmond County (P. O. Rockingham), No. Car.—*Bond Offering.*—Proposals will be received until 12 m. July 8 by the County Commissioners, H. S. Ledbetter, Chairman, for the following bonds:

$10,000 6% Steeles Township good-road bonds. Maturity 30 years.
5,000 6% Black Jack Township good-road bonds.
5,000 6% Mineral Springs Township good-road bonds. Maturity 30 years.

Interest semi-annual.

Rockford School District No. 23 (P. O. Rockford), Spokane County, Wash.—*Bond Offering.*—Proposals will be received until 1.30 p. m. to-day (June 22) by E. K. Erwin, County Treasurer, for $6,000 6% school-house-erection bonds. Denomination $1,000. Date July 1 1907. Interest annually at the County Treasurer's office in Spokane or at the Fiscal Agency of the State of Washington in New York City. Maturity July 1 1927, subject to call after July 1 1915. Bonds are exempt from taxation. Bonded debt, including this issue, $11,000. Floating debt, $2,108. Assessed valuation 1906 $268,292.

Rockingham, Richmond County, No. Car.—*Bond Offering.*—Proposals will be received until July 17 by W. L. Scales, Treasurer, for not less than $30,000 nor more than $40,000 5% coupon water-works and sewerage-system construction bonds. Authority an Act of the General Assembly of 1907. Interest semi-annual. Bids to be based on bonds running for thirty years, forty years or fifty years and to be accompanied by a certified check for $500.

Ross County (P. O. Chillicothe), Ohio.—*Bond Offering.*—Proposals will be received until 12 m. June 24 by Charles H. Pinto, County Auditor, for $20,000 5% coupon bridge bonds. Authority Section 871, Revised Statutes. Denomination $1,000. Date July 1 1907. Interest semi-annually at the County Treasurer's office. Maturity $2,000 every six months from Jan. 1 1910 to July 1 1914 inclusive. Certified check for $500, payable to the County Auditor, is required.

NEW LOANS.

$666,000

CITY OF ITHACA, N. Y.

WATER BONDS

Sealed proposals for the purchase of the whole or any part of, approximately, $666,000 00 of water bonds of the City of Ithaca, N. Y., pursuant to Chapter 181 of the Laws of the State of New York for 1903, as amended by the Laws of 1907, will be received by the undersigned at any time previous to the evening of June 24, 1907. Such proposals to be upon the basis of long-term bonds at 4%, and bonds payable at the option of the City at the expiration of five years at 4½%.

Any information desired will be furnished upon application. The City reserves the right to reject any and all bids.

Rowland, Robeson County, No. Car.—*Bond Sale.*—On June 15 the 12,500 30-year coupon school-building bonds described in V. 84, p. 1324, were awarded to C. J. Cooper at par and accrued interest for 6s. Bids were also received from W. J. Hayes & Sons of Cleveland, L. S. Covington and S. A. Kean of Chicago. Securities are dated July 1 1907.

Rutland, Rutland Co., Vt.—*Bond Offering.*—Proposals will be received until 7.30 p. m. July 1 by Will L. Davis, City Clerk, for $50,000 4% gold coupon school-building bonds. Authority Act 285, Laws 1894. Denomination $1,000. Date May 1 1907. Interest semi-annually at the First National Bank of Boston. Maturity thirty years. Certified check for $1,000, payable to Will. L. Davis, City Clerk, is required.

St Clair Heights, Wayne County, Mich.—*Bond Sale.*—We have just been advised that on Feb. 25 the two issues of 6% 1-4-year (serial) lateral sewer bonds, aggregating $12,608.80, offered on Feb. 23 (V. 84, p. 352), were awarded to the Bumpus-Stevens Co. of Detroit at par and accrued interest.

St. Cloud, Stearns County, Minn.—*Bond Offering.*—Proposals will be received until 10 a. m. July 1 by Barney Vossberg, City Clerk, for $50,000 5% coupon refunding bonds. Authority Chapter 62, General Laws of 1907. Denomination $1,000. Interest payable at the City Treasurer's office. Maturity fifteen years.

St Frances Levee District, Ark.—*Bids Rejected.*—No sale was made on June 15 of the $500,000 6% 30-40-year (optional) coupon levee-building bonds described in V. 84, p. 1446.

St. Paul, Minn.—*Certificate Issue.*—On June 15 this city sold to local investors at par $1,687,100 4% tax-levy certificates in anticipation of the 1907 taxes. Interest semi-annual. Maturity June 15, 1908.

San Antonio, Tex.—*Bond Sale.*—According to local reports the $38,000 5% Improvement District No. 9 bonds, the $43,000 5% Improvement District No. 10 bonds and the $57,000 Improvement District No. 11 bonds, mention of which was made in V. 84, p. 956, have all been disposed of.

San Diego School District (P. O. San Diego), San Diego County, Cal.—*Bonds Voted.*—This district on June 12 authorized the issuance of $150,000 5% school bonds by a vote of 625 to 148. Denomination $100, $500 and $1,000. Interest annual. Maturity $10,000 yearly, beginning six years from date of issue.

Sandusky, Erie County, Ohio.—*Bond Offering.*—Proposals will be received until 12 m. July 12 by Alex. M. Wagner, City Auditor, for the following bonds:

$5,000 4% coupon sewer-construction (city's portion) bonds, mention of which was made in last week's issue Date March 1 1907. Maturity March 1 1916.
6,000 4% street-paving (city's portion) bonds. Date July 1 1907. Maturity July 1 1918.
8,000 4% Fire Department equipment bonds. Date March 1 1907. Maturity March 1 1917.

Denomination $1,000. Interest semi-annually at the City Treasurer's office. Certified check for $1,000 is required.

Sayre, Bradford County, Pa.—*Bond Sale.*—This borough recently awarded the $15,000 4% gold coupon funding and sewer bonds (the unsold portion of the $25,000 mentioned in V 84, p. 1266), to the National Bank of Sayre at par. Description of these bonds is given in V. 84, p. 1199.

Scotland County (P. O. Memphis), Mo.—*Bond Offering.*—Proposals will be received until 12 m. to-day (June 22) by S. A. Hammond, County Treasurer, for $50,000 4% courthouse bonds. Interest semi-annual. Maturity $10,000 yearly beginning one year from date of bonds. Official circular states that "the court gives the purchaser the privilege of returning the first maturing $10,000 at cost."

Sharon, Mercer County, Pa.—*Bond Election.*—An election will be held in this borough June 25 to submit to the voters a proposition to issue $100,000 4% bonds.

Shreveport, Caddo Parish, La.—*Bonds Not Sold.*—No bids were received on June 11 for the $75,000 city-hall and the $40,000 park-purchase 4% 40-year coupon bonds described in V. 84, p. 1325.

Story County (P. O. Nevada), Iowa.—*Bond Sale.*—On May 23 this county awarded $5,410 6% 10-year Richland Township Drainage District No. 10 bonds to the Farmers' Bank of Nevada at par for 6s. Denomination $500. Date June 1 1907. Interest semi-annual.

NEW LOANS.

$1,000,000

CITY OF LOUISVILLE, KY.,

SEWER BONDS

Office of the Commissioners of Sewerage of Louisville, Rooms 505 and 507 Equitable Building, corner of Fourth Avenue and Jefferson Streets, Louisville, Ky.

June 13th, 1907.

The Mayor of the City of Louisville has delivered to the Commissioners of Sewerage of Louisville for sale One Million Dollars ($1,000,000) of the bonds of the City of Louisville, issued by authority of an Act of the General Assembly of the Commonwealth of Kentucky, approved the 19th day of February, 1906, entitled "An Act to Enable Cities of the First Class to Construct a Comprehensive System for the Disposition of Sewerage," and executed under the provisions of an Ordinance of the General Council of the City of Louisville passed in accordance with said Act numbered 258 of the series of 1906, entitled "An Ordinance Concerning the Issuance of Bonds of the City of Louisville in the sum of $4,000,000 for the Construction of a Comprehensive System for the Disposition of Sewerage, approved October 2nd, 1906, and published, as required by law, on October 9, 1906.

The bonds are of the denomination of One Thousand Dollars ($1,000) each, dated February 1, 1907, become due and payable forty years after date, and bear interest at the rate of four per cent per annum, payable semi-annually, with interest coupons attached; principal and interest payable in gold coin of the United States of America of present standard weight and fineness and negotiable and payable to bearer at the First National Bank of the City of New York in the State of New York.

The bonds are exempt from all forms of taxation for municipal purposes of the City of Louisville, and are made a charge upon the Sinking Fund of said City. A tax is to be levied on all the property subject to municipal taxation in the City of Louisville sufficient to pay the principal and interest of said bonds, and is ordered to be annually collected and paid into the Sinking Fund of the City of Louisville to be used alone for the payment of the principal and interest thereof.

The bonds have been declared valid by judgment of the Court of Appeals, the court of last resort within the State of Kentucky.

Sealed proposals for the purchase of the whole or any number of said bonds will be received by the Commissioners of Sewerage until TWELVE O'CLOCK ON THE 10TH DAY OF JULY 1907 at the office of said Commissioners in the Equitable Building at the corner of Fourth Avenue and Jefferson Street in the City of Louisville, Kentucky. Proposals must be made upon blanks furnished by the Commissioners of Sewerage and marked "Proposals for Bonds." The Commissioners of Sewerage reserve the right to reject any or all bids or to accept the whole or any part of a bid for the bonds proposed to be purchased by any bidder.

No proposal will be considered for less than the par value of said bonds, and must be accompanied by a certified check on a national or State bank doing business in the City of Louisville, for two per centum of the face value or the whole number of bonds proposed to be purchased by such bidder. Checks will be returned to unsuccessful bidders.

Purchasers will pay accrued interest from the date of said bonds until the delivery thereof.

Bonds will be ready for delivery in the City of Louisville at the office of the Commissioners of Sewerage, in said Equitable Building, as soon as allotments are made to successful bidder or bidders.

A failure to deposit a certified check in full payment of the amount of bonds bid for and allotted to any bidder, on ten days' notice that same are ready for delivery, may be, at the option of the Commissioners of Sewerage, considered as a cancellation of the bid.

The amount of the check accompanying the bid will be held for the payment of any expense or damage caused by reason of the failure to pay for said bonds to the extent of any such expense or damage incurred.

Further information will be given and copies of prospectus furnished upon application.

CHAS. P. WEAVER, Secretary & Treasurer. P. L. ATHERTON, Chairman.

CLEARING HOUSE RETURNS.

The following table, made up by telegraph, &c., indicates that the total bank clearings of all the clearing houses of the United States for the week ending to-day have been $2,551,740,392, against $2,562,640,082 last week and $2,792,787,481 the corresponding week last year.

Clearings—Returns by Telegraph. Week ending June 29.	1907.	1906.	*Per Cent.*
New York	$1,165,382,789	$1,436,828,075	—18.9
Boston	114,481,735	112,045,812	+2.2
Philadelphia	119,254,270	127,453,422	—6.4
Baltimore	23,871,524	21,820,114	+9.4
Chicago	230,464,030	169,552,040	+20.0
St. Louis	51,311,711	42,632,215	+20.4
New Orleans	13,208,158	11,715,933	+12.7
Seven cities, 5 days	$1,690,971,217	$1,922,047,611	—11.5
Other cities, 5 days	405,276,914	330,142,723	+22.4
Total all cities, 5 days	$2,096,251,131	$2,252,190,334	—6.9
All cities, 1 day	455,489,261	540,597,147	—15.7
Total all cities for week	$2,551,740,392	$2,792,787,481	—8.6

The full details for the week covered by the above will be given next Saturday. We cannot furnish them to-day, clearings being made up by the clearing houses at noon on Saturday, and hence in the above the last day of the week has to be in all cases estimated, as we go to press Friday night.

We present below our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, June 22, and the results for the corresponding week in 1906, 1905 and 1904 are also given. Contrasted with the week of 1906 the total for the whole country shows a loss of 5.6%. Outside of New York the increase over 1906 is 11.3%.

Clearings at—	*Week ending June 22.*				
	1907.	1906.	*Inc. or Dec.*	1905.	1904.

Condition of National Banks Nov. 12 1906, Jan. 26, Mar. 22 and May 20 1907 on Pages 1531 1532, 1533 and 1534.

The index to Volume 84 of the "Chronicle," covering the numbers from January to June 1907, will be sent out with next Saturday's issue of the paper.

STREET RAILWAY SECTION.

A new number of our "Street Railway Section" is forwarded to our subscribers to-day. It will be observed that this publication appears in new type throughout.

The editorial discussions in the "Street Railway Section" comprise an article entitled "A comprehensive Report on Municipal Ownership" and an article on "The Electric Lines of the New Haven Road."

THE FINANCIAL SITUATION.

One of our correspondents in the South, writing us the past week, makes certain statements of interest as to the monetary situation in the South, while criticising some things we said in this article in our issue of June 15th. The prosperity our country has enjoyed in recent years has been in no part of it more distinguished than in the Southern States. As we all know, cotton at its higher value has proved a source of rapid growth in wealth. Cotton manufacture has developed a profitableness and a success beyond all expectation. Highly attractive winter resorts have brought vast numbers of wealthy people who spend freely to winter in the South. Finally, iron and its allied industries have opened centres of trade, rapidly fructifying other portions of the same States. As was natural, amid all these developing forces railroad facilities became a prime necessity; when the new industrial impulse had its start, Southern roads were in a highly primitive condition; but, pari passu with trade development, immense amounts of capital were spent in reorganizing, rebuilding and extending the old lines, and now those roads stand ready to spend other large amounts of money in much desired and further helpful improvements.

This situation ought, it would seem, to awaken feelings of unbounded satisfaction in every citizen of any Southern State; also to stimulate a desire to let all these branches of prosperity go on, doing as little as possible to disturb the natural course of any of them. Instead of that, our friend appears a good deal dissatisfied. He tells us "there has been too much confidence"—"industrial enterprises have prospered too fast." He finds money scarce in his section, "scarcer," he says, "than I have ever known it at this season, and the investment demand for stocks and bonds is practically dead." Among other things that appear to him to be wrong, he quotes, as heretofore said, a few sentences taken from our "Financial Situation" of June 15th (page 1392-3). The statement he seems to criticise is the following: "Beyond a doubt our disgruntled condition is chargeable to an utter loss of confidence in security values. In other words, the superstructure of credit has been undermined and no value is low enough to induce investors to make purchases."

After quoting those words he adds: "If your conclusions are correct, what becomes of the interest, dividends, &c., now accruing to the investors, banks, &c. It would appear that if people are not investing that the banks would have large deposits for which there would be no demand." Although we do not see what large deposits in banks have to do with our remark, the fact is that deposits are not small now, but large. New York City Clearing-House institutions last week reported $1,106,982,000 deposits against $1,049,472,300 the same date a year ago. Those items are, both of them, large, the latest being a full average for a considerable time. That fact, however, has no bearing on our remark. Although deposits were and are so very large, full proof of our assertion of a sluggish demand is found in our weekly sales at our Stock Exchange. Last week's exhibit was one of the worst ever known. The aggregate sales reached a total of only 1,308,689 shares for the week ending with June 22 (closing with only 54,627 shares sold on Saturday), against total sales in the week ending January 4 1907 of 2,861,710 shares and January 4 1906 of 6,655,086 shares. The N. Y. Stock Exchange transactions represent what has been going on in the United States in stocks and securities more nearly than any other record we could quote from; those figures, as the reader will see, have shown almost nothing doing.

Yet it is true that there is just as much money in New York as there ever was. To-day, likewise, large investors and, we think, small investors of the conservative type, are just as numerous here as they ever were, and they have abundance of capital on hand or within easy reach to invest. There is no lack at all in any of those respects. The only weak spot is the low state of credit; this is most of all apparent in the market for railroad securities (the largest body of securities in the United States) and it is so because our rulers and legislators have been showing a disposition to do what will put the income of that class of companies below a point at which the managers can make enough to cover their necessary repairs, needed new work, ordinary expenses, interest charges and dividends; jeopardizing such a vast amount of values is shaking the foundations of all credit. We think, therefore, the words we used, that "the superstructures of credit were undermined," were just the ones to disclose best the idea we sought to express. Again, our rulers and legislators are not only displaying a disposition to harm railroads, but are expressing a desire and showing a purpose to injure the money-making prospects of all corporate capital. This condition of affairs has imparted a universality to this state of discredit to all United States securities, making the discredit more general than we have ever known to prevail before, except during the silver craze, and we have been in the business of observing and writing about such matters since 1860.

The South holds a position of great influence in the future of this credit involvement. That body of States cannot willingly throw away any of the advantages of a material kind it possesses. It is claimed that the South feels the derangement up to this time less than any other section. Very likely that is true. But if it already feels "a scarcity of money greater than ever experienced at this time of the year, and that the investment demand for stocks and bonds is dead," the day of reckoning may not be far off; and "when industrial enterprises begin to fail, as they surely will," the day for working against the threatened involvement will have been passed. The repeal of all laws passed adverse to the interests of corporate property would improve the credit of securities in every State that did it.

The withdrawals by the Bank of France from that of England of the gold which the former advanced to the latter more than six months ago is practically at an end. As will be remembered, the object of these advances was to relieve discount tension at the Bank of England, which was largely due to our imports of gold from London in December 1906. This end of that movement makes interesting a statement of the manner by which these advances were effected. At the close of last year, when it became apparent that the situation in London needed relief, the Bank of France, in order to effect such relief by increasing the stock of gold in the British capital, arranged to discount a large amount of bills for the Rothschilds, with the understanding that the proceeds, in gold, were to be sent to London to strengthen the Bank position there; the Bank of France discounted foreign bills to the extent of about 58 million francs at first and later increased such discounts to 65 million francs.

In the address of M. Pallain, the President of the Bank of France, at the annual meeting of stockholders Jan. 31, he stated that the European markets were affected in previous months by the exceptional demands from all parts of the world, and particularly from the United States. The rate of discount in London rose to 6% without checking the drain of gold, and there were reasons to fear, if that movement was not arrested, that the Bank of England might be constrained further to raise its rate of discount. In that situation the Bank had a double duty to perform—to ensure to the markets at home and abroad the necessary resources, and to prevent a rise in the exchanges, the effects of which would have been inevitably felt in France; this, too, had to be done in a manner to avoid favoring the existing speculation, which, if encouraged, would have very likely ended in a crisis. Adopting this policy, which has been justified by events, the Bank of France, by discounting English bills, assisted the London market with the funds necessary to enable it to meet and provide for the difficult juncture. The Bank did not part with its gold heedlessly and without the certainty that it was being sent where its action would be most efficacious, and where it would be of interest in preventing a possible crisis in French trade affairs. In the exercise of the liberty conferred on the Bank by its statutes, to discount foreign bills, it took in that paper for a sum equivalent to the amount of the gold sent to places where temporary assistance was needed for legitimate requirements, and with the certainty that it would return. At the same time, the paper offered to the Bank for discount, with the view of obtaining the means of facilitating an exaggerated speculation abroad, was refused.

It is noteworthy that, while the gold proceeds of discounted English bills were not advanced as a loan, as was the case when the Bank of France loaned the Bank of England 15 million dollars to strengthen its reserves in the Baring crisis, yet the December 1906 shipments of gold to London resulted from special arrangements with the Bank of France and differed more in form than in substance from the gold loan of 1890. It was through the Rothschilds that the December 1906 shipments to London were arranged; in 1890 the transaction was effected directly between the two banks. In 1890 the gold that was borrowed was returned in the original and unbroken packages, after the crisis had passed; now the gold has been sent back in the usual form, through the liquidation of the discounted bills.

The series of statements of the national banks of the United States, covering the condition of the institutions at various periods from Nov. 12 1906 to May 20 1907, as compiled from reports to the Comptroller of the Currency, and published on pages 1531 to 1534 of this issue, furnish an instructive exhibit of the augmentation of banking facilities of the country the past six months. One fact that will attract attention is the important growth in number of institutions in sections where added banking facilities are most urgently needed. At reserve cities, or centres of chief financial activity, there has been no apparent growth in the number of national banks for some considerable time, but to assume that no new institutions have come into existence would be entirely erroneous. The truth is that, while the actual number of national banks at reserve cities, at the date of the latest report, was less by two than a year ago, a number of new banks have been organized, but at the same time there have been important consolidations of older institutions, not only at New York, but in other cities. This accounts for the seeming loss in number. A still more significant fact is that the number of banks in New York City, which at the last call was reported at 39, has been gradually decreasing since 1896, when the number stood at 49. But on the earlier date the aggregate capital and surplus was only $50,600,000, whereas now it is $109,365,290. Furthermore, the aggregate capital and surplus of banks located at reserve cities was $367,812,070 on May 20 1907, against only $340,047,700 on June 18 1906, and the surplus fund on the same dates was respectively $284,967,233 and $245,978,509. Clear evidence of growth in strength, if not in number.

Elsewhere in the country, except in the New England section, the organizing of national banks has been constantly in progress. In what is denominated the Eastern division, there has been a gain of 76 banks since June 18 last, providing about 12 millions more capital; the number at the South has been increased 90 during the same period and capitalization has risen 11 millions. The Middle Western States have 73 more national banks than on the date in 1906 mentioned above, capital being enhanced by about 5 millions; 112 new institutions measures the gain in the Western States, the additional capital furnished reaching 4 millions, and on the Pacific the number has risen 29 and the capital about 4 millions. Finally, the addition in the whole country (reserve cities included) for the 11 months has been 376 national banks; capitalization during the same interval has risen from $826,129,785 to $883,690,817, and the aggregate surplus fund shows an augmentation of nearly 86 millions of dollars. The new institutions, as can be judged from the above details, are not, as a rule, of large individual capitalization, but that is, under the circumstances, a minor consideration. The important point is that facilities for expeditious transacting of business (and banks are a prime essential) are being steadily and quite rapidly being extended to communities where their need had been a great drawback.

The announcement of a gift of $300,000 by Mrs. Russell Sage, the income of which is to be applied to the

support of an institute of pathology to be carried on in connection with two of the city's institutions on Blackwell's Island, is interesting in several respects, and in one quite suggestive. The special purpose of the institute is research into the problems of disease, particularly diseases of advanced years, also the improvement of the city's poor and aged in one of its public institutions. This is the most munificent provision yet made for a city hospital purpose here, and is more interesting because of its special object and because of a peculiar timeliness in it, just as funds are imperatively needed to continue some pathological work which has been performed without salary and at a time when further contributions from the city treasury had been found more than usually difficult to arrange.

There is also a significance in the gift just now, for other reasons, and it is because of this significance that we refer to it. Not many months ago, we referred to an extraordinarily large gift just then made for general educational work, and now that so much denunciation of alleged "predatory wealth" is indulged in, and there is so much talk, radical if not revolutionary, about income and inheritance taxes, and the like, not for any purpose of raising revenue but for the avowed purpose of making large accumulations impossible, it might be very well to inqure how great public educational and benevolent enterprises would get on if nobody had much wealth. Putting every other consideration by for the moment, if we can conceive this supposedly ideal condition of equality in possessions somehow brought about, and can also stretch imagination to suppose that the equality remained, who would do the founding and endowing? The extreme Socialist may reply that the Commonwealth would attend to all that; we will allow him his answer without discussing its improbability; but we could contentedly leave the persons interested in founding and carrying on such institutions to say whether they would see much hope for them under such an outlook.

It is indisputable that the land (if there is such a land) "where wealth accumulates and men decay" does and must fare ill. On the other hand, if we turn back a few centuries, we find that the rich then had fewer comforts than the poor have now. The plan of creation, as we argue from our reason and perceive from observation, is for a gradual rise in the average scale of living, so that, as some one has well said, the luxuries of one generation become the necessities of the next. Putting aside the legal, the moral and the economic side of these socialistic dreams for making men equal in possessions, hostility to wealth is short-sighted. Say that wealthy men "owe" a debt to their less fortunate fellows; we need not argue the proposition, for they recognize a sort of debt by paying it. More and more they perceive and honor civic obligations. They return of what they have gathered. They do not, and they surely should not, scatter largess at random; they make a study of the problem of doing real good, and there is rarely a case where they judge unwisely. The tale of great public benefactions is lengthening. But rich men and women have a human nature, and could not be expected to give if they are also to be forcibly laid hold of. Is it not better, in view merely of results, to leave them to do their own redistributing?

On Tuesday evening Senator Knox of Pennsylvania delivered the commencement address to the graduating class of the Yale Law School, speaking on the development of the Federal power to regulate commerce. It is a historical fact that the Union was formed only with great difficulty, the thirteen States being keenly alive to their sovereign rights and much troubled with jealousies, so that the argument which finally prevailed to bring them in was the cogent one that if they staid single they would be exposed to subjugation by foreign powers. The Federal control over commerce "was granted chiefly (says Mr. Knox) as a safeguard against commercial hostilities and reprisals between the States"; it might be called a placating and unifying expedient. Declaring distinctly that "the national power of regulation should be invoked only when necessity for regulation exists, Mr. Knox briefly sketches the rise of the modern regulative movement, in the failure of the States to wisely regulate inter-State commerce and in such abuses as rebates and like forms of preferential service. Some laws were passed to suppress these abuses, and those laws have been enforced and sustained, says Mr. Knox, except the one which confers on the Inter-State Commission the rate-making power.

The existing rule as it has been judicially determined, says Mr. Knox, is that "Congress has the power to regulater inter-State commerce, which includes the power to regulate the means or instrumentalities by which commerce is conducted." Then he comes to what he calls "the new proposition," at which he draws a clear line of demarcation—the proposition that "Congress has the power to regulate commerce, including its instrumentalities, and likewise power to regulate the persons by whom articles of commerce are produced in respect to matters disconnected with commerce."

It may be said of this new proposition that, if it is once admitted, it has no definite bounds anywhere, for it declares that because an incident of a business is subject to Federal regulation the business itself is thus subject. To take an illustration of our own, because the product of a particular business, say the business of making newspapers, is carried across a State boundary, therefore, the entire business in every respect and detail is subject to control from Washington.

Mr. Knox does not dwell upon this proposition, for, he says, "It is hardly worth while to discuss the proposition that production is not commerce." He cites a decision by Justice Lamar, who drew very clearly the natural distinction between manufacture and commerce and declared that the result of such a proposition as this "new" one would be to invest Congress, to the exclusion of all the States, with regulative power over every human industry, for there is not one which does not contemplate more or less clearly an inter-State or a foreign market. The wheat grower of the West and the cotton grower of the South, with everything and everybody between, would thus become subject to the power of Congress. After citing other decisions, Mr. Knox concedes that the national power over commerce carries with it "the right to prohibit commerce in order to secure equality of commercial right or to prevent restraint of or interference with commerce, but not to prohibit the shipment of the innocuous products of producers within a State who are pursuing a course sanctioned by the laws of the State and in no wise interfering with inter-State commerce." Could this be done, he says, it might be done arbitrarily;

Congress might even "prohibit the shipment of cotton or wheat in order to promote the interest of wool or corn."

Mr. Knox quotes other Supreme Court expressions to the like tenor, and from Washington, from Lincoln, and from Chief-Justice Marshall, the last of whom said that "the genius and character of the whole Government seem to be that its action is to be applied to all the external concerns of the nation and to those internal concerns which affect the States generally; but not to those which are completely within a particular State, which do not affect other States and with which it is not necessary to interfere for the purpose of executing some of the general powers of the Government." We could copy these with satisfaction were it not that the founders and the most illustrious Americans of the past have somehow got to seem old-fashioned and out of date—we are told that new situations demand new powers and that those powers must be found; hence, it is more to the present occasion to see what men, apparently influential to-day, think than to recite the views of dead Americans who seem to have lost their influence for the time. So here are a few sentences by Mr. Knox:

"Congress may employ such means as it chooses to accomplish that which is within its power. But the end to be accomplished must be within the scope of its Constitutional powers. The legislative discretion extends to the means, and not to the ends to be accomplished by use of the means.

"Sovereignty for the protection of life, property, good order, public morals and personal liberty within the respective States rests with the States.

"The rights of life, liberty and the pursuit of happiness—or, in other words, the inalienable rights of citizenship—are neither derived from the General Government nor are they enforced by the General Government, except as the Fourteenth Amendment may protect them from adverse State action.

"That the Congress of the United States has no general legislative powers but only such as are granted to it by the Constitution, is not an old and exploded notion.

"The power of the Federal Government cannot be increased except by new grants of power through amendment of the Constitution.

"The Constitution is not to perish at the hands of the impassioned phrase-maker."

How sound, sane, stable and timely this is, we need not urge. Step by step, by an adroit fanning of popular emotions, and by the use of specious catch-phrases, the movement towards usurpation of powers never before dreamed of has gone on until all the old landmarks have been passed and people almost forget that there is a Constitution and that it carefully arranged a balance of powers between several departments, none of which could encroach upon another. It is a good augury that this address was delivered to a group of young law graduates, that they may go out into active life with the lines of government clearly drawn for them; but it is not less important for all of us to take our bearings anew.

What is more fortunate, still, and very much to the point just now, is that this is a deliberately prepared address by a man who is to be reckoned among candidates for the presidential nomination next year. He is among the number, and this clear and strong stand for a return to conservatism is an announcement of his position. If Mr. Knox is not mistaken—and we do not think he is—the signs are that the country is beginning the sober second thought we have been urging and that a reaction from the radicalism which has been so acted and preached is near at hand. What he says would be sound at any time, but it might not be timely at all times. It is so now, and his own position gives it significance. It is a happy augury from which we may draw courage.

On Tuesday of this week, after engagements of two millions gold had been effected for shipment to London on the following day, the market for sight sterling and cables fell 25 points to figures which made impracticable further engagements either for London or for Paris. On Wednesday there was a still greater recession in rates for these classes of exchange, caused by news that the Bank of England had withdrawn its offer of advances on the metal while it was in transit hence to London, and the movement of gold from New York to Europe, which began May 28, came to an end for the time being. The influences contributing to this fall in exchange, and causing a somewhat abrupt termination of gold exports, were the improvement in the situation in Egypt, which seems to have been relieved by last week's remittance of gold from London; the more composed conditions in the wine-manufacturing districts in France, resulting from compliance by the Government with the demand for legislation prohibitory of adulteration of the product; and evidence that the political situation in Russia was not likely to affect financial conditions in Western Europe.

The shipments of gold hence to Paris, which, as above noted, began May 28, have amounted to $21,150,000 and to London $3,750,000, making a total of $24,900,000. Previous to the inauguration of imports of the metal from New York, or soon after the middle of April, the Bank of France began to withdraw from the Bank of England gold, the proceeds of drafts which the Bank of France discounted at intervals, beginning in December last year. These drafts amounted, as has been stated by the President of the Bank of France, to about 13 million dollars. Early in May French bankers began to buy South African gold in the London bullion market, and it is estimated that such purchases have amounted to about 8 million dollars. These several sums—representing gold obtained from the Bank of England directly as the proceeds of the Bank of France's advances and from the London bullion market, through purchases by French bankers, together with that which has been shipped hence to Paris—make a total of 42 million dollars. The weekly statements of the Bank of France, showing its holdings of gold, indicate that since April 25 it has accumulated £6,922,291 net, or, approximately, 35 million dollars. The difference between this sum and the 42 millions which we have traced into the Bank through the sources of supply above mentioned, may be accounted for on the supposition that the Bank has recently been responding to requisitions by Japan. The amount of the current week's shipments of gold to France and the metal which, at the beginning of this week, was in transit, together $7,650,000, may, however, in part account for the above difference, for gold in transit is regarded by the Bank as part of its reserve.

Bankers are now of the opinion that the Bank of France has almost if not entirely satisfied its requirements for gold, though moderate amounts may yet.

be exported. Should this be the case, we may look for a material relaxation of discount tension, at least at Paris and London. With French bankers no longer competing, in the interest of the Bank of France, for the Cape gold in the London bullion market, and with the Bank of France's claims upon the Bank of England for advances settled, the latter should be able to accumulate a sufficiency of the metal to justify it in reducing its rate of discount. Such reduction would most likely be followed by a similar course by the Bank of France and possibly by that of Germany.

The disposition now-a-days is to treat constitutional obligations rather lightly. Hence it is not surprising that a measure should have become law this week with the Governor's approval which is tantamount to an evasion of a constitutional provision. The State of New York has for some time been trying to sell its canal bonds, but very naturally has been unable to find a market for them, since the bonds bear only 3% interest. These are times when investors expect a better return than 3%, even when the security is of gilt-edged character. Yet the State is not in position to offer a higher rate of interest. Under our State Constitution, no debt can be created in excess of $1,000,000 in the aggregate (except in times of war) unless the proposition has received the approval of the people at the polls. Acting in accordance with this constitutional mandate, the Legislature at its session in 1903 passed a law providing for the issue of $101,000,000 bonds for the improvement of the canals, and then submitted the law to a vote of the people at the ensuing election in November, when it received popular endorsement by a large majority. Unfortunately, the mistake was made of limiting the rate of interest to 3%, and this of course binds the State officials, who can therefore offer no higher rate. This being the situation, a simple way out of the dilemma would have been to pass a new law and submit it for approval at the coming November's election, and thus have dealt with a situation for which the State officials are in no way responsible in a plain and straightforward manner. The delay of a few months until election time could have made no very important difference. Instead of this our legislators seek to accomplish indirectly what ought to be done directly.

In order to make it an inducement for certain classes of institutions to buy and hold these 3% canal bonds, the Tax Law is amended and a credit of 1 per cent of the amount of the bonds held given on the annual taxes due from such institutions. The exact language of the statute is that every corporation, company or association required "to pay to the State an annual tax equal to a percentage of its gross premiums, capital stock, surplus, undivided profits or undivided earnings, or one or more, for the privilege of exercising its corporate franchise or carrying on its business in such corporate or organized capacity, which shall own any of the bonds of the State of New York, shall have credited to it annually, to apply upon or in lieu of the payment of such tax, an amount equal to 1 per centum of the par value of all such bonds of the State bearing interest at a rate not exceeding 3 per centum per annum owned and held by and registered in the name of such corporation, company or association on the 30th day of June prior to the date when such tax shall become due and payable." The effect of this law is that in the case of savings banks, trust companies, insurance companies and other institutions which come under its provisions, the rate of interest is raised 1%—that is, while nominally the State is paying only 3% interest, actually it is paying 4%. There is no particular harm in this, since money commands as much as that, but how much better would it have been to have conformed strictly with the constitutional requirement and opened the field to all possible bidders instead of to only a limited class. We are sure the result would be better in the end, while at the same time all occasion for criticism would be removed.

The chief financial event of the week has been New York City's offering of $29,000,000 4% tax-exempt bonds yesterday afternoon. The outcome of the offering had been awaited with much interest, not unmixed with some concern and anxiety. The non-success of the sale, therefore, does not come altogether as a surprise. On February 1 of the present year, it will be recalled, the city offered $30,000,000 of these 4% bonds and succeeded in selling at a price slightly above par the whole of the $26,000,000 50-year bonds, but only $511,000 out of the $1,500,000 20-year bonds, and but $1,075,000 of the $1,500,000 assessment bonds. Considering all the conditions, this was a very satisfactory sale. Even then, however, it was considered doubtful whether Comptroller Metz could repeat the performance. A short time after the sale, the bonds began to show a sagging tendency and there is reason to believe that some of the purchasers at this sale were obliged to re-sell these bonds at slight concessions from the price paid. As a matter of prudence, therefore, it was thought best to secure an amendment to the law which would enable the city authorities to raise the rate of interest if it became necessary to take such a course. Previously, the city could not make the rate higher than 4%. The desired amendment to the law was obtained, and at yesterday's sale it was within the power of Mr. Metz to advance the rate. He did not think it best, though, to adopt this course, as he was inclined to believe that he could float this large issue at the old rate of interest. But facts and conditions were against him. The 3½ per cents have for some time been selling on a higher interest basis than 4%, though, as against this, there was the extra inducement offered on this occasion, namely the privilege to have the bonds coupon in form, thereby making them more readily salable. However, the test shows that 4% bonds, at this time at least, cannot be placed. He received 57 bids altogether, but these represented aggregate applications of only $2,121,840. Contrary to general expectations, there were no bids for very large amounts, and of course no bids whatever for the whole issue. The largest amount applied for by any single bidder was $300,000.

It is not well to make over much of this failure of the city to float such a large issue. Confidence in the financial world has been deeply undermined as a result of the hostile spirit that has been manifested so long against capital and accumulated wealth; and while a New York City 4% tax-exempt bond at par looks very tempting, large numbers of people who would ordinarily come in to buy such an obligation are not able to do so at the present juncture (owing to the fact that they

can not find a market for other high-grade securities held by them), while others will not part with their money, in view of the dubious nature of the prospects for the immediate future, except at much higher rates of interest. For instance, very good notes of railroads and other corporations can be bought at figures to net 6 and 7%. It is true that Philadelphia succeeded in floating $6,000,000 of 4 per cents this week at a price slightly above par, but the situation there is somewhat different from what it is in this city. In the first place, the amount of the offering was so much smaller, and in the second place, Philadelphia is a much less frequent borrower in the market. It may be recalled that last March Philadelphia offered $5,000,000 bonds at only 3½% interest and sold but $125,000, and the present was the first time that city has offered a 4% issue since the panic of 1893.

———

One of the developments of the week has been a distinct weakening of both the price of copper and the price of iron. As far as copper is concerned, the quotation has been at really forbidding figures for some months, namely 25@26 cents a pound, and it cannot be deemed strange that a sort of deadlock should have developed between consumers and producers—that consumers on the one hand should be holding off in the hope that by waiting a little while they may be able to purchase at some concessions from present nominal figures, while, on the other hand, the mining and selling companies have adopted a hesitating, halting policy, uncertain what course it would be best for them to pursue. No copper for immediate delivery appears to be available, and the uncertainty, therefore, refers only to copper for future delivery—say, the last quarter of the year. The London price for standard copper for future delivery seems to be ruling much below the New York parity and everybody here apparently is waiting to see what the attitude of the United States Selling Company, which is the selling agency for the Amalgamated Copper Co., will do. Some announcement from that direction is looked for within a few days. It should be understood that the copper companies have been getting the exceptionally high figure of 25 cents for copper for only a very short time; hence, if the price were dropped even three or four cents a pound, the companies would still be realizing fully as much as the average obtained by them during the late calendar year.

———

In the case of the iron trade considerable uncertainty also appears to be developing, though this remark applies to iron alone and not to any great extent to steel. Most of the trade reports are still optimistic. For instance, we find the "Iron Age" of this city saying that "again and again evidence is cropping up that melters have not covered their requirements of pig iron as fully as was claimed and they appear in the market for early deliveries." But a little further below, in the same statement, there is the following remark: "In the tidewater territory the continued importations of foreign iron are putting pressure on the foundry iron markets, since Middlesborough No. 3 is selling at $20 50 to $21 ex ship. Even adding $1 to $1 50 for freight to consumers' yards, there is a tempting difference in favor of imported iron." However, the most significant bit of news apropos of the situation is contained in a dispatch from Pittsburgh to the New York "Times" under date of June 26. The telegram is to the effect that as the result of the failure of Milliken Bros. of New York, 35,000 tons of first-class pig iron were on the day named dumped on a weak market, causing the price of pig iron to drop from $24 50 to $23 50 a ton. It is added that a further decline is likely.

We wonder if the reader appreciates the significance of this item of news. The United States is now and has for some time been producing 25,000,000 tons of pig iron a year and yet an unexpected offering of only 35,000 tons has been sufficient, apparently, to knock the bottom out of the market. Certainly, there is nothing very assuring in such a circumstance, and the matter looks all the more noteworthy in view of the fact that for over a year or more the constant report has been that the demand for iron exceeded the supply. To find out now, on the one hand, from the "Iron Age," that the pressure of foreign iron is unfavorably affecting prices at the seaboard, and, on the other hand, from the dispatch to the New York "Times," that the offering of a small amount of iron has broken the market at Pittsburgh, seems to make it evident that there is not that degree of confidence in the trade that existed up to but a short time ago. There is this much to be said, however, that prices of iron have been altogether too high compared with the prices of steel and finished forms of both iron and steel. A considerable decline in the price of the pig metal would tend to restore the equilibrium and in that sense would possess a favorable aspect. The danger is that the weakness in iron may extend to all the products of iron and steel.

———

There was no change in official rates of discount by any of the European banks this week; compared with last week, unofficial or open market rates were ¼@⅜ of 1% lower at London, steady at Paris and ¼ of 1% lower at Berlin and Frankfort. The easier discount conditions above noted are the results of an improvement in the European situation which has been observable during the week. The financial troubles in Egypt proved to be less acute than was feared, and the fortnightly settlement on the London Stock Exchange was effected without important failures; consequently a more confident feeling prevailed at the British capital. The French Government responded to the demand of the wine growers with legislation prohibiting adulteration of the product, so that peace was restored in the Midi, and the absence of serious disturbance in Russia contributed to allay apprehensions, if any had been felt, of financial derangement at Paris as the result of the Russian political situation. The preparations for the half-yearly settlements at the chief centres probably gave assurance of generally encouraging exhibits by the banking institutions, and this fact doubtless had much influence in sustaining the securities markets.

The most notable feature of the statement of the New York Associated Banks last week was the small decrease of $710,600 in cash reserves, which was so contrary to general expectations as to make explanations thereof extremely difficult. The surplus showed an increase of $1,111,975 as the result of a decrease of $1,822,575 in reserve requirements. Loans were contracted $5,403,100 and deposits were reduced $7,290,300. The losses by the banks to the Sub-

Treasury this week were quite large, as the result of $6,400,000 gold exports and of the operations of that office; there was a transfer of $500,000 hence to San Francisco and a shipment of $1,500,000 to Chicago.

The money market was active and rates for loans on call and on time were higher, partly because of the indications in the Treasury daily reports of an unfavorable bank statement and also for the reason that preparations were being made for the distribution, after Tuesday of next week, of the unusually large amount of 180 millions of dividends and interest. Day-to-day money, representing bankers' balances, loaned at the Stock Exchange during the week at 12% and at 2%, averaging about 5%; banks and trust companies loaned at 2½% as the minimum. On Monday loans were at 3½% and at 2% with the bulk of the business at 2¼%. On Tuesday transactions were at 3¼% and at 2½% with the majority at 3%. On Wednesday loans were at 4% and at 3% with the bulk of the business at 3¼%. On Thursday transactions were at 6% and at 3¾% with the majority at 5½%. On Friday loans were at 12% and at 6% with the bulk of the business at 7½%. Time contracts on good mixed Stock Exchange collateral were 4¼@4½% for sixty and 4½@4¾% for ninety days, 5% for four, 5¼@5½% for five, 5½@5¾% for six and 5¾@6% for seven months. Commercial paper was of slow sale at 5½% for sixty to ninety day endorsed bills receivable, 5½@6% for prime and 6@6½% for good four to six months' single names.

The Bank of England rate of discount remains unchanged at 4%. The cable reports discounts of sixty to ninety-day bank bills in London 3⅝%. The open market rate at Paris is 3⅜% and at Berlin and Frankfort it is 4½@4⅝%. According to our special cable from London, the Bank of England lost £124,111 bullion during the week and held £35,544,221 at the close of the week. Our correspondent further advises us that the loss was due to the fact that although purchases in the open market were of important volume, the exports largely exceeded imports and shipments to the interior of Great Britain were quite free. The details of the movement into and out of the Bank were as follows: Imports, £682,000 (of which £250,000 from India, £5,000 from Australia and £427,000 bought in the open market); exports, £453,000 (of which £175,000 to Egypt, £200,000 to Constantinople, £72,000 to South America and £6,000 to Gibraltar), and shipments of £353,000 *net* to the interior of Great Britain.

The foreign exchange market declined sharply this week, after opening quite firm and under conditions which seemed to indicate the maintenance of high rates for the remainder of the month. The fall was partly due to the suspension of the demand for cables for remittance for the end-of-the-year settlements; as such drafts were the only forms of exchange available for this purpose, the cessation of the inquiry therefor and their sale affected the entire list, and the market was more or less disturbed and weak to the close. The unexpected withdrawal by the Bank of England of its offer to establish credits in aid of shipments of gold hence to London—which shipments had been covered with cables—seemed to be another cause for the break in the market. As remitters with cables would have to rely upon gold bills for their supply of these drafts, the check to exports of the metal through the action of the Bank of England would make it necessary for such remitters to buy cables in the market that were created from other sources than gold exports, and prices therefor would be so high as to make it desirable for them to effect their settlements, where it was possible to do so, with sight drafts. Another factor contributing to the decline in exchange was the easier tone for discounts in London and the improved situation in Europe, which appeared to make it probable that normal discount conditions would be established after the turn of the half-year, thus facilitating the negotiation of finance bills. Some buying in London of American securities was still another factor, such purchases resulting in an increase in offerings of bankers' bills.

The fall in exchange carried rates for sight sterling and cable transfers below the gold-export point. Cables were no longer offered for cover for shipments to London, because of the above-noted withdrawal of advances by the Bank of England, and sight drafts could not be employed for this purpose, as they were too low. Gold shipments would therefore have to be suspended unless the Bank of France should continue to offer facilities therefor which would permit a further use of cables. While there were no indications that the Bank of France had changed its policy in respect of advances, it was thought likely that no engagements of gold would be made for Paris unless there should be a recovery in our exchange rates to figures which would ensure a profit to exporters. The engagements of gold this week were effected on Monday for Tuesday's steamer and on that day for Wednesday's. The exporter who last week secured $1,100,000 for London, engaged $650,000 more on Saturday and on Monday an additional amount of $1,000,000 was taken, while on Tuesday another banker engaged a like sum; this made an export of $2,650,000 for the week to London and of $3,750,000 on this movement. The exports to Paris this week were $3,650,000, making the total since May 28 to Paris $21,150,000 and to London and Paris together $24,900,000.

Nominal rates for sterling exchange are 4 84½ for sixty day and 4 88 for sight. On Saturday of last week the tone was easier for long and short at a decline for the former, compared with the previous day, of 5 points to 4 84@4 8410 and for the latter of 10 points to 4 8725@4 8730; cables were 10 points higher at 4 8810 @4 8815. On Monday long fell 10 points to 4 8395@4 84 and cables 5 points to 4 8805@4 8810, while short was unchanged. On Tuesday long declined 15 points to 4 8380@4 8385, short 25 points to 4 87@4 8705 and cables 25 points to 4 8780@4 8785. On Wednesday long fell 10 points to 4 8370@4 8375, short 5 points to 4 8695@4 87 and cables 5 points to 4 8775@4 8780. On Thursday long declined 5 points to 4 8365@4 8375, short 35 points to 4 8660@4 8670 and cables 15 points to 4 8760@4 8770. The market was steady on Friday with a rise in short of 10 points. Closing prices were 4 8365@4 8375 for long, 4 8670@4 8675 for short and 4 8760@4 8770 for cables. Commercial on banks 4 8320@4 8330 and documents for payment 4 82⅝@4 83⅝. Cotton for payment 4 82⅝@4 82¾, cotton for acceptance 4 8320@4 8330 and grain for payment 4 83½@4 83⅝.

The following shows daily posted rates for sterling exchange by some of the leading drawers:

		Fri., June 21	Mon., June 24	Tues., June 25	Wed., June 26	Thurs., June 27	Fri., June 28

The following gives the week's movement of money to and from the interior by the New York banks.

Week ending June 28 1907.	Received by N. Y. Banks.	Shipped by N. Y. Banks.	Net Interior Movement.	
Currency	$8,179,000	$4,100,000	Gain	$4,079,000
Gold	984,000	1,600,000	Loss	616,000
Total gold and legal tenders	$9,163,000	$5,700,000	Gain	$3,463,000

With the Sub-Treasury operations and gold exports, the result is as follows:

Week ending June 28 1907.	Into Banks.	Out of Banks.	Net Change in Bank Holdings.	
Banks' interior movement as above	$9,163,000	$5,700,000	Gain	$3,463,000
Sub.-Treas. operations & gold imports	28,000 000	38,500,000	Loss	10,500,000
Total gold and legal tenders	$37,163,000	$44,200,000	Loss	$7,037,000

The following table indicates the amount of bulion in the prncipal European banks.

Bank of	June 27 1907.			June 28 1906.

Tot. week	405,109,788	109,098,621	514,208,409	405,952,225	110,424,425	516,376,650
Tot. prev.	404,046,049	108,702,298	512,748,347	397,361,599	110,102,411	507,464,010

a The division (between gold and silver) given in our table of coin and bullion in the Bank of Germany and the Bank of Belgium is made from the best estimate we are able to obtain; in neither case is it claimed to be accurate, as those banks make no distinction in their weekly returns, merely reporting the total gold and silver; but we believe the division we make is a close approximation.

b The Austro-Hungarian bank statement is now issued in Kronen and Heller instead of Gulden and Kreutzer. The reduction of the former currency to sterling Pounds was by considering the Gulden to have the value of 50 cents. As the Kronen has really no greater value than 20 cents, our cable correspondent in London, in order to reduce Kronen to Pounds, has altered the basis of conversion by dividing the amount of Kronen by 24 instead of 20.

d The total of gold in the Bank of Russia includes the balance held abroad—that is, the amount held for Russian account in other Continental banks. The proportion so held and consequently duplicated in the above statement is about one-quarter of the total.

THE REVOLT IN THE SOUTH OF FRANCE.

The so-called "Revolt of the Midi"—a most singular popular uprising in the South of France—has attracted attention as being perhaps in some ways typical of the state of mind of the people in various quarters of the world. When the uprising was at its climax it was possible to draw some very doleful conclusions from it. The outcome of the episode—which seems to have reached by this time its virtual termination—provides, we think, more morals than the beginning of it, and it is from both points of view that we wish to examine it.

The superficial cause of the movement is plain enough; the underlying causes somewhat obscure. The case appears to have been that the wine-growers in the South of France have been confronted with steadily falling prices and a wholly discouraging market. The reasons for this have been more or less technical; in part, it has undoubtedly resulted from the converging of the activities of a whole district on the production of a single article, from which resulted something like over-production. But it seems to be conceded that this is only a partial cause. The statistics are declared to show that France still consumes more wine than she produces, and that, in fact, more French wines are sold in France than can be accounted for by the production statistics. The inference generally drawn has been that the process of watering or adulteration has been reduced to such a science that demand for the genuine article has been cut down at the very time when a constant demand existed for what was supposed to be the real French wines. To the wine-growers themselves, this situation appealed as an outrage permitted by a negligent Government, and it is easy to see how their feelings on the subject should have been embittered by the fact that the one product which they had for sale was falling steadily in price at a time when practically all the necessaries of life which they had to purchase were rising by leaps and bounds.

To what extent there had been any preliminary agitation, with a view to induce Government action, is not made clear in the dispatches. Judging from the circumstances, it is not hazardous to surmise that petitions had been sent in to the Government at Paris and had been pigeon-holed. There were doubtless "opposing interests." As the feeling of unrest continued, the psychological moment was seized by an agitator of the emotional sort named Marcelin Albert, himself a Southern wine-grower. This man appears to have been a person of no great mental calibre, but of abundant facility in oratory, and his graphic phrases sounded a note which instantly met response throughout the South of France. According to the dispatches, people came a hundred miles to hear him; his audiences were large in numbers and immensely enthusiastic in their greeting, and his suggestion that a species of passive resistance to the Government should be adopted, as the means of impressing their demands on Paris, was instantly adopted.

The result was a very singular episode in political history. It is not at all unlikely that these French peasants borrowed their methods of operation from what they had heard of the Russian people's display of opposition to the bureaucratic Government at St. Petersburg. They refused to pay taxes; insisted on their municipal officers surrendering office, and in some places appear to have erected a sort of provisional government of their own. So extraordinary and unusual a demonstration as this was bound to take the Paris authorities by surprise, and for some days no indication could be obtained as to how the Government would meet the dilemma. The fact that Clemenceau, himself a radical with supposed socialistic leanings, occupied the place of Premier, added peculiar interest to the situation.

Naturally, M. Clemenceau's political antagonists at once raised the outcry that his teachings had provoked the revolt, and that he could not be relied upon to suppress it. In the meantime, as was to be supposed, the demonstration in the South reached proportions where a collision between the people and the troops was inevitable. Clemenceau's critics misjudged the man as completely, however, as they did during the mining troubles in the North of France a year ago. It will be recalled that at that time similar predictions as to his probable unwillingness to interfere were freely indulged in, and were completely falsified by the resolute manner in which the Premier, announcing his determination to maintain the public

order, sent troops to the points of trouble, with instructions to put down all rioting at any cost.

In the present case the situation culminated in an excited meeting of the Chamber of Debuties on the news that bloodshed had actually occurred in the Southern districts. On Thursday of last week, the mob attacked the soliders, and, according to the accounts, one hundred men of the military were wounded. In quick succession to this a battalion of infantry, sent to put down the riot, deserted at Beziers, defied their officers, and marched under arms to a public park, announcing their purpose of placing themselves under orders of the people. With this situation developing in the South, Clemenceau confronted his antagonists in the Chamber. At the opening of the session on June 21, chances seemed evenly balanced as to the survival of the Clemenceau Ministry. The Premier met the situation boldly; announced that the revolt would be suppressed, that the mutinous soldiers would be forced to surrender without conditions and would be punished, and concluded by a blunt demand for a vote of confidence whereby the Ministry should be able to complete its plans for pacifying the district. Such was the influence of this determined statement that the Chamber of Deputies, by a vote of 326 to 223, adopted the resolution of confidence, leaving the resourceful Premier to deal with the question. He did not disappoint the expectations of his supporters. The mutinous battalion surrendered on demand and has been promptly packed off by ship for the highly undesirable service at Morocco. Marcelin Albert, the ringleader of the revolt, called personally on Clemenceau, received a vigorous rating, and was told that he would have to suffer punishment for what he had done, but that he would be released until he could do his part in pacifying the South, after which he must serve his term in prison. This order has been precisely obeyed; the uprising ended as suddenly as it began, and at the close of last week the Chamber of Deputies voted unanimously the bill prohibiting sugaring, watering or adulterating of French wines.

Such has been the end of this singular episode. Many conclusions will be drawn from it, even now that the situation has cleared up. It seems to us that the general inference should be distinctly favorable. That a popular revolt of such proportions should break out, at so unsuspected a point, is doubtless far from pleasant in the existing world-wide situation of popular unrest. On the other hand, the manner in which the demonstration collapsed is the surest proof that the way to meet such outbreaks of disorder is not by cajoling the rioters, or by compromising with their ringleaders, but by applying instantly the stern and vigorous arm of public law. In France the people at large undoubtedly feel that the largest personal interest which they have at stake is maintenance of public order—a fact evidently well known to Clemenceau; but this is no more true of France than of any other State under a humane and civilized government. That the rule may not apply to Russia will no doubt be conceded, and, as we have pointed out hitherto, the danger of the Russian situation lies not in its own immediate consequences but in the imitation at other places, and under totally different circumstances, of the methods employed by the Russian people to bring a corrupt and unreasonable Government to terms. This danger, which we have considered a serious possiblity, has, in our judgment, been very much reduced through the outcome of the Southern revolt in France.

The lessons taught by that episode can hardly fail to get a hearing elsewhere. In the main, they are that the statesman desirous of doing his duty to himself and his country must at all hazards insist on orderly pursuance of the public will, and that a discontented faction of the people have a recourse in representative government which is sufficient if they use it properly. As to the teaching of this episode in the matter of the trend of public sympathy at a juncture of this sort, the principle established is certainly nothing new. No one will have forgotten the maudlin commiseration with the Railway Union rioters, expressed even here at New York during the Chicago strike of 1894. A good part of the community seemed to be on the point of applauding the motives of the rioters and advocating timid compromise. How instantly the air was cleared by the prompt and resolute action of Mr. Cleveland, over the head of the political theorist in the Governor's chair of Illinois, who could not bring himself to act, is a matter of history.

EIGHTY-CENT GAS IN NEW YORK CITY CONFISCATORY.

The Special Master, Arthur H. Masten, appointed by Judge Lacombe in the Circuit Court of the United States for the Southern District of New York, in the case of the Consolidated Gas Company of New York against the City and State of New York, to prevent the enforcement of the Eighty-Cent Gas Law, filed his report on Monday of this week. It is one of the most illuming documents of the kind which has ever come to our notice. The Master had been directed by the Court "to take the testimony, make all the needed computations, and find fully the facts." He has performed the task assigned to him fully and convincingly. The case was referred to him on July 9 1906, and consequently he has been engaged at it pretty nearly a year. During this time proofs have been submitted to him by the several parties and he has listened to lengthy and extended arguments. The proofs so taken, it appears from a statement in the present report, consist of nine volumes of printed testimony, comprising nearly 7,000 pages in the aggregate, and five volumes of printed exhibits aggregating nearly 2,800 pages more.

The matter has therefore had very exhaustive consideration and the public now has the facts on which to base an intelligent judgment. It also has the Master's conclusions which at every point sustain the contentions of the Gas Company and establish its claim, namely that the price of eighty cents fixed last year by statute and also by the order of the New York State Commission of Gas and Electricity, does not afford a fair and reasonable return upon the value of the company's property invested in the gas business, and that harsh and unusual penalties are exacted for violation of the requirements and provisions of the statutes and order. We think, however, that the facts are of more importance than the Master's conclusions. For the last year or two there has been much declamatory talk about the exactions of the Gas Company—what an inordinate price $1 per thousand cubic feet (the old price) was and what exorbitant profits the company was making as a result. It was on the strength of these allegations that the price of gas was

reduced. Until the present report no one was in position positively either to deny or to substantiate the correctness of the assertions made. There has been much heated discussion by the press and in the Legislature, but the facts themselves were all more or less in dispute, and upon these, obviously, everything depended. Of course, those who defended the action of the Legislature nearly always referred to the investigation made by Mr. Hughes, our present Governor, several years ago, when acting as counsel for a legislative investigating committee, at which time Mr. Hughes, previously an unknown figure, first came to public notice. He is known to have favored the legislation and action of last year in cutting the price of gas 20%, and he joined in tendering a reception to some of the legislators who had been prominent in their efforts to secure the enactment of this legislation and commended them for their course. It would seem that the public has been leaning on a broken reed and those who joined in the crusade against the Gas Company, on the theory that with such a vast army of consumers, lowering the price would be a popular move, now appear in an unenviable plight.

It is gratifying to have such a vexed matter subjected to a judicial test and treated in the calm and dispassionate way which can be counted on nowhere else outside of a court of law. Mr. Masten's report covers over 200 pages and he summarizes completely and exhaustively the evidence and facts on all the main points in the controversy. To be sure, this report and its conclusions have not yet been approved by the Court, but we are very much mistaken if it does not receive such approval. The proofs presented are so plain, so incontrovertible, so strongly fortified by facts and reasoning at every stage, that it will be simply impossible for the Court to reach any other conclusions than those submitted by the Master for its endorsement. Every item in the company's valuation of its property is carefully gone over and compared with the State's valuation and the city's valuation and the reasons given for accepting the one or the other, or for reaching an independent estimate. Similarly, all the different items of the expense accounts are examined and analyzed and subjected to close scrutiny.

In brief, then, this report rests on impregnable ground. The city's valuation of the company's property had been $30,949,327, the State's valuation $31,039,125, while the Company contended that its assets actively employed in business had a value of $96,086,959, this including $24,000,000 for the franchises and $7,500,000 for the good will, neither of which the city or State considered at all. This will give an idea of the wide disparity between the estimates on which legislation was based and those claimed by the company, the latter being three times those of the former. Mr. Masten, as the result of his extended analysis, gives $83,357,000 as the value of the property on which the Company is entitled to a return. This is over $52,000,000 in excess of the amount arrived at by either city or State, and furnishes a striking commentary upon the reckless way in which our politicians and legislators have been proceeding.

The company's net earnings for 1905, the Master finds, have been $4,983,928. With the price reduced to eighty cents there would be a loss of twenty cents per thousand cubic feet on 13,283,000,000 feet of sales, the amount of gas used in 1905, and the total of the net earnings would be reduced from $4,983,928 to only $2,327,328. This amount, the Master finds, would yield on the company's entire assets of $83,357,000 a return of only 2.8%, while even on its assets, exclusive of franchises and good will, the return would be no more than 3.6%, neither of which, the Master adds in his calm, judicial way, would, in his judgment, constitute a fair or reasonable return on the value of the property. He says that, assuming, on the basis of decisions which he quotes, that the company is entitled to receive at least the legal rate of interest as a return upon its investment, the reduced net earnings would yield 6% upon its assets to the extent only of $38,788,805, leaving assets amounting to $24,569,000 (entirely exclusive of franchises and good will) on which it would receive no return whatever.

The Master on May 18, after he had completed the original draft of his report, caused copies to be served on all the parties in interest and asked for objections or amendments or additions thereto. In response, numerous suggestions came from both sides, and these are incorporated as part of the report, the Master stating with reference to each of the suggestions or objections whether they have been allowed by him or overruled. One of the additions suggested on behalf of the company, and which has been allowed, brings out in a noteworthy way the confiscatory character of the penalties which the law would seek to enforce for failure to comply with its provisions. As the company has about 390,000 customers in the city of New York to whom bills are sent monthly, and as a penalty of $1,000 is imposed for each charge for gas in excess of eighty cents, the penalties accruing against the company, if it charged more than eighty cents, would amount in the aggregate to about $390,000,000 per month, and to $4,680,000,000 per year, being fifty times as much as the value of the entire assets employed by the company in the gas business. Furthermore, the law provides as an additional penalty that where a price in excess of the statutory rate is demanded, that fact shall constitute a complete defense to an action for a recovery for the amount of gas delivered. Lastly, the law also provides a penalty of $1,000 for each offense on a violation of the provision that the pressure of illuminating gas in any service main in the City of New York at any distance from the place of manufacture shall not be less than one inch nor more than two and a half inches, a provision, the Master finds, it will be impossible to comply with. This penalty would aggregate $5,000 per day upon evidence recorded at each of the five city testing stations of only a single violation per diem of said laws, or at the rate of $1,800,000 per year under the company's distributing system, as now existing and in operation, which amounts are liable to be increased by additional or more frequent tests.

Obviously, when we reach this point, the whole thing becomes farcical, and it is plain as day that this law cannot stand. But what a light it throws upon the conduct of our wise men at Albany, some of whom, fearful of the approaching storm of retribution and wrath, would now be known as "conservatives." Such legislation would be inexcusable on the part of the newer communities in the remoter sections of the country. That it should have found its way to the statute book in the enlightened State of New York, with its large population, is a lasting disgrace.

INVESTORS FAVORED BY MUNICIPAL LEGISLATION.

Municipal legislation was enacted in Philadelphia last week which beneficially affects stocks and bonds of public utility companies having a par value of $166,741,987. This action on the part of City Councils of Philadelphia is so unusual, considering the tendency of legislative bodies generally, municipal, State and national, to oppress corporations, that investors will be apt to take renewed interest in the securities affected. By the decision to continue the lease of the gas works of Philadelphia for a period of twenty years from January 1 1908, the United Gas Improvement Company is given an absolute monopoly of the business of supplying the third city of the Union with gas for a fifth of a century, a city having a population at present of nearly 1,500,000. It is estimated that the consumption of gas will increase from year to year at the rate of 3%, and on this basis the United Gas Improvement Company will receive during the next twenty years net receipts of $160,104,812. Last year consumption increased at the rate of 6.3% and the consumption of gas this year in Philadelphia will be 50% in excess of the estimate which was made by President Dolan of the gas company ten years ago. Net receipts of $160,000,000 may therefore be taken as a minimum, as the probability is that they will much exceed that sum. The continuation of this lease, while it affords many advantages to the city of Philadelphia, may be regarded as a matter of satisfaction to the investors in the shares of the gas company which is the lessee, although there is no prospect of an increase in the dividend rate above 8% in the near future.

The second action which is favorable to all investors holding stocks and bonds of the street railway system of Philadelphia is the passage of an ordinance which is designed to strengthen the financial standing of the Philadelphia Rapid Transit Company and all of its underlying companies. The following table shows the list of stocks and bonds favorably affected by the Philadelphia legislation:

	Stocks.	*Bonds.*
Phila. Rapid Transit ($35 paid in, par $50)	$21,000,000	--------
Market Street Elevated	--------	$10,000,000
Other new companies	--------	1,500,000
Union Traction ($17 50 paid in, par $50)	10,500,000	1,460,000
Electric Traction	2,838,576	282,100
Hestonville system	1,132,281	1,250,000
People's system	6,531,830	750,000
Philadelphia Traction	20,000,000	--------
Subsidiary companies	3,619,236	4,041,000
Electric and People's 4s	--------	29,730,114
Total railways	$65,621,923	$49,033,214
United Gas Improvement	45,884,850	--------
Equitable Illuminating Co	--------	6,202,000
Total	$111,506,773	$55,235,214

Thus the total par value of the stocks and bonds benefited is $166,741,987. The leases of some of the underlying companies holding franchises in the central part of the city call for dividends which range from 30 to 87½% on the amount paid in on the shares, which in one case is as low as $16 per share. The new ordinance guarantees for fifty years at least, and probably for all time, that the leases and franchises of the underlying companies will not be disturbed. Shares of the Union Traction Company are most benefited by the ordinance. The par value of this stock is $50, but there has only been paid in $17 50 per share. The guaranteed dividend is $2 50 per share, and after July 1 1909 the annual dividend will be $3 per share. This stock has been depressed during the agitation, but the effect of the new ordinance is to place Union Traction shares among the list of desirable investment securities.

By the agreement the Philadelphia Rapid Transit Company undertakes to issue a call within thirty days after the final passage of the ordinance for its unpaid capital, the final instalment to be paid not later than December 31 1908. There is $15 per share uncalled, the payment of which will provide the company with $9,000,000 fresh capital to be used in prosecuting construction work. The ordinance so improves the company's financial standing that there will be no further difficulty about disposing of additional bonds which may be issued to finance the completion of the subway work now in hand.

THE NEW HAVEN ROAD AND ITS POLICY OF EXPANSION.

The attempt of the New York New Haven & Hartford Railroad Co. to absorb the Boston & Maine Railroad would appear to have been definitely defeated, at least for the time being. The Massachusetts Legislature has this week passed a drastic Act (by an absolutely unanimous vote in the House and with but one vote recorded against it in the Senate) which renders out of the question any merger of the two properties before July 1 1908. The Board of Railroad Commissioners may, on application, after public notice and hearing, determine whether it is consistent with the public interests to let any two railroads consolidate, but it can only report its findings to the Legislature for such further action as the legislative body may deem proper.

This action of the Massachusetts Legislature, we think, is to be regretted. If ever there were two railroad properties that might be consolidated to the advantage of both, and likewise to the advantage of the communities served, they are these very two roads, the New Haven and the Boston & Maine. They are not competing lines at all. Each supplements what the other lacks. Examination of the map will show that the two systems dovetail into each other in such a way that union of the two would be both natural and legitimate. The one system is practically an extension of the lines of the other, and together they form numerous through routes into the New England States and beyond. When such a situation exists, it needs no argument to prove that numerous economies in operation could be effected if both were under a single management, nor that under such a management it would be easy to provide improvements in service and increases in facilities that are impossible so long as the two remain separate. Of course, with the two united, there would be presented the proposition of a single company controlling practically all the steam railroad mileage in the whole of the New England States. But that is a circumstance that should not count for a moment against the obvious advantages that would spring from having such a unified and solidified system, and the fact that from a natural and geographical standpoint every interest of the public and of the stockholders of the roads could be best served in precisely that way.

We confess, however, that we are not surprised at the action taken. In this we do not refer altogether to the fact that anti-corporation legislation is the prevailing tendency. The old Commonwealth has been in large measure free from the excitement and hysteria

that often characterizes newer communities. But President Mellen's policy has been such as to invite opposition. He has been at the head of this great railroad undertaking only since 1903. If it has been his purpose that his name should be indissolubly linked with that of the New Haven property, he has certainly succeeded in the effort. Had the proposition that the New Haven road should take over the Boston & Maine come at the beginning of his administration—to signalize, as it were, his advent to control—we have no doubt it would have been regarded with general favor, so natural and inevitable does such a union seem. But, unfortunately, the present is simply the last of a long series of moves all aiming at absorption and transformation, so that public sentiment, even in the conservative communities of New England, has become more or less alarmed.

In the radical departure in the New Haven's policy which he has inaugurated, Mr. Mellen's relations to his company have been very like those of the late President Cassatt of the Pennsylvania Railroad. He has proceeded with the same disregard of old ideas as Mr. Cassatt and he has proceeded with equal zeal; but it would be going too far to say that he has proceeded with equal discretion and judgment. Mr. Mellen is not a man who will brook opposition to his schemes, and yet on the whole he has been conciliatory towards the public. Tactful he can never be. That is entirely foreign to his nature. He has sought to appease hostile critics and he has been frank in his explanations, though these have often been a little tardy.

A study of the successive steps in his administration suggests that Mr. Mellen has ever been seeing danger for New Haven interests in one direction or another—often fancied dangers, rather than real—and has acted to avert, as he thought, such dangers. When once possessed with such an idea, no expenditure of money has been deemed too great for the purpose of baffling the supposed foe. Moreover, with the New Haven's resources and unlimited credit at his command—for in being given unchecked control over New Haven affairs he has come into the possession of a heritage such as has fallen to the lot of few men in modern times—the task was always easy of accomplishment. His first great act was the purchase of control of New York Ontario & Western. No one has ever been able to see what use or service this property could be to the New Haven Company. It was a good enough little road, built up in a painstaking way by President Fowler, and not an unprofitable venture in its way; but why the New Haven should go so far out of its field has puzzled everybody. Some suggested that it gave the New Haven an entry into the anthracite fields and would pave the way for sending coal into New England by way of the Poughkeepsie Bridge instead of by water. The fact that the New Haven has since been acquiring various pieces of road in the vicinity of the Poughkeepsie Bridge gives color to the idea that possibly some such notion was in mind when the purchase was made. But the scheme is chimerical. It is the same scheme that brought President McLeod of the Reading Railroad to grief. Water transportation is so much cheaper than rail transportation that the bulk of the coal shipments to New England must always go by water.

Another suggestion with reference to this purchase was that the Ontario road could be used as a club against the trunk lines and particularly against the New York Central. There was an air of plausibility in this, and the trunk-line officials certainly were profoundly disturbed. The purchase cost some $15,000,000, and the Central has now been given an option to acquire the property if it sees fit, after having, as supposed, made the concessions requested, and given the required promise of good behavior. The truth probably is, Mr. Mellen was fearful of encroachments into his territory on the part of either the trunk lines or the anthracite lines, or both, and accordingly proceeded in his quick, unhesitating manner to buy the Ontario & Western to protect the New Haven.

Mr. Mellen next saw danger in the development of the trolley lines of the New England States. He acted with equal determination to save the New Haven from supposed harm in that direction. His operations in the acquisition of these trolley properties have been dazzling in the extreme. In recent periods hardly a day has elapsed that has not brought news of the acquisition of another line, either large or small. In an editorial article in the number of our "Street Railway" Section or Supplement which accompanies to-day's issue of the "Chronicle," we show how extensive have been the New Haven's purchases and leases of trolley lines. Its operations have extended over the three States in which its lines lie, namely Massachusetts, Rhode Island and Connecticut. Separate organizations control the trolleys acquired in each. Altogether the New Haven now controls by lease or purchase roughly 1,500 miles of trolley track—the route mileage cannot be stated, as it is customary with street railways to report length of track rather than length of road. If previously Mr. Mellen excited the hostility of the trunk lines and the anthracite coal roads by his sudden move in taking over the Ontario & Western Ry., he now aroused hostility and antagonism on the part of the public. Rightly or wrongly, the communities served did not take kindly to the idea that the New Haven, controlling already practically all the steam railroads in the territory south of Boston, should at the same time be meditating control of the electric lines.

In Massachusetts the feeling found open expression in the Legislature. Mr. Mellen knows the force of public opinion and was inclined to make concessions to it so far as this could be done without altering his plans or changing his course. As public sentiment in Massachusetts was so strongly hostile to the holding of trolley control by steam railways, a voluntary association was organized in June last year to take over the street railway lines in Massachusetts which the New Haven had acquired. The name given to this association was the New England Investment & Security Co. It now holds control of a number of important Massachusetts trolleys, among others the Springfield Street Ry., the Worcester Consolidated Street Ry., &c. As, however, the New Haven still dominates their affairs, and the board of trustees, with Mr. Mellen at the head, seems to be constituted in its interests, the change resembles one in form rather than in fact. At all events, opposition to the New Haven on its trolley policy has not relaxed.

Whether or not it is advisable for steam roads to enter the trolley field is a broad question, and it behooves every man to be cautious about venturing a too confident expression of opinion on the subject.

There are those who assert that the trolley lines can never become real competitors of the steam roads. Should they ever become formidable, the New Haven was manifestly in position to be damaged more seriously than most other steam railroads, by reason of the magnitude of its passenger business. It is plain that the New Haven could not allow a situation to be created such as existed in the case of the West Shore or the Nickel Plate. If, therefore, Mr. Mellen had limited his activities in the trolley field to the acquisition of the few lines that threatened or seemed likely to become rivals for some of the passenger business, the arguments in support of his policy would have possessed considerable plausibility. Even then, however, many persons would have remained unconvinced. These scout the idea that a magnificent property like the New Haven, with its superb facilities devoted almost entirely to the passenger business and further strengthened through the series of improvements which Mr. Mellen is carrying on, can ever suffer serious harm from trolley competitors, no matter how well managed these may be and though they should be backed by abundant capital, which has been generally lacking thus far. At all events, Mr. Mellen has not confined his operations to the taking over of two or three prospective competitors. He has gone much farther. He has bought for the New Haven practically all the trolley lines in Connecticut and Rhode Island and a large part of the trolley mileage in Massachusetts—nearly everything outside of that held by the Massachusetts Electric Companies.

Public opposition to Mr. Mellen's trolley acquisitions did not rest alone on the fact that it would tend to remove competition between the electric roads and the steam roads. Many of the trolley lines furnish electricity for light and power, and where that is not already the case, the chances are that it will become so eventually, since experience has demonstrated that the best and most economical results can be obtained where the lighting and power features are combined with the carrying business. There was thus presented the possibility of a monopoly that would embrace all the steam railroad facilities and the trolley lines and also the lighting and power facilities. It should be noted, too, that some of the trolley companies acquired likewise possess gas plants.

But Mr. Mellen has also gone extensively into the business of purchasing steamship lines. We may suppose that the reason was the same as in the other cases, namely the desire to protect the New Haven's interests. The company's Sound traffic has always been extensive; in fact, through its various steamship lines it gets practically all the Sound traffic, very little going to any one else. But Charles W. Morse was becoming very active in the steamship business, and Mr. Mellen thought it incumbent that he should be prepared to deal with such a situation. His method was similar to that in his first move, when he acquired possession of the Ontario & Western. He extended his field of operations to the territory of the possible rival, in order to guard his own territory. He bought control of the Boston & Philadelphia Steamship Co., got a foothold in the Merchants' & Miners' Transportation of Baltimore, and then combined them with the water lines already controlled by the New Haven, namely the Old Colony Steamboat Co. and the New England Navigation Co. The consolidation was effected under the name of the last-named company, the capital of which was increased to $20,000,000 for the purpose. The lines taken over have been profitable properties, but obviously that in itself furnishes no valid or sufficient reason for buying them.

The next step in the process was to have the Consolidated Railway Co., which held the trolley lines, increase its capital stock from $10,000,000 to $30,000,000 and exchange the added stock, share for share, for the $20,000,000 Navigation stock, forming a curious mixture of trolley properties and steamship lines. The last step has just been taken, and consists in exchanging the $30,000,000 Consolidated Railway stock for a similar amount of New Haven stock, this latter being then placed in the New Haven treasury available for future uses, it having been authorized to be listed on the New York Stock Exchange on the 5th of the present month. The company has given notice that it will use this stock to acquire from time to time, as opportunity offers, Boston & Maine stock in exchange, share for share.

It will thus be seen that the situation with which the Massachusetts Legislature and the Massachusetts public has had to deal has been a peculiar one. It has not been merely a proposition for the union of the Boston & Maine and the New Haven as simple steam railroad systems. The policy pursued with reference to the New Haven, in the acquisition of trolley and light properties, would presumably be extended to the Boston & Maine after the latter became part of the New Haven system—that is, trolley and light properties would be acquired in Maine, New Hampshire and Vermont just as they had been previously acquired in Massachusetts, Connecticut and Rhode Island. That done, one company would dominate practically everything in the whole of the New England States—steam roads, trolley roads, water lines and light and power properties. Under these circumstances, is it at all strange that the Massachusetts Legislature is shrinking from the possibility of such a result, and is doing what can be done to thwart the effort?

Latterly, security holders have also been getting restive. Very naturally the capital outlays for all these various purposes have been enormous. Furthermore, other large sums of money will be needed to carry present plans to completion—for instance, to connect up the various disjointed pieces of trolley lines scattered over three States. The New Haven is a splendid property and occupies a position of great financial strength, with a large and assured income, to which the trolley and water lines cannot fail to contribute in an important degree. Hence, the point has not yet been reached where well-grounded fears exist of a serious impairment of the value of the stock. Nevertheless, it must be admitted that under the new policy questions come up with reference to the future that could not have arisen under a different policy. The balance sheet of the New Haven Co. for June 30 1903 (which was shortly before Mr. Mellen was called to the presidency) showed outstanding stock of $70,897,300. With the $20,000,000 additional stock just authorized to be listed as exchanged for Boston & Maine stock, the total of the stock will be $121,878,100. This will give an increase in four years of over $50,000,000. At June 30 1903 there were only three issues of convertible or non-convertible debentures,

for an aggregate of $10,185,300. On the other hand, the balance sheet for April 30 1907, filed with the New York Stock Exchange, shows fourteen different issues of debentures or debenture certificates, the whole aggregating no less than $104,995,425. Furthermore, there is the 4% 15-year French loan, negotiated a few months ago, which amounts to $27,985,000. Lastly, a number of subordinate companies have also been increasing their indebtedness; the $10,958,000 Harlem River & Port Chester Branch 4 per cents, the $4,000,000 Providence Terminal 4s and the $3,777,000 Boston & New York Air Line 4s all represent largely new capital. If, now, the check that Mr. Mellen has received at the hands of the Massachusetts Legislature shall induce him to call a halt in his policy of aggrandizement, everybody will be happier all around.

ITEMS ABOUT BANKS, BANKERS AND TRUST CO'S.

—No bank stocks were offered for sale at auction this week and none were sold at the Stock Exchange. No public sales of trust company stocks were made. Bid and asked quotations will be found to-day on pages 1536 and 1537.

—The Hill bill, amending the New York State tax law relative to the investment in State bonds by savings banks, trust companies and insurance companies, was signed on the 25th inst. by Governor Hughes. It is through this bill (published in these columns May 25) that it is sought to find a market for the Canal bonds of the State. Under its provisions a credit of 1% is allowed to be applied on or in lieu of certain taxes of such institutions holding any bonds of the State bearing interest at not exceeding 3%. The measure was passed by the Senate on May 15 and by the Assembly on May 28.

—Under a bill (Senate No. 337) passed by both the Massachusetts House and Senate, and signed by Governor Guild on the 19th inst., foreign banking corporations transacting a savings bank business in that State are required to maintain a separate savings department which shall be operated in accordance with the statutes of the Commonwealth governing savings banks. National banks are exempted from the provisions of the bill, which is as follows:

AN ACT RELATIVE TO FOREIGN BANKING CORPORATIONS.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

Section 1. Every foreign banking association or corporation which was on June 10 1906 transacting business in this Commonwealth, and which receives any deposits or transacts any business in the manner of a savings bank or in such a manner as might lead the public to believe that its business is that of a savings bank, shall have a savings department in which all business transacted in such manner in this Commonwealth shall be done. All money received in said manner shall be a special deposit and shall be placed in said savings department, and all loans or investments thereof shall be made in accordance with the statutes governing the investment of deposits in savings banks.

Section 2. Such funds and the investments or loans thereof shall be appropriated solely to the security and payment of such deposits, and shall not be mingled with the investments of the capital stock or other money or property belonging to such association or corporation, or be liable for the debts or obligations thereof. The accounts and transactions of said savings department shall be kept separate and distinct from the general business of the association or corporation.

Section 3. All income received from the investment of funds in said savings department over and above such sums as may be paid to depositors in that department as interest or dividends shall accrue as profits to the association or corporation and may be transferred to its general funds.

Section 4. Nothing in this Act shall be construed to apply to any deposit received by any such association or corporation in exchange for which deposit, or in exchange for the obligation of a depositor secured by such deposit, there shall be issued, either at the time of receiving the deposit, or thereafter, orders for merchandise for the full amount or any part thereof.

Section 5. No such association or corporation shall have more than two offices or places of business in the Commonwealth.

Section 6. This Act shall take effect on the first day of January 1908, but nothing herein contained shall be construed as applying to national banks incorporated under the laws of the United States.

—Provision for the better safeguarding of State financial institutions in Illinois is made in the Austin Bill, which was signed the current month by Governor Charles S. Deneen. Before the amendments can become a law, however, they will have to be passed upon by the people at the next general election, in November 1908, as, under the Constitution, changes in the banking law can be made only upon referendum vote. The measure, we learn from the "Commercial West," provides that every director must own, in his own right, at least ten shares of stock of his institution (this provision is said to be contained in the present act, but never having been approved formally by the people has been considered inoperative); it prohibits any bank loaning to its President, its Vice-President, salaried officers or employees, or firms or corporations controlled by them, until the application for such loans shall have been first approved both as to security and amount by the directors; requires that if there is a proposed surplus, it must be paid in as well as the capital and verified by the examiner before the bank is opened; stipulates that the Auditor may withhold the issuing of a charter when he is not satisfied as to the character of the officers or directors, or when he has reason to believe that the bank is organized for any purpose other than that contemplated by the banking Act; it provides also that the total liabilities to any association of any person, corporation or firm shall not exceed 15% of capital and surplus, and further that the total amount shall at no time exceed 30% of the capital.

—An amendment to the Kansas Banking law, adopted at the recent session of the Legislature, will, it is believed, bar the express companies from carrying on a money-order business in that State. This, according to the "Commercial West," is the opinion of Attorney John C. Nicholson of Newton, Kansas, the author of the amendment, which is as follows:

Any individual, firm or corporation who shall receive money on deposit, whether on certificate or subject to check, * * * or shall receive money for which it issues its check, draft, bill of exchange or other evidence of indebtedness for which it charges a fee, * * * shall be considered as doing a banking business and shall be amenable to all the provisions of this Act.

—The managers of the various branch banks at Regina, Saskatchewan (Canada), have resolved, subject to the approval of the head offices, to form a local clearing house.

—About three hundred members were in attendance at the convention this week of the New York State Bankers' Association, held at the Hotel Frontenac, Thousand Islands. The meeting opened on Thursday, Elliott C. McDougal, President of the Bank of Buffalo, presiding. In his annual address Mr. McDougal advocated that whatever reserve may be required by law, that reserve shall be in cash, in each bank's own vaults, and that the present system of reserve depositaries, both State and national, be abolished as most unsound and dangerous. "National bank notes," he continued, "should not be counted as reserve, either by national banks, State banks or trust companies. National bank notes are not money, but promises to pay money, in no essential differing from liabilities on certificates of deposit, on cashiers' checks or on open accounts payable on demand."

At the second day's session, yesterday, John R. Van Wormer, Secretary of the Lincoln Safe Deposit Co., New York, was a speaker, as was also Charles N. Fowler, Chairman of the Committee on Banking and Currency, House of Representatives. Charles Eliot Warren, Cashier of the Lincoln National Bank of New York, is the newly-elected President of the association.

—The new branch office of the Mutual Alliance Trust Company of this city, at Lenox Avenue and 116th St., will be opened to-day.

—An extra dividend of 1% in addition to the regular quarterly distribution of 2½% has been declared by the Oriental Bank of this city, payable July 1, being the 109th consecutive disbursement by this institution. With the dividends paid in January and April, 12% will have been paid so far this year. Previous to 1907 payments were 5% each January and July.

—Oliver M. Dennett, who with William O. Douglas, the defaulting assistant loan clerk of the Trust Company of America of this city, was recently indicted on charges in connection with the theft of bonds from the company, was sentenced on Wednesday to not less than four years nor more than six on one indictment, and not less than one nor more than four years on another. Douglas, who aided in the recovery of the bonds, received a lighter term, being sentenced to three years' imprisonment.

—A temporary injunction restraining the stockholders of the Mercantile and Equitable trust companies of this city from ratifying the merger of the two institutions, at a meeting called for July 2, was issued by Justice McCall of the Supreme Court on the 25th inst. on the application of Bainbridge Colby, of the law firm of Alexander & Colby. A hearing on the question of making permanent the injunction was had on Thursday in Special Term, Part 1, of the Supreme Court by Justice Blanchard, who reserved decision.

—The Prospect Park Bank of Brooklyn declared its first dividend this week, viz., 3%, payable July 1. The institution began business in October 1901 with $100,000 capital

and $25,000 surplus, the latter at the present time amounting to $51,000.

—The Riverside Trust Company of Hartford, Conn., the charter for which was originally secured in 1903, plans to begin business next month at 68 Pearl Street. The company is to have a capital of $150,000 and a surplus of $75,000; it is authorized under its charter to engage in a general banking and trust business. Albert P. Day has been chosen President and Robert C. Glazier has been elected Secretary and Treasurer.

—The directors of the Bristol National Bank of Bristol, Conn., have promoted Vice-President Charles T. Treadway to the presidency to succeed the late Edward B. Dunbar. W. A. Ingraham becomes Vice-President. Prior to his death several years ago, Mr. Treadway's father was at the head of the institution. Mr. Treadway is only 29 years old.

—John Perrin, President of the American National Bank of Indianapolis, Ind., was the principal speaker at the third annual meeting of the Massachusetts Bankers' Association, held at the Hotel Somerset, Boston, on the 20th inst. The topic of his discourse was "The Currency." The association's new officers are: President, Francis A. Shove, Treasurer of the Malden (Mass.) Savings Bank; Vice-President, Joseph W. Stevens, President of the First National Bank of Greenfield; Treasurer, Edward H. Lowell, Treasurer of the Chelsea Trust Co.

—A consolidation of the First National and Second National banks of Nashua, N. H., having a capital of $100,000 each, is planned. The step has been approved by the directors of the respective institutions, and will be submitted for the stockholders' ratification at an early date. The business of the two banks will be continued under the name of the Second National, which will increase its capital to $150,000. F. W. Estabrook will remain as President.

—The new building of the Union National Bank of Philadelphia, at Arch and Third streets, was opened for inspection on Thursday afternoon. The bank, which has been temporarily housed at 22-24 South Third Street, will begin business in its new home on Monday. The structure is of classic design, with facade of Indian limestone; the banking room, commodious and modern in every particular, is finished in marble and mahogany.

—E. V. Kane, of E. V. Kane & Company, Philadelphia, has returned from a trip through the Carolinas and Georgia, during which he was greatly impressed with the evidences of prosperity which he witnessed. "While it would be natural," he said, "after so long and so prosperous a period of good times that there should be some slackness of business, the South up to the present moment gives no evidence of reaction; on the contrary, it is practically at the top speed of development. In every city and town new manufactories are rising. It is significant that cotton mills are fast becoming general in the land of the raw product. Northern capital has awakened to the fact that the best opportunities for large investment returns are to be found south of Mason's and Dixon's line. The public utilities of the largest cities of the South are now owned by Northern investors, who are also rapidly acquiring those of the smaller towns."

—A distribution of 8% is being made to the stockholders of the Chestnut Street National Bank of Philadelphia, Pa., making in all 89% thus far returned upon the 100% assessment paid by them.

—George A. von Lingen, who was chosen President of the Commercial & Farmers' National Bank of Baltimore last December (succeeding W. A. Mason) but who resigned about six months later, owing to ill-health, died on the 26th inst. at the age of sixty-nine years. At the time of his death he was head of the firm of A. Schumacher & Co., the Baltimore agents of the North German Lloyd Steamship Co.

—Lemert S. Cook, a real estate dealer, recently tried in the U. S. District Court on alleged charges of aiding and abetting T. Lee Clark, the late Cashier of the Enterprise National Bank of Allegheny, in misapplying the funds of the institution, was found guilty, as indicted, on the 13th inst. Arguments for new trials in the cases of those thus far convicted in connection with the failure will be heard July 2.

—The directors of the Merchants' Savings & Trust Company of Pittsburgh, Pa., have declared a quarterly dividend of 1¾%—an increase of one-fourth of 1%—placing the stock on a 7% basis. A proposition reducing the capital from $500,000 to $250,000 was recently approved by the shareholders.

—According to the Treasury Bulletin of June 17, the capital of the Union National Bank, about to be opened in Scranton, Pa., will be $500,000, instead of $200,000, as planned originally. The bank is to begin business in July in temporary quarters in the Davidow Building. The following are the officers: W. L. Connell, President; D. W. Mears, Vice-President; F. W. Wollerton, Vice-President and Cashier; and William W. McCullough, Assistant Cashier.

—J. H. Strawn has been appointed receiver of the Farmers' & Drovers' National Bank of Waynesburg, Pa., succeeding George T. Cutts, who has become Bank Examiner at New York. The bank suspended on December 12 last. In the U. S. District Court on the 13th inst. Receiver Cutts was authorized to accept $60,000 in settlement of claims against Barney Grossman, Minor Grossman and J. B. F. Rinehart, Cashier of the bank. By this agreement, it is stated, "the creditors will receive from 25 to 30% of their claims, the bank will continue in operation, and all suits arising from the failure will be dropped, except those on two notes for $5,000 each which the First National Bank of Scottsdale holds against the Grossmans, with the endorsement of Mr. Rinehart."

—The Ohio Bankers' Association presented a notable array of speakers at its seventeenth annual session, held on Wednesday and Thursday at Cincinnati. Myron T. Herrick, ex-Governor of Ohio, discussed at considerable length "Legislation and Progress." In part he said: "All restrictive legislation, however wise, is inopportune at this time. With the wonderful prosperity of the country there has developed a corresponding increase in the demand for railroad facilities. There is a general complaint, notwithstanding the hundreds of millions of dollars that have been poured into railroad building and improvement, that the roads are not keeping pace with the necessity for transportation. At the present rate of increase, in twenty years we will have a population of 140 millions and in forty years nearly 200 millions will live and have their being in the United States. The realization of this probability means a reorganization of American economic life. It will require, even in our time, practically a duplication of the present railroad facilities. The necessity of approximately keeping pace with the demands for transportation forces the railroad question to the front—not only as a State but as a national problem of the first magnitude. It should be manifest that its solution lies along the line of inspiration of confidence by Congress and the Legislature, and upon its correct and speedy solution depends much of our future strength." Other subjects of discussion were: "The Treasury and the Banks," by Milton E. Ailes, Vice-President of the Riggs National Bank, Washington, D. C.; "Place of the Independent Treasury in the American Banking System," by Prof. E. S. Meade, of the University of Pennsylvania; "Work of the Currency Commission of the American Bankers' Association," &c.

—The Pearl Street Market Bank of Cincinnati has been incorporated with a capital of $100,000. The institution will locate in the commission house district and will conduct a general banking business. James Arata will be President.

—The date of the opening of the new Metropolitan Bank & Trust Company of Cincinnati has been set for July 15. The institution's offices will be at 534 Walnut Street. At a meeting last week the directors elected Thomas F. McClure as President; Josiah Kirby, R. K. Le Blond and John J. Bruce, Vice-Presidents; George W. Platt, Secretary; and L. M. Sanford, Cashier.

—Application has been made for a charter for the East End Bank of Cincinnati. The institution will have a capital of $50,000; its quarters will be in the neighborhood of Eastern Avenue and Carroll Street. J. A. De Armond is to be President. One of the organizers is R. K. Le Blond, a Vice-President of the new Metropolitan Bank & Trust Company of Cincinnati.

—The directors of the Ohio Trust Company of Columbus Ohio have elected John L. Vance Jr. as a Vice-President of the institution, he having resigned as Secretary and Treasurer of the company in order to devote more time to

other interests. Walter B. English, heretofore Assistant Secretary, succeeds to the office vacated by Mr. Vance. Mr. Vance has also been elected a Vice-President of the American Savings Bank of Columbas. George W. Bright, President of the Ohio Trust, has become a director of the savings bank.

—The executive council of the Indiana Bankers' Association has decided to hold this year's meeting at Indianapolis on October 23 and 24. Andrew Smith, Vice-President of the Capital National Bank of Indianapolis, is Secretary of the association.

—The City National Bank, capital $200,000, is to be organized at East St. Louis, Ill. The institution is projected by M. M. Stephens, A. B. Daab, C. L. Gray, H. C. Barnard and Robert E. Gillespie.

—Under the title of "The Railways," an address was delivered by E. D. Hulbert, Vice-President of the Merchants' Loan & Trust Company of Chicago, before the First District Group of the Minnesota Bankers' Association at its annual gathering on the 21st inst. at Winona. The St. Paul "Pioneer Press" reports that Mr. Hulbert views the railroad situation with alarm. He says that many people in Chicago believe President Roosevelt partly responsible for the same. Laws have been made so fast recently, he stated, it is not strange the railways do not live up to them. He criticises the Minnesota Legislature for passing the two-cent fare and reciprocal demurrage bills, and declared that adverse legislation causes poor service. By injuring railways, he added, everybody is injured. The group expressed itself as opposed to the mortgage registry tax law, on the ground that it is not equitable or just.

—Announcement of the dates for the holding of the annual convention of the Minnesota Bankers' Association is made in a little folder, the cover of which bears a calendar with the convention days conspicuously printed in red. The meeting will take place at the capital city (St. Paul) on July 9 and 10. The Secretary of the association is Ernest C. Brown, Assistant Cashier of the First National Bank of Minneapolis.

—A resolution was adopted by the Iowa Bankers' Association, at its annual session on the 18th and 19th inst. at Sioux City, petitioning the Legislature of that State to enact measures regulating the operation of trust companies and conferring upon them powers not now possessed by Iowa companies, but enjoyed by institutions of a like nature in other States. The bankers also favored the repeal of the bankruptcy law, and endorsed the action of the American Bankers' Association with regard to the test case which is to be brought for the purpose of determining the right of express companies to carry on a banking business. J. M. Dinwiddie, Cashier of the Cedar Rapids Savings Bank, has been re-elected Secretary of the association.

—W. A. Brooks, who was Cashier of the First National Bank of Tonkawa, Okla., has sold his interest in that institution, having become Vice-President of the Columbia Bank & Trust Company of Oklahoma City, of which his father, Caleb R. Brooks, is President.

—J. G. Morony has been chosen President of the Daly Bank & Trust Company of Butte, Mont., to succeed H. L. Lalor, the latter replacing Charles F. Booth as Vice-President of the institution.

—It is stated that J. S. Parks, who lately resigned as President of the American National Bank of Kansas City, Mo. (now the National Bank of the Republic), is to be President of a new trust company shortly to open in that city. It is to be known as the Assurance Trust Company, and is to have a capital of $100,000. The company, it is reported, will make a specialty of real estate and mortgage business.

—The Prudential Trust Company and the Prudential Savings Bank of Topeka, allied institutions, have removed to their own building at Seventh Street and Kansas Avenue. Both concerns began business last year.

—At the convention of the Tennessee Bankers' Association, held on the 18th and 19th inst. at Lookout Mountain, President T. R. Preston (of the Hamilton National Bank of Chattanooga) recommended that the association employ a lawyer to take up all legal questions pertinent to banking, without cost to the individual members. He also recommended the adoption of the group system, and referred to the needs of the State for a Banking Department, both in the interest of the depositor and banker. In an address on "Credit Currency," Joseph A. McCord, Vice-President of the Third National Bank of Atlanta, stated, according to the account of his speech in the "Nashville Banner," that, while the present commercial activity continued, things would be all right, but with any reaction there would be a repetition of the panic of 1893, owing to the tremendous amount of outstanding national bank currency. The newly elected President of the association is E. A. Lindsey, Vice-President of the First National Bank of Nashville.

—The Chattanooga Savings Bank of Chattanooga, Tenn., which conducts a purely savings and trust business, claims to be the largest savings depository in Tennessee; its depositors number 8,200, and on May 20 it reported deposits of $2,361,856. The institution has a capital of $100,000 and surplus and profits of $141,856; to the date of its latest statement it had paid in interest $139,232. W. A. Sadd is President.

—In accordance with arrangements perfected on Monday, the Lowry National Bank of Atlanta, Ga., is to take over al the deposits of the Trust Company of Georgia at Atlanta. According to the "Atlanta Constitution," the latter, which has in the past been allied to the Lowry National, will become the owner of a large part of the bank's capital (25%, it is stated), and will in future confine itself solely to a trust business. It is the intention to increase the capital of the Lowry National from $500,000 to $800,000; this, with surplus and profits of $680,000, will, it is claimed, give the bank the largest working capital among the State's financial institutions. Of the $300,000 increase in capital, $100,000 will be derived from a 20% stock dividend to be declared; the other $200,000 will come from the sale of new stock.

—A map showing within a border of red the burned area of San Francisco, and indicating (with black markings) the extent of the re-building operations already under way, has been published by the California Promotion Committee of San Francisco. One of these maps, sent to us by the Metropolis Trust & Savings Bank of that city, shows in green the location of the bank's own fourteen-story building, adjoining the site of the Palace Hotel on Market Street which will place it in the centre of the permanent business district of the city. The bank expects to be installed in the first floor and basement by January 1 1908. In the meantime, it is occupying its own temporary building at 1237 Van Ness Avenue.

—The second annual convention of the Oregon State Bankers' Association took place at Portland on the 14th and 15th inst. A feature of the business program was the five-minute talks of bankers representing the various counties of the State, every one of whom commented on the general prosperity of the State. The tenor of their remarks was to the effect that with bank funds far in excess of local requirements, the State has passed from a borrower to a lender. Papers were read at the meeting by Joseph Chapman Jr., Cashier of the Northwestern National Bank of Minneapolis; A. L. Mills, President of the First National Bank of Portland, and E. D. Cusick of Albany, Oregon. State Bank Examiner James Steel also addressed the meeting and solicited the aid of the bankers in his efforts to systematize and improve the State banking business. J. L. Hartman, Manager of the Portland Clearing House, has been re-elected Secretary of the State association.

—The forty-second annual meeting of the stockholders of the Union Bank of Canada (head office, Quebec) was held on the 19th inst. The report submitted for the year ending May 31 1907 showed net profits, after the usual deductions, of $146,533, which, with the balance of $27,547 at credit of the profit and loss account on May 31 1906, gave a total of $174,080. The appropriations out of this were as follows: $240,000 paid in dividends (3½% semi-annually); $100,000 transferred to rest account, increasing it to $1,600,000; $100,000 written off bank premises; and $20,000 voted to family of the late President, Andrew Thomson, leaving a balance of $14,080 to be carried forward. The bank has total assets of $30,607,500. In compliance with the authority of the shareholders granted in June 1903, it has been decided to increase the capital from $3,000,000 to $4,000,000.

The new stock will be issued to the shareholders in proportion to their present holdings at $140 per share. A resolution has been passed changing the date of the annual meeting from June to December, and the fiscal year will accordingly hereafter end on November 30 instead of May 31. Following the practice adopted recently by other Canadian banks, it has also been decided to make future dividend payments quarterly instead of semi-annually. G. H. Balfour is General Manager.

—The Quebec Bank (head office Quebec) in its annual statement of May 16 1907, reports net profits for the twelve months, after deducting charges of management and making provision for bad and doubtful debts, of $300,011. With the balance of $60,832 at the credit of profit and loss the previous year, the bank had available $360,843, which was distributed as follows: dividend payments, 1¾% quarterly, $175,000; reserved for pension funds, $5,000; reserved for depreciation in securities held, $10,000; and added to rest account, $100,000; leaving a balance of $70,843 to be carried to the profit and loss account. The bank has a capital of $2,500,000, a rest fund of $1,250,000, deposits (May 31) of $8,604,824, and total assets of $14,458,650. John Breakey is President and Thos. McDougall General Manager.

—The Dominion Bank (head office, Toronto) announces the following appointments: Head office, H. J. Bethune as Superintendent of Branches; E. A. Begg, Chief Inspector, and E. H. Baines, Secretary; Branches: W. K. Pearce, Manager at Hamilton; E. S. Anderson, Manager at St. Thomas; C. E. Thomas, Manager at Ottawa; T. M. Scott, Manager at Berlin; R. D. Black, Manager at Hespeler; and A. M. Bethune, Acting Manager at Brampton.

TRADE AND TRADE CENTRES.—Mr. Henry C. Swords, of the Fulton Trust Company of this city, sends us a monograph on "Trade and Trade Centres of History," by W. Hamilton Benham. This is one of a small class of books which are labors of love and zeal, being non-commercial in origin and intent, but wrought out of interest in some special topic. Mr. Benham having catalogued the collection of engravings gathered together by Mr. Swords of merchants, bankers and financiers of former times, and having written brief biographies of them, he made the subject of commerce before the American war of independence so interesting that Mr. Swords asked him to prepare a paper on commerce from the early days to about the close of the eighteenth century. This work was done so well that Mr. Swords has had it printed in the volume before us, "in the belief that others will enjoy reading it."

Such is the genesis of this thin volume of 60 octavo pages, in large type with wide margins. Only a thousand copies have been printed, direct from the type, and the imprint of the DeVinne Press is guaranty of the typographical beauty which pleases the eye when one can take time for leisurely enjoyment in these times of hurry. A few of the pictures from Mr. Sword's collection embellish the book: Colbert, the brilliant Minister of Louis XIV. of France; Josiah Child of the East India Company of the time of Charles II.; the great member of the Medicis of Florence, known as Lorenzo the Magnificent; that financier of the Elizabethan era whose name will always be associated with "Gresham's Law"; the Bank of England, the Bank of Hamburg; and three maps indicative of the lines of ancient trade, one between North and South Europe and two with the East. Of course these were mainly water routes. They began, as trade began, almost with the compass, the inventor of which is still unknown. It is ascribed to Flavio Gioja, near the beginning of the fourteenth century; but references to the polarity of the needle, and even some crude applications of that principle to navigation, have been found much earlier than that century.

"History has too long been regarded," says the author, "as the story of reigning families, political factions and professional rulers;" but an economic cause lies behind them all, for "rulers are a luxury." They have to be supported. War usually has some material end in view. Therefore the merchant and the banker are the real rulers of the world.

Mr. Benham has done his work well, and Mr. Swords has carried out a praiseworthy desire to share with others. He thinks many a man pictured in his collection might justly be called—as a great railroad man and financier lately deceased was called—"an Apostle of Accomplishment." The suggestion is apt and even timely. The men who do things often find their age ungrateful. They are liable to be misunderstood, bitterly opposed, and even maligned; so they must wait for the justice which posterity accords. Mr. Swords has to leave to future collectors the task of gathering portraits of the men of this day; but he has done a good work in gathering these, and in offering them, with this sketch, for leisurely examination.

Monetary and Commercial English News

(From our own correspondent.)

London, Saturday, June 15 1907.

In the early part of the week there was a fairly cheerful feeling, and people were beginning to look forward with greater hope to the immediate future. As, however, the fortnightly settlement on the Stock Exchange proceeded, it became known that certain firms were in difficulties. As a matter of fact, only two small failures occurred. But there is an apprehension that others will follow, and that therefore the liquidation which has been going on ever since the beginning of the year is not yet at an end

The apprehensions have been increased by the reported failures in Egypt and in Paris. There has been a rampant speculation in Egypt for a considerable time past, the great progress the country is making having encouraged company-mongers to bring out all sorts of unsafe enterprises. A number of exceedingly good companies have, of course, been formed, and doubtless will do well. But the worst companies are sure to fall into difficulties as soon as trouble arises. It is said that some of those interested in these companies are already in difficulties, and it is believed that a good deal of the loss will fall upon capitalists in Paris who have financed these unsound enterprises.

There has also been a renewed fall upon the Berlin Bourse, especially in German industrial companies. It is understood that the banks have put pressure upon the operators to pay back a portion, at all events, of the loans raised by them, and have thus compelled selling upon a considerable scale. Everywhere throughout Europe, in short, the week has been one of declining quotations and anxious apprehensions.

The trouble, no doubt, has been greatly intensified by the crisis in the wine industry in France. It will be recollected that the southern wine districts of France suffered exceptionally from the philoxera disease about a generation ago. Vineyards over vast areas had to be torn up and replanted with American vines. The cost was very great, and the growers have not been able to entirely free themselves from debt. Now there is a glut of wine. The price has fallen so low that it is alleged it does not pay for the cost of the growing. The work people are employed only three or four days out of the week, and all the industries that depend upon the wine industry naturally share in its distress. It is alleged, and apparently truly alleged, that the genuine production of wine in France is somewhat smaller than the national consumption, but that adulteration is practiced on so great a scale that a glut has taken place and the wine industry is plunged in deep distress. To meet this difficulty the Government has introduced a bill for heavily taxing sugar employed in wine and preventing it being used at all in certain circumstances. Moreover, the bill takes measures against employing too much water. It is hoped that this will meet the real requirements of the case, and that after a while the wine industry will begin to recover. For the moment, however, the great demonstrations in southern France, the resignation of mayors and municipal councillors throughout four great departments, and the insubordination shown by certain regiments, have made a painful impression, and doubtless have helped greatly to produce the weakness upon the bourses and the stock exchanges all over Europe.

Moreover, the Russian Government has this week transferred a good deal of the money standing to its credit in Paris to St. Petersburg and to Berlin. The internal troubles probably account for the remittance from Paris to St. Petersburg, while the transfer to Berlin is explained by the fact that floating debt to a considerable amount is falling due in Berlin and has to be paid off. At the same time the Japanese Government has transferred to London a considerable portion of the money standing to its credit in Paris since the late loan in Paris. The result of these transfers is that money for the moment has become comparatively scarce and dear in Paris, which no doubt has also helped to weaken the bourse and by its counteraction to increase the uneasiness on the other bourses and stock exchanges of Europe.

The Bank of England has made no change in its rate of discount this week, nor is it likely to make a change during the present month. We are now only a fortnight from the end of the quarter and half-year when "window-dressing" by the banks and the usual half-yearly requirements will cause money to be in very strong demand. Furthermore, the French banks, for the reasons pointed out above, are strengthening themselves. They are receiving gold not only from New York but also from London. It is believed that the debt due from the Bank of England to the Bank of France is now repaid. Yet it looks as if further amounts would be

taken from London to Paris. Moreover, the French banks have withdrawn the balances they were employing in Berlin, and generally they are making efforts to strengthen themselves, mainly, no doubt, because of the wine crisis; partly also because of the fears of socialism, and to some extent no doubt also because of the apprehensions of further failures at home and abroad.

In Germany there has been a decrease in the note circulation, but everybody knows that there will be a very large increase at the end of this month. The Bank is not as strong as it ought to be under all the circumstances, and yet it has failed to attract gold from abroad. It seems certain, therefore, that there will be no change in the rate of discount of the Imperial Bank of Germany this month. Whether a change can be made even next month is doubted by many persons.

Upon the whole the prospect seems to be that money will continue very nearly at its present value for two or three weeks yet. Whether it will become still easier then will depend partly upon the harvest prospects all over the world and partly upon the course of events in New York. If money continues easy in New York and there is an improvement on the Stock Exchange, apprehensions in Europe will decrease, and it is possible that money may become cheaper. But if the harvest prospects are bad and there is no improvement on the New York Stock Exchange, the likelihood is that rates will be fully maintained even in July.

The India Council offered for tender on Wednesday 50 lacs, and the applications exceeded 383 lacs, at prices ranging from 1s. 4d. to 1s. 4 1/8d. per rupee. Applicants for bills at 1s. 4 3-32d. and for telegraphic transfers at 1s. 4 1/8d. per rupee were allotted about 15% of the amounts applied for.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last four years:

Messrs. Pixley & Abell write as follows under date of June 13:

GOLD.—All this week's arrivals have been taken by the Bank. The Bank has received £753,000, of which £498,000 is in bars, and £250,000 set free by the Indian Council. The withdrawals amount to £335,000, chiefly for Egypt and South America. £448,000 is due next week from the Cape. For the week—Arrivals—Cape, £555,000; Australia, £168,000; Brazil, £18,000; West Indies, £7,000; Total:, £748,000. Shipments—Bombay, £142,450; Calcutta, £12,500; Madras, £20,250; Total ,£175,200. For month of May—Arrivals—Holland, £51,000; France, £14,000; South Africa, £3,304,000; West Africa, £189,000; India, £192,000; Straits, £24,000. Shipments—Holland, £32,000; France, £1,311,000; South Africa £120,000; West Africa, *nil;* India, £820,000; Straits, £400,000.

SILVER.—Fluctuations during past week have been small, the lowest quotation being 30½d. for cash, and the highest 30 13-16d., whilst forward, owing to full supplies of spot silver in London, is now quoted at 3-16d. over the cash price. Both China and the Indian Bazaars have been buyers, and the market closes quiet and steady. The Bombay price is Rs. 78¾ per 100 Tolahs. For the week—Arrivals—New York, £186,000; China, £99,000. West Indies, £2,000; Total, £287,000. Shipments—Bombay, £238,300; Singapore, £13,500; Madras, £5,000; Total, £256,800. For month of May—Arrivals—France, £71,000; U. S. A., £894,000; China, £374,000; India, ——; Straits, ——. Shipments—France, £92,000; U. S. A., ——; China, £36,000; India £777,000; Straits, £170,000.

MEXICAN DOLLARS.—Mexico is not a seller at this level of prices. Arrivals—New York £10,000. Shipments—Bombay, £68,000.

Statement of New York City Clearing-House Banks.—The following statement shows the condition of the New York City Clearing-House banks for the week ending June 22. It should be distinctly understood that as to all items except capital and surplus the figures are the averages of the daily results, not the totals at the end of the week. In other words, in reporting loans and deposits and holdings of specie and legal tenders, the practice is to take the aggregate of the amounts for the several days of the week and divide this aggregate by the number of days.

We omit two ciphers (00) in all cases.

Banks 00s omitted.	Capital.	Surplus.	Loans.	Specie.	Legals.	Deposits. a	Res've
	$	$	$	$	$	$	%

a Including for Boston and Philadelphia the item "due to other banks" and also Government deposits. For Boston these Government deposits amounted on June 22 to $4,594,000; on June 15 to $4,583,000.

Imports and Exports for the Week.—The following are the imports at New York for the week ending June 22, also totals since the beginning of the first week in January:

FOREIGN IMPORTS AT NEW YORK.

For week.	1907.	1906.	1905.	1904.
Dry Goods	$3,011,834	$2,247,943	$2,000,519	$2,013,755
General Merchandise	14,778,558	12,289,662	8,995,988	9,471,510
Total	$17,790,392	$14,537,605	$10,996,507	$11,485,265
Since January 1.				
Dry Goods	$91,952,479	$78,641,557	$67,813,141	$57,744,034
General Merchandise	341,500,590	289,766,660	277,527,219	236,280,010
Total 25 weeks	433,453,069	$368,408,217	$345,340,360	$294,024,044

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending June 22 and from Jan. 1 to date.

EXPORTS FROM NEW YORK FOR THE WEEK.

	1907.	1906.	1905.	1904.
For the week	$11,992,783	$12,687,068	$11,437,923	$8,605,653
Previously reported	288,959,655	294,235,846	246,054,871	225,411,424
Total 25 weeks	$300,952,438	$306,922,914	$257,492,794	$234,017,077

The following table shows the exports and imports of specie at the port of New York for the week ending June 22 and since Jan. 1 1907, and for the corresponding periods in 1906 and 1905:

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

Gold.	Exports.		Imports.	
	Week.	Since Jan. 1	Week.	Since Jan. 1
Great Britain	----	$4,845,085	----	$2,540,353
France	$5,997,038	12,035,007	----	331,087
Germany	----	----	----	1,155,297
West Indies	----	412,555	$3,027	159,309
Mexico	----	7,000	4,550	102,601
South America	175,000	1,685,711	48,628	1,358,781
All other countries	----	----	4,958	196,998
Total 1907	$6,172,038	$18,985,358	$61,163	$5,844,426
Total 1906	11,000	5,601,922	104,387	44,812,965
Total 1905	403,800	33,292,946	482,957	5,912,541
Silver.				
Great Britain	$640,144	$18,662,809	----	$2,259
France	217,000	1,360,000	----	----
Germany	----	6,555	----	158
West Indies	----	106,554	231	59,847
Mexico	----	----	13,790	465,467
South America	----	600	42,420	458,226
All other countries	----	4,786	1,730	10,322
Total 1907	$857,144	$20,141,304	$58,171	$996,279
Total 1906	890,737	26,978,809	75,535	1,187,961
Total 1905	672,201	15,582,002	76,956	1,706,225

Of the above imports for the week in 1907, $260 were American gold coin and $1,730 American silver coin. Of the exports during the same time ----- were American gold coin and ----- were American silver coin.

Banking and Financial.

We shall be pleased to mail investors copies of our 10-page circular describing **57 Short-Term Notes and Collateral Trust Bonds.**

Bankers' Gazette.

Wall Street, Friday Night, June 28, 1907.

The Money Market and Financial Situation.—There is a better feeling in Stock Exchange circles if the volume of business and the tendency of prices are a criterion of the prevailing sentiment. The change dates from Monday, when the total transactions were the smallest in recent years and prices near the lowest. It was stimulated, no doubt, by increasing hopefulness in regard to the growing crops, which have developed rapidly during the week, and later, perhaps, by the more favorable financial situation abroad. From whatever cause, it has resulted in more activity and a substantial recovery in prices in the security markets. It did not, however, make a success of the New York City bond offering to-day, bids for only $2,121,840 having been received for the proposed issue of $29,000,000.

The sum of $7,400,000 gold has been engaged for export during the week, making the total to date $25,900,000, and, as noted above, the financial situation abroad is easier.

This gold movement, together with preparations for the approaching half-yearly settlements, has given a decidedly firmer tone to the local money market. Call loans were made at 12% to-day, the highest in recent months.

Some of the railroad reports given out this week, notably that of the Atchison system, show a large increase in the traffic handled, and if the present crop prospects continue good to the end, a large business for the coming season seems assured to railroads throughout the West and Southwest.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 2 to 12%. To-day's rates on call were 6@12%. Prime commercial paper quoted at 5½% for endorsements and 5½@6% for best single names.

The Bank of England weekly statement on Thursday showed a decrease in bullion of £124,111, and the percentage of reserve to liabilities was 42.70, against 47.30 last week.

The discount rate remains at 4% as fixed April 25. The Bank of France shows an increase of 8,325,000 francs in gold and a decrease of 475,000 francs in silver.

a $31,734,900 United States deposits included, against $31,639,400 last week and $15,489,700 the corresponding week of 1906. With these United States deposits eliminated, the surplus reserve would be $13,560,325 on June 22 and $12,424,475 on June 15.

Note.—Returns of separate banks appear on page 1530.

Foreign Exchange.—The foreign exchange market was generally lower this week, influenced by the cessation of gold exports, by relatively higher rates for money on time here than for discounts abroad, which encouraged the negotiation of finance bills, and by some speculative selling. Gold shipments to Paris $3,650,000 and to London $3,750,000.

To-day's (Friday's) nominal rates for sterling exchange were 4 84½ for sixty-day and 4 88 for sight. To-day's (Friday's) actual rates for sterling exchange were 4 8365@4 8375 for long, 4 8670@4 8675 for short and 4 8760@4 8770 for cables. Commercial on banks 4 8320@4 8330 and documents for payment 4 82 5/8@4 83 5/8. Cotton for payment 4 82 5/8@4 82¾, cotton for acceptance 4 8320@4 8330 and grain for payment 4 83½@4 83 5/8.

To-day's (Friday's) actual rates for Paris bankers' francs were 5 19¾@5 19¾*a* for long and 5 16¼*a*@5 16¼*d* for short. Germany bankers' marks were 94 5/8@94 11-16*d* for long and 95⅛@95 3-16 for short. Amsterdam bankers' guilders were 40 35@40 37 for short.

Exchange at Paris on London to-day 25f. 14½c.; week's range, 25f. 15c. high and 25f. 14½c. low.

The week's range for exchange rates follows:

	Long		Short		Cables	
Sterling, Actual—						
High	4 84	@4 8410	4 8725	@4 8730	4 8810	@4 8815

High	----------	@ ----------	40 35	@40 37	----------	----------
Low	----------	@ ----------	40 33	@40 35	----------	----------

Less *a* 1-16 of 1%. *d* 1-32 of 1%. *h* 3-32 of 1%.
Plus: *k* 1-16 of 1%. *x* 1-32 of 1%. *y* 3-32 of 1%.

The following were the rates for domestic exchange at New York on the undermentioned cities to-day: Savannah buying, 50c. per $1,000 discount; selling, 75c. per $1,000 premium. Charleston, $1 per $1,000 premium. New Orleans bank, 20c. per $1,000 premium; commercial, 15c. per $1,000 discount. Chicago, 20c. per $1,000 premium. St. Louis, 10c. per $1,000 premium. San Francisco, par.

State and Railroad Bonds.—Sales of State bonds at the Board limited to $1,000 Va. 6s deferred trust receipts at 24.

The market for railway and industrial bonds has become more active in sympathy with the shares market, the transactions on Thursday amounting to $1,200,000, against $700,000 on Monday. Prices, too, have advanced, but on a moderate scale.

There have been almost no exceptions to the general tendency of the market. Among the strong features are Atchison conv. 4s, Brooklyn Rapid Transit conv. 4s, Delaware & Hudson conv. 4s and Northern Pacific 4s, which are from 1 to 2 points higher than last week.

United States Bonds.—Sales of Government bonds at the Board include $9,000 3s, coup., 1908-18, at 102¼ to 103⅛, and $10,000 4s, reg., 1925, at 128⅞. The following are the daily closing quotations; *for yearly range see third page following.*

* This is the price bid at the morning board; no *sale* was made.

Railroad and Miscellaneous Stocks.—During a large part of the week the stock market has been more active and firmer in tone than for some time past. The transactions on Monday aggregated only 140,250 shares, and the lowest prices of the week were also generally reached on that day. From the prices then recorded there has been, notwithstanding a decline averaging over a point near the close to-day, a recovery of from 3 to 7 points in practically the entire active list and the daily transactions have increased nearly fourfold.

Union Pacific and Reading continue to hold an important position as leaders of the market, over 40% of the total business of the week having included these issues, and they covered a range of 8 and 7 points, respectively. Southern Railway preferred has been a notably strong feature, selling to-day 10½ points above last week's closing price. Fluctuations have been wide in Great Northern, Northern Pacific, Canadian Pacific, North West, and Delaware & Hudson.

Not many industrial issues have been conspicuous in the week's operations. The Copper stocks have been strong features of this group, moving up from 5 to 6 points in sympathy with the general market. Other changes unimportant.

For daily volume of business see page 1543.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

STOCKS. Week ending June 28.	Sales for Week.	Range for week. Lowest.		Range for week. Highest.		Range since Jan. 1. Lowest.		Range since Jan. 1. Highest.

Outside Market.—A fair amount of activity and a higher range to prices have been the characteristics of the outside market this week. A better tone has prevailed, and most stocks close substantially higher. Copper shares showed continuous improvement. Greene-Cananea, one of the most active issues, moved up from 15½ to 16¾, closing to-day at 16½. Boston Consolidated Copper was strong and rose from 23⅜ to 27⅜. British Columbia Copper advanced from 8⅜ to 9 and back to 8⅞. Butte Coalition gained about 3 points to 25⅜. Davis Daly Estates and Nevada-Utah were both active and strong, the former running up from 11¾ to 12⅞, and the latter from 4⅞ to 6, with the close to-day at 5¾. Dominion Copper advanced from 5½ to 6⅛, but sank back to 6. United Copper common from 62 moved up to 64 and back finally to 63⅝. Gold Hill advanced from 1⅞ to 2¼ and Trinity Copper from 22¼ to 23⅜. Nipissing was quiet but strong, selling up from 11⅜ to 12 and down to 11½. Micmac suffered a loss of 1⅝ points to 5⅛, but advanced finally to 5⅜. Industrials were quiet. American Writing Paper preferred sold up 2 points to 22 and American Tobacco from 325 to 335 and back to 330. Western Ice was conspicuous. After an advance from 33⅞ to 34¼, it dropped to 33 and to-day to 30¼. Standard Oil moved up from 502¾ to 506, but subsequently reacted to 505. Consolidated Steamship sold down from 3 to 2⅞ and up to-day to 3¼. Manhattan Transit ranged between 5⅜ and 5⅝. Chicago Subway ran up from 21 to 21⅞, ending the week at 21⅜. Adams Express new 4s, w. i., were dealt in for the first time between 96 and 96½.

Outside quotations will be found on page 1543.

Investment and Railroad Intelligence.

RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from **July 1** to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. *The returns of the street railways are brought together separately on a subsequent page.*

Net Earnings Monthly to Latest Dates.—The table following shows the gross and net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the issue of June 22 1907. The next will appear in the issue of July 20.

a Net earnings here given are after deducting taxes.

b Net earnings here given are before deducting taxes.

d The company now includes earnings of the Denver Enid & Gulf RR., Pecos Valley system and Santa Fe Prescott & Phoenix Ry. In both years. For May taxes and rentals amounted to $220,614, against $192,151 in 1906, after deducting which, net for May 1907 was $2,694,226, against $2,364,167 last year. From July 1 to May 31 1907 taxes and rentals were $2,336,813, against $2,189,133 last year.

h For May 1907 additional income was $5,146, against $2,135 in 1906, and from July 1 to May 31 was $53,723 in 1907, against $51,943 in 1906.

k For May 1907 additional income was $13,240, against $16,047 in 1906, and from July 1 to May 31 was $207,258 in 1907, against $171,396 in 1906.

Interest Charges and Surplus.—The following roads, in addition to their gross and net earnings given in the foregoing, also report charges for interest, &c., with the surplus above or deficit below those charges.

a Figures for the month in both years include operations of the Scranton Ry., acquired Jan. 1 1906. b Figures are from Feb. 1. c These figures are for consolidated company. d These are results for main line. f Now includes Rapid Ry. Syst., Sandwich Windsor & Amherstburg Ry. and Detroit Monroe & Toledo Short Line Ry. h These are early preliminary returns; decrease due to earthquake, fire and strike among employees, Aug. 26 to Sept 5 1906.

Street Railway Net Earnings.—In the following we show both the gross and the net earnings to latest dates of all STREET railways from which we have been able to procure monthly returns. As in the case of the steam roads, the returns of the different roads are published by us each week as soon as received, and once a month we bring together all the roads reporting, as is done to-day.

United States Cast Iron Pipe & Foundry Co.

(Report for Fiscal Year ending May 31 1907.)

President George B. Hayes says in substance:

The net profits are in excess of those of the preceding year. This is so, notwithstanding the fact that the year 1906 was our banner year, and the further fact that during the year just closed there has been a sharp increase in the price of labor and also of raw material.

During the year the company has built a new foundry at Chattanooga; a complete new foundry at Scottdale, near Pittsburgh, which will about double the capacity of that plant in pipe; and a large foundry and power house at Burlington. The extensions at these three plants will result in a material increase in the manufacturing capacity of the company, and also in a reduction of the cost of manufacture. All of these expensive additions to the plant facilities have been paid for out of earnings, and the net profits shown by the accounts at the end of the fiscal year are made after deducting the cost of those extensions. In addition to the expenditure for the foregoing purposes, all of the plants have been kept in first-class condition. This latter cost has been charged as a part of cost of manufacture.

Notwithstanding the increase in manufacturing capacity, the plant account remains the same. Your directors have thus avoided capitalizing disbursements, which would be properly chargeable to plant account. The company has not borrowed a dollar for the past three years. It has ample working capital to finance all of its necessities. It owes no money of any kind except for current accounts. We make no prediction for the future, but feel assured that, with our increased capacity and the harmonious cooperation of employees and management, that the company is in better condition to-day than it has been since its organization.

RESULTS FOR FISCAL YEAR.

	1906-07.	1905-06.	1904-05.	*1903-04.
Manufacturing income	$1,978,490	$1,938,601	No official figures obtainable.	$1,303,810
Other income	133,561	114,607		
Total income	$2,112,051	$2,053,208		$1,303,810
Deduct—				
Interest on bonds	$90,000	$90,000		$71,640
Reserve for improvem'ts	197,000	195,000		119,000
Res've for doubtf'l accts.	12,000	12,000		6,000
Div. on pref. stock	(7%) 875,000	(7%) 875,000		(4%) 500,000
Div. on common stock	(4%) 500,000	(4%) 500,000		----------
Total deductions	$1,674,000	$1,672,000		$696,640
Surplus for year	$438,051	$381,208		$607,170

*The figures for 1903-04 are inserted by us from the annual report of that year, the company refusing to confirm the correctness of the comparison with those of later years as above given.

Note.—The surplus for the year as above was $438,051; the accumulated surplus May 31 1906 was $506,208; making a total of $944,259; from this there was reserved for additional working capital $162,458 and for improvements $150,000, leaving a total profit and loss surplus on May 31 1907 of $631,801, as per balance sheet.

—V. 84, p. 1373.

American Car & Foundry Co.

(Report for the Year Ending April 30 1907.

President F. H. Eaton says:

The principal expenditure for the year has been the building and completion of the steel car plant at St. Louis, which is now in operation. This is the sixth steel car plant that the company now has, the first having been constructed about five years ago, and does not include the plant that was completed 3 years ago for building all-steel passenger cars, on which style of car your company enjoys valuable patents, having been the pioneer in that business.

There has been no time during the past year that the company could not have made delivery of a large number of cars of any class or description within three months from the date of order, provided it had been possible to secure material in time for its requirements. The result has been that, although the output has been increased over 30% from the previous year, there is no doubt whatever that we could have constructed at least 25% more cars if these conditions had not prevailed.

Although, at the close of our business year, the amount of work on our books exceeded that of any previous year, we are now in excellent position, through the increased capacity of some of our plants, to make delivery of a goodly number of cars yet this year. The business conditions are satisfactory.

OPERATIONS AND FISCAL RESULTS.

x Includes cost of properties, plants, &c., to April 30 1906, $59,371,979; new steel plant at St. Louis, Mo.; extensions to other plants and additional real estate, $2,929,531; amount reserved for balance on plant at Wilmington, Del., $250,000.

The "working capital" has been increased since the organization of the company from $5,357,902 to $17,001,120.

The Audit Co. of New York appends its certificate to the report.

GENERAL INVESTMENT NEWS.

RAILROADS, INCLUDING STREET ROADS.

American Railways Co., Philadelphia.—*Bonds Offered.*—A syndicate composed of Newburger, Henderson & Loeb, E. C. Miller & Co. and Bioren & Co., all of Philadelphia, this week offered for public subscription, at 95 and interest, a block of $600,000 collateral trust 5% gold bonds, part of the total authorized issue of $2,500,000 described in our issue of June 8 (p. 1365). An advertisement states that the net earnings applicable to dividends on the stocks pledged to secure these bonds, for the twelve months ending March 31 1907, were $222,502, or nearly double the interest charges on the entire loan.

Earnings of American Railways Co.—For years ending June 30 (June 1907 partly estimated):

Fiscal Year—	*Gross, Sub Cos.*	*Net Income Amer. Rys.*	*Charges, Taxes, &c.*	*Dividend (6%).*	*Balance, Surplus.*
1906-07	$2,850,000	$601,570	$217,343	$305,700	$78,527
1905-06	2,099,816	486,711	141,482	251,385	93,844

The increase in gross earnings of the subsidiary companies is chiefly due to the acquisition of the Scranton Ry., 1906-07 being the first year reflecting the benefit of the operation of the Scranton properties.—V. 84, p. 1365.

Atchison Topeka & Santa Fe Ry.—*Eastern Oklahoma Ry. Takes Title to Denver Enid & Gulf.*—The Denver Enid & Gulf RR., whose stock and bonds were acquired last year (V. 82, p. 99; V. 83, p. 569), has been transferred by deed to the Eastern Oklahoma Railway Co., which operates practically all of the system in Oklahoma except the main line. —V. 84, p. 1112, 1051.

Bangor & Aroostook RR.—*New Stock.*—The Maine Railroad Commission has authorized the company to increase its capital stock to the extent of $792,000, namely, from $1,550,000 to $2,343,000, for the following purposes:

To purchase the capital stock of the Northern Maine Seaport RR. Co., $420,000, and the capital stock of the Schoodic Steam Railroad Co., $72,000, and for permanent improvements and paying floating debt of the Bangor & Aroostook, $300,000.—V. 84, p. 692, 157.

Belt RR. & Stock Yards of Indianapolis.—*Extra Dividend Increased.*—This company has declared the usual semi-annual dividend of 3% on its $1,000,000 common stock and also an extra distribution on said stock of 3%, both payable July 1 along with the quarterly 1½% on the $500,000 preferred stock.

Dividends on Common Stock.

	1898 to '02.	1903.	1904.	1905.	1906.	1907.
Regular	5% yearly.	5½%	7%	6%	6%	6%
Extra	None.	Jan., 1%	----	Oct., 2%	July, 2%	Jan. 2% July 3%

—V. 81, p. 1090.

Brooklyn Rapid Transit Co.—*Mortgages for Controlled Properties per Plan.*—The Nassau Electric RR. and the Brooklyn Union Elevated RR. have filed 10-year mortgages to the Central Trust Company of New York, as trustee, to secure certificates of indebtedness to the aggregate amounts of $5,000,000 and $20,000,000, respectively; these certificates to be issued from time to time to the parent company in return for cash advances made and to be made on account of additions, improvements and equipment, agreeably with the official statement cited in the "Chronicle" of May 25, p. 1246.

New Stock for Subsidiary.—The South Brooklyn Ry. Co., which owns the double-tracked road, 1½ miles in length, extending from New York Bay near 38th St., Brooklyn, on its own property, to 38th St. near 9th Ave., has filed a certificate of increase of capital stock from $150,000 to $500,000. —V. 84, p. 1246, 1181.

Buffalo & Susquehanna Ry.—*Lease Filed.*—The lease of the Buffalo & Susquehanna RR. Co. to the Buffalo & Susquehanna Railway Co. was filed with the Secretary of State at Albany on June 28, the rental named being a guaranty of interest on the bonds of the Railroad Company and also a guaranty of 4% dividends on the preferred stock of that company. The interest is also guaranteed on the bonds of the subsidiary lines of the Railroad Company.—V. 84, p. 1305, 270.

Central of Georgia Ry.—*Sale of Stock.*—It was announced on Wednesday that the company's $5,000,000 capital stock held by the reorganization committee of the Richmond Terminal Co. since 1896 had been sold to Oakleigh Thorne and Marsden J. Perry. The official statement says:

Adrian H. Joline, Chairman of the Richmond Terminal Reorganization Committee, announces that the committee has sold to Oakleigh Thorne and Marsden J. Perry all the capital stock of the Central of Georgia Ry. Co., owned by said committee, and which was received by the committee in 1894-95 upon the consummation of the Richmond Terminal reorganization and after the reorganization of the Georgia Central RR. & Banking Co.

The net proceeds of the sale are to be paid over to the Southern Ry. Co., which, as stated in the testimony given in 1899 by President Spencer, and now on file at Macon, was entitled to the financial benefit of any sale of the stock, though it did not assume to control the railroad. As part of their purchase, Messrs. Thorne and Perry have declared their purpose to operate and develop this system as an independent system for the benefit of its stockholders, and they will accordingly hold at least 60% of the stock for at least two years.

The purchasers agree that in case of a re-sale of the stock within the next two years, they will retain voting control for that period on at least 60% of the issue. It is denied that any plans exist to turn the property over to Rock Island-Frisco interests.

New Directors.—Oakleigh Thorne, Marsden J. Perry and Wm. F. Sheehan have been elected directors, and also been made members of the Executive Committee. Charles Steele, who, with the late President Spencer, represented the Southern Railway on the Central of Georgia board, and George G. Haven have retired as directors.—V. 83, p. 1347, 751.

Central New England Ry.—*Consolidation.*—Preparatory to merger with the parent company (the New York New Haven & Hartford RR.), a certificate was filed at Albany on June 25 consolidating the Central New England Ry., the Newburg Dutchess & Connecticut RR., the Dutchess County RR., the Poughkeepsie Bridge RR. and the Poughkeepsie & Eastern Ry., under the title of the Central New England Ry., with a capital of $8,500,000, of which $3,750,000 is 4% non-cumulative preferred.

Opposition Plan.—The protective committee, T. C. Delavan, Chairman, objects to the exchange of securities on any such basis as suggested last week (p. 1488), and therefore urges the minority stock and bondholders to meet at room 209, Bourse Building, Philadelphia, at 2 p. m. on July 2. —V. 84, p. 1487, 1427.

Chesapeake & Ohio Ry.—*Possible Note Issue.*—It is understood that arrangements are practically completed for financing the company's requirements through an issue of notes, probably $5,000,000, secured by a block of the new bonds, to which reference was made last week.—V. 84, p. 1487, 1427.

Chicago & Alton RR.—*Capital Requirements.*—A statement submitted by President Felton at a recent meeting of the directors showed that to provide funds for the elevation of the tracks in Chicago and Joliet, to complete the cut-off from Iles, near Springfield, to Murrayville, 34 miles, and other requirements properly chargeable to capital, would call for about $1,600,000 during the next twelve to eighteen months. An agreement was entered into by which the Union Pacific and Rock Island interests will advance this money as it may be required, in the proportion of ten for the former to six for the latter. Some $1,100,000 has already been spent in constructing the line to Murrayville and only about $250,000 more will be needed to complete the same.—V. 84, p. 1488, 1365.

Chicago Burlington & Quincy RR.—*Abrogation of Lease.*—"For simplification of accounts," the lease of the company's property made in 1901 for 99 years, to the Chicago Burlington & Quincy *Railway* Co. has been rescinded by mutual consent, and the old company will, on next Monday, resume the possession of the property and operate it in its own name. No other change in the management, it is stated, is contemplated.—V. 84, p. 1247, 219.

Chicago Burlington & Quincy RR.—*Called Bonds.*—Bonds to the following amounts have been called for redemption and will be paid at the New England Trust Co., Boston, July 1 1907, interest then ceasing, viz.:

(1) Burlington & Missouri River RR. Co. in Nebraska, non-exempt 6% consolidated mortgage bonds dated 1878, due July 1 1918, viz.: $195,000 in $1,000 bonds and $22,400 in $600 bonds.

(2) Republican Valley RR. 6% bonds dated July 1 1879, due July 1 1919, viz.: $24,000 in bonds for $1,000 each and $6,600 in bonds for $600 each.—V. 84, p. 1247, 219.

Chicago City Ry.—*Bonds Offered.*—N. W. Harris & Co., New York and Boston, and the First Trust & Savings Bank and the Harris Trust & Savings Bank, both of Chicago, are offering at 98 and interest, by advertisement on another page, $6,000,000 first mortgage 5% gold bonds of $1,000 each, dated July 1 1907 and due Feb. 1 1927, but optional at 110 and interest on or before Aug. 1 1912, but not thereafter, if called for payment by the company. (Under the Chicago city ordinance, if the city purchases the property it has the right to redeem the bonds before maturity.) Interest payable Feb. 1 and Aug. 1 in Chicago. The First Trust & Savings Bank, Chicago, is trustee.

The financial statement of July 1 1907 shows: Capital stock outstanding, $18,000,000; bonds certified by trustee, $8,000,000; less bonds held in treasury, $2,000,000; bonds now offered, $6,000,000.

The following is the essence of a letter written by President Mitten under date of June 25:

The trust deed securing the bonds provides that their entire proceeds must be used to pay the present floating debt and for future improvements and extensions to the plant, the ordinance of Feb. 11 1907 providing for the electrification of the cable system, and a comprehensive reconstruction, improvement and extension of the system. The system covers what is known as the South Side of the city, extending from the centre of the business district south to 79th St. and between the South Branch of the Chicago River and the Lake, the present mileage consisting of 243 miles of single track.

These bonds are secured by first mortgage on all property now owned or hereafter acquired and their security is attested by the city of Chicago in its agreement under the aforesaid ordinance, which provides that if the property be purchased by the city, the present value shall be considered $21,000,000, and that whatever amount is expended for rehabilitation, &c., shall be added to said present value, and such amount of bonds as has been issued for such purposes shall be called for payment at par and interest (see above). The city further agrees in the same ordinance, granting this company a 20-year franchise from Feb. 1 1907, that at its expiration any new franchise to operate street railways in the district occupied shall provide for the purchase of the property on the same terms as the city could then purchase.

The company has paid dividends consecutively since 1870, and its former issue of bonds was paid off in cash on July 1 1901.

Results for Year ending Dec. 31 1906.

Gross earnings	$7,871,126
Operating expenses, taxes and depreciation	6,446,304
Net earnings (applicable to payment of bond interest)	$1,724,822

Annual interest on bonds outstanding as above, $300,000.

Under the aforesaid ordinance the company is entitled to charge a straight 5-cent fare, with universal transfers, and while provision is made for a handsome compensation to the city, this compensation is payable only out of surplus earnings after providing for operating expenses including ample charges for maintenance, depreciation, and 5% upon the valuation at which the property may be purchased by the city for municipal operation, as above stated. Of the surplus earnings so remaining the city receives 55% and the company 45%, the city reserving the right to receive its compensation in the way of slightly reduced fares. If the company had been operating in 1906 under the present ordinance, the statement of operation, it is calculated, would have been as follows: Gross earnings, $7,871,126; operating expenses, including taxes and all charges required by the ordinance, $5,509,788; net earnings applicable to bond interest, $2,361,338.

The company will shortly have in operation 800 new cars, which under the ordinance it guarantees to immediately purchase.

Over $2,000,000 of the bonds, it is stated, were sold on Thursday. (As to the ordinance of Feb. 11 1907, approved at the city election April 20, compare V. 84, p. 1123.); V. 84, p. 1488, 1365.

Chicago & Eastern Illinois RR.—*Sale of Bonds.*—The company has made an arrangement with Speyer & Co. to underwrite $3,085,000 "general consolidated and first mortgage" 5% bonds due Nov. 1 1937, which are to be issued to retire:

First mortgage 6% bonds, maturing Dec. 1 1907	$2,935,000
First mortgage 7% bonds of Indiana Block Coal RR., maturing July 1 1908 (including $133,000 already purchased)	150,000

"These general consolidated and first mortgage bonds form part of a total issue limited to $30,000,000, whereof $16,583,000 are now outstanding and $6,403,000 (including the above $3,085,000) are reserved to retire prior lien bonds. The balance can only be issued at $18,000 per mile for single track, extensions and branches, $8,000 per mile additional for double track and $7,000 per mile additional for equipment.

The bonds are secured by a direct first lien on 498.49 miles of railroad and also valuable terminals and equipment. They are also a lien upon 107.21 miles of additional railroad, subject only to prior liens, which, upon the retirement of the first mortgage bonds above referred to (on or before Dec. 1 1907), will amount to $2,736,000. They are also a lien upon the railroad formerly of the Indiana Block Coal RR. Co., 12.62 miles, subject only to the first mortgage of that company, under which there are $17,000 of bonds now outstanding. They are also a lien, subject to prior mortgages, upon the entire property of the company now existing or hereafter acquired.

Earnings for the Ten Months ending April 30 1906 and 1907.

Ten Mos.	Gross Earnings.	Net Earnings.	Other Income.	Taxes and 1st Charges.	Balance, Surplus.
1906-07	$9,447,114	$3,454,629	$238,258	$2,257,617	$1,435,270
1905-06	8,505,520	2,937,737	181,365	2,066,894	1,052,208

—V. 84, p. 1365, 1181.

Chicago Indianapolis & Evansville RR.—*New Project—Mortgage Filed.*—This company, incorporated in Indiana on Sept. 14 1905, with nominal ($325,000) capital stock, to build a steam road from Evansville, Ind., to Indianapolis and Indiana Harbor (near Chicago), 346 miles, with a branch from Logansport, Ind., to South Bend 70 miles, and another from Owensboro 30 miles, has filed a mortgage to the Western Trust & Savings Bank of Chicago, as trustee, to secure an issue of $15,000,000 40-year 5% gold bonds.

Contracts for construction were recently let to the Carter Construction Co. of Indianapolis of which John B. Carter, the Indiana representative of William Kenefick & Co. of Kansas City, who are financing the enterprise, is President. The necessary franchises, it is said, were acquired some months ago. Mr. Carter in Oct. 1905 emphatically denied that any of the interests identified with the enterprise represented any existing railroad. Kenefick & Co. at that time were building the Indianapolis Southern RR. from Indianapolis to Switz City, Ind., for the Illinois Central RR. The officers of the railroad are:

President, William Kenefick, Kansas City; Vice-President, J. B. Carter, Indianapolis; Secretary, Charles A. Denneen; Treasurer, R. Zenkere. Office, Indianapolis, Ind.

The mortgage gives the following particulars:

The bonds are dated July 1 1907 and are due July 1 1947 but are subject to call at company's option in the years 1917, 1927, 1937 at 105 and interest. Denomination $1,000c*; interest payable Jan. 1 and July 1, beginning with Jan. 1 1908, at Knickerbocker Trust Co., New York. The bonds are issuable upon a certified copy of an order of the board of directors signed by the President and witnessed by the Secretary. The company covenants that it will apply the proceeds thereof to and for no other purposes than the construction, and completion of the constructing, building, equipping and operating the said railroad, purchasing necessary real estate and equipment therefor, and for other lawful purposes.

Chicago Milwaukee & St. Paul Ry.—*New Director.*—Walter P. Bliss, manager of the estate of the late George Bliss, has been elected a director to succeed Herman S. Leroy, who was the representative on the board of the late James Henry Smith.—V. 84, p. 1306, 569.

Chicago Peoria & St. Louis Ry.—*Payment of Overdue Interest.*—The interest due Jan. 1 1907 on the consolidated 5% gold bonds was paid on June 25 on presentation of coupons at office of Dent, Palmer & Co., 52 William St., New York. —V. 84, p. 505.

Chicago Union Traction Co.—*Deposit of Underlying Stock.* —The majority stock of the underlying companies, which was in the control of the protective committees, has been deposited with the Chicago Title & Trust Co. as required by the franchise, and the franchise will shortly be accepted in the name of the new Chicago Railways Co.

The protective committee of the North Chicago City and West Division railways, in a circular letter to stockholders, asks the deposit of the stocks in escrow with the aforesaid trust company, to await the decision of the arbitrators on the distribution of the new stocks. (Compare Chicago City Railway above.)—V. 84, p. 1247, 1182.

Cincinnati Hamilton & Dayton Ry.—*Extension of Receiver's Certificates.*—Receiver Harmon was on June 24 authorized to extend for one year the $511,830 receiver's certificates issued July 1 1906 and due July 1 1907, and also the same amount of certificates which was issued Jan. 1 1906 and matured Jan. 1 1907, but was then extended till July 1 1907. Within the next year reorganization is expected to be effected.—V. 84, p. 1356, 803.

Cincinnati Street Ry.—*Payment of Bonds.*—The $200,000 mortgage bonds of the Mount Auburn Cable Ry. due June 1 1907 were redeemed on presentation at the Citizens' National Bank, Cincinnati.—V. 83, p. 1523.

Cleveland Electric Ry.—*Dividend Reduced.*—The directors on June 19 declared a quarterly dividend of ¾ of 1%, payable July 1 to holders of record June 20, thus reducing the annual rate to 3% per annum, contrasting with—

1897	1898	1899	1900	1901	1902	1903	1904	1905	1906
3%	3¼%	2¾%	3¾%	4%	4%	4%	4%	4%	5%

—V. 84, p. 1113, 995.

Cleveland Painesville & Eastern (Electric) RR.—*Notes to Retire Debentures.*—"Cleveland Finance" of June 15 said:

Plans have been perfected for taking care of the $500,000 of C. P. & E. 6% debentures due July 1 by new debenture notes bearing the same rate of interest running for one year with the privilege of an extension for another year, or two years in all. Most of the large debenture holders have already agreed to this arrangement, and it is thought that the others will readily fall in line.—V. 84, p. 1247.

Delaware Lackawanna & Western RR.—*New Offices.*—The company has moved its New York offices to the new Carroll Building, at 90 West St., near Cedar St.—V. 84, p. 449, 445.

Denver Enid & Gulf RR.—*Transferred by Deed to Atchison Subsidiary.*—See Atchison Topeka & Santa Fe Ry. above.—V. 84, p. 1247.

Evansville & Eastern Electric Ry.—*Consolidation.*—See Evansville Rys. below.—V. 83, p. 192.

Evansville & Mount Vernon Electric Ry.—*Consolidation.* —See Evansville Rys. below.—V. 81, p. 1136.

Evansville Railways—*Consolidation.*—This company was formed on June 20 with $1,000,000 capital stock in shares of $100 each as a consolidation of the Evansville & Eastern and the Evansville & Mount Vernon (V. 81, p. 1136) Electric Railway companies. The officers are:

President, William L. Sonntag; Vice President, C. H. Batten; Treasurer, Marcus S. Sonntag; Secretary, F. W. Reitz; Chairman Board of Directors, Wm. H. McCurdy. Messrs. Batten and McCurdy are Cincinnatians.—V. 82, p. 1218; V. 84, p. 942.

Fitzgerald Ocilla & Broxton RR.—*Successor Company.*—This company was incorporated under the laws of Georgia on May 29 with $100,000 capital stock, as successor of the Broxton Hazlehurst & Savannah RR., which in April last purchased the 25-mile Ocilla & Valdosta RR. (V. 84, p. 997). H. C. McFadden, President and General Manager of the Broxton Hazlehurst & Savannah, in May last made the following statement:

As soon as a charter can be secured we will change the name of the road to the Fitzgerald Ocilla & Broxton RR. We have no intentions at present for extensions, our idea being first to build up the property which we have purchased. Our line extends from Broxton to Ocilla, Ga., 25 miles, with a branch to Fitzgerald, 5 miles. We also have a lease of the line from Ocilla to Irwinville, 10 miles, which we are now operating.

Georgia Terminal Co., Atlanta, Ga.—*Details of Bonds.*— The $3,000,000 bonds which have been sold, as announced last week ($2,089,000 outstanding), are part of an authorized issue of $4,000,000 of $1,000 first mortgage 20-year 5% gold bonds, maturing Jan. 1 1927 but subject to call on any interest day (Jan. 1 and July 1) at 110 and interest. Interest is payable at the Old Colony Trust Co. of Boston, trustee.—V. 84, p. 1428.

Havana Central RR.—*Plan Operative.*—Speyer & Co. on behalf of J. Henry Schroder & Co. of London, announce that the plan for the sale of the common stock and first mortgage 5% bonds of the company to the United Railways of the Havana & Regla Warehouses, Ltd. (V. 84, p. 1052), is operative, inasmuch as there has been deposited $5,336,375 of the common stock and $5,357,000 of the bonds. The shareholders of the purchasing company will meet on or before July 20 to ratify the deal. See V. 84, p. 1052, 1366.

Huntingdon & Broad Top Mountain RR. & Coal Co.—*Change in Annual Report Statement.*—The statement in the annual report for the year 1906 being not quite clear to us, we wrote to Treasurer J. P. Donaldson, and through his reply, somewhat delayed, learn that in the income account as published recently the item of interest on bonds should be $106,190, or the same as in the earlier years; while, on the other hand the preferred dividend charge for 1906 should be 7½%, or $10,000 more than shown in our statement, for the following reason:

The dividend deduction was caused by its being found necessary that a full 7% should be paid on the preferred stock as of July and January before the common could receive anything. As the July 1905 dividend was 3%, the January 1906 dividend was made 4%, thus reaching the 7%, and the July 1906 dividend 3½% (making 7½% charged against the earnings of 1906.—Ed.). The January 1907 dividend of 3½% maintains the same rate and gives the board the opportunity to declare a dividend on the common stock at any time it may deem proper.—V. 84, p. 1424, 339.

International & Great Northern RR.—*Authorization of Builders' Lien Notes for San Antonio Depot.*—The Texas Railroad Commission has authorized the company to enter into a contract for the construction of an adequate passenger depot at San Antonio, and for that purpose to incur indebtedness, say, to the extent of $150,000 and not less than $100,000, securing the same by a mechanics' and material men's lien with payments distributed as below suggested. The official application said in part:

We are desirous of building a good depot at San Antonio, according to present ideas and estimates costing approximately $150,000, and we have arranged, if the course meets with your approval, to execute a mechanics' and material men's lien upon the improvements and depot site for the amount of the contract, and have such lien assigned to parties who have agreed to furnish the requisite money from $100,000 to $150,000, and to apportion the payments into ten semi-annual payments of one-tenth each bearing 6% interest payable semi-annually. Our view is that as the statute would give the contractors a lien in the premises, that we could legally execute a contract giving him the same rights that he could fix under the statute, and that therefore a clearly voluntary lien so given would be valid and binding and not in violation of the stock and bond law.—V. 78, p. 1165.

Joliet & Northern Indiana RR.—*Payment of Bonds.*—The $800,000 7% first mortgage bonds, maturing July 10 1907, and also the coupon due at the same time, will be paid on and after that date at the office of the Michigan Central RR., Grand Central Station, New York. For the new bond issue see the last-named company in V. 84, p. 1367, 1428—V. 76, p. 752.

Kansas City Fort Scott & Memphis Ry.—*Called Bonds.*— Thirty-three ($33,000) Fort Scott Equipment Co. 6% bonds are payable by the trustee at 50 State St., Boston, on July 1 1907.—V. 83, p. 890.

Kansas City Mexico & Orient Ry.—*Bonds Offered.*—The Kansas City "Star" of June 12 contains an advertisement signed by President A. E. Stilwell offering for subscription at par $400,000 of the company's 1st mortgage 4% gold bonds, a bonus of $400 4% preferred stock and $400 common stock being given with each $1,000 bond. The advertisement says:

The proceeds of the sale of these bonds are to be used to complete the grade from Emporia, Kan., to Kansas City. The grade is now completed south from Emporia to San Angelo, Texas. When this work is finished, which can be accomplished next year, trains can be operated from Kansas City to Los Angelo, Texas, a distance of 711 miles. 630 miles of the road are now in operation. Track laying is in progress from Clinton, Okla., south; from Altus, Okla., north; from Knox City, Texas, north; from San Angelo, Texas, north; and from Chihuahua, Mex., east and west. It is expected to have the road in operation from Emporia, Kan., to San Angelo, Texas, by the end of the present year, and at the same time 65% of the entire line in Mexico will be ready to operate. Compare V. 84, p. 102, 508, 693.

Kansas City (Mo.) Railway & Light Co.—*Preliminary Report.*—For year ending May 31:

Fiscal Year—	Gross Earnings.	Net Earnings.	Other Income.	Interest & Taxes.	Pref. Div. (5%).	Balance, Surplus.
1906-07	$5,715,339	$2,806,203	$9,440	$1,765,870	$476,105	$573,668
1905-06	5,153,168	2,556,629	9,671	1,644,524	476,105	445,671

Compare V. 83, p. 319, 1470.

Lehigh Valley RR.—*Second Extra Dividend.*—The directors on Wednesday, pursuing the policy adopted last December, declared the regular semi-annual dividend of 2% and an extra dividend of 1% on the common stock. The dividend is payable July 13 to holders of record June 29.

Total Dividends (Per Cent) Paid on Common Stock During Calendar Years.

Year	'87.	'88.	'89.	'90.	'91.	'92.	'93.	'94	'03.	'04.	'05.	'06.	1907.

Lima (Peru) Urban Ry.—*6% Gold Bonds Called.*—Notice is given that the following bonds have been called for redemption July 1 1907: 75, 151, 157, 295, 303, 388, 448, 467, 473, 664, 762, 778, 781. Coupons due July 1 1907 will be paid on and after that date at the offices of Wm. Salomon & Co. and W. R. Grace & Co., New York City.—V. 75, p. 184.

Medford & Crater Lake RR.—*Sold.*—See Pacific & Eastern Ry. below.

Michigan Central RR.—*Payment of Maturing Bonds.*—See Joliet & Northern Indiana RR. above.—V. 84, p. 1367, 1428.

Missouri Kansas & Texas Ry.—*Bonds Offered.*—Mackay & Co., 16 Nassau St., New York; Spencer Trask & Co., William and Pine sts., New York; and the Mercantile Trust Co., St. Louis, Mo., are offering, by advertisement on another page, at a price to yield about 5.6% on the investment, $2,-

500,000 general mortgage 4½% sinking fund gold bonds, dated Jan. 1 1906, due Jan. 1 1936. Authorized issue, $20,000,000; outstanding, $10,000,000. A circular says in part:

These bonds are a direct mortgage, or a collateral mortgage through the deposit of stocks and bonds, upon the entire 3,043 miles of railroad embraced in the system, subject to existing prior liens. They are a direct mortgage, subject to prior liens, upon all of the lines owned north of the Red River, Texas, aggregating 1,646 miles. They are a direct collateral lien upon all of the railroad of the Missouri Kansas & Texas Ry. Co. of Texas south of the Red River, Texas, aggregating 1,397 miles, subject to the liens of the first and second mortgage 4% bonds of the Missouri Kansas & Texas Ry. Co. and the Missouri Kansas & Texas Ry. of Texas first mortgage 5% bonds.

The $10,000,000 general mortgage 4½% bonds now outstanding were issued for the following purposes: To refund equipment obligations $4,800,000; expenditures for betterments, extensions, &c., $5,200,000. A sinking fund will provide for the annual purchase of 2% of the outstanding bonds at not exceeding par and interest after Jan. 1 1911. It is calculated that the operation of the sinking fund will retire practically all of the general mortgage 4½% bonds by Jan. 1 1936.

For the fiscal year ending June 30 1906 the company reported a surplus over and above all bond interest, rentals and other charges of $1,653,088, and for the ten months ending April 30 1907 a surplus over and above all charges, including interest upon the $10,000,000 general mortgage 4½% bonds, of $3,031,344. Dividends at the rate of 4% per annum are now being paid upon $13,000,000 preferred stock, selling at about 60, and the company has also outstanding $60,300,300 common stock, selling at about 30

H. W. Poor & Co. are offering at a price to yield over 4¾% a block of the outstanding $5,182,000 first and refunding 4% gold bonds dated Sept. 1 1904.—V. 84, p. 1248, 804.

Monterey & Pacific Grove Street Railway & Electric Power Co.—*New Securities.*—The shareholders will vote July 6 on increasing the capital stock from $180,000 to $600,000 and the bonded debt by $300,000. George Heazleton is President. In January last a press report said:

C. W. Allen and R. C. P. Smith have sold their interests in the Monterey & Pacific Grove Electric Ry. and in the Monterey County Gas & Electric Co. to George S. Heazleton, of San Francisco, and E. P. Bolles, President of the First National Bank of Oakland. Extensions of the present Presidio line through Pacific Grove to Carmel-by-the-Sea, and from Del Monte to Vista del Rey, are projected, as is also a line to Salinas.

New York Short Line RR.—*Guaranteed Bonds for Reading Cut-off.*—This company, owning the cut-off opened in May 1906 between Cheltenham Station in Philadelphia and Neshaminy Falls, Pa., 9½ miles (2 miles having two tracks and 2 miles more three tracks), has made a first mortgage to the Pennsylvania Company for Insurances on Lives & Granting Annuities of Philadelphia, as trustee to secure an issue of $1,500,000 4% gold bonds dated Feb. 1 1907 and due Feb 1 1907. The road has been leased for 999 years from Feb 1 1907 to the Philadelphia & Reading Railway, and the Reading Company owns the entire $250,000 stock and guarantees the bonds by endorsement as follows:

Guaranty of Reading Company, Endorsed on Each Bond.

For value received, Reading Company hereby guarantees the punctual payment of the principal and interest of the within bond at the time and in the manner therein specified, and covenants, in default of payment of any part thereof by the obligor, to pay the said principal and interest of the within bond as the same shall become due, upon the demand of the holder thereof. In witness whereof the said company has caused its corporate seal to be hereunto affixed, duly attested, at Philadelphia, the first day of February 1907.

(Signed for the Reading Company by President, and witnessed by Secretary.)—V. 83, p. 1412.

North Chicago Street RR.—*Payment of Coupons.*—Under date of June 27 notice is given that the interest on the first mortgage 5% bonds due July 1 1907 will be paid at the office of The Fidelity Trust Co., trustee, Philadelphia, or at the office of the company, No. 444 North Clark Street, Chicago. —V. 84, p. 997.

Ocilla & Valdosta RR.—*Successor Company.*—See Fitzgerald Ocilla & Broxton RR., above.—V. 84, p. 997.

Pacific & Eastern Ry.—*Successor Company.*—The Medford & Crater Lake RR., a standard-gauge line extending from Medford to Eagle Point, Ore., about 11 miles, was bid in at receivers' sale at Medford on May 11 for $82,500 by George Estes of Portland, Ore., representing a local syndicate which has organized the Pacific & Eastern Ry. to own and operate the line, and to extend it 89 miles to Butte Falls and Klamath Falls, making about 100 miles in all, opening up extensive tracts of timber. Mr. Estes has also purchased the Rogue River Valley RR., Medford to Jacksonville, Ore., 6 miles.

The capital stock of the new company is $1,000,000 authorized and $500,000 outstanding; par, $100. A first mortgage has been made to Oregon Trust & Savings Bank of Portland, Ore., as trustee, to secure an issue of $1,000,000 6% gold bonds, of which $200,000 are outstanding. This issue is dated June 1 1907 and will mature June 1 1937, but subject to call in any amount after 10 years at 105. Interest payable Dec. 1 and June 1 at office of trustee. Denominations: $100, $500 and $1,000. President, W. Cooper Morris; V.-P., Dr. S. W. Strykes; Sec., Treas. and Gen. Mgr., Geo. Estes, care Oregon Trust & Savings Bank, Portland, Ore.

Pennsylvania New York & Long Island RR.—*Consolidation.*—See Pennsylvania Tunnel & Terminal RR. below.—V. 75, p. 1400.

Pennsylvania Tunnel & Terminal RR.—*Consolidation of Pennsylvania RR. Subsidiaries.*—A certificate of consolidation was filed at Albany on June 26 providing for the formation of this company, with $40,000,000 authorized capital stock, by the merger of the following companies, which are building the tunnel of the Pennsylvania RR. from Harrison, N. J., under the Hudson River to the City of New York and thence under the East River to Long Island City, namely, the Pennsylvania New York & Long Island RR. Co. (V. 75, p. 1400) and the Pennsylvania New Jersey & New York RR. Co., each of which had a capital of $20,000,000. Of the authorized stock issue of the new company, $25,000,000 is outstanding, and this is all owned by the Pennsylvania RR. Co. The directors are:

James McCrea, John P. Greene, Charles T. Pugh, Samuel Rea, Henry Tatnall, William H. Barnes, Thomas DeWitt Cuyler, Clement A. Griscom, J. D. Crimmins of New York, and F. L. Shepard.

Philadelphia & Garrettford Street Ry.—*Bonds Offered.*—Charles C. Harrison Jr. & Co., Philadelphia, are offering at 99 and interest a block of the first mortgage 5% gold bonds, dated Aug. 1 1905 and due Aug. 1 1955, authorized issue $3,000,000, outstanding at last accounts $438,000. The property is leased to the Phila. & West Chester Traction Co., which owns control; rental 5% on stock and interest on bonds.

Philadelphia Rapid Transit Co.—*Facts as to Ordinance.*—The Philadelphia "Financial Bulletin" of June 21 gives the following facts regarding the retail merchants' ordinance which was adopted on June 20 by the City Council:

Under the terms of the measure, for fifty years from July 1 1907 the Philadelphia Rapid Transit will share with the city in profits, and this is to supersede and cancel all existing contracts, agreements and bonds between the city and the company.

There is to be provided a sinking fund which in fifty years will extinguish the capital stock of $30,000,000, or the city may use the sinking fund for other purposes than redemption, and within 30 days a call for unpaid capital must be made in $5 installments, so that the entire amount is paid in by Dec. 31 1908.

The city reserves the right to purchase all the property of the Philadelphia Rapid Transit, subject to present indebtedness, or that lawfully incurred, until July 1 1957, by serving six months' notice prior to July 1 of any year, by the payment of an amount equal to par for $30,000,000 capital stock, and any other additional stock issued with the consent of the city.

One-half of the dividends declared out of earnings in excess of 6% on the actual paid-in capital stock is to be paid to the city, and neither the funded debt or capitalization of Philadelphia Rapid Transit can be increased without the city's consent.

The franchise for the Broad Street Subway is canceled and the right to permit another company to construct it is reserved to the city. The right to construct the Frankford Elevated is confirmed and the time limit extended for three years from June 1 1907.

The Philadelphia Rapid Transit cannot assume further leases, obligations, guaranties or part with its stock, lease-holds or franchises unless the consent of the city is obtained.

Under this agreement it is expected that the next $5 assessment on Philadelphia Rapid Transit will be called at the July meeting of the board, payable on or before Sept. 1. Compare V. 84, p. 1488, 1248, and editorial, V. 84, p. 1084.

Pittsburgh & Butler Street Ry.—*Bonds Offered.*—The Safe Deposit & Trust Co., the Pittsburgh Trust Co., J. I. Buchanan & Co., and the Bank of Pittsburgh, all of Pittsburgh, are offering at 101 and interest the unsold portion of the total issue of $1,500,000 first mortgage 5% 30-year gold bonds, of $1,000 each, dated May 1 1905 and maturing May 1 1935. Interest payable May 1 and Nov. 1 at office of Pittsburgh Trust Co., the trustee, Pittsburgh, Pa., or Colonial Trust Co., New York. Capital stock, all issued, $1,500,000.

Abstract of Letter from President George Heard, dated Pittsburgh, June 18.

The company was organized in Jan. 1905 under the laws of Pennsylvania for the purpose of building a high-speed interurban electric railway line to furnish transportation from Pittsburgh to Butler. A long-time contract has been entered into with the Pittsburgh Railways Co. for the use of their tracks from Liberty and Market streets, Pittsburgh, across the Sixth Street Bridge, through Allegheny and Millvale to Etna. The total length of line is 38.51 miles, of which 5.4 miles are over the tracks of the Pittsburgh Railways Co. From Etna the road runs for about 3½ miles at one side of the Butler Pike, and for the balance of the way to Butler, it lies on private right of way, excepting through the boroughs of Valencia and Mars, and for a short distance on the highway near Butler. An arrangement exists with the Butler Passenger Railway Co., which owns the local lines in Butler, and is owned by the interests in control of the Pittsburgh & Butler St. Ry. Co., for a loop service by way of Jefferson and Main streets. This secures us ideal terminal facilities in the heart of the city

Rails, 75 lbs. to the yard; ties, white oak, 2,640 to the mile; road, rock ballasted throughout. All crossings of steam roads are overhead. Bridges, steel and concrete. The company has sufficient right of way to permit double tracking of the whole line. The power plant located at Renfrew is equipped with two 750 k. w. turbo-generators of the well-known Westinghouse type. Power furnished from this station operates the entire system of the Butler Passenger Railway Co., which is a source of additional revenue to our company. Our gross earnings for May, being the first full months of operation from Etna to Butler, were $15,500. The earnings for the first fifteen days of June show a substantial increase over the average for May.

We are, therefore, reasonably assured of a gross income of over $200,000 for the first full year of operation, and we believe that when our business, including passenger, express and freight, is fairly well developed, the gross earnings will be $400,000 per year.

George Heard, President; George E. Tener, Vice-President; Chas. Gibson, Jr., Second Vice-President; H. S. Evans, Secretary.—V. 82, p. 1157.

Pittsburgh Ft. Wayne & Chicago Ry.—*Listed.*—The New York Stock Exchange has listed $1,431,900 additional guaranteed special stock, making the total listed $38,805,400.

This additional stock was issued on account of expenditures for additions and improvements aggregating $2,681,241 (notably, $1,014,161 for track elevation, $619,402 for real estate and right of way and $664,307 for additional rolling stock), from which sum was deducted the net amount of judgment awarded in connection with condemnation proceedings for the Sanitary District of Chicago, $1,238,514; other credits, $10,824; balance Dec. 31 1906, $1,431,903.—V. 82, p. 1497.

Pontiac Oxford & Northern RR.—*Status.*—Relative to the report that Robert Oakman of Detroit has an option on the stock, we have the following:

Mr. Oakman some weeks ago held an option on 60% of the company's stock, formerly owned by Mrs. Hugh Porter and others of New York, and was endeavoring to secure a similar option on the 4,000 shares of stock held by Charles H. Stone. The latter, however, declined to negotiate with Mr. Oakman, and it would seem that there is little probability of the electric system securing control of the P. O. & N. until the termination of the pending litigation between the majority and minority stockholders, under which the receiver is now in charge.—V. 84, p. 509.

Poughkeepsie City & Wappingers Falls Electric Ry.—*New Mortgage Authorized.*—The New York State Railroad Commission has approved the proposition to make a second mortgage for $250,000 to fund floating debt and provide for buying new cars and equipment to replace that destroyed by fire.—V. 82, p. 393.

Public Service Corporation of New Jersey.—*First Dividend.*—The directors late yesterday declared a first dividend of 1% on the $12,500,000 capital stock, payable to holders of record as of to-day. The dividend is not described as "quarterly" or for any other fixed period. The subsidiary company, the United Electric Co., of whose $20,000,000 capital stock over $19,500,000 is owned by the Public Service Corporation, has also declared a dividend, but for a larger amount, namely 5%, as we are informed by a Newark authority.

Balance Sheet.—See "Annual Reports" on a preceding page.—V. 83, p. 1229.

Reading Company.—*Guaranteed Bonds for Subsidiary.*—See New York Short Line RR. above.—V. 84, p. 1368, 1308.

Rio Grande Sierra Madre & Pacific RR.—*Merger Proposed.* See Sierra Madre & Pacific below and compare V. 84, p. 1368.

Rome City (N. Y.) Street Ry.—*New Stock.*—This company, controlled by the Mohawk Valley Co., the trolley holding company for the New York Central-Andrews syndicate (see page 73, "Street Railway" section), has called a meeting of its shareholders for June 22 to vote on increasing the capital stock from $150,000 to $500,000.—V. 79, p. 270.

Savannah Augusta & Northern RR.—*New Project.—Increase of Capital Stock.*—This company, incorporated in January last to build a steam railroad about 420 miles in length, extending from Savannah via Statesboro and Athens, to Chattanooga, Tenn., with a branch to Augusta, has filed an amendment to its charter increasing its authorized issue of capital stock from $8,000,000 to $11,000,000, the latter to consist of $8,000,000 common and $3,000,000 preferred. A contract for the construction of the road has been let to W. J. Oliver & Co. of Knoxville, Tenn., and press reports state that construction has begun. What financial interests, if any, are backing the enterprise is not disclosed. Among the names mentioned in connection with the enterprise are Judge Morgan J. O'Brien and W. A. Linn of New York City. The incorporators were:

Edward M. Rice of New York, and J. A. Brannen, Hinton Booth, J. G. Biltch, J. E. Donehoo, J. R. Miller, B. B. Sorrier, Cecil W. Brannen, R. F. Donaldson and S. L. Moore of Statesboro, Ga.

Sierra Madre & Pacific RR.—*Proposed Merger.*—This company, which is constructing an 160-mile southerly extension of the Rio Grande Sierra Madre & Pacific RR. (V. 84, p. 1368), will later absorb the latter company. The properties are owned by Col. W. C. Greene and allied interests and have concessions from the Mexican Government. H. R. Nickerson, formerly Vice-President of the Mexican Central, is the President.

Southern Ry.—*Sale of Stock of Central of Georgia Ry.*—See that company above.—V. 84, p. 1249, 1183.

South Omaha & Western RR.—*Bond Issue.*—This company has filed a mortgage to Maxwell Evarts of Windsor, Vt., and Gordon M. Buck of New York City, as trustees, to secure an issue of $3,000,000 50-year 6% gold bonds of $1,000 each. The mortgage covers the right of way, equipments, etc., of the double-tracked cut-off of the Union Pacific RR., extending from South Omaha to Lane, Neb., 11.6 miles. The "Railroad Gazette" of June 7 said:

The cut-off necessitates 3,000,000 cubic yards of excavation. The cuts include one a mile long with an extreme depth of 87 feet. Two-thirds of the grading is finished, and all the work is to be finished this year. The cut-off saves nearly nine miles over the old main line by way of South Omaha and Gilmore. The Union Pacific has 175 miles of second main track in operation between Omaha and Green River, Wyo., and its second track construction this year (embraing the cut-off) will include about 200 miles additional.

Toledo (O.) Railways & Light Co.—*Acquisition Ratified.*—The acquisition of the property of the Toledo Gas, Electric & Heating Co. was duly ratified on June 15. The stockholders also authorized the increase of the capital stock from $12,000,000 to $15,000,000. Of the new stock $1,875,000 will be issued in exchange for the $2,500,000 stock of the Toledo Gas Electric & Heating Co.

On June 21 a deed was filed conveying the property of the Toledo Gas Electric & Heating Co. to the Toledo Railway & Light Co. The deed states that the latter company, as part consideration for the property, has assumed the existing bonds of several issues aggregating $2,500,000, of which $108,000 is in the treasury.—V. 84, p. 1249.

Underground Electric Railways Co. of London, Ltd.—*New Lines Opened.*—The extension of the Baker Street & Waterloo Line, from Baker Street to Edgeware Road, was opened on June 15, the total length of the road now being 4¾ miles. The Charing Cross Euston & Hampstead Line, from Charing Cross to Golder's Green, with a branch line to Highgate, a total of about 8 miles, was opened on June 22. The line from the Strand to connect with the Great Northern Piccadilly & Brompton road at Holborn Station is expected to be opened in the fall of this year. Compare report V. 83, p. 1588; V. 84, p. 104.—V. 84, p. 694.

Union Electric Co., Dubuque, Ia.—*New Stock.*—The company, it is stated, has filed an amendment to its articles of incorporation increasing its capital stock from $1,000,000 to $1,500,000, to provide for improvements.—V. 79, p. 2643.

Union Pacific RR.—*Mortgage on Cut-Off.*—See South Omaha & Western RR. above.—V. 84, p. 1489, 1368.

United Railways of St. Louis.—*Notes Offered.*—The Mississippi Valley Trust Co. and Francis, Brother & Co., both of St. Louis, are offering at 99.54 and interest (yielding 5¾%), by advertisement on another page of this issue, $1,200,000 2-year 5½% collateral trust gold notes, dated July 1 1907 and due July 1 1909, but subject to call at company's option after July 1 1908 on thirty days' notice; interest payable Jan. 1 and July 1. The following particulars are furnished:

The notes are secured by deposit with the Mississippi Valley Trust Co., trustee, of $1,500,000 of the company's general first mortgage 4% gold bonds and $500,000 preferred stock, which at present market prices equal more than a 27½% equity above the amount of the notes. The proceeds will be used towards paying off the $1,500,000 6% bonds of the Citizens' Ry. maturing July 1 1907, the balance of the requisite amount being paid out of the earnings of the United Railways Co.

The bonds hypothecated as security are those reserved under the mortgage to retire said bonds of the Citizens Ry., and after payment of the latter the United Railways 4s will be a direct first lien upon 151 6-10 miles of track and a general lien upon 192 22-100 miles, exclusive of the Suburban system. The net income for the year 1906 was nearly 60% more than for 1905.—V. 84, p. 750, 688.

Washington & Columbia River Ry.—*Merger.*—This company, heretofore controlled by the Northern Pacific Ry., will be formally merged with that company on July 1. The Northern Pacific owns all the capital stock and the income bonds, and will assume the first mortgage 6% bonds due 1935, of which $2,498,000 have been issued.—V. 66, p. 426.

West End Street Ry., Boston.—*Sale of Stock at Auction.*—The 1,130 shares of common stock unsubscribed for by stockholders at $85 a share have been sold at auction to various bidders at prices ranging from 81⅝ to 83¾.—V. 84, p. 1369, 932.

West India Electric Co., Jamaica.—*Report.*—For year ending Dec. 31 1906:

Year.	Gross.	Net.	Bond Int.	Taxes.	Surplus.
1906	$165,776	$87,251	$30,000	$6,326	$50,925
1905	139,762	69,627	30,000	5,385	34,242

—V. 84, p. 694, 340.

Wilmington New Castle & Southern (Electric) Railway.—*Receivership.*—Chancellor Nicholson, at Dover, Del., recently appointed Wilmer Palmer and J. Chester Gigson, both of Wilmington, receivers of this property.

A press despatch from Wilmington on May 13 stated that E. C. Jones & Co. of New York had purchased $131,000 bonds of the company from a committee consisting of Maury Gibson, John T. Crankshaw and William M. Canby of Philadelphia; Levi I. Shoemaker of Wilkes-Barre, Pa., and Wilmer Palmer of Wilmington, Del. Compare V. 78, p. 1499.

Yosemite Valley RR.—*Entire Line in Operation.*—This company has completed and on May 15 placed in operation its standard-gauge steam railroad extending from a connection with the main lines of the Southern Pacific and Atchison Topeka & Santa Fe railroads at Merced, Cal., via Pleasant Valley to the Yosemite National Park, about 80 miles in all. This road makes possible a trip by Pullman car, without change, from San Francisco or Los Angeles to within five miles of the floor of the Yosemite Valley. N. W. Halsey & Co., New York, San Francisco, &c., have placed a except a small amount of the total issue of $3,000,000 first mort. 5% bonds, due Jan. 1 1936, recent sales being at 101 and interest. In a letter to the bankers President Frank G. Drum of San Francisco in August last wrote:

The route followed is from Merced in practically a direct line to Merced Falls, over comparatively flat country; thence along the Merced River through Pleasant Valley to the park terminal, making about 80 miles in all. The Merced River is the outlet of the Yosemite Valley, and gives access to the same by a gradual grade which renders this line capable of easy and economical operation. The terminus at Ward's Ranch, on the boundary of the Yosemite National Park, will be (is) about 5 miles from the floor of the valley proper. This terminal is to be (has been) connected with the Government roads in the National Park by a new stage road, making an extremely beautiful and appropriate entrance to the floor of the valley. The railroad can be kept open the year round, thus permitting access to the valley by thousands of winter tourists from Southern California, who in the past have been unable to visit the valley, as the open season was confined to from May to October. It is expected that the completion of the road will result in a great increase of travel into the Yosemite Valley, particularly as it will make a trip to the valley possible as a "Saturday to Monday" vacation from either San Francisco or Los Angeles.

In addition to its through passenger business and the express and fast freight incident thereto, this road has opened up considerable rich agricultural country below Merced Falls, from which a good freight traffic will be obtained. There is a large area of patented timber land tributary to the railroad between the Tuolumne River and the Merced River, and the district served also contains a large amount of low-grade ore, which should contribute materially to the earning power of the road. There are also extensive marble and granite quarries which can be opened up, and a considerable amount of other freight business already assured.

A sinking fund is provided sufficient to retire 40% of the bond issue by maturity, the payments called for being as follows: 1911 to 1915, ½% annually of the amount of bonds outstanding; 1916 to 1920, 1% annually; 1921 to 1930, 2% annually; 1931 to 1935, 2½% annually. This sinking fund is to be invested in the bonds of this issue or other interest bearing securities approved by the trustees.

It is confidently expected that the net earnings during the first year of complete operation will be more than sufficient to meet the annual interest charge on the above issue of first mortgage bonds. These earnings should grow from year to year with the increased volume of traffic handled.

Directors: Frank G. Drum, President; San Francisco; Wm. H. Crocker, President Crocker-Woolworth National Bank, San Francisco; N. D. Rideout, President Mercantile Trust Co., San Francisco; Thomas Prather, President Union National Bank, Oakland; W. W. Garthwaite, Vice-President Oakland Bank of Savings, Oakland; Henry T. Scott, capitalist, San Francisco; Harry L. Tevis, capitalist, San Francisco.—V. 82, p. 930.

INDUSTRIAL, GAS AND MISCELLANEOUS.

Albemarle & Chesapeake Canal Co., Norfolk, Va.—*Payment of Overdue Interest.*—The following notice was given under date of June 19:

Coupon No. 55 from the first mortgage bonds (total issue $500 000.—Ed.), properly stamped showing reduction of interest, maturing Jan. 1 1907 will be paid on presentation at the office of the company, No. 424 Citizens' Bank Bldg., Norfolk, Va.—V. 84, p. 997.

American Car & Foundry Co.—*New Officers.*—A Barton Hepburn has been elected a director in place of W. J. McBride, late General Manager.

William M. Hager, formerly Assistant Secretary, has been elected Secretary to succeed D. A. Bixby. Clarence Price has been elected a Vice-President. The Executive Committee is composed of Frederick H. Eaton, C. R. Woodin and H. R. Duval.

Report.—See a preceding page.

New Plant Proposed.—The company has purchased 170 acres of land at Gary, Ind., adjacent to the new works of the United States Steel Corporation, and has prepared preliminary plans for the establishment there of a new plant with a daily capacity of about 100 steel cars daily. The cost of the plant, it is stated, will be met out of earnings.—V. 84, p. 1369, 933.

American Express Co.—*Extension of Service.*—The company, it is announced, will on July 1 succeed to the local express business over the Lake Shore & Michigan Southern, the United States Express Co. continuing to do through business. Part of the through expressage of the American Co. will also be shipped over the Lake Shore. On the same

date the American Co. will supersede the United States Co. on all business over the Lake Erie & Western and on Aug. 1 will succeed the Adams Express Co. on the Boston & Albany east of Worcester, Mass.—V. 84, p. 933.

American Gas Co., Philadelphia.—See St. Clair County Gas & Electric Co.—V. 82, p. 1498.

Browning Engineering Co., Locomotive Cranes, Cleveland.—*Preferred Stock Offered.*—This company is offering for sale $250,000 7% cumulative preferred stock. No bonds or mortgage. A circular says:

Organized in 1900 (under Ohio laws) for designing and building hoisting machinery. The work sublet to various machine shops being unsatisfactory, it was found necessary to have its own shop, and a tract of 17½ acres was obtained in Collinwood and Nottingham, suburbs of Cleveland. The plant has two switches from the L. S. & M. S. RR. and comprises twelve buildings, all nearly fire-proof, having a floor space of 75,000 square feet and connected by narrow-gauge shop tracks. In 1901 it became apparent that the locomotive crane was the specialty upon which to concentrate. During this year the company brought out three standard sizes of locomotive cranes. Beginning with 1902, the business doubled each year, and during 1906 the income derived from locomotive cranes alone exceeded $725,000, and judging from sales at the present day the indications are that in 1907 the total output will amount to $1,250,000. To meet this large business, it was necessary to secure additional means of production, which the management did by contracting for the entire output of the Mansfield Engineering Plant of Mansfield, O., and the American Foundry & Machine Plant at Ravenna, O. This will require additional capital, as the present capitalization of $500,000 will be too small to carry on such a volume of business. Therefore the capital stock will be (has been) increased to $850,000. Of this increase, $250,000 is 7% preferred cumulative stock which is now offered for sale; this 7% stock has all the advantages of a first mortgage except in name, there being no mortgage or bonded indebtedness on the plant. $100,000 of the increase is common stock, which will be placed in the treasury. The company made 23% on its entire capitalization last year. The business is now upon a manufacturing and not a contract basis. The advantages of having as an output an article which ranges in price from $4,000 to $15,000 are numerous, one being that the company is not apt to have its resources tied up, as in the case of engineering companies who contract to put in a plant complete for several hundred thousand dollars.

BALANCE SHEET DEC. 31 1906.

Assets ($709,775).		*Liabilities* ($709,775).	
Lands, bldgs., machy., tools	$303,250	Accounts payable	$62,488
Patterns, drawings, records, prints, patents, good-will, &c	106,996	Notes payable	92,829

Crude stock and finished stk. on hand	126,514	Reserve for acc'ts not rend'd	3,323
Advance to agencies and subsid'y cos. & int. & insur. prems. paid in advance	39,081	Reserve to complete contr'ts	1,500
		Advances on contracts	6,375
		Capital stock	500,000
		Surplus	34,041

President, Benj. F. Miles; Secretary, Earl H. Browning; Treasurer, Sheldon Cary, all of Cleveland.

Central & South American Telegraph Co.—*Partly Estimated Earnings.*—For 3 and 6 months ending June 30:

3 *Mos.*—	*Tot. Inc.*	*Net Inc.*	*Dividends.*	*Bal. Sur.*	*Total Sur.*
1907	$395,000	$268,000	(1½ %) $144,855	$123,145	$2,147,326
1906	353,000	252,000	(1½ %) 115,884	136,116	1,656,749
6 *mos.*—					
1907	$807,500	$555,500	(3 %) $260,739	$294,761	$2,147,326
1906	701,000	491,000	(3 %) 231,768	259,232	1,656,749

—V. 84, p. 1430, 1184.

Commercial Light, Heat & Power Co., Wilmington, Del.—*Franchise—Increase of Stock.*—This company, which was recently granted a franchise, has filed a certificate increasing its capital stock from $100,000 to $1,000,000.

The directors of the Street and Sewer Department on June 10 passed the ordinance granting the company a franchise over the veto of Mayor Wilson. Counsel for the company presented letters from R. E. Robinson & Co. and Evans R. Dick, of Dick Bros. & Co., New York City, offering to finance the company and build its works in the event of the franchise being granted. —V. 83, p. 892.

Colt's Arms Co.—*Dividend Increased.*—This company has declared a quarterly dividend of 1¼%, payable July 1, on its $2,500,000 capital stock. This increases the annual rate to 5% as against 4% per annum since Oct. 1 1902. There is an authorized issue of $1,500,000 collateral trust 5% gold bonds, of which only $1,200,000 was ever issued and only $600,000 is now outstanding. This reduction in the bonds has been effected in the last three years by the purchase and retirement of the bonds. New York office, 44 Broadway.

Dayton (O.) Lighting Co.—*Change in Capital Stock.*—This company recently filed a certificate reducing its authorized issue of capital stock from $2,500,000, all of one class to $1,850,000, and on June 11 filed an additional certificate increasing its stock from $1,850,000 to $3,500,000, to consist of $3,000,000 common and $500,000 5% cumulative preferred. Compare V. 80, p. 1425.

Delaware Company of New Jersey.—*Option to Exchange Bonds.*—This holding company, controlling, through large stock ownership, the Westmoreland Water Co., the Derry Water Co., the Irwin Water Co. and the Dennison Water Supply Co. (all operating in Pennsylvania), notifies the mortgage bondholders of the Westmoreland and Derry companies that it is prepared to exchange at par its 5% collateral gold bonds for their 6% bonds maturing July 1 1908, and and for their prompt acceptance will pay in cash 1% from date of acceptance to July 1 1908.

The "Philadelphia Financial Bulletin" has the following:

The authorized issue of the Delaware Company bonds is $1,250,000. The Girard Trust Co. of Philadelphia is trustee, to whom the stock control of the four subsidiary companies has been assigned for the protection of the bonds. The bonds will be issued from time to time to take up the first mortgage bonds of the subsidiary companies as they fall due, or can be advantageously purchased and for betterments to increase the earning capacity of the plants. The companies can only obtain capital by means of these bonds, having bound themselves to create no other debt. Already the Dennison Water Supply Co. bonds, $125,000, have been taken up.

The four water works have been in operation for over 18 years, and the earnings in recent years are showing big increases; but even now it is estimated that not over 75% of the population is supplied. The Westmoreland, Derry and Irwin companies have gravity plants and obtain their water supplies from mountain streams. The Dennison plant is supplied from a large creek and has a complete mechanical filtration plant.

Earnings of the Four Companies for the Last Four Years.

Year ending Oct. 31—	1906.	1905.	1904.	1903.
Gross earnings	$178,468	$160,720	$155,328	$147,388
Net earnings	$70,114	$48,374	$50,599	$48,553
Dividends paid	22,088	22,988	20,742	19,617
Surplus	$48,626	$25,386	$29,857	$28,935

Denver Reservoir Irrigation Co.—*Consolidation—Bonds Offered.*—The Trowbridge & Niver Co., Chicago, is offering at par and interest, by advertisement on another page of to-day's "Chronicle," $1,600,000 first mortgage 6% bonds dated Man 1 1907 and due in annual installments on May 1, namely: $100,000 in 1910, $150,000 yearly 1911 to 1916 and $200,000 yearly 1917 to 1919. Bonds maturing 1913 and thereafter are optional on or after May 1 1912 at 103 and interest. Interest payable Nov. 1 and May 1 at the American Trust & Savings Bank of Chicago, the mortgage trustee. Denominations $1,000, $500 and $100. A circular says:

Incorporated under the laws of Maine, and has effected a consolidation of eight large reservoir and irrigation companies, some of which have been in operation for many years. The water rights owned conserve the waters of the eastern slope of the Rocky Mountains. The company embodies the best features of the United States Carey Act and the Colorado Municipal Irrigation District Law: (1) The owner of the land becomes the owner of the water. (2) By purchase of a water right the title to the reservoirs, canals, &c., eventually passes to the settlers and land owners, subject to the lien of this bond issue. (3) The properties are under the supervision of the State Engineer and, as quasi-municipal, are exempt from taxation.

The bonds are secured: (1) By mortgage on the reservoirs, canals, water rights and all properties now owned or hereafter acquired by the company. (2) By collateral security in the form of mortgage liens upon the lands watered, derived from sales of water rights appurtenant to the land. The farmer has ten years in which to pay for a perpetual water right at the rate of $40 per acre. Deferred payments for water rights draw 6% interest and must be deposited with the trustee, in the proportion of one and one-quarter times the amount of the bonds issued. As security for every $1,000 bond, therefore, the trustee holds $1,250 mortgage liens upon farm land estimated worth, with water, over $3,000. As the market value of the land increases, the value of the security increases in even greater ratio, for the reason that the trust deed provides that the mortgage shall be valued at no more than $40 per acre of land. In our judgment the lands herein estimated at $100 per acre will command from two to five times that amount within the life of the bonds. Lying between Denver and Greeley is an extent of choice farm land of over 200,000 acres, adapted to general farming, market gardening or fruit culture. This land is much of it arid and unproductive; some of it is partially irrigated, but without storage reservoirs, and the supply of water fails in the early summer. Large crops of sugar beets, alfalfa, wheat, oats, tomatoes, cantaloupes and fruit can be raised wherever reservoir water is obtainable.

The company has acquired, by purchase of the stock of subsidiary companies, by condemnation and by direct purchase, a number of reservoirs and reservoir sites at the base of the mountains. Its ten reservoirs and reservoir sites provide for a storage of about five billion cubic feet of water, sufficient to cover more than 125,000 acres with water 12 inches deep. The two largest reservoirs are Standley Lake (under construction), covering an area of 1,680 acres, with a circumference of 7½ miles, located 9 miles northwest of Denver, and Marshall Lake reservoir, situated 15 miles from Denver. There are eight other smaller reservoirs located at various points in the tract of land under consideration, all forming a complete system for storing the water from Clear Creek, South Boulder Creek and a number of minor streams. A. S. Crane, hydraulic engineer for J. G. White & Co., engineers and contractors, New York, reports an available water supply for 129,000 acres, and Dr. Elwood Mead, the chief irrigation expert of the Department of Agriculture, Washington, furnishes his opinion that the company has a legal right to 125,000 acre feet of water.

Officers, all of Denver: President, Joseph Standley; First Vice-President and General Manager, W. E. Goldsborough; Vice-President, T. B. Croke; Treasurer, E. A. Neresheimer; Secretary, O. J. Standley.

Derry Water Co.—*Option to Exchange Bonds.*—See Delaware Company above.

Dominion Iron & Steel Co.—*Report for Year ending May 31.*—The annual report for the year ending May 31 1907 shows on the basis of coal at the contract price provided in the contract (in litigation) with Dominion Coal Co.: Net earnings, $2,247,536; interest charges, $684,384; and surplus earnings, $1,563,152; of which there was transferred to contingent account $810,713 and to sinking fund $64,612. The report for preceding fiscal year showed net earnings, $1,406,305; interest payment, $694,532; balance, surplus, $711,774.

Regarding the results for the late year, an exchange says:

The company has charged up the coal used in its operations at the old contract price of $1 28 per ton, irrespective of cost: this being the price of broken contract with the Dominion Coal, and which will be contested in the courts. The excess cost has been charged to a special account with the Dominion Coal Co. as part of damages for which suit is brought. Up to May 31 this amounted to $810,713, of which about $500,000 was paid to the Dominion Coal Co. The balance represents the extra cost of coa bought from others. The earnings available thus amount to $752,438. Out of this the company has taken the sinking fund of the first mortgage bonds, and the surplus has sufficed to cover the deficit carried from past years in profit and loss account, leaving a credit balance of $318,000.

The aggregate earnings November to February, inclusive, fell off about $250,000, as compared with the average of preceding months of 1906, due to the breaking of the coal contract by the Dominion Coal Co. During the year $306,000 was spent on capital account, the chief item being the Bessemer plant. The company has secured options on several Nova Scotia coal properties, which are now being prospected.—V. 84, p. 696.

Eastmans Limited.—*Subdivision of Shares.*—At a general meeting of the company held on the 13th inst., the necessary resolutions for sub-dividing the existing preference and ordinary shares into shares of £1 each were duly confirmed.

For the purpose of carrying out the change the books of the company will be closed from the 18th July to the 31st July inclusive, and on or after the 1st August next the new certificates will be ready to be delivered in exchange for the old certificates upon application at the company's office, 91 Charterhouse St., London, E. C. John L. Bisset is Secretary.—V. 80, p. 1237.

Edison Electric Illuminating Co. of Boston.—*Extra Dividend.*—The directors yesterday declared the regular quarterly dividend of 2½% and an extra dividend of 1%, both payable Aug. 1 to stockholders of record July 15. Dividends of 10% per annum have been paid since early in 1901.—V. 84, p. 1116, 1055.

Edison Electric Illuminating Co. of Brockton, Mass.—*Option to Subscribe.*—Stockholders of record June 18 have the right to subscribe on or before July 16 for 5,500 shares of new stock at par ($100 a share) to the extent of 2 1-5 shares for each share now held by them respectively. Subscriptions are payable $75 per share on July 16 and $25 on Oct. 8. The new certificates will be ready Nov. 1.—V. 84, p. 1116.

General Electric Power Co. of California.—*Bonds Offered.*—The company is offering for subscription at 96%, through

Bell, Eglof & Co., Kansas City, $1,000,000 of its authorized issue of $9,000,000 "first mortgage 30-year 5% interest-bearing first mortgage dividend participating gold bonds," dated Oct. 2 1907 and due Oct. 2 1937, but redeemable at option of the company on any interest date, "Oct. 2 or March 2," after 1912, at 105. Sinking fund $200,000 yearly, beginning in 1912. Par value, $100, $300, $500 and $1,000. Trustee, Carnegie Trust Co., New York City. A circular says in substance:

Incorporated under the laws of California Sept. 1905. Authorized capital stock, $9,000,000, of which $1,500,000 is 7% preferred. Par of shares, $100. Common shares to the amount of $6,600,000 have been allotted and are fully paid up, the proceeds having been utilized in the acquisition of the lands, water rights, sites, rights of way, &c., as mentioned hereafter. The whole of the $1,500,000 7% preferred shares and $900,000 of the common shares remain in the treasury. Of the total authorized bond issue, $6,000,000 is reserved for England, France and Holland and $3,000,000 is to be sold in the United States. After payment of interest and other charges, there shall be paid when earned a dividend pro rata equally upon the common shares and the first mortgage bonds outstanding, until each shall have received 5%. All further earnings shall be paid either to the common shareholders or placed to surplus or improvement account. The total issue of the common shares shall at no time exceed $7,500,000 without the consent of two-thirds of the outstanding bonds.

Bonds secured by first mort. on all lands, water rights, plant, transmission lines, dams, canal, pipe lines, standard-gauge high-tension railway, ferry systems, docks, &c., now owned or hereafter acquired, including the $3,500,000 stock of the Clear Lake & Southern RR., incorporated under the laws of California, Sept. 1905, to construct and operate a high-tension standard-gauge electric railway. The southern terminus of this railway will be San Francisco—thence by its own ferry system to California Point, on the Bay of San rancisco, whence a northerly route will be followed to Lakeport, on Clear Lake, 130 miles.

The company owns the right to use all the waters of the Mokelumne River for power purposes at and above its main dam in Amador County, Cal., about 170 miles northeast of San Francisco. This river rises in the high Sierra Nevada Mountains, which are perpetually snow covered, from the melting of which it is largely supplied with its water. The main dam, 150 feet in height, will form a reservoir of about 400 acres, with a storage capacity of approximately 1,400,000,000 cubic feet of water. Above this reservoir dams of moderate height, together with large natural lakes, will provide additional storage capacity, greater than that of the main reservoir. From the main reservoir an aqueduct will convey the water 17 miles to the power house, 1,230 vertical feet below. The volume of water thus supplied will give an output of 60,000 electric horse-power at the power house, or 60,000 net commercial horse-power, for sale. The current generated at the power house, which is about 153 miles from San Francisco, will be raised to 80,000 volts for transmission on long-distance lines, to about 800 cities, towns and villages in 15 different counties of central California, notably San Francisco, Oakland, Berkeley, Alameda, Sacramento, Stockton, San Jose, Santa Cruz, San Rafael, Santa Rosa, Santa Clara, Woodland, Lakeport, Napa, St. Helena, San Mateo, Willits, Vallejo, &c., and will also be used to operate the Clear Lake & Southern RR.

The company owns all its dam sites, water rights, reservoir sites, aqueduct and railroad right of way and power house site, also lands and terminals in fee simple and possesses also the right of eminent domain.

Taking power at $40 per horse-power per year, which is below the present selling price and $25 less than it can be produced by using the cheapest fuel (crude oil), gives: 60,000 electric horse-power at $40, $2,400,000. Deduct operating expenses (estimated), $170,000; insurance, taxes, &c., $30,000; interest on bonds, $450,000; sinking fund, $250,000; balance, total annual net profit from power, $1,500,000. For the Clear Lake & Southern RR., the engineers estimate a total annual revenue of $950,000; operating expenses, taxes, &c., $599,680; net earnings, $350,320. Grand total estimated yearly net earnings, $1,850,320.

A contract for the construction of the entire power plant and electric railway has been entered into with Walston H. Brown & Bros., New York City, by which they undertake to complete the entire work within two years upon most favorable terms to the company with a guaranty that the total cost will not exceed the proceeds of the bond issue.

Directors.—Henry T. Scott, San Francisco, Chairman; William H. Underwood, Rochester, N. Y., President; A. L. Scott, San Francisco, Vice-President; George W. Peltier, Sacramento, Treasurer; Guy C. Calden, San Francisco, Secretary; Henry A. Butters, San Francisco; Joe Craig, Woodland, Cal.; Martin E. Wolff, George W. Archer and James D. Casey, Rochester, N. Y.; John S. Campbell, Butler, Pa.

Offices of the company, San Francisco, Cal., and Rochester, N. Y. The company's brokers are Perrin & Co., 1124 Granite Building, Rochester, N. Y.—V. 83, p. 1101.

Green Canyon Coal Co.—*Called Bonds.*—Eleven 7% gold mortgage bonds, viz.: Nos. 8, 9, 22, 43, 47, 111, 146, 150, 158, 274 and 287, have been called for redemption on July 1 at the office of the International Trust Co., as trustee, Denver, Col.

Hudson County Gas Co.—*Listed.*—The New York Stock Exchange has listed $210,000 additional first mortgage 5% 50-year coupon bonds, due 1949, making the total listed $10,500,000. The proceeds of the $210,000 bonds have been or will be used for additions, extensions and betterments. Compare V. 80, p. 475.

Idaho-Nevada Power Co.—*Incorporation.*—This is the company whose incorporation was noted in the paranthesis at the close of statement regarding the Idaho-Oregon Light & Power Co. in V. 84, p. 1490.

Idaho-Oregon Light & Power Co.—See Idaho-Nevada Power Co. above.—V. 84, p. 1490.

International Text Book Co., Scranton, Pa.—*Called Bonds.*—Seventeen bonds ($17,000) of the Colliery Engineer Co. have been called for payment, interest ceasing July 1.—V. 84, p. 628.

Louisville Gas Co.—*Sale of Bonds Proposed.*—The shareholders will vote July 1 on a resolution authorizing the sale of all or part of the bonds of the Louisville Lighting Co. held by the company. The "Louisville Courier Journal" of June 22 said:

The bonds will be sold from time to time to meet current and extraordinary expenses. Part of the proceeds will be used to help pay for the new office building and the rest will be used for the extensions of the company's gas mains. The gas company will indorse the bonds for the payment of the principal and interest.—V. 83, p. 1474.

Massachusetts Gas Companies.—*Reduction in Price of Gas by Subsidiary.*—This company's subsidiary, Boston Consolidated Gas Co., on June 24 announced that on July 1 the maximum price of gas will be reduced five cents per thousand feet, making the maximum price 80 cents per thousand feet. An official statement says:

On July 1 1907 the Boston Consolidated Gas Co. will voluntarily reduce the maximum price of gas five cents per thousand cubic feet, making the maximum price 80 cents per thousand. This reduction will be the fourth that the company has made during the past two years, each reduction being 5 cents per thousand, making a total reduction of 20 cents per thousand, which will mean a saving to the gas consumers of Boston during the year commencing July 1 1907 of about $800,000, as compared with the price before the local gas companies were consolidated two years ago. This reduction is all the more remarkable when one considers that, in the time mentioned, the prices of all materials and labor have shown a marked advance. The company has some customers who use less than 50 cents worth of gas per month on an average, and who, therefore, are a source of loss to the company; consequently, to partially meet this loss, after July 1 those customers using less than 50 cents worth of gas per month will be charged enough for the use of the meter installed on their premises to make the total charge for gas and for use of the meter not less than 50 cents per month.

Earnings.—The following figures were given out last week in connection with the dividend declarations of the several companies in the system, which were the same as in the past, except for the New England Gas & Coke Co., which declared a dividend of 1% as against 1½% a year ago:

Surplus Earnings (available for dividends).	*Boston Consol. Gas Co.* 1907.	1906.	*New Eng. G. & C.* 1907.	1906.
May	$86,144	$73,230	$57,766	$59,480
Eleven months	1,117,027	1,225,707	409,040	517,528

The decrease of $108,680 shown by the Boston Company for the 11 months is chiefly due to the decrease in the price of gas; the decrease in earnings for the six months ending Dec. 31 1906 was $179,762, followed by increases since except in February.—V. 84, p. 106.

Mexican Telegraph Co.—*Partly Estimated Earnings.*—For 3 and 6 months ending June 30:

	Total Income.	*Net Income.*	*Mexican Govt.*	*Dividends paid.*	*Balance, Surplus.*
3 mos.—					
1907	$172,500	$167,500	$9,000	(2½%) $717,52	$86,748
1906	170,500	165,500	7,500	(2½%) 71,748	86,252
6 mos.—					
1907	$357,500	$344,500	$18,000	(5%) $143,502	$182,998
1906	333,500	322,000	15,000	(5%) 119,563	187,437

Total surplus June 30 1907, $1,980,735.—V. 84, p. 1117.

Michigan Sugar Co., Saginaw, Mich.—*Dividends Begun.*—The board of directors on May 27 passed a resolution providing for the payment of quarterly dividends of 1½% on preferred stock, to begin June 15 1907.

Annual Report.—The report presented at the annual meeting on May 27 is cited as follows:

The Michigan Sugar Co. owns and operates six plants, located at Alma, Saginaw, Bay City, Sebewaing, Caro and Croswell. During the year just closed the company used beets harvested from 36,714 acres, reduced to a tonnage of 305,022. The total quantity of sugar manufactured and packed, exclusive of brown sugar and molasses, was 71,617,171 pounds, all of which has been sold. The company paid out for beets $1,885,886 and expended for labor and supplies $546,617. The company owns and operates the drying plant for the manufacture of beet pulp as stock food in Alma, Bay City and Sebewaing. Pulp has a ready market and will advance next year. The company's acreage for next year now under contract has been largely increased, it now having 42,756 acres.—V. 84, p. 1185.

Osceola Consolidated Mining Co.—*Dividend Increased.*—The company on June 27 declared a semi-annual dividend of $7 per $25 share, payable July 29 to holders of record July 6. On Jan. 24 1907 $6 per share was paid. Annual dividend record since 1893:

Dividends—	1893	1895	1896	1897	1898	'99 to '01	1904	1905	1906	1907
Per cent	$2	$2	$2 50	$3	$3	$6	$2	$4	$10	$13

—V. 84, p. 1056, 452.

People's Gas Light & Coke Co., Chicago.—*Listed.*—The New York Stock Exchange has listed $7,900,000 additional refunding mortgage 5% bonds, due 1947, making the total amount listed $10,400,000.

For improvements and additions there was expended between Sept. 1 1897 and Dec. 31 1899 $2,913,803, on account of which $2,913,000 of refunding bonds were authorized by the directors to be certified by the trustee, but only $800,000 of these bonds were ever sold; these last-named bonds are included in those now listed. The remaining $7,100,000 of the bonds just listed were issued from time to time to refund the following:

People's Gas Light & Coke Co. first and second mortgage 6% bonds, due in 1904	$4,600,000
Equitable Gas Light & Fuel Co. first mortgage 6% bonds, due July 1 1905	2,000,000
Illinois Light, Heat & Power Co. first mortgage 7% bonds, due Nov. 1 1915 (retired in Feb. 1907)	500,000

—V. 84, p. 1432, 576.

Portland (Ore.) General Electric Co.—*Bonds Offered.*—The Harris Trust & Savings Bank, Chicago, and N. W. Harris & Co., New York and Boston, have just purchased $250,000 first mortgage 5% bonds, the proceeds of which will reimburse the company for 75% of the cash cost of permanent extensions, improvements and additions.

The company does the electric-light and power business of Portland, Salem, Vancouver and the surrounding territory. It is a subsidiary corporation of the Portland Railway & Light Co. (see "Street Railway" section), which controls the street railway, light, heat and power and interurban transportation systems of Portland and neighboring cities, serving a population of about 180,000. The Portland General Electric Co. is capitalized at $1,250,000 of preferred and $2,500,000 of common stock, and at the price at which control was purchased in 1906 there is, it is stated, a cash equity in the company's property of more than $3,500,000 in excess of the outstanding bonds.—V. 83, p. 1595.

Randolph-Macon Coal Co.—*Time Extended.*—The time for depositing the bonds under the terms of the protective agreement has been extended up to and including July 11.—V. 84, p. 1490.

St. Clair County (Ill.) Gas & Electric Co.—*Bond Issue.*—This company, recently formed by consolidation of the Belleville Gas & Electric and East St. Louis Gas Co., has issued $1,200,000 5% gold bonds secured by its new first consolidated mortgage recently filed to the Guardian Trust Co. of Philadelphia, as trustee.

This mortgage is limited to $3,500,000 and the bonds are dated March 1 1907 and mature March 1 1957; interest payable Sept. 1 and March 1 at office of trustee. Of the authorized issue, $790,000 is reserved to retire a like amount of underlying bonds which remain outstanding. The capital stock, all issued, consists of $3,350,000 common and $150,000 preferred; par of shares, $100. The company is understood to be controlled by the American Gas Co., 224 South 3d Street, Philadelphia. President, Morris W. Stroud; Secretary and Treasurer, Walter Godley.—V. 84, p. 1311, 511.

Standard Steel Car Co. of Pittsburgh.—*Progress of New Plant.*—A technical paper says: "The new plant of the company at Hammond, Ind., is approaching completion and will be put in partial operation early in July. This plant, when fully completed, will have a daily capacity for turning out about 50 steel cars, but will not make more than 10 or 15 cars at the start."

The company's capital stock is $5,000,000, and an advertisement states that the plants have a capacity of 50,000 steel and composite freight cars

per annum along with steel car underframes, trucks, bolsters, brake-beams, &c. The works in Pennsylvania are located at Butler and New Castle. An order was recently received from the New York New Haven & Hartford RR. for 2,650 steel cars.—V. 80, p. 1179.

Tamarack Mining Co.—*Dividend Increased.*—A semi-annual dividend of $4 per share has been declared, payable July 23 to stockholders of record July 3, comparing with $3 paid on Jan. 24 last. Annual dividend record since 1892:

Dividends.	'92	'93	'94	'95	'96	'97	'98	'99	'00	'01	'04	'05	'06	'07
Per cent	$12	$12	$8	$8	$6	$6	$8	$10	$17	$20	$1½	$2	$5	$7

—V. 84, p. 752.

Twin State Gas & Electric Co. (New Hampshire and Vermont).—*Bonds Offered.*—A. H. Bickmore & Co., 30 Pine Street, New York, are offering at 90 and interest $500,000 "first and refunding mortgage" 4½% 20-year gold bonds, dated Oct. 1 1905 and due Oct. 1 1926. Denominations $500 and $1,000. Coupons payable April 1 and Oct. 1 at Knickerbocker Trust Co., trustee, New York. These bonds are guaranteed as to principal and interest by the National Light, Heat & Power Co., New York (V. 80, p. 1233, 2102), which controls and operates the company and other gas and electric companies situated in the Eastern and Middle Western States. The issue is limited to $1,500,000, of which $500,000 is reserved and can only be issued for 85% of cost of future improvements and extensions; $500,000 is now offered, and $500,000 are reserved to retire the underlying bonds, which are to be retired as rapidly as possible. (See "Street Railway Section.") A circular says:

This company furnishes electric light and power for the cities and towns of Dover, Rochester, Somersworth, Salmon Falls and Hinsdale in New Hampshire; Berwick, North Berwick, South Berwick and Lebanon in Maine, and Brattleboro in Vermont. It also furnishes gas in the cities of Dover and Brattleboro and operates the Brattleboro Street Ry. All principal franchises are unlimited. At Dover and Brattleboro, the centres of distribution, the water-power plants, with thoroughly equipped steam auxiliaries, furnish electric light and power locally and to adjacent towns and villages. The gas plants are centrally located, and of modern construction and ample capacity. The Brattleboro Street Railway, five miles in length, runs from West Brattleboro through Brattleboro up to the East Side Heights traversing a thickly-populated section. Estimated population served, over 55,000. Earnings for year ending June 1 1906: Gross, $176,667; net, $65,168; fixed charges, $35,000; surplus, $30,168. For period ending March 31 1907 (Brattleboro division 7 months, Dover division 6 months; the gross earnings were $106,716; net, $44,956; fixed charges, $22,063; balance, surplus, $22,894.

Earnings of National Light, Heat & Power Co. and Subsidiaries.

Period Covered—	*Gross Earnings.*	*Net Earnings.*	*Bond Interest.*	*Balance, Surplus.*
Year ending Dec. 31 1906	$353,773	$160,898	$66,130	$94,768
Year ending Dec. 31 1905	246,492	115,292	50,022	65,270
Year ending Dec. 31 1904	162,968	69,382	32,706	36,676
6 mos. ending Mch. 31 1907	286,899	131,259	50,220	80,040

—V. 83, p. 499.

United States Express Co.—*Lake Shore Business.*—See American Express Co., above.

Committee's Estimate.—The committee of shareholders which is seeking an increase in the rate of dividends has issued a circular in which it is stated that, based upon independent investigations, the committee believes the total value of the assets to be $16,931,000, exclusive of $4,000,000 as the value of the good will of the business, as estimated by several competent persons. The company has offered to permit an audit to be made and to share in the expense.—V. 84, p. 1311.

United States Independent Telephone Co., Rochester, N. Y.—*Option Declared Off.*—Edward F. Goltry and E. A. Faust of St. Louis on June 19 notified the company that the option on the property at a sale price of $6,000,000 must be declared off. The independent interests, it is asserted, are likely to make another proposition for the property.

Sub-Company Enjoined.—See Utica Home Telephone Co. below.—V. 84, p. 1373, 936.

United Water & Light Co., Pittsburgh, Pa.—*Bonds Offered.*—The Municipal & Corporation Securities Co., Pittsburgh, Pa., is offering at par and interest "first mortgage and collateral trust" 5% gold bonds, guaranteed by endorsement (principal and interest) by the American Water Works & Guarantee Co., of Pittsburgh, dated May 1 1907 and due May 1 1947, but subject to call at 105 and interest. Denominations $500 and $1,000. Interest payable May 1 and Nov. 1 at Farmers' Loan & Trust Co., trustee, New York City. A circular says:

These bonds are issued for the purpose of refunding a series of issues coming due at varying intervals on eleven water works and two electric-lighting properties, all owned by the United Water & LightCo., namely: Water works at Marinette, Wis.; Keokuk, Iowa; Kokomo, Ind.; Merrill, Wis.; Kearney, Neb.; Mt. Vernon, Ind.; Louisiana, Mo.; North Platte, Neb.; Wellsville, N. Y.; Wahoo, Neb.; Guyandotte, W. Va., and electric-lighting properties in Mt. Vernon, Ind., and Wellsville, N. Y. Under the terms of the mortgage, there are not and cannot be any underlying bonds or bonds of a prior lien to this issue. The bonds of the company can be issued only upon the deposit with the trustee of first mortgage bonds against the properties of the subsidiary companies and the entire capital stock of said companies is also deposited as additional security.

Total population of municipalities served by said companies in 1900, Federal Census, 76,621; total population, including suburbs in 1907, over 100,000. Services to consumers, 12,145; miles of pipe in use, 182.66; number of city hydrants supplied, 1,345; total daily pumping capacity, 42,500,000 gallons. The earnings and expenses of the aforesaid water works and lighting properties for the year ending April 30 1907 were: Gross revenue, $256,479; operating expenses and taxes, $139,985; net earnings, $116,494. Annual gross earnings, 1903-04, $209,744; 1904-05, $231,246; 1905-06, $250,981; 1906-07, $256,479.

The United Water & Light Co. 5% bonds are unconditionally guaranteed by the American Water Works & Guarantee Co. of Pittsburgh, Pa., which company has been doing business for over 25 years, its capital stock being now $2,000,000; surplus earnings, $1,600,000; total, $3,600,000. On Jan. 1 1907 the American Water Works & Guarantee Co. owned and operated water works supplying 112,076 services, representing a population of over 1,000,000 people served through 1,699 miles of mains. The daily pumping capacity of its 40 plants is 234,200,000 gallons. The bonds which they guarantee are on plants of such as it owns the entire capital stock of. Since 1889 the American Water Works & Guarantee Co. has paid dividends regularly at an average rate in excess of 6% on its capital stock. A conservative estimate of the value of the properties owned by the American Water Works & Guarantee Co. is at least $5,000,000 in excess of the bonds against its plants. During the 25 years of its existence there has never been a day's delay in the payment of principal or interest of any bonds guaranteed by it; besides this, each year of operation has shown increased revenues over the previous year. See also V. 84, p. 1373.

Utica Home Telephone Co.—*Enjoined.*—At Rochester on June 19 Supreme Court Justice Foote denied the motion of the company to vacate an injunction obtained recently by the United States Independent Telephone Co., owner of a majority of the stock of the Utica Company, restraining it from taking further proceedings to increase its capital stock. —V. 84, p. 630, 395.

Virginia-Carolina Chemical Co.—*New Director.*—Joseph Bryan of Richmond, Va., has been elected to succeed the late Samuel Spencer.—V. 83, p. 277.

Westinghouse Electric & Manufacturing Co.—*Earnings.*—For two months ending May 31 1907:

Earnings of the Company and its Subsidiary Companies for April and May 1907.

Manufacturing profit	$1,248,787
Miscellaneous income	155,838
Total income	$1,404,625
Interest on bonds and debenture certificates, miscellaneous interest, depreciation, &c	584,801
Net credit to surplus	$819,824

—V. 84, p. 1373, 1253.

Westmoreland Water Co.—*Option to Exchange Bonds.*—See Delaware Company above.

Youngstown Sheet & Tube Co.—*Extra Dividend.*—This company, it is stated, has declared its regular quarterly dividend of 1½% and an extra dividend of 2%, payable July 1.

A technical paper says: "The company has decided to add one lap weld furnace and two butt weld furnaces to its pipe plant. This company is now making from 14,000 to 15,000 tons of iron and steel pipe per month, in sizes ranging from ¼ inch up to 12 inches, and when the new furnaces are completed it will be able to make about 25,000 tons. When the new welding furnaces are finished they will about take up the excess skelp capacity. —V. 83, p. 443.

—The banking house of Shoemaker, Bates & Co. (37-43 Wall Street and 500 Fifth Avenue) are offering on another page a very extensive list of railroad corporation and municipal bonds. Among the issues offered are Chesapeake & Ohio Ry. second consolidated gold 4s, due 1989; Chattanooga Station Co. guaranteed 4s, due 1957; Oregon Short Line refunding gold 4s, due 1929; St. Louis Iron Mountain & Southern unified and ref. gold 4s, due 1929; Kansas City Fort Scott & Memphis refund gold 4s, due 1936; also Third Avenue Ry. consols, guaranteed, gold 4s, due 2000; Kings County Elevated first mortgage gold 4s, due 1949; Tennessee Coal, Iron & Railway general gold 5s, due 1951, Brooklyn, N. Y., 3½s, due 1935, and several others. The bonds net from 4.10% to 7.25%. A circular giving complete details of these issues will be sent upon request.

—Berkeley School, 72d St. and West End Ave., New York City, has just issued its annual catalogue and announcement. The gratifying growth of the school this year and the acquisition of the Callisen School have necessitated the enlargement of the teaching force and a considerable addition to the curriculum. With these added facilities and under the management of its new master, Dr. Callisen, Berkeley should more than maintain its reputation as a first-class preparatory school.

—James M. Thompson, of the Baltimore banking and brokerage house of James M. Thompson & Co., announces that the firm will go into voluntary liquidation on July 1 While the firm is solvent, Mr. Thompson has decided, owing to the present financial situation, to withdraw temporarily at least from business. He will retain his Baltimore Stock Exchange membership.

—"The Railroad Situation in the United States," by L. W. Serrell, M. E., is a valuable contribution to the study of the subject. The author makes some strong points, and his little book of forty pages is very instructive on this important question of the day. We are indebted to Post & Flagg, 38 Wall Street, for a copy of the book.

—E. H. Rollins & Sons advertise in this issue an offering of $200,000 City of Spokane, Washington, 4½% school bonds, dated July 1 1907, due July 1 1927, optional July 1 1917. The bonds are offered at 102.50 and interest, to yield, about 4.20% to the optional period and 4.50% thereafter. See particulars in the advertisement.

—An extensive list of high-grade municipal and corporation bonds is offered for sale by Lawrence Barnum & Co., No. 27 Pine Street. Gilt-edged city and borough issues may be obtained at prices yielding 3.80@4% on the investment, but many industrial issues give 5@6% returns.

—A. H. Bickmore & Co., bankers, 30 Pine Street, are offering on another page to investors $500,000 Twin State Gas & Electric Co. first and refunding 4½% 20-year gold bonds, to net 5¼%. A circular giving full particulars of these bonds will be mailed upon request.

—C. L. Parmelee & Co., 20 Broad Street, have issued a circular describing the various issues of the Interborough-Metropolitan Co. with a view of demonstrating the attractiveness of the underlying bonds as an investment.

—Kountze Brothers advertise in our current issue a long list of State, municipal and corporation bonds whose July coupons are payable at their banking house, 120 Broadway.

—Megargel & Co., bankers, of this city, announce the opening of a branch office in Dallas, Texas, at 307 Main Street, for the purpose of dealing in Southwestern securities.

—Wilson, Colston & Co., bankers, Baltimore, have issued a circular regarding the status and operations of the United Railways & Electric Co. of Baltimore.

The Commercial Times.

COMMERCIAL EPITOME.

Friday Night, June 28 1907.

General trade has still felt the beneficial effects of seasonable weather, and reports from leading centres are that a large fall and winter trade is promised. Manufacturers are busy, prices are in general steady and the feeling in this country is generally confident. The weather has been better for most crops. Speculation has been generally quiet.

LARD on the spot has advanced, with trade somewhat more active. Stimulating factors have been a rise in the market for futures, support from packers at the West, the firmness of live hogs and smaller offerings of product. City 8½c. and Western 8.75@8.85c. Refined lard has been dull, with Continent steady and other grades weak. Refined Continent 9.25c., South America 10c. and Brazil in kegs 11c. The speculation in lard futures at the West has been fairly active and prices have advanced, owing to the rise in wheat, buying by commission houses, covering of shorts and some improvement in the spot trade. Packers have sold at times, but in the main there has been an absence of aggressive selling.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
July delivery	8.62½	8.65	8.87½	8.75	8.87½	8.77
September delivery	8.82½	8.85	9.07½	8.97½	9.07½	9.02
October delivery	8.82½	8.90	9.10	9.02½	9.10	9.05

PORK on the spot has been firm, with a fair jobbing and export trade. Mess $17 75@$18 50, clear $17@$18 and family $19@$19 25. Beef has been firm with trade fairly active and stocks generally light. Mess $10; packet $11 50@$12; family $12 50@$14 25 and extra India mess $22. Cut meats have been generally steady with a moderate jobbing trade. Pickled shoulders 8¾@9c., pickled hams 12½c. and pickled bellies 11¼@12½c. Tallow has been moderately active and steady; City 6¼@6⅜c. Stearines have been dull and easier; oleo 9¼@9½c. and lard 10c. Butter has been fairly active and firm; creamery, extras, 24½@25c. Cheese has been active and firmer; State, f. c., small, best, 12½c.; large, 12¼c. Eggs have been quiet and steady; Western firsts, 15½@16c.

OIL.—Cottonseed has been dull and easier. Prime summer yellow, 57@58c.; winter, 63@64c. Linseed has been firm with a good demand. City, raw, American seed, 45@46c.; boiled, 46@47c.; Calcutta, raw, 70c. Lard has been dull with prime weaker at 74@76c. and No. 1 extra steady at 57@58c. Cocoanut has been quiet and steady. Cochin 10¼@10½c. and Ceylon 9⅛@9¼c. Peanut has been quiet and steady. Yellow 50@60c. Olive has been quiet and firm; yellow 85@90c. and green 70@75c. Cod has been moderately active and firm; domestic 38@40c. and Newfoundland 40@42c.

COFFEE on the spot has been quiet and steady at 6¼@6⅜c. for Rio No. 7 and 6⅞c. for Santos No. 4. West India growths have been quiet and steady; fair to good Cucuta 8⅛@9¼c. The market for future contracts has been as dull as ever and prices have shown no change of importance. At times the tone has been somewhat easier, owing to scattered liquidation by tired longs. It is still in the main a waiting market. Meantime the receipts at Rio and Santos continue on a liberal scale, the spot trade is quiet and there is no outside interest in the speculation.

The closing prices were as follows:

June		October	5.15c.	February	5.25c.
July	5.20c.	November	5.15c.	March	5.30c.
August	5.15c.	December	5.20c.	April	5.30c.
September	5.15c.	January	5.20c.	May	5.35c.

SUGAR.—Raw has advanced on light offerings and moderate buying by refiners. Centrifugal, 96-degrees test, 3⅞c., muscovado, 89-degrees test, 3¾c., and molasses, 89-degrees test, 3⅛c. Refined has been more active and an advance is expected in the near future if the weather continues seasonable. Granulated 4.90c. Teas and spices have been in moderate jobbing demand and generally firm. Hops have been dull and steady.

PETROLEUM.—Refined has been active and strong, with an increased trade for domestic account. Refined barrels 8.45c., bulk 5.00c. and cases 10.90c. Naphtha has been active and firm; 73@76 degrees 18c. in 100-gallon drums. Gasoline has been active and firm; 86 degrees 21c. in 100-gallon drums. Spirits of turpentine has been quiet and steady at 60½c. Rosin has been dull and easy; common to good strained $4 40@$4 45.

TOBACCO.—There has been no essential change in the domestic leaf situation. Trade has continued quiet in the main, but prices have ruled generally firm. The weather of late has been favorable for crop progress, but some unfavorable reports are still being received. It is stated that an advance of 10% in the price of cigars is being considered by Havana manufacturers. There has been a good demand of late for new crop Sumatra at firm prices.

COPPER has been quiet and easier; lake 23¼@23½c. and electrolytic 22¼@22½c. Lead has been dull and easier at 5.70@5.75c. Spelter has been quiet and easier at 6.40@6.45c. Tin has been quiet and easy at 43c. for Straits. Iron has been less active and easier; No. 1 Northern $2350@$24; No. 2 Southern $23 50@$24.

COTTON.

Friday Night, June 28 1907.

THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. For the week ending this evening the total receipts have reached 21,050 bales, against 25,388 bales last week and 27,775 bales the previous week, making the total receipts since the 1st of September 1906, 9,598,585 bales, against 7,575,328 bales for the same period of 1905-06, showing an increase since Sept. 1 1906 of 2,023,257 bales.

Speculation in cotton for future delivery has been on a comparatively small scale, so far as most months are concerned, but, mainly owing to bullish manipulation of July and August, prices have advanced. This rise took place in the face of generally favorable weather conditions and improving crop advices. There is a widespread belief that the Bureau report which is to appear on Tuesday, July 2, will show a considerable improvement in the condition since the last report. Meantime the speculation has dwindled to merely professional proportions, many preferring to await the next Government report before taking a decisive stand one way or the other. Rumors have been in circulation that very large private settlements of short contracts in July have been made; but these have not been, it would seem, entirely confirmed. Some cotton has arrived from Liverpool for delivery on contracts, the total quantity thus far received being about 2,000 bales, some of it of rather low grade, and the rest, it would appear, of very fair quality. Whether there will be further importations of importance would seem to depend in a measure on whether the rumors of July settlements are true or not. The situation has been in a measure confused by the general impression that prominent interests, which have apparently been bidding up July and August at the same time, have been selling October, December and January, though on Thursday this process seems to have been for the moment reversed. August was then offered somewhat freely, and an effort was seemingly made to advance the price of October. The idea is very general, too, that for the time being the local market is dominated very largely by one operator and his following. The outside public has to all appearances taken very little interest in the speculation, owing partly to several weeks of better weather, and partly to the fact that, although the season is reported to be about two weeks late over much of the belt, and the plant is small, the general condition of the crop has improved, cultivation being more thorough and the fields, according to many reports, being pretty well cleaned up. Advices to this effect have come from many sections of Texas. Spot markets, however, have continued strong, sales from the local stock are said to have been made to Fall River mills and the dry goods trade has been benefited by more seasonable weather. To-day prices again advanced rather sharply, owing to the prompt stopping of July notices for some 20,000 bales, and renewed and aggressive manipulation of July and August by leading operators and not a little covering of shorts. Liverpool people are understood to have bought August to some extent. New Orleans interests sold October and December. All are now awaiting with much interest the next Bureau report, which is to appear on Tuesday, July 2. Spot cotton has been more active. Middling uplands closed at 13.15c., an advance for the week of 30 points.

The rates on and off middling, as established Nov. 21 1906 by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows:

Fair	c. 2.00 on	Strict low mid.	c. 0.14 off	Middling tinged	c. 0.12 off
Strict mid. fair	1.75 on	Fully low mid.	0.32 off	Strict low mid. tinged	0.46 off

The above totals show that the interior stocks have *decreased* during the week 29,167 bales and are to-night 29,113 bales less than at the same time last year. The receipts at all the towns have been 119 bales less than the same week last year.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since Sept. 1, as made up from telegraphic reports Friday night. The results for the week and since Sept. 1 in the last two years are as follows:

June 28—	1906-07 Week.	1906-07 Since Sept. 1.	1905-06 Week.	1905-06 Since Sept. 1.
Shipped—				
Via St. Louis	8,089	791,121	5,691	512,644
Via Cairo	1,072	214,359	979	199,972
Via Rock Island	839	83,524	70	44,151
Via Louisville	498	84,758	433	99,759
Via Cincinnati	270	53,607	306	57,224
Via other routes, &c.	594	426,931	3,792	256,861
Total gross overland	11,362	1,654,300	11,271	1,170,611
Deduct shipments—				
Overland to N. Y., Boston, &c.	1,292	165,167	359	141,052
Between interior towns	39	93,236	47	19,581
Inland, &c., from South	1,734	71,468	1,401	58,082
Total to be deducted	3,065	329,871	1,807	218,715
Leaving total net overland *a*	8,297	1,324,429	9,464	951,896

a Including movement by rail to Canada.

The foregoing shows the week's net overland movement has been 8,297 bales, against 9,464 bales for the week last year, and that for the season to date the aggregate net overland exhibits an increase over a year ago of 372,533 bales.

In Sight and Spinners' Takings.	1906-07 Week.	1906-07 Since Sept. 1.	1905-06 Week.	1905-06 Since Sept. 1.

WEATHER REPORTS BY TELEGRAPH.—Our telegraphic advices from the South this evening indicate that, as a rule, the weather has been satisfactory during the week. Many of our correspondents report improvement in the crop. It is claimed that in Texas, while weather has been favorable for cultivating and chopping, rain would be beneficial to the plant. Boll-weevils are stated to be increasing.

Galveston, Texas.—The weather has been favorable for cultivating and chopping throughout Texas the past week. Stands are small on the average and would be benefited by rain. Blooms are scarce Boll-weevils are increasing Dry all the week. The thermometer has averaged 83, ranging from 77 to 88.

Abilene, Texas.—There has been no rain during the week. The thermometer has ranged from 70 to 98, averaging 84.

Brenham, Texas.—Rain has fallen on one day during the week, the rainfall being seven hundredths of an inch. Average thermometer 82, highest 93 and lowest 70.

Corpus Christi, Texas.—There has been no rain during the week. The thermometer has averaged 80, the highest being 86 and the lowest 74.

Cuero, Texas.—We have had no rain the past week. The thermometer has averaged 86, ranging from 72 to 100.

Dallas, Texas.—We have had very light rain on one day during the week. The thermometer has ranged from 70 to 95, averaging 83.

Fort Worth, Texas.—Dry all the week. Average thermometer 81, highest 92 and lowest 70.

Henrietta, Texas.—There has been rain on one day during the week, the precipitation reaching thirteen hundredths of an inch. The thermometer has averaged 82, the highest being 100 and the lowest 64.

Huntsville, Texas.—Dry all the week. Average thermometer 83, highest 98, lowest 67.

Lampasas, Texas.—There has been no rain the past week. Average thermometer 83, highest 98 and lowest 67.

Longview, Texas.—We have had no rain during the week. The thermometer has averaged 83, the highest being 98 and the lowest 68.

Luling, Texas.—We have had no rain during the week. The thermometer has averaged 82, ranging from 70 to 93.

Nacogdoches, Texas.—Dry all the week. The thermometer has ranged from 66 to 92, averaging 79.

Palestine, Texas.—Rain has fallen on one day during the week, the rainfall being seven hundredths of an inch. Average thermometer 79, highest 93 and lowest 64.

Paris, Texas.—There has been rain on one day during the past week, the precipitation being fifty hundredths of an inch. The thermometer has averaged 79, the highest being 93 and the lowest 64

San Antonio, Texas.—There has been no rain the past week. The thermometer has averaged 83, ranging from 70 to 96.

Weatherford, Texas.—There has been no rain during the week. The thermometer has ranged from 69 to 97, averaging 83.

Shreveport, Louisiana.—Rain has fallen to only an inappreciable extent during the week. The thermometer has averaged 82, ranging from 67 to 96.

New Orleans, Louisiana.—We have had rain on three days the past week, the rainfall reaching forty-five hundredths of an inch. The thermometer has averaged 81.

Vicksburg, Mississippi.—There has been rain on two days, the precipitation being thirty-four hundredths of an inch. The thermometer has ranged from 66 to 91, averaging 80.

Leland, Mississippi.—There has been rain the past week, to the extent of seventy hundredths of an inch. Average thermometer 75.6, highest 88 and lowest 62.

Helena, Arkansas.—Crops are doing well, but we are having rather too much rain. There have been showers on three days during the week, to the extent of one inch and thirty-eight hunrdeths, with heavier rain in the neighborhood. The thermometer has averaged 78.2, the highest being 90 and the lowest 67.

Little Rock, Arkansas.—Farm work has progressed well the past week and crops have had sufficient moisture. Cotton continues to improve. There has been rain on four days during the past week, the precipitation being forty-eight hundredths of an inch. The thermometer has averaged 77, the highest being 90 and the lowest 64.

Memphis, Tennessee.—Crop, though very late, continues to steadily improve. There has been rain on five days during the week, the precipitation being one inch and thirty-two hundredths. The thermometer has ranged from 63.2 to 87.8, averaging 76.8.

Mobile, Alabama.—The weather has been warm in the interior, with occasional showers. Crop reports are favorable, particularly from uplands. We have had rain on two days during the week, the precipitation being fourteen hundredths of an inch. The thermometer has averaged 80, the highest being 90 and the lowest 71.

Montgomery, Alabama.—Crops are doing better and are getting out of the grass. The prospects are now encouraging. Rain has fallen on five days of the week, the rainfall being two inches and seventy hundredths. The thermometer has averaged 80, ranging from 67 to 94.

Selma, Alabama.—There has been a trace of rain on two days of the week. The thermometer has ranged from 68 to 92, averaging 79.5.

Union Springs, Alabama.—Where fields are cleared of weeds and grass, the crop has made fair progress the past week, but many acres are in bad condition. We have had rain on two days the past week, to the extent of one inch and ten hundredths. The thermometer has averaged 82, ranging from 72 to 92.

Augusta, Georgia.—There has been rain on two days of the week, the rainfall being sixty hundredths of an inch. The thermometer has averaged 80, ranging from 70 to 94.

Charleston, South Carolina.—We have had rain on two days during the week, the rainfall being seventeen hundredths of an inch. The thermometer has ranged from 71 to 88, averaging 80.

Greenwood, South Carolina.—We have had rain on four days of the week, the precipitation reaching forty-nine hundredths of an inch. Average thermometer 79, highest 91, lowest 68.

Charlotte, North Carolina.—We have had rain during the week, the precipitaiton reaching one inch and fifty-six hundredths. The thermometer has averaged 79, the highest being 92 and the lowest 67.

Madison, Florida.—There has been rain on four days the past week, the rainfall being one inch and fifty hundredths. Average thermometer 82, highest 96, lowest 71.

Savannah, Georgia.—There has been rain on two days during the week, the precipitation reaching eighty-nine hundredths of an inch. The thermometer has averaged 80, the highest being 89 and the lowest 69

The following statement we have also received by telegraph, showing the height of rivers at the points named at 8 a. m. of the dates given:

BREADSTUFFS.

Friday, June 28, 1907.

Prices for wheat flour have shown some irregularity during the week, but the changes as a rule have been unimportant. Spring patents have been strong and a fair business has been done at times. The rest of the market, however, has ruled quiet. Export trade has continued dull. At the principal milling centres of the Northwest and the Southwest new business has been quiet. There have been liberal withdrawals on old contracts, however, and this has kept the mills running on full time. At the Northwest the output during the past week was about 100,000 barrels larger than for the same week last year. Rye flour has been quiet and firm. Corn meal has been dull and steady.

Wheat fluctuated within very narrow limits until Thursday, when there was an advance of 3 to 5 cents per bushel on the report of a Western statistician that the crop in Kansas could not exceed 40,000,000 bushels against 81,831,000 bushels last year, 77,000,000 in 1905 and 65,019,000 in 1904. The total yield of Kansas, Oklahoma and Texas is put by the same statistician at only 50,000,000 bushels against 114,000,000 bushels last year, which would indicate that a previous estimate on the winter-wheat crop by the same authority of 325,000,000 bushels on the basis of 60,000,000 for Kansas will have to be reduced. Some, however, think these figures too low. Yet, a sustaining factor in the market for some little time past has been the impression that while the damage has no doubt been exaggerated, the indications point to some decrease in the wheat crop both at home and abroad. At times during the week prices in Paris have advanced, owing to reports of cold and wet weather in France, with the indications pointing to a crop below an average, adding that stocks at Paris are small and that the harvest will be late. The London Statist said recently: "A serious European deficiency compared with 1906 is almost inevitable because autumn-sown in Russia is officially recognized to be a failure; in Germany a 25% shortage is probable, in Hungary 40% less than in 1906, and in Roumania and Bulgaria only about one-half of last year's yield is expected." While there is no present lack of wheat in sight, there is at the same time no superabundance of supplies, and some of the English grain trade evidently look for a rapid decrease in stocks during the next two months. From the poorest sections of our Southwestern States have come unfavorable threshing returns and at times the weather at the Northwest has been so cold that it appears to have somewhat retarded the growth of spring wheat. Moreover, there has at times been a better export trade, principally in Manitoba wheat. The speculation has fallen off very materially and the outside public has paid less attention to wheat despite the unfavorable character of some of the crop reports, especially during the last few days. The world's shipments continue comparatively large, prices in this country are, roughly, 10 to 13 cents per bushel higher than a year ago, and many feel that this, for the time being, discounts anything in the situation which seems to threaten a decrease in future supplies. To-day prices opened easier on liquidation, favorable weather and disappointing cables, rallied on bad crop reports, covering and bull support, then reacted on further liquidation.

December delivery in elevator	97⅜	96½	96⅞	97¾	101⅝	101¾

Indian corn futures have shown irregularity during the week, with the trading moderately active. The weather, in the main, has been more favorable, and the crop, it would appear, has made progress over much of the corn belt. This has led to liquidation at times and some depression in prices. But the great mass of the reports go to show that the crop is still backward in all sections and this fact has tended to restrict selling. The sharp rise in wheat on Thursday, too, caused not a little covering by nervous shorts. The receipts, moreover, have fallen off and Chicago has reported a brisk shipping demand. To-day prices were irregular within narrow limits. There was an absence of interesting features.

Oats for future delivery in the Western market have felt the effects of heavy liquidation in July. Moreover, there has been more or less short selling, influenced by more favorable weather conditions. The cash demand has been slow. Cash houses have been selling at times and there has been less disposition to buy. Of late, however, the market has shown an upward drift, owing to the fact that many bullish crop reports are still being received, especially from Illinois and Iowa. These have caused covering of shorts. The rally in wheat has also had a strengthening effect. To-day prices were slightly easier on liquidation and favorable weather.

GOVERNMENT WEEKLY WEATHER REPORT.—Mr. James Berry, Chief of the Climate and Crop Division of the United States Weather Bureau, made public on Tuesday the telegraphic reports on the weather in the various States for the week ending June 24, summarizing them as follows:

Except in the plateau regions during the fore part of the week, the whole country experienced very favorable temperatures during the week ending June 24. Frosts occurred in the plateau and middle Rocky Mountain regions, and snow in the mountains of California and Montana. Rain is needed throughout Tennessee, in southern Alabama and the coast counties of Texas; elsewhere in the central and eastern portions of the country there is generally sufficient moisture. The week was comparatively free from severe local storms. There was a high percentage of sunshine in the districts east of the Mississippi River, and also in the west Gulf States throughout the week. While the latter part of the week was more or less cloudy in the States of the Missouri Valley, there was generally ample sunshine.

For other tables usually given here, see page 1529.

THE DRY GOODS TRADE.

New York, Friday Night, June 28 1907.

Continued favorable weather conditions have not been without their effect upon the retail cotton goods trade throughout the country, and the week's business has been considerably larger than for some time past. This has been partially reflected in increased orders received by jobbers, but up to the present time it can hardly be said that the primary market has felt the influence. Buying in the latter has only been on a normal scale, for, while the demand has been fair, it has looked bigger than it really is, owing to the scarcity of popular lines. Firmness is displayed in all directions, and, while some goods have been marked distinctly higher, there are numerous rumors current in the market of coming advances in other directions. The feature of the week has been the inauguration of jobbers' semi-annual clearance sales. These have quite generally taken place and the results have been satisfactory, little difficulty having been experienced in disposing of goods at full asking prices. The demand for staple merchandise has been good, and jobbers have been compelled to trade among themselves to even up stocks. Western jobbers have been particularly prominent in the purchasing, owing to the inability of manufacturers to increase deliveries and the general scarcity of leading brands. Export business has been of moderate proportions, a steady demand from miscellaneous countries having developed; but manufacturers, however, are disinclined to accept lower prices than those prevailing for home deliveries. The week has been quiet in the woolen and worsted goods market, and business is not on the scale that is expected at this season of the year.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending June 22 were 3,002 packages, valued at $171,629, their destination being to the points specified in the table below:

	1907		1906	
New York to June 22.	*Week.*	*Since Jan. 1.*	*Week.*	*Since Jan. 1.*
Great Britain	25	1,072	----	689
Other European	38	643	----	735
China	----	10,043	----	63,773
India	150	4,715	1,325	5,125
Arabia	----	18,753	----	19,763
Africa	----	3,609	254	4,589
West Indies	312	11,378	367	10,966
Mexico	29	1,267	56	1,085
Central America	93	7,556	285	7,788
South America	1,628	23,769	1,009	27,654
Other countries	727	15,775	946	8,505
Total	3,002	98,580	4,242	150,672

The value of these New York exports since Jan. 1 has been $5,421,627 in 1907, against $8,531,290 in 1906.

Further advances have been recorded in the price of heavy brown drills and sheetings, and there has been some improvement in the domestic demand for these. Export business has only been on a moderate scale, for prices quoted in reply to inquiries have generally been above buyers' views. There have been additional purchases of goods from stock in China for re-shipment here. Light-weight brown goods have appreciated in value, and manufacturers are disinclined to contract as far ahead as buyers would wish. Bleached goods have been particularly firm, and cutters-up are searching the market for supplies, which, however, are very scarce. Low lines are particularly strong. Gray goods have been in demand for delivery well into 1908 and prices are steadily held. Denims, ticks, plaids and other coarse, colored cotton goods are still very strong, and supplies for anything like immediate delivery, outside of those held by jobbers, are scarce. Business in ginghams has been light at recent quotations, but there is a general feeling in the trade that prints will be placed on a higher level in the near future. Some go so far as to expect that the new price will be 7c., claiming that this is justified in view of the advance in print cloths. There has been a fair export demand for this class of goods. More lines of cotton dress goods have come upon the market, and buying has been on a satisfactory scale. The print cloth market is very firm, but the demand has been principally for wide goods of odd construction.

WOOLEN GOODS.—The men's wear woolen and worsted goods market has been decidedly irregular in character, some lines selling well and others moving slowly. Buyers generally are acting very conservatively and are confining their purchases to sample pieces, evincing no disposition to take up buying seriously for next spring. Attention has been confined almost entirely to staple lines, and some of these have been well taken up; but cheap manipulated fabrics have been more or less neglected compared with the corresponding period of the past two or three years. Serges have continued to enjoy a large amount of popularity and have done relatively better than any other class of goods. The principal buying so far has come from the Western element, which is well represented at the present time in the market, and this is regarded as a good augury for future business, as it indicates a feeling in the West that prosperity will continue, at least for some little time to come. While buyers have been more or less indifferent, it is equally true that sellers are not attempting to push goods, and there is no talk of concessions to attract business. There is still a good deal of delivering to be done on heavy-weight goods, and this is helping to delay the light-weight season. There is little change to record in the overcoatings and cloakings division, business being quiet and without particular feature. The dress goods market equally shows little variation from a week ago, but the bulk of the business at present being done is in broadcloths, which have retained their popularity, and in voiles, which have also been in favor for some time.

FOREIGN DRY GOODS.—There has been a continued steady demand for imported woolen and worsted dress goods of a plain character and prices are firmly held. Silks have shown some improvement and ribbons have also sold better. There is little change in the linen market, prices still being held at the highest level and buyers showing little inclination to purchase either for immediate or future delivery. Burlaps are in small demand, and concessions in price have been granted during the week.

Importations and Warehouses Withdrawals of Dry Goods.

The importations and warehouse withdrawals of dry goods at this port for the week ending June 22 1907 and since Jan. 1 1907, and for the corresponding periods of last year, are as follows:

STATE AND CITY DEPARTMENT.

News Items.

Chattanooga, Tenn.—*Bonds Offered by Bankers.*—The $1,000,000 Chattanooga 4½% public improvement bonds recently sold by the city are offered for sale by Rudolph Kleybolte & Co. and the Union Savings Bank & Trust Co., Cincinnati, and MacDonald, McCoy & Co., Chicago; price 101.25 and interest, netting 4.25%. The bonds are dated July 1 1907 and mature July 1 1937. Particulars regarding the issue will be found in the advertisement on another page.

Memphis, Tenn.—*Charter Amendments Declared Unconstitutional.*—The Act of the General Assembly providing for amendments to the City Charter was declared unconstitutional by the State Supreme Court on June 22. The bill was filed by certain persons elected as officers of the city of Memphis, under the charter as it existed prior to March 27 1907, against certain other persons claiming to be officers of the same city by appointment of the Governor under the new Act. Among other things it was alleged that while the caption of the Act provided for an amendment to the charter, the body of the bill shows a new and independent scheme of legislation, thereby effecting a repeal of the former charter. This decision restores the old form of government.

New York City.—*Bond Sale.*—The aggregate of bids received on June 28 for the five issues of 4% gold coupon or registered corporate stock and bonds, described in V. 84, p. 1505, was $2,121,840. The award was made as follows: Of the $27,000,000 corporate stock due 1957, $1,932,840 was disposed of, the average price being 100.091—a basis of about 3.996%, while of the $2,000,000 assessment bonds due 1917, only $189,000 was disposed of, at 100.02—a basis of about 3.997%. The successful bidders were as follows:

New York State.—*Tax Law Relative to Investments in State Bonds by Savings Banks, Trust Companies and Insurance Companies Amended.*—The Governor has signed the amendment to the tax law relative to investments in State bonds by savings banks, trust companies and insurance companies. By this amendment these institutions get a credit of 1% per annum on holdings of State bonds bearing not exceeding 3% interest, to be applied in the payment of franchise taxes. The text of this bill will be found in V. 84, p. 1216, of the "Chronicle."

Legislature Adjourns.—The Legislature of this State adjourned Wednesday afternoon, June 26.

Oneida, N. Y.—*Law Relating to Local Improvement Bonds Amended.*—The Governor has signed the amendment to Chapter 225 of the Laws of 1901 fixing the rate of interest at not exceeding 4½%, instead of 4% as under the old law, on all local bonds, whether issued for an improvement already constructed or an improvement to be constructed in the future. Interest on such bonds to be payable annually or semi-annually as the Common Council shall determine.

Texas.—*Constitutional Amendment providing for the Issue of Bridge and Road Bonds.*—The Legislature, prior to its adjournment on May 11, passed an Act providing for the submission to a vote at the next general election, August 6, of the following proposed amendment to be added to Section 9 of Article 8 of the State Constitution:

Section 9a.—A majority of the property tax paying voters in any county, or one or more political subdivisions thereof, in this State, voting at an election held for that purpose may vote a tax for road and bridge purposes not to exceed 30 cents on the $100 valuation of property subject to taxation in such county or political subdivision of such county, or may issue bonds not to exceed 20% of the assessed value of the real property in such district, for such road and bridge purposes, provided that such tax, or proceeds of such bonds, shall be expended in the territory in which it is voted, and no other, and this provision of the Constitution shall be self-enacting without the necessity of further legislation

$150,000 4% coupon sewer bonds to be dated May 1 1907 and mature April 30 1937.
50,000 4% coupon park bonds to be dated June 1 1907 and mature May 31 1937.

Coupon bonds will be exchanged for registered bonds as any time. Denomination $100 or any multiple thereof not exceeding $1,000. Interest semi-annually at the financial agency of the city of St. Paul in New York City. Certified check for 2% of the bonds bid for, payable to the City Treasurer, is required. Accrued interest to be paid by purchaser.

The official notice of this bond offering will be found among the advertisements elsewhere in this Department.

Salem, Essex County, Mass.—*Temporary Loan.*—This city recently negotiated a loan of $65,000 with Loring, Tolman & Tupper of Boston at 5.32% discount. Loan matures Oct. 17 1907.

Sandusky, Erie County, Ohio.—*Bond Sale.*—Following are the bids received on June 21 for the $8,000 4% 20-year general refunding bonds and the $75,000 4% 15-year water-filtration-plant-construction bonds described in V. 84, p. 1387:

	General refunding bonds. $8,000	Water filtration plant bonds. $75,000
American Banking Co., Sandusky	$8,175 00	$75,100 00
Otis & Hough, Cleveland	8,060 80	75,502 50
Toledo Fire & Marine Insurance Co., Sand'sky	8,140 00	75,420 00
Third National Exchange Bank, Sandusky	8,080 00	--------
Third National Bank, Cincinnati	8,000 00	--------

All bidders offered accrued interest in addition to their bids.

Santa Barbara School District (P. O. Santa Barbara), Santa Barbara County, Cal.—*Bond Sale.*—On June 17 the $20,000 5% 1-20-year (serial) gold school-building bonds described in V. 84, p. 1324, were awarded to the Harris Trust & Savings Bank of Chicago at 105.91—a basis of about 4.30%.

Sarnia, Ont.—*Price Paid for Debentures.*—We are informed that the price paid for the $30,000 4½% debentures awarded on May 8 (V. 84, p. 1199) to Wood, Gundy & Co. of Toronto was 96 and accrued interest. Debentures are dated April 16 1907. Interest annually in December.

Savannah, Andrew County, Mo.—*Bond Sale.*—This city on May 1 awarded the $35,000 5% water-works bonds voted on April 22 (V. 84, p. 1072) to the Harris Trust & Savings Bank of Chicago at 102. Denomination $500. Date May 1 1907. Interest semi-annual. Maturity $1,500 yearly on May 1 from 1908 to 1917 inclusive and $2,000 yearly on May 1 from 1918 to 1927 inclusive.

Scotland County (P. O. Memphis), Mo.—*Bond Sale.*—On June 22 the $50,000 4% 1-5-year (serial) court-house bonds dated June 1 1907 and described in V. 94, p. 1506, were awarded to B. F. Compton at par. A bid was also received from the Little & Hays Investment Co. of St. Louis.

Seneca, Oconee County, S. C.—*Bond Offering.*—Proposals will be received until 6 p. m., July 6, by W. F. Austin, Chairman Board of Public Works, for $15,000 5% electric-light-plant bonds. Date July 1 1907. Interest semi-annual. Maturity July 1 1947, subject to call after July 1 1927. Certified check for 5% of amount bid is required.

Shalersville Township, Portage County, Ohio.—*Bond Offering.*—Proposals will be received until 12 m., July 20, by Orville Reynolds, Township Clerk, for $5,000 5% coupon Canton and Painesville State Road improvement bonds. Authority, Section 2835, Revised Statutes. Denomination $500. Date July 1 1907. Interest March 1 and Sept. 1 at the office of the Township Treasurer. Maturity $500 each six months from March 1 1908 to Sept. 1 1912 inclusive Certified check for $300, payable to the Township Treasurer, is required. Purchaser to pay accrued interest and furnish blank bonds with coupons attached.

Sharon, Mercer County, Pa.—*Bonds Voted—Bond Offering.*—This borough on June 25, by a vote of 400 to 200, authorized the issuance of the $100,000 4% 10-30-year improvement bonds mentioned in V. 84, p. 1506. Proposals for these bonds will be received until Aug. 1.

Shelby, Cleveland County, No. Car.—*Bond Sale.*—On June 1 $35,000 5% 30-year school-building bonds were awarded to the Trust Company of Dallas in Dallas for $35,200 (100.571) and cost of bonds. Denomination $1,000. Date June 1 1907. Interest semi-annual.

South Carolina.—*Temporary Loan.*—We are informed that this State recently negotiated a loan of $250,000.

Streator School District No. 45 (P. O. Streator), La Salle County, Ill.—*Bond Sale.*—On June 15 the $40,000 5% 5-15-year school-building bonds described in V. 84, p. 1200, were awarded to the Harris Trust & Savings Bank of Chicago.

Toombs County (P. O. Lyons), Ga.—*Bonds Defeated.*—This county on June 12 defeated a proposition to issue $25,000 court-house-furnishing and jail bonds. The vote was 113 "for" to 197 "against."

Tulsa, Ind. Ter.—*Bond Election.*—An election will be held July 7 to vote on the question of issuing $55,000 20-year school-building and sewer bonds.

Unionville School District (P. O. Unionville), Putnam County, Mo.—*Bond Sale.*—On June 24 the $5,000 5% 10-20-year (optional) building bonds described in V. 84, p. 1507, were awarded to hte Marshall National Bank at 102.52.

Valcerde County (P. O. Del Rio), Texas.—*Bonds Voted.*—An election held June 14 resulted in favor of a proposition to issue $30,000 5% school-building bonds. The vote was 80 "for" to 3 "against."

NEW LOANS.

$1,000,000

CITY OF LOUISVILLE, KY.,

SEWER BONDS

Office of the Commissioners of Sewerage of Louisville, Rooms 505 and 507 Equitable Building, corner of Fourth Avenue and Jefferson Streets, Louisville, Ky.

June 13th, 1907.

The Mayor of the City of Louisville has delivered to the Commissioners of Sewerage of Louisville for sale One Million Dollars ($1,000,000) of the bonds of the City of Louisville, issued by authority of an Act of the General Assembly of the Commonwealth of Kentucky, approved the 19th day of February, 1906, entitled "An Act to Enable Cities of the First Class to Construct a Comprehensive System for the Disposition of Sewerage," and executed under the provisions of an Ordinance of the General Council of the City of Louisville passed in accordance with said Act numbered 258 of the series of 1906, entitled "An Ordinance Concerning the Issuance of Bonds of the City of Louisville in the sum of $4,000,000 for the Construction of a Comprehensive System for the Disposition of Sewerage, approved October 2nd, 1906, and published, as required by law, on October 9, 1906.

The bonds are of the denomination of One Thousand Dollars ($1,000) each, dated February 1, 1907, become due and payable forty years after date, and bear interest at the rate of four per cent per annum, payable semi-annually, with interest coupons attached; principal and interest payable in gold coin of the United States of America of present standard weight and fineness and negotiable and payable to bearer at the First National Bank of the City of New York in the State of New York.

The bonds are exempt from all forms of taxation for municipal purposes of the City of Louisville, and are made a charge upon the Sinking Fund of said City. A tax is to be levied on all the property subject to municipal taxation in the City of Louisville sufficient to pay the principal and interest of said bonds, and is ordered to be annually collected and paid into the Sinking Fund of the City of Louisville to be used alone for the payment of the principal and interest thereof. The bonds have been declared valid by judgment of the Court of Appeals, the court of last resort within the State of Kentucky.

Sealed proposals for the purchase of the whole or any number of said bonds will be received by the Commissioners of Sewerage until TWELVE O'CLOCK ON THE 10TH DAY OF JULY 1907 at the office of said Commissioners in the Equitable Building at the corner of Fourth Avenue and Jefferson Street in the City of Louisville, Kentucky. Proposals must be made upon blanks furnished by the Commissioners of Sewerage and marked "Proposals for Bonds." The Commissioners of Sewerage reserve the right to reject any or all bids or to accept the whole or any part of a bid for the bonds proposed to be purchased by any bidder.

No proposal will be considered for less than the par value of said bonds, and must be accompanied by a certified check on a national or State bank doing business in the City of Louisville, for two per centum of the face value or the whole number of bonds proposed to be purchased by such bidder. Checks will be returned to unsuccessful bidders.

Purchasers will pay accrued interest from the date of said bonds until the delivery thereof.

Bonds will be ready for delivery in the City of Louisville at the office of the Commissioners of Sewerage, in said Equitable Building, as soon as allotments are made to successful bidder or bidders.

A failure to deposit a certified check in full payment of the amount of bonds bid for and allotted to any bidder, on ten days' notice that same are ready for delivery, may be, at the option of the Commissioners of Sewerage, considered as a cancellation of the bid.

The amount of the check accompanying the bid will be held for the payment of any expense or damage caused by reason of the failure to pay for said bonds to the extent of any such expense or damage incurred.

Further information will be given and copies of prospectus furnished upon application.

CHAS. P. WEAVER, Secretary & Treasurer. P. L. ATHERTON, Chairman.

NEW LOANS.

$20,000

City of Mount Vernon,

(Westchester County, N. Y.)

ASSESSMENT BONDS

The Common Council of the City of Mount Vernon will, at the Lucas Building, Depot Place, in said city, on the 2ND DAY OF JULY, 1907, AT 8 O'CLOCK P. M., receive sealed proposals for the purchase of twenty assessment bonds of said City of Mount Vernon, numbered consecutively as issued from 1,008 to 1,027, both inclusive; and that the said twenty bonds will be sold to the highest bidder at a public sale to be held at said time and place. These are a series of bonds which are authorized to be issued under and pursuant to Section 201 of Chapter 182 of the Laws of 1892, as amended by Chapter 692 of the Laws of 1896, and as further amended by Chapter 275 of the Laws of 1900. Each bond will be for the principal sum of One thousand dollars and will bear interest at the rate of five per centum per annum, payable semi-annually at the office of the City Treasurer of the City of Mount Vernon. They will be dated July 1, 1907, and payable on the first day of July, 1913. The bonds will be delivered to the purchaser on or before July 9, 1907. Each bid for the said bonds must be accompanied by a certified check for One thousand dollars as security for performance of bid if accepted. That the said Common Council will at said time and place open such proposals as may be received and accept the highest thereof if it be deemed for the best interests of the City so to do; but it reserves the right to reject any or all proposals should it deem it advisable. Bonds will be engraved under the supervision of and certified as to genuineness by the United States Mortgage & Trust Company, and their legality approved by J. H. Caldwell, Esq., of New York City, whose opinion as to legality will be furnished to the purchaser. By statute the bonds cannot be sold for less than par and accrued interest.

By order of the Common Council.

Dated Mount Vernon, N. Y., June 18th, 1907.

A. W. REYNOLDS, City Clerk. FREDERICK W. CLARK, Acting Mayor.

Wallington School District (P. O. Rutherford), Bergen County, N. J.—*Bond Offering.*—Proposals will be received until 8 p. m. July 8 by the Board of Education for $13,000 4½% coupon public-school-addition bonds. Denomination $500. Date May 1 1907. Interest semi-annually at the Passaic National Bank of Passaic. Maturity $500 yearly on May 1 from 1918 to 1943 inclusive. Certified check for 5% of bonds bid for, drawn on a State or national bank or trust company, and made payable to the "Board of Education," is required. Arthur J. Prall is District Clerk.

Wayland, Allegan County, Mich.—*Bond Sale.*—On June 5 $15,000 5% water-works bonds were awarded to the Wayland State Bank of Wayland at par.

Wellesley, Norfolk County, Mass.—*Temporary Loan.*—This place has negotiated a loan of $10,000 with the Wellesley National Bank of Wellesley at 5.17% discount. Loan matures in five months.

Wellington, Sumner County, Kan.—*Bonds Voted.*—By a vote of 307 to 83, this city on June 18 authorized the issuance of $25,000 city-hall bonds. Interest not to exceed 5%. Maturity not to exceed twenty years. Date of sale not yet determined.

West Bend, Washington County, Wis.—*Bond Sale.*—On June 20 $25,000 5% coupon water-works bonds were awarded to Mason, Lewis & Co. of Boston at 106.02. By the terms of the offering purchaser is required to furnish blank bonds. Bids were also received from the Harris Trust & Savings Bank of Chicago, Rudolph Kleybolte & Co. of Chicago and the Bank of West Bend in West Bend. Denomination $2,000, except one bond for $1,000. Date Sept. 1 1907. Interest payable in West Bend. Maturity $1,000 on March 1 1914 and $2,000 yearly on March 1 from 1915 to 1926 inclusive.

West Orange, Essex County, N. J.—*Bond Sale.*—Local papers state that the only bid received on June 18 for the $142,000 4½% 10-year gold coupon sewer bonds described in V. 84, p. 1448, was from the Orange National Bank of Orange at par.

Whittier, Los Angeles County, Cal.—*Bonds Defeated.*—An election held June 12 resulted in the defeat of a proposition to issue $95,000 sewer bonds. The vote was 225 "for" to 191 "against," two-thirds majority being necessary to authorize.

Williamston, Martin County, No. Car.—*Bond Offering.*—Further details are at hand relative to the offering on July 10 of the $8,000 5% coupon Town Building bonds mentioned in V. 84, p. 1448. Proposals for these bonds will be received until 12 m. on that day by C. H. Godwin, Town Clerk. Denomination $500. Interest semi-annually at the Bank of Martin County in Williamston. Maturity thirty years. The town has no debt at present. Assessed valuation $600,000.

Wilmington, New Castle County, Del.—*Bond Offering.*—Proposals will be received until 12 m. July 3 by the Finance Committee, William P. White, Chairman, for $430,000 4% gold water-works bonds. These securities are part of an issue of $800,000 authorized by an Act of the General Assembly approved March 29 1907. Denomination $1,000. Date May 1 1907. Interest semi-annually at the Union National Bank of Wilmington. Maturity on May 1 as follows: $30,000 yearly from 1910 to 1913 inclusive, $40,000 yearly from 1914 to 1917 inclusive and $50,000 yearly from 1918 to 1920 inclusive. Each bid must be made on a blank form furnished by the city and must be accompanied by a certified check for 2% of bonds bid for, drawn on a bank or trust company of Wilmington, and made payable to Charles H. Blaine, City Treasurer. Bonds to be delivered July 17. These securities will be certified to as to their genuineness by the United States Mortgage & Trust Co. of New York City. Accrued interest to be paid by purchaser.

Bond Sale.—This city recently awarded the $250,000 street and sewer bonds, offered without success as 4s on May 22 (V. 84, p. 1268), to N. W. Harris & Co. of Boston as 4¼s.

Wyandotte, Wayne County, Mich.—*Bond Sale.*—On June 26 the $24,000 4½% 30-year street-paving-intersection bonds described in V. 84, p. 1508, were awarded to E. H. Rollins & Sons of Chicago at 100.55 and interest—a basis of about 4.467%.

Woonsocket, Providence County, R. I.—*Bond Sale.*—On June 24 the $200,000 4½% 20-year gold coupon (with

$250,000

Montgomery, County, Alabama,

PUBLIC ROAD BONDS

Notice is hereby given that the Board of Revenue of Montgomery County, Alabama, will receive sealed bids until 12 o clock noon on MONDAY the FIRST OF JULY 1907 for all or any portion of an issue of two hundred and fifty thousand dollars ($250,000) of Public Road Bonds of the County of Montgomery, said bonds being of the denomination of five hundred dollars each and being dated the first day of July 1907 and payable on the first day of July 1957, and bearing interest from the date of the said bonds at the rate of four and a half per cent per annum, interest payable semi-annually, principal and interest payable in the City of New York at the fiscal agency or at the office of the County Treasurer. Each bid must be accompanied by a certified check for one per cent of the amount of the said bid, said check payable to the order of S. T. Westcott, Clerk of the Board of Revenue. The checks of unsuccessful bidders will be returned to them when the bids are opened and decided upon and the check of the successful bidder to be retained to secure faithful performance of the bid. The right is reserved to reject any and all bids.

S. T. WESTCOTT,
Clerk of Board of Revenue of Montgomery County
